MINUTES OF THE REGULAR MEETING

of the

BOARD OF REGENTS OF THE UNIVERSITY OF WISCONSIN SYSTEM

Madison, Wisconsin

Held in the Clarke Smith Room, 1820 Van Hise Hall

Friday, July 10, 1981

9:10 a.m.

President Erdman Presiding

Present: Regents Erdman, Finlayson, Fitzgerald, Fox, Gerrard, Grover, Heckrodt, Hendrickson, Knowles, Lawton, O'Harrow and Schilling

Absent: Regents Beckwith and Veneman

Upon motion by Regent Finlayson, seconded by Regent Hendrickson, it was VOTED that the minutes of the annual meeting of the Board of Regents of the University of Wisconsin System, held on June 5, 1981, be approved as mailed to the members of the Board.

---

REPORT OF THE PRESIDENT OF THE BOARD

President Erdman read portions of a letter she had received from Mr. Raymond Majerus:

"Enclosed for your information is a copy of my letter to Governor Dreyfus in which I resign from the Board of Regents of the University of Wisconsin System.

"Please convey to the Board of Regents that it has been my pleasure to serve with them. I found the work to be exciting and interesting. It was with regret I was unable to attend more meetings.

"I commend the Board of Regents for their public-spirited attitude and their contribution to the State of Wisconsin. It is a shame that more people are not aware of the great time and effort that is put into the University System by the members of the Board. I will always consider this a valuable experience."
The following letter from Regent Grover then was read by President Erdman:

"It has been a great honor and privilege to have served the past five years as an appointed member of the Board of Regents.

"Since I officially assume the office of State Superintendent of Public Instruction on July 6, I automatically will serve as an ex officio member of the Board, and I have notified the Governor of my resignation from the appointive position, effective that date.

"Although I will serve in an ex officio capacity rather than in an appointive position, the honor of membership on the Board of Regents remains the same. I look forward to working vigorously in concert with your leadership during the months ahead."

It was moved by Regent Knowles, seconded by Regent Fitzgerald and carried unanimously, that the following resolution be adopted:

Resolution 2441: That the Secretary of the Board of Regents be directed to file a notice of hearing with the Revisor of Statutes for inclusion in the next Wisconsin Administrative Register, the purpose of the hearing being to consider the adoption, amendment and repeal, pursuant to secs. 19.45(11)(b) and 36.23, Wis. Stats., of rules in Chapter UWS 8, Wisconsin Administrative Code, relating to the code of ethics for unclassified staff of the University of Wisconsin System, said hearing to be held in Room 1820, Van Hise Hall, 1220 Linden Drive, in the City of Madison, Wisconsin, on the 10th day of September, 1981, at 10:00 a.m.

The notice of hearing and proposed amendments are attached to these minutes as EXHIBIT A.

President Erdman announced that a special meeting of the Board quite definitely would be held on July 31, 1981, to consider budget-related matters and any other business that might require the Board's attention at that time. Regents Grover, Heckrodt and Hendrickson indicated they would be unable to attend.

Regent Fitzgerald presented Resolution 2442 and moved its adoption. The motion was seconded by Regent Heckrodt and voted unanimously.

Resolution 2442: WHEREAS Barbara Thompson has served with distinction since 1973 as a member of the Board of Regents of the University of Wisconsin System, and concurrently as State Superintendent of Public Instruction and member of the Wisconsin Board of Vocational, Technical and Adult Education, and of the Higher Educational Aids Board; and

WHEREAS her thoughtful observations and good counsel have provided sound guidance to the Board and the Education Committee; and
WHEREAS the University System has benefited greatly from her extensive knowledge of public education in Wisconsin; and

WHEREAS she has participated in numerous endeavors aimed at enhancing and broadening the effectiveness of education for young people, including the White House Conference on Children, and the Governor's Committee for State Conference on Children and Youth; and

WHEREAS throughout her adult life she has demonstrated a singular commitment to the cause of enriching the lives of all Wisconsin residents through better education;

BE IT RESOLVED that the Board of Regents of the University of Wisconsin System at this occasion officially conveys to her an expression of gratitude for her devoted service to the work of this body; and

BE IT FURTHER RESOLVED that henceforth Barbara Thompson shall have the title of Regent Emeritus of the Board of Regents of the University of Wisconsin System.

Four distinguished guests from the Agricultural University-Bogor, Bogor, Indonesia, were introduced by President Erdman: Dr. Edi, Vice Rector for Academic Affairs; Dr. Ikin, Chairman of the University Planning Board; Dr. Barizi, Dean of the Faculty of Science and Mathematics; and Dr. Sarsidi, Secretary of the Planning Board. She pointed out that such international relationships "bring great honor to the University and do a great service, not only to the state but to the nation as a whole."

Noting that UW Center System Chancellor Edward Fort, who had held that position since 1974, was soon to become Chancellor of the North Carolina Agricultural and Technical State University, President Erdman expressed appreciation for the resourceful leadership he had provided to the Center System during a period of diminished fiscal support. Among his many accomplishments, she continued, had been furthering the Associate Degree program involving the UW Center at Baraboo and the Oxford Federal Correctional Institution, a program which attracted great national attention. He also had served as a member of the Joint Administrative Committee on Academic Programs, an important linkage with the vocational, technical and adult education system.

In recognition of President O'Neil's completion of his first year of full-time service at the head of the UW System, President Erdman made the following statement:

"I want to make special note of this day, for this is an anniversary we are celebrating. This marks the completion of the first full year in which Robert M. O'Neil has served as President of the University of Wisconsin System."
"As you recall, he was appointed President, effective February 1, 1980, and he and Mrs. O'Neil commuted between Bloomington, Indiana and Madison for five difficult months. Now, as he starts his second year as our full-time President, it is quite appropriate to say a few words about his heroic efforts on our behalf over the past year.

