That the rules established by the Regents March 8, 1941, for the purpose of determining privileges of time off with pay for University employees in the classified service who are required to work overtime be rescinded, and that the following rules be approved:

Rule for Employees: An employee in the classified service not responsible for planning, organizing or the execution of duties of other employees, will be allowed compensation for hours worked over the regular work day or work week established by the department, when requested and authorized to do so by his supervisor. An employee working overtime without being requested or authorized to do so will not be allowed compensation for the time worked. The responsibility for authorization rests with the department supervisor.

Rule for Supervisors: A supervisor in the classified service in charge of or responsible for a department will not be allowed overtime pay for hours worked over his regularly established work day or work week.

When a supervisor is taken out of his department to assist with emergency work in another department, even though it may be of a supervisory nature, the same rule will apply as for employees; and he will be allowed overtime compensation for hours worked over his regularly scheduled work day or work week.

Rule for Sundays and Holidays: Employees in the classified service who are required to work on Sundays and legal holidays established by State Statute shall be granted compensatory time off in conformity with the general rule for overtime compensation.

General Rule for Overtime Compensation: Whenever the employment situation warrants it and it does not interfere with the execution of the work in the department, compensatory time off will be granted, instead of overtime pay. However, compensatory time will be allowed not later than the end of the

month following the work month in which overtime was authorized. If an employee cannot be granted compensatory time off by the end of the month following the work month in which overtime was authorized, he must be paid for his overtime hours.

No compensatory time off with pay shall be granted by any University department except in accordance with the foregoing rules covering overtime, Sundays and holidays. It is intended that the above rules approved by the Regents will not conflict with the rules established by the State Bureau of Personnel and that the rules established by the Bureau shall prevail.

Upon motion of Regent Cleary, seconded by Regent Kleczka, the recommendation was adopted.

Director Peterson reported that, in accordance with authority granted him, he had signed a contract with the Armed Forces Institute for correspondence courses for the period May 15, 1946 to June 30, 1947.

The Educational Committee recommends that the University Committee on Labor Education, whose members are Dean Rundell, Professor Perlman, and Professor Witte, continue their studies and develop a plan for the future work of the University in this field. It is suggested that these studies should be thorough and that the plan submitted should be based on a policy of University participation in the most effective manner possible. WHEREAS, property owners in the abovementioned area are entitled to as full information concerning the plans of the University as it is possible to give them,

NOW, THEREFORE, BE IT RESOLVED that such property owners be cordially invited and urged to confer with University officials before planning any new construction or extensive improvements on existing buildings in such area or possible sales with respect thereto to the end that unnecessary expense and waste of materials may be avoided so far as possible and in order that the University may receive favorable consideration with respect to the purchase of such property and to the end that the acquisition of such property by the state may be accomplished on a basis mutually satisfactory to said property owners and the University.

WHEREAS, University buildings should be located so as to enhance and not destroy the natural beauty of the campus, and

WHEREAS, it is essential that instructional and research buildings be located so that students and staff may be able to make effective and efficient use of all facilities, and so that all buildings may be heated and operated most economically,

NOW, THEREFORE, BE IT RESOLVED, by the Regents of the University of Wisconsin that the area within which the campus of the University is to expand shall include the property bounded on the east by Park Street, on the south by Regent Street, and on the west by Breese Terrace, and

BE IT FURTHER RESOLVED, that in order that property owners in the above mentioned area may have full information concerning the plans of the University said property owners be cordially invited and urged to confer with University officials before planning any new construction or extensive improvements on existing buildings in such area or possible sales with respect thereto to the end that unnecessary expense and waste of materials may be avoided so far as possible and in order that the University may receive favorable consideration with respect to the purchase of such property and to the end that the acquisition of such property by the state may be accomplished on a basis mutually satisfactory to said property owners and the University,

BE IT FURTHER RESOLVED, that the Secretary publish this resolution in the official state paper and furnish the press generally with copies thereof, and send copies by mail to each of the property owners in the area affected.