"It has been a very trying year for a new president. The initiation rites he has undergone at the Capitol, with appearances before the various legislative and administrative committees, make some of the fraternity hazing on Langdon Street look rather tame. If he were easily discouraged, Bob O'Neil would be in the depths of a depression right now. A 4.4% reduction a year ago on July 2 was followed by a further 1.4% reduction, with a freeze on a great variety of expenditures. His first biennial budget request, approved by this Board, was in the amount of a modest $51 million increase in the System's base budget. Although the Governor denied all but $13 million of that GPR request, later and gloomier revenue forecasts for the state resulted in the current budget struggle over further reductions in the 1981-83 biennial appropriations—whether 6%, 4%, 2%—we don't know the outcome even today.

"Yet Bob O'Neil has engaged in this struggle with dignity, good humor, tenacity and an all-encompassing, impressive grasp of the facts. Working with the chancellors and the key staff, he has represented us well indeed; he has reflected credit upon the System and upon the Regents.

"His capacity for work has become legendary as has his strenuous schedule. He comes to the office early; he works late, long after Van Hise Hall is quiet. For the past two semesters he has taught a course at the Law School here on the Madison campus—first semester on constitutional law; the second semester on commercial law. He has visited all of the universities and centers, some of them several times. He has, for example, been to Medford twice this year, including a meeting with the Taylor County officials.

"Aside from the numerous press and television interviews, he has given an average of ten speeches a month (all of which he writes himself) to such diverse groups as the State Bar Association, Kiwanis clubs, United Steelworkers, Wisconsin Association of Independent Colleges and Universities, and Wisconsin Manufacturers and Commerce Association and many others. In the past year he has spoken at ten of the commencement convocations within the UW System including, most recently, the one held at the Oxford Correctional Institution.

"Traveling with her husband, we invariably see Karen O'Neil who complements and supplements Bob in all educational and community endeavors. We cannot accurately assess the O'Neil administration without giving full and grateful credit to Mrs. O'Neil for her unflagging support and enthusiasm for the academic cause in Wisconsin. Her contributions are legion.

"As I conclude these brief remarks, let me emphasize what has been already implied. President O'Neil is an eloquent spokesman for the importance and value of higher education in Wisconsin. Through his efforts, regent and citizen concerns for educational opportunity and educational quality have been effectively expressed throughout the state. The University System is singularly fortunate to have him at the helm. Thank you, President O'Neil."
REPORT OF THE PRESIDENT OF THE SYSTEM

Stating his appreciation for Regent Erdman's remarks, President O'Neil recognized the support and counsel he had received from Executive Vice President Kauffman, the chancellors, Vice Presidents Lorenz and Winter and the System Administration staff. He also expressed gratitude to the Governor, legislators, the media and others for being so receptive to a newcomer in a difficult year, as well as to the Regents for their support and wise counsel.

With regard to earlier comments by Regent Erdman, President O'Neil indicated that, in the brief period in which Chancellor Fort had been a part of the only two truly merged state university systems in the country, he had already observed some interesting contrasts and parallels. He expressed the hope that the Chancellor would keep this comparative perspective in mind and would from time to time return to Wisconsin where he would always be most welcome "as one who has done much for the System as a whole, for the Centers, and from whom I have learned a great deal."

President O'Neil announced that Dr. Patrick McDonough, recently appointed Vice Chancellor of UW-Stevens Point, had officially assumed his new duties.

It was reported by the President that, in addition to summer sessions, many institutes, seminars and workshops were being conducted throughout the System, making excellent use of facilities which might otherwise have been idle between semesters.

Enrollment comments: increase of applicant for 1981-82, PS-6.

Budget comments: 1981-83 budget increase in enrollment, PS-6

Stating that System institutions had been continuing to receive applications and admit students in unprecedented numbers for the fall semester, President O'Neil said that, as of the previous week, there was an increase over the last year of approximately 2500 freshman applicants and 1300 admitted students. Applications had increased all across the System except at one or two institutions where announced limitations earlier in the year predictably discouraged applicants, with, for example, UW-Superior having almost 100 more freshman applicants than the previous year and the Center System, about 200 more.

While those figures were encouraging, the President continued, inasmuch as they revealed the continued desire of many new students to study and learn at System institutions, they also made the funding situation even more acute. He did not believe that legislators wished the University either to diminish the quality of education or to turn away substantial numbers of qualified and eager students, noting that the previous afternoon many members of the Assembly had reaffirmed their support of higher education by refusing to accept the larger reduction which the Senate had imposed earlier in the week. Indicating that he felt the System's pleas for support had been understood and heeded in many quarters, both in the legislative and executive branches of state government, he reaffirmed the hope that the remaining days of the budget session would be reassuring ones for the University and its needs.
Some time in the fall, President O'Neil added, he expected to review the whole experience of the budget session, noting that, in preparation for the 1983-85 biennium, he would like to begin early in the fall to shape some major initiatives which might be discussed with the Board long before specific budget proposals must come forward.

Robert Kranz, President of the United Council of UW Student Governments, offered that group's congratulations to President O'Neil on his successful but trying year as the System's President. During the President's inauguration, Mr. Kranz recalled, the United Council President had made the statement that students eagerly looked forward to President O'Neil being an effective leader for the UW System, "and we feel very strongly that he has done so. In the short time that I have known him, he has presented to me the attitude of fair and equal treatment to students, and this is something that we sincerely appreciate."

Mr. Kranz then introduced four United Council staff members: Biff Cartwright, Executive Secretary; Michael Chapman, Executive Director; Wendy Strimling, Legislative Affairs Director; and Julie Fleming-Huck, Academic Affairs Director.

With regard to the state budget, Mr. Kranz said United Council had actively lobbied to secure additional funding for the University System and would continue to do so until it is funded at a level adequate to provide access to quality education for all students who wish to pursue that goal.

At the request of students at UW-River Falls, Mr. Kranz voiced their concerns about a building project that called for the long-term elimination of some housing for married students, indicating that, since student populations are getting older, the need for married student housing will probably increase rather than diminish.

Mr. Kranz reported that United Council had adopted a motion in support of educational benefits included in the GI Bill. In addition to military personnel, they were encouraging that benefits be extended to those who served in such agencies as VISTA and the Peace Corps.

Commenting on discussion the previous day, in the Business and Finance Committee, about funding for the Wisconsin Public Interest Research Group, Mr. Kranz noted that, while WisPIRG had requested review of a specific proposal for a mandatory, refundable fee, debate did not really focus on that issue; instead, WisPIRG organizers presented new alternatives. On the assumption that WisPIRG organizers were accountable to the students who signed petitions with the understanding that a mandatory, refundable fee was being proposed, it seemed to him that "what we saw yesterday was a manipulation of WisPIRG's mandate by its leadership." Pointing out that the term "accountability" implies accountability to constituencies, as well as the proper handling of funds, he said he was beginning to have doubts about the policy decisions that would be made by WisPIRG and who actually would be making them. With reference to the decision made in the Business and Finance Committee to recommend to the Board that a study of United Council's funding formula be conducted, he said that, while such a study would be helpful, he questioned its significance, since the review of WisPIRG's request for a fee two-and-one-half times as large as that received by United Council was not debated.
Adoption of the following resolution was moved by Regent Knowles, seconded by Regent Fitzgerald and voted unanimously:

Resolution 2443: That the Report of Non-Personnel Actions by Administrative Officers to the Board of Regents and Informational Items Reported for the Regent Record (copy on file with the papers of this meeting) be received for the record; and that actions included in the report be approved, ratified and confirmed.

Chancellor Penson introduced Dr. Roger Bennett, who had been appointed Dean of Education and Human Services at UW-Oshkosh. Dean Bennett, who received a Bachelor of Science degree in both elementary and secondary education from the UW-Milwaukee, a Master of Science degree in educational administration from the same institution, and a Ph.D. degree from the UW-Madison, had previously served as Dean of Education and Human Development at Rhode Island College.

President Erdman added that such introductions of new staff members are very helpful to the Regents.

REPORT OF THE EDUCATION COMMITTEE

Vice Chairman Fitzgerald presented the Committee’s report.

Reports regarding the UW-Madison Family Medicine Practice Program were made to the Committee by Dr. Arnold Brown, Dean of the UW-Madison Medical School, and Dr. W. E. Scheckler, Chairman of the UW-Madison Medical School Department of Family Medicine and Practice. Drs. Brown and Scheckler described the statewide outreach activities of the department, referring particularly to development of a residency network which uses community hospitals located in rural and other areas of need, four specific family practice residency programs (Madison, Eau Claire, Wausau and Appleton), and the concept of rural rotations involving small community group practice in such locations as Platteville, Lancaster, Antigo and Two Rivers. Other aspects of the program include residency electives such as orthopedics (Ashland and Janesville), geriatrics (King), obstetrics (Monroe), the presentation of nurse-physician team seminars, the legislatively-supported study of physician distribution and retention, and the development of rural health resource libraries. Emphasizing the ways in which the Department of Family Medicine and Practice interfaces with other aspects of the University and state government, Dr. Scheckler referred to the areas of Rural Sociology, Agricultural Journalism and the School of Pharmacy, as well as to the state Division of Health and the Department of Natural Resources regarding rural environmental health issues.
The Committee received reports on: (1) the third annual UW System Faculty College at the UW Center-Marinette; (2) UW System participation in the American Council on Education's non-collegiate sponsored evaluation of instruction program; (3) the Michigan-Wisconsin compact; and (4) formation of the System Advisory Council on the Status of Women. (Copies of these reports are on file with the papers of this meeting.)

Regent Fitzgerald moved adoption of Resolution 2444. The motion was seconded by Regent Heckrodt and voted unanimously.

Resolution 2444: That, upon the recommendation of the President of the University of Wisconsin System and the Chancellor of the University of Wisconsin-Stout, the Chancellor be authorized to recruit for a Dean of the School of Education and Human Services.

It was moved by Regent Fitzgerald, seconded by Regent Finlayson, and unanimously carried that the following resolution be adopted:

Resolution 2445: That, upon the recommendation of the President of the University of Wisconsin System and the Chancellor of the University of Wisconsin-Madison, the Chancellor be authorized to recruit for an Associate Dean of Clinical Affairs in the School of Veterinary Medicine.

The Committee's report was presented by Chairman Fox who noted that all Regents had been invited to participate in that portion of the meeting at which the first three items were considered.

President O'Neil spoke in Committee about recent legislative action on the 1981-83 University budget, noting that the Assembly would cut 2% in 1981-82 and 1% in 1982-83, while the Senate would cut 3% in 1981-82 and 1-1/2% in 1982-83, these reductions being based on Assembly Bill 66 which provided some enrollment funding for the University.

Indicating that current bills provide funding for the equivalent of eight percent compensation adjustments for all state employees, the President reported that the System's compensation team, including Regent members Beckwith and Knowles, had been meeting with the Secretary and other representatives of the Department of Employment Relations, who presented the department's recommendation of an 8% increase for all non-represented state employees to the legislative Joint Committee on Employment Relations (JCOER). He said the reception by JCOER was sympathetic, adding that, while he had expressed appreciation to the Secretary for having recommended a rather flexible package, he had pointed out that nothing less than 9-1/2% would enable the University to remain competitive and to meet needs expressed by the System's Biennial Budget Working Group on Faculty and Academic Staff Compensation.
President O'Neil also indicated, since no specific action had been taken on compensation adjustments, it was not possible to bring to the Board his recommendations on executive salaries or those over the range 5 maximum which must have Board approval, noting that he was still hopeful of bringing a 1981-82 budget, the compensation adjustments, and the 1981-82 student fee schedule to the Board on July 31, although the budget approval might have to be deferred until the September meeting.

Regent Fox reported that the Committee next considered the funding of United Council of UW Student Governments. Because there was a broad difference of opinion as to proper funding procedures, it was System Administration's recommendation that a subcommittee of chancellors be appointed by the System President to study the issue and bring their conclusions to the Board the following spring. The President of United Council, indicating that he had no objection to the study, stated that an assured funding base is important to accomplishment of their objectives.