Upon motion of Regent Jones, seconded by Regent Kleczka, the resolution was unanimously adopted.

Regent Jones discussed the matter of the proposed acquisition of Badger Ordnance Works by the State. Communications were presented from Dr. W. F. Lorenz, the State Department of Public Welfare and a Committee of the College of Agriculture. It was understood that the Director of Business and Finance would send copies of these letters and recommendations to the Regents and that the Constructional Development Committee will give further consideration to the questions involved.

Regent Jones reported upon the offer received by the Director of Business and Finance for the acquisition of the apartment building known as "Terrace Homes" on Breese Terrace. Upon motion of Regent Jones, seconded by Regent Cleary, it was VOTED, That the Director of Business and Finance be authorized to investigate the situation further.

Regent Jones discussed the report made by President Fred of the various plans under consideration for temporary classroom space with the suggestion that Quonset huts or other temporary buildings be acquired to be located west and north of the Historical Library Building. Upon motion of Regent Jones, seconded by Regent Kleczka, it was

VOTED, That the administrative officers of the University be authorized to confer with the officers and directors of the State Historical Society with respect to the site and that they be authorized to proceed with plans for the acquisition of temporary structures and equipment at a cost not to exceed \$75,000.

Regent Jones then reported upon the construction of the belt-line by the State Highway Commission adjoining the Arboretum and stated that there would be damage to plantings of approximately \$12,000 and that the Highway Commission would also take fifteen acres of Arboretum land. Upon motion of Regent Jones, seconded by Regent Kleczka, it was

VOTED, That the Director of Business and Finance and the Superintendent of Buildings and Grounds be authorized to negotiate with the State Highway Commission for reimbursement for the plantings destroyed and for the land to be used for highway purposes.

Upon motion of Regent Cleary, seconded by Regent Jones, it was

VOTED, That the regular meeting of the Board of Regents scheduled for May 11, 1946, be cancelled.

A certified copy of a resolution passed by the Executive Committee of the University of Wisconsin Foundation at a meeting held in Chicago on April 30, 1946, regarding the providing of funds for the development of the lower campus area was received by the Secretary and Trust Officer and placed on file.

At 11:10 A.M. the meeting adjourned.

SOME INTERESTING FACTS ABOUT CURRENT UNIVERSITY
ENROLMENT AND GUESSES FOR NEXT YEAR

Total Enrolment

1. The number of full-time students attending the University of Wisconsin is 14,000 (Madison-12,400, Milwaukee-1,200, Extension-400. About 8,000 of these students are men; 6,000 are women.
2. The number of students attending the University at Madison is 99% above the enrolment of one year ago; it is 25% above the ten-year average for 1930-1940; it is 10% above the previous peak enrolment of any one semester (1938-39).
3. Eight-thousand of the students currently enrolled were not here one year ago.

Veterans Enrolment

1. The number of veterans now attending the University of Wisconsin is about 6,000 (Madison-5,200; Milwaukee-700; Extension-100).
2. About 1,900 of the veterans are married. It is estimated that one-third of the married veterans have children.
3. Sixty-two percent of the veterans are twenty-four years of age or older.
4. The percentage of veterans who have withdrawn from the University is smaller than the percentage of non-veterans.
5. About 54% of the veterans now attending colleges (12,000) in Wisconsin are in the University of Wisconsin.

Prospects for Next Year

1. The number of applicants from Wisconsin is likely to be the heaviest in history. This, because of these factors: (a) a continued increase in the percentage of high school graduates who plan to enter college. (b) the return of veterans, and (c) the fact that many Wisconsin students who would have attended schools outside of the state will not find it possible to do so this year.
2. It is estimated that the University will have 3,500 non-veteran applicants from the State of Wisconsin. Of these, 2,000 will be men, and 1,500 will be women.
3. It is estimated that 7,000 additional veterans will wish to enter Wisconsin colleges next fall. Of this number, about 3,500 will wish to come to the University.
4. As of May 1, the Office of Admission had received letters of application from 9,300 non-resident students who wish to enter the University of Wisconsin as new students next fall. Of these applications, about 2,000 are from women. Most of the remaining 7,500 applications are from veterans.
5. Of the students now in attendance, it is estimated that 9,000 will be here next fall.
6. As of this date, it appears that all available space at Madison will be used by applicants from Wisconsin only. If this is true, the only non-resident undergraduate students entering the University next fall will be former students, plus those for whom admission is possible under the exemptions provided by the regulations now governing the admission of non-resident students.