Upon motion by Regent Fox, seconded by Regent Finlayson, Resolution 2446 was adopted unanimously.

Resolution 2446: That the Board of Regents defer action on alternative funding mechanisms for the United Council of UW Student Governments until July 1982, and

- That the President of the System appoint a subcommittee of Chancellors to study the issues of financing, accountability, responsibility, and governance as related to a systemwide organization of institutional student governments, and that this review and ensuing recommendations be completed no later than June 1, 1982 so that System Administration can present the recommendations to the Board of Regents in July 1982 for their action.

A request by the Wisconsin Public Interest Research Group for a mandatory, refundable fee of $2.50 per semester to support their activities was presented to the Committee. Noting that the group had obtained approximately 18,000 signatures on petitions in support of their plan at UW-Madison and UW-Green Bay, Regent Fox stated that a background paper prepared by System Administration (copy on file with the papers of this meeting) had concluded with the recommendation that no fee assessment for WisPIRG be authorized outside the Segregated University Fee Allocations Committee process. At the Committee meeting, President O'Neill had pointed out that the issue was the funding mechanism not the activities of the group, indicating that the SUFAC process, now functioning on all campuses, was working very well and that it was the recommendation of the Chancellors and System Administration that funding for student organizations should be part of SUFAC deliberations. The Committee heard a number of statements, both in support of and in opposition to the proposal and, after considerable discussion, unanimously adopted the following resolution:

That this subject be tabled to allow System Administration to come back in a timely manner with a recommendation following further study.
The next matter considered by the Committee was contingent delegation to the System President of authority to establish first quarter operating budgets and approve selected compensation adjustments for 1981-82. Associate Vice President Gene Arnn indicated that the purpose of the first part of Resolution 2447 was to allow the University to continue operating in a nearly normal manner, even though a state budget had not yet been approved. The budgets established by the President would be within funding levels corresponding to the status of legislative and executive action and in accordance with guidelines issued by the State Department of Administration. The second part of the resolution dealt with salaries above the group 5 maximum, which normally are approved by the Board. Expeditious administrative approval of salaries some time in July, however, might be necessary to ensure that the faculty and administrators in this category would not lose discretionary merit adjustments because of failure to take timely action.

Regent Fox moved adoption of the following resolution, and the motion was seconded by Regent Grover:

The Board of Regents authorizes the following steps:

1. The System President is delegated the authority to approve institutional budgets for the first quarter of 1981-82 within the appropriate funding levels corresponding to the status of legislative and executive action on the 1981-83 biennial budget; and

2. For salaries above the Group V maximum of the State Executive Pay Plan, the System President is authorized to approve, in consultation with the President and Vice President of the Board, any discretionary allocations effective July 1 or the beginning of the academic year. This provision shall apply when the unclassified pay plan and executive pay plan are approved by the Joint Committee on Employment Relations.

Referring to the second part of the resolution, Regent Grover wondered if there should not be action by the Executive Committee, since it would be an accomplished fact when reported back to the entire Board. He asked about the time constraints and other implications of proceeding in that way.

Vice President Lorenz replied that action normally should be taken within a pay period to avoid loss of any increase, adding that only a day or two might be available in which to act.

Regent Grover was not aware of that kind of authority having previously been vested in the two officers of the Board. Without wishing in any way to diminish their role, he thought such action should be taken by the Executive Committee, on the basis that a decision by that body would speak more properly for the Board.

Regent Gerrard expressed agreement with Regent Grover.

The motion then was amended by Regent Fox to delete from the third and fourth lines of the second section of the resolution the words "President and Vice President" and insert in their place the words "Executive Committee."
Put to the vote, the revised resolution as follows was adopted unanimously:

Resolution 2447: The Board of Regents authorizes the following steps:

1. The System President is delegated the authority to approve institutional budgets for the first quarter of 1981-82 within the appropriate funding levels corresponding to the status of legislative and executive action on the 1981-83 biennial budget; and

2. For salaries above the Group V maximum of the State Executive Pay Plan, the System President is authorized to approve, in consultation with the Executive Committee of the Board, any discretionary allocations effective July 1 or the beginning of the academic year. This provision shall apply when the unclassified pay plan and executive pay plan are approved by the Joint Committee on Employment Relations.

Regent Fox stated that the Committee then reviewed gifts, grants and U. S. Government contracts, with Vice President Lorenz observing that, even though the month's list was about a million dollars higher than for the same period in the previous year, it was anticipated that there would be a total reduction as the year progressed. Significant gifts in kind included microcomputers worth $53,000 from Digital Equipment Corporation for the UW-Madison College of Engineering, and a computer worth $370,000 from National Cash Register Corporation for the UW-Milwaukee School of Business Administration. There also was a new contract from the National Science Foundation for $1.5 million, the current list reflecting the first installment of $733,000 for the UW-Madison Department of Computer Sciences. The same department had just been awarded a grant of $4.6 million to develop a computer system that would match equipment resources with research topics, the first installment of which was to be reported in the next listing.

Adoption of the following resolution was moved by Regent Fox and seconded by Regent Finlayson:

Resolution 2448: That, upon recommendation of the President of the University of Wisconsin System, the gifts, grants and contracts presented at this meeting (copy on file with the papers of this meeting) be accepted, approved, ratified and confirmed; and that, where signature authority has not been previously delegated, appropriate officers be authorized to sign agreements.

Noting that one of the gifts in kind would go to a University farm, Regent O’Harrow inquired as to the policy, from an ethical standpoint, for accepting such gifts. The question is important, he pointed out, because students who become teachers and farmers, along with others who visit the farms, carry home with them the concept that what they have seen there is a model to be emulated.
Vice President Lorenz replied that, although there were policies on accepting gifts and grants, this was an aspect which had not previously been addressed.

Regent O'Harrow observed that, inasmuch as the general public did not realize the various items accepted as gifts in kind were not purchased, the implication was that there was a screening process which had determined these products to be the best available. "It is an endorsement. I think we ought to be sensitive to this and there ought to be a policy developed because of the uniqueness of these demonstration farms." Vice President Lorenz said System Administration would follow up on this matter.

The question was put on Resolution 2448, and it was adopted unanimously.

Distribution of the trust of Dr. Menelaus P. Peters, St. Petersburg, Florida, was considered by the Committee, the trust agreement providing for ten percent thereof to go to the University of Wisconsin School of Medicine to be used as the Dean of the Medical School deemed most beneficial in promoting the school's work. Dr. Peters was a 1940 graduate of the Medical School and had also received a B.A. degree from the University of Wisconsin in 1937. A native of New Jersey, he practiced in Spring Green, Madison and Rice Lake until 1950. UW-Madison's share of the trust was estimated to be $10,000.

It was moved by Regent Fox, seconded by Regent Fitzgerald and carried unanimously, that the following resolution be adopted:

Resolution 2449: That the distribution from the trust of the late Menelaus P. Peters, St. Petersburg, Florida, be accepted by the Board of Regents of the University of Wisconsin System in accordance with the terms and conditions of the trust agreement; and that the Trust Officer or Assistant Trust Officer be authorized to sign receipts and do all things necessary to effect the transfer for the benefit of the University of Wisconsin-Madison.

Regent Fox presented the Committee's recommendation to accept the bequest of Mr. Allen J. Shafer, of Madison, whose will provided for distributions from the residue of the estate to equalize three existing trust funds. Two of them, presently administered by the Board of Regents, are known as the Allen J. Shafer, Jr. Fund and the Lydia Z. Shafer Fund, which provide scholarships to UW-Madison students, and the third fund is held in trust by a local bank for the Madison Public Schools. As a result of the bequest, each of the funds would be about $60,000. Mr. Shafer received a B.S. degree in Electrical Engineering from UW-Madison in 1930, his wife, Lydia, received a B.A. degree in Commerce from UW-Madison, and their son, Allen, Jr., was enrolled at UW-Madison at the time of his death in 1944.

Adoption of Resolution 2450 was moved by Regent Fox, seconded by Regent Finlayson and voted unanimously.
Resolution 2450: That the bequest of the late Allen J. Shafer, Sr., Madison, Wisconsin be accepted by the Board of Regents of the University of Wisconsin System in accordance with the terms and conditions of the will; and that the Trust Officer or Assistant Trust Officer be authorized to sign receipts and do all things necessary to effect the transfer for the benefit of the University of Wisconsin-Madison.

Regent Lawton recalled that Alan Shafer, Jr. had died in a tragic accident in the football stadium.

Vice President Lorenz reported to the Committee on the status of student financial aids for the fall semester, indicating that there definitely would be less National Direct Student Loan money available, that Pell grants would be reduced by $80 each and that most revisions in the Guaranteed Student Loan Program would affect applicants during the 1982-83 academic year. Meetings had been held with campus authorities to insure that contingency planning would accommodate any processing delays at the time of fall registration.

Concluding his report, Regent Fox said the Committee was informed that the year-end anticipated free balance would be about a quarter million dollars.

REPORT OF THE PHYSICAL PLANNING AND DEVELOPMENT COMMITTEE

Vice Chairman O'Harrow presented the Committee's report.

The Committee considered approval of six concept and budget reports, the first of which was for UW-Eau Claire's Davies Center remodeling and addition project at a cost of $1,224,800, to be funded from UW-Eau Claire facility and operating reserves. This amount represented an increase of $39,800 from the level approved by the Board in December 1980 but was $182,000 less than the $1,411,800 approved by the State Building Commission and included in the 1981-83 budget being considered by the Legislature. The amount stated in the resolution reflected availability of more refined budget figures based on completion of the preliminary design of the project, which would remodel 31,257 square feet of existing space and construct 7,119 square feet of new space, resulting in a more integrated and efficient facility.

The other five concept and budget reports were concerned with physical education projects at UW-Eau Claire, UW-Oshkosh, UW-River Falls, UW-Stevens Point and UW-Stout. The Regents had approved requests to fund these projects in both 1979-81 and 1981-83 capital budgets. The State Building Commission authorized funding for advance planning in June 1980 and approved funding of construction for the projects in the 1981-83 capital budget, an action which was sustained by the Legislature's Joint Committee on Finance and by both houses of the Legislature. The concept and budget reports were based on bidding the projects in the fall of 1981 and the winter of 1981-82, the five projects totaling $57,500 less than the
Regent and State Building Commission approved funding included in the 1981-83 capital budget. In response to questions about siting of the UW-River Falls building addition, adjacent to the ice arena and a trailer court, the Committee was assured that the trailer court problem had been satisfactorily resolved and that this location was the best of those available for construction of such a facility.

Regent O'Harrow moved adoption of the following resolution, and the motion was seconded by Regent Hendrickson:

Resolution 2451: That, upon the recommendation of the UW-Eau Claire, Oshkosh, River Falls, Stevens Point and Stout Chancellors and the President of the University of Wisconsin System, the concept and budget reports for the following projects be approved, and authority be granted to plan, bid and construct, at the cost and from the funding source indicated:

**UW-Eau Claire - Bldgs & Lands**

- **Approval of CEB Report -** Davies Center Remodeling and Addition Project, $1,224,800, Program Revenues (Non-GPR), R 2451, P 13-14-15
- McPhee Physical Education Center Addition, $4,390,000, General Obligation Bonding (GPR) R 2451, P 13-14-15

**UW-Oshkosh - Bldgs & Lands**

- **Approval of CEB Report -** Albee Hall Remodeling and Addition, $1,826,000, General Obligation Bonding (GPR) R 2451, P 13-14-15

**UW-River Falls - Bldgs & Lands**

- **Approval of CEB Report -** Physical Education Building and Karges Center Remodeling, $3,317,000, General Obligation Bonding (GPR) R 2451, P 13-14-15

**UW-Stevens Point - Bldgs & Lands**

**UW-Stout - Bldgs & Lands**

- **Approval of CEB Report -** Physical Education Addition and Remodeling, $4,211,000, General Obligation Bonding (GPR) R 2451, P 13-14-15; comments on elimination of trailer court.