STATEMENT BY REGENT KLECZKA CONCERNING MANAGEMENT OF FRATERNITIES

During the past month I have received letters from the President of the Interfraternity Board, which is the organization representing the active chapters of fraternities at the University of Wisconsin. I have also received letters from the presidents of 20 fraternities which are active on the campus at the present time. All of these letters protest against the action taken by the Faculty November 5, 1945, and approved by the Board of Regents December 1, 1945, establishing new regulations governing the management of fraternities at the University of Wisconsin.

In all cases the aforesaid fraternities object to the regulation requiring them to appoint and to provide for the housing of a housemother in each chapter house on or before September 15, 1946. Their chief objections are as follows:

1. In the majority of cases, remodelling of the fraternity houses will be necessary in order to provide satisfactory accommodations for the housemothers. At present such remodelling is impossible to accomplish because of shortage of materials and present building regulations.
2. It is the opinion of these fraternities that having a housemother in residence will be very expensive and, in fact, might necessitate an increase in the monthly house bills of each man in the fraternity.
3. These fraternities express an opinion that the active members of the fraternities were not heretofore given an opportunity to express their views regarding satisfactory supervision in their houses by housemothers or housefellow, by reason of the fact that a great number of them were in the active military service of the United States in the years 1944 and 1945 when the matter was being considered by the Faculty Committee. The Student Life and Interests Committee, in working out this plan, held numerous and thorough discussions with alumni representatives of the fraternities, but the active members were not available in large numbers for consultation on account of being in military service, as aforesaid.
4. The fraternities which have raised these questions suggest that a plan whereby a housefellow would be appointed to serve in a supervisory capacity would be more acceptable to them than the current regulation adopted, which would establish a housemother in each fraternity.

On April 29, 1946, the Student Life and Interests Committee of the Faculty, acting on the recommendation of its sub-committee on Fraternities, Sororities, and Social Affairs, considered the request of the Interfraternity Alumni Conference, made on April 16, 1946, that the requirement of housemothers be postponed for the coming academic year. Said Committee took action as follows:

- "(1) That the invocation date of the housemother regulation be extended to the beginning of the second semester, 1946-47;
- (2) That all applications to the Referee Committee for extension beyond that time must be filed by November 15, 1946;
- (3) That all such applications must come through the Interfraternity Alumni Conference;
- (4) That no avenue by which the University might be of assistance be left unexplored;
- (5) That all fraternities presently in a position to have housemothers be urged to do so in September, 1946, on a voluntary basis."

This action was taken on the basis of evidence presented by the Interfraternity Alumni Conference as to difficulties various chapters anticipate in completing remodelling plans for the accommodation of housemothers. The Committee felt that blanket extension for one semester was advisable to give ample time for the functioning of the Referee Committee, as provided in Section I (g) of the general regulations.

On the basis of the protests raised by the Interfraternity Board and its member fraternities, and taking into consideration the action of the Student Life and Interests Committee in extending the time for putting the regulations into effect, it is recommended that the Regents ask the Faculty Committee on Student Life and Interests to hear the proposals of the Interfraternity Board and its member organizations, and the Interfraternity Alumni Conference, regarding changes which they wish made in the existing regulations governing the management of fraternities at the University of Wisconsin. It is further recommended that after thorough study and full investigation of the entire problem by the Faculty Committee on Student Life and Interests, and after ample opportunity has been given to all concerned to voice their views or proposals, upon completion of such investigation and hearings, that the Faculty Committee on Student Life and Interests make its recommendations to the University Faculty, and that the Faculty, in turn, then make its recommendations to the Board of Regents for further action.