Regent Finlayson inquired as to how problems experienced by the trailer court residents had been resolved.

Regent Hendrickson indicated it would be accomplished primarily by attrition, noting that there were 24 trailers and only 18 people currently living in them. Although the University had decided not to operate the trailer court in the future, he said, residents would not be removed from the court at this time, and consideration also was being given to moving the trailers to another location.
Adding that residents could remain there through 1986, Vice President Winter said there were problems with resaleability of the trailers and the possibility that a number of them could not be moved. In the case of students who could not sell these trailers, the University would purchase them, so that they would suffer no loss.

Put to the vote, Resolution 2451 was unanimously adopted.

The Committee approved UW-Stout's request to grant a six-foot-wide easement to the Wisconsin Telephone Company for burial of cables to prevent storm-caused outages in the exchanges serving Menomonie and Eau Claire. The easement would revert to the Board if, at some future time, the use for which it was currently needed should be changed.

It was moved by Regent O'Harrow and seconded by Regent Fitzgerald, that the following resolution be adopted:

Resolution 2452: That, upon the recommendation of the UW-Stout Chancellor and the President of the University of Wisconsin System, an easement be granted to the Wisconsin Telephone Company to place underground cables and wires on and beneath a portion of the university lands, more fully described as:

- the West six feet of Lot 11 and Lot 12,
- Block 1, Stout Addition, City of Menomonie,
- Dunn County, Wisconsin

If and when the use for which this easement is needed should be changed and it is no longer needed, the easement will revert to the grantors.

Regent Gerrard felt there should be some payment for the easement and asked who would benefit from it.

Indicating the University never had received or paid money for a telephone line easement, Vice President Winter said this easement would not directly benefit the University.

Regent Heckrodt pointed out that it would improve service to the community by preventing power failures caused by storms. Such a community service, he continued, would benefit the University as well.

Regent Erdman observed that assessing the city for the easement might create ill will toward the University.

Regent Fox also questioned the giving away of an easement, and Regent Gerrard commented that, in view of the System's fiscal difficulties, he did not think the University was in a position to do so.

Regent Erdman noted that the giving of easements is a general practice and that the good will of a community is essential to the successful functioning of a university, adding that she did not think the easement would be worth a great deal of money.

- Discussion of giving easement without compensation, p. 15, 16, 17
Regent O'Harrow stated that the next matter considered by the Committee represented the culmination of a substantial effort by System and UW-La Crosse staff to obtain City of La Crosse approval of: (1) an exchange of properties to enable development of outdoor education areas adjacent to Mitchell Hall and construction of an addition to Mitchell Hall; (2) a long-term agreement for the use and development of the Memorial Stadium area; and (3) property transactions to enable development of a thirteen-acre parcel for outdoor education and recreation on the North Campus at UW-La Crosse. Upon approval of the resolution, System and UW-La Crosse staff would proceed as soon as possible with preliminary planning of three construction projects, all of which should be funded upon approval of the 1981-83 capital budget. The Committee was very pleased, he continued, with the ability of UW-La Crosse and System staff to obtain agreement with the City of La Crosse on the many elements of this request and believed it would result in substantial improvement in UW-La Crosse facilities needed to accommodate programs in health, physical education and recreation.

Regent O'Harrow moved and Regent Hendrickson seconded adoption of the following resolution:

Resolution 2453: That, upon the recommendation of the UW-La Crosse Chancellor and the President of the University of Wisconsin System, authorization be granted for the following land exchanges, use agreement and utility maintenance easement:

(a) Deeding one unimproved, 47-acre parcel of UW-La Crosse French Island property, with an averaged appraisal value of $473,750, to the City of La Crosse.

(b) Accepting from the City of La Crosse a deed for three parcels of land totalling 15 acres, with an averaged appraisal value of $502,900, located within the approved Campus Development Plan boundary and adjacent to Mitchell Hall, and to authorize the expenditure of $29,150 of gift money received from the sale of the Luxford Property, representing the difference between the average of the appraisal value of the City lands and the appraisal value of the System's French Island Property.

(c) Entering into a long-term, city/state use agreement (99 years) for the 6.1 acre Memorial Stadium area to enable the state to construct a new, all-weather track and field event facility and to enable approximately $75,000 of improvements to be made to the existing City Memorial Stadium structure and football field, with the funds to be provided from UW-La Crosse gift monies and acceptance of the $29,150 to be received from the City of La Crosse, representing the difference in appraisal values of the traded properties referenced under (a) and (b) above.
(d) Accepting from the City of La Crosse a deed for four acres of the vacated portion of Gorder Road to create a 13-acre parcel for development of outdoor educational and recreational areas on the North Campus at UW-La Crosse.

(e) Granting to the City of La Crosse a 30-foot wide easement to provide access to the City's existing water main located in the vacated Gorder Road.

The complete legal descriptions relating to each element of the five transactions are on file in the Board of Regents office.

It was pointed out by Regent Erdman that the resolution would grant an easement to the City of La Crosse.

Regent Fox said that, since the easement was part of a land exchange, the University would receive something for it.

Regent Gerrard stated that, in order to protect the University's interests, moneys should be obtained from other sources whenever possible and that he saw no reason to grant easements without receiving anything in return. He added, however, in that regard this issue differed from the one previously considered.

Put to the vote, Resolution 2453 was unanimously adopted.

Upon motion by Regent O'Harrow, seconded by Regent Fitzgerald, the following resolution was adopted unanimously:

Resolution 2454: That, upon the recommendation of the UW-Platteville Chancellor and the President of the University of Wisconsin System, the Pioneer Stadium Lighting Renovation project be approved, at an estimated total cost of $57,600, from Gift and Grant Funds.

The Committee heard a special presentation by Mr. Paul Brown, Director of the Department of Administration's Division of State Facilities Management, who discussed utilization of the construction management approach for design and construction of state buildings. He spoke to the Committee about the concept's legislative history, the prior use of this approach in constructing three maintenance and stores buildings at UW-Green Bay, UW-Oshkosh and UW-River Falls and its more recent use in constructing two state office buildings in the downtown area of Madison, observing that the concept could be best utilized by the state for constructing office-type buildings and other facilities with relatively simple design components. It was also his opinion that many of the UW System's buildings would be extremely difficult to construct under this approach due to the complex performance specifications which the state would have to develop in order to control the design and construction process.
Regular Board 7-10-81

In his report to the Committee, Vice President Winter reviewed recent State Building Commission actions on the System's requests, legislative action on the System's 1981-83 capital budget, and the status of design and construction of projects.

Regent O'Harrow moved adoption of resolution 2455. The motion was seconded by Regent Knowles and unanimously voted.

Resolution 2455: That, upon the recommendation of the UW-River Falls Chancellor and the President of the University of Wisconsin System, approval be granted for the Student Center Floor Tile Replacement Project at an estimated total project cost of $42,000 from Program Revenues (Non-GPR).

At 10:30 a.m., the following resolution, moved by Regent Fitzgerald, seconded by Regent Finlayson, carried on a unanimous roll call vote with Regents Erdman, Finlayson, Fitzgerald, Fox, Grover, Heckrodt, Knowles and Schilling voting "Aye" (8) and no Regents voting "No":

Resolution 2456: That the Board of Regents convene in closed session to consider personnel matters, as permitted by s. 19.85(1)(c), Wis. Stats., and to consider personal histories, as permitted by s. 19.85(1)(f), Wis. Stats.

CLOSED SESSION ACTIONS

The Board arose from closed session at 11:50 a.m., and adoption of the following resolutions was announced:

Resolution 2457: That, upon the recommendation of the University of Wisconsin-Milwaukee Chancellor and the President of the University of Wisconsin System, the following individuals be appointed to the University of Wisconsin-Milwaukee Board of Visitors:
The meeting adjourned at 11:50 a.m.

NOTICE OF HEARING

NOTICE IS HEREBY GIVEN that, Pursuant to sections 19.45(11)(b) and 36.23, Wis. Stats., the Board of Regents of the University of Wisconsin System will hold a public hearing in Room 1820 Van Hise Hall, 1220 Linden Drive, in the City of Madison, Wisconsin, on the 10th day of September, 1981, at 10:00 a.m., to consider the adoption, amendment and repeal of rules relative to the code of ethics for unclassified staff of the University of Wisconsin System, Chapter UWS, Wisconsin Administrative Code.

Analysis Prepared by the University of Wisconsin System

Chapter UWS 8, Wis. Adm. Code, sets forth the code of ethics for unclassified staff of the University of Wisconsin System. The proposed revisions to the chapter make various substantive and technical changes in the existing code. The proposed rules describe the conduct which constitutes a prohibited conflict of interest, and provide for appropriate action upon discovery of a possible conflict of interest. Several new definitions of terms used in the chapter have been added, while some of the existing definitions have been amended. The proposed description of prohibited conflicts of interest includes a statement of the purpose of the rule, and consolidates sections of the current rule. The concepts of "financial gain" and "benefit" have been clarified, and the share of an unclassified staff member's ownership in a business required to trigger conflict of interest concerns has been increased to be consistent with rules and statutes applicable to other state employees. The proposed rules also deal with the lawful disclosure of information by unclassified staff members, and with the participation by unclassified staff members in employment decisions which would affect members of their immediate families. Other proposed changes would effect technical revisions in terminology and update statutory citations.

A copy of the rules to be considered may be obtained from the Secretary, Board of Regents, Room 1860 Van Hise Hall, 1220 Linden Drive, Madison, Wisconsin 53706, upon request. There is no fiscal impact anticipated from the proposed changes to chapter UWS 8.
Faculty/Academic Staff Code of Ethics (UWS 8)

UWS 8.01 DECLARATION OF POLICY. (1) In view of the special relationship of the university of Wisconsin system to the state and to affirm as public policy within the system certain common standards to prevent conflicts of interest, the board hereby adopts the following code of ethics for faculty-and-academic unclassified staff pursuant to section ss. 19.45(11)(b), and 36.23, Wis. Stats.

(a) (1) Every member of the faculty-and-academic unclassified staff at the time of appointment makes a personal commitment to professional honesty and integrity that meets the demanding standards of the state and national academic communities. It is a violation of those standards for faculty-or-academic unclassified staff members to disregard the interests of the university of Wisconsin system in order, through use of their positions or through official conduct, to seek financial gain for themselves, their immediate families or businesses organizations with which they are associated.

(a) This code of ethics is designed to aid faculty-and-academic unclassified staff in avoiding conflicts of interest in the performance of their duties and to insure continued confidence of the people of this state in the university of Wisconsin system and its personnel.

(b) Nothing in this code of ethics shall deny the rights of a member of the faculty-or-academic unclassified staff under the state and federal constitutions and the Wisconsin Statutes or any other laws of this state.

(b) (2) The board of regents recognizes that:

(a) Members of the faculty-and-academic unclassified staff have personal and economic interests in the decisions and policies of national, state and local government.
Members of the faculty-and-academic unclassified staff retain their rights as citizens to interests of a personal or economic nature.

The code of ethics must distinguish between those minor and inconsequential conflicts which are unavoidable in a free society and those conflicts which are substantial and material.

Members of the faculty-and-academic unclassified staff may engage in appropriate remunerative outside activity other than university duties, and/or may maintain investments, but no member of the faculty-and-academic unclassified staff shall engage in any activity and/or maintain any investment if such activity and/or investment conflicts with the specific provisions of this code of ethics.

UWS 8.02 Definitions. (1) When used in this code chapter, the following terms, unless otherwise specified, mean:

(1) "Academic Staff" means professional and administrative personnel other than faculty with duties, and subject to types of appointments, that are primarily associated with higher education institutions or their administration.

(2) "Anything of value" means any money or property, favor, service, payment, advance, forbearance, loan, or promise of future employment, but does not include compensation and expenses paid by the state, fees, honoraria and expenses which are permitted under this chapter, political contributions which are reported under Ch. 11, Stats., or hospitality extended for a purpose unrelated to state business by a person other than an organization.

(3) "Associated," when used with reference to an organization.
includes any organization in which a person or a member of a person's immediate family is a director, officer or trustee or owns or controls, directly or indirectly, and severally or in the aggregate, at least 10% of the outstanding equity.

4) "Board" means the board of regents of the university of Wisconsin system.

5) "Chancellor" means the chief executive officer of a four-year institution, the center system and or the university extension, or an equivalent title.

6) "Confidential University Information" means information relating to university financial operations or personnel which is obtained from university records or in the course of official university business and which is not available to the general public upon request.

7) "Contracting Personnel" means any individual who engages in negotiating, reviewing, approving and/or signing contracts for the purchase of goods and services on behalf of the university or board. Contracts with outside agencies for research or for service to be performed by the university and personnel contracts are not covered. A person shall be considered "Contracting Personnel" only if so designated by the chancellor of his/her institution and notified in writing of the designation. Those persons designated in writing by the chancellor of an institution or the president of the system, who negotiate, review, approve, or sign contracts for the purchase of goods and services on behalf of an institution, the university system, or the board. Persons who contract with outside agencies for research or for services to be performed by the university, and persons who negotiate, review, approve or sign employment contracts are not "contracting personnel" for purposes of this chapter.
(f) (8) "Dean" means the executive head of a college, division, and or center system campus, and includes persons titled "Dean" or their the administrative equivalent of such a person in a non-academic divisions. Normally such persons would have the title "director" or some equivalent such as a director or equivalent title.

(g) (9) "Faculty" means all persons with the rank of professor, associate professor, assistant professor and instructor. For the purposes of this code chapter it also includes members of the administration persons serving in administrative positions who are on leave from faculty positions.

(i) (10) "Immediate Family" means: any individual related to a member of the faculty or academic staff as a husband, wife, or legal dependent:

(a) A person's spouse; and

(b) A person's relative by marriage, lineal descent or adoption, or any other person who receives, directly or indirectly, more than one-half of his or her support from such person or from whom such person receives, directly or indirectly, more than one-half of his or her support.

(11) "Limited Appointees" means persons holding special appointments to administrative positions designated in s. 36.17, Stats., and ch. UWS 15, Wis. Adm. Code, and who serve at the pleasure of the board or of the authorized official making the appointment.

(12) "Organization" means any corporation, partnership, proprietorship, firm, enterprise, franchise, association, trust, or other legal entity other than an individual or body politic.
"President" means the president of the university of Wisconsin system.

"Secretary" means the secretary of the board.

"Unclassified Staff" means faculty, academic staff and limited appointees of the university of Wisconsin system who are not subject to subch. III, ch. 19, Stats.

"Vice President" means central system administration officials with the title "Vice President" or other administrative officers with similar duties.

"Business" means any corporation, partnership, proprietorship, firm, enterprise, franchise, association, organization, self-employed individual or any other legal entity which engages either in nonprofit or profit-making activities.

UWS 8.03 CONFLICTS OF INTEREST. This chapter shall not prohibit an unclassified staff member from accepting appropriate outside employment or from freely pursuing those teaching, research, professional and public service activities which are associated with membership in the academic community. In adopting the standards of conduct set forth in this chapter, it is the board's purpose to prohibit only those activities which will result in a conflict of interest between an unclassified staff member and the university of Wisconsin system.

(a) (1) No members of the faculty or academic unclassified staff may disregard act contrary to the interests of the university of Wisconsin system in order through use of by using their positions or through official conduct to seek obtain financial gain or anything of substantial value for themselves their own private benefit or that of or their immediate families, or for any business organization with which they are associated.
(a) Salaries or other compensation received by members of the unclassified staff from the university for their services, or derived from appropriate outside employment or from teaching, research, professional and public service activities, do not constitute "financial gain" as the term is used in this rule.

(b) Use of state telephones for essential personal local calls does not constitute "benefit" as the term is used in this rule.

(b) (2) No members of the faculty or academic unclassified staff of members of their immediate families, may solicit or receive accept from any person or organization anything of value pursuant to an express or implied understanding that their official actions or judgment would be influenced thereby.

(b) (3) No members of the faculty or academic unclassified staff or members of their immediate families may intentionally use or disclose, for direct or indirect personal financial gain, confidential university information which is defined as information relating to university financial operations or personnel that is obtained from university records or in the course of official university business and is not available to the general public upon request, gained in the course of or by reason of their official positions or activities in any way that could result in the receipt of anything of value for themselves, for their immediate families, or for any other person or organization with which they are associated, if the information has not been communicated to the public or is not public information.

(c) (4) No members of the faculty or academic unclassified staff may use or attempt to use their public positions to influence or gain unlawful benefits, unlawful advantages or privileges for themselves or others.
(e) (5) No members of the faculty or academic staff or members of their immediate families and no business in which they own or control at least 5% interest of the outstanding stock, or at least 5% interest in such business, or in which they are an officer or director may enter into any commercial contract with the university unless the contract has been awarded through a process of public notice and competitive bidding under section 16.75(1), Wis. Stats., or unless the member of the faculty academic staff is not in a position to approve or influence the university's decision to grant the contract.

No members of the unclassified staff, members of their immediate families nor any organization with which unclassified staff members or their immediate families are associated, may enter into any contract or lease involving payment or payments of more than $3,000 within a 12-month period, in whole or in part derived from university funds, unless:

(a) The involved unclassified staff members have first made written disclosure of the nature and extent of any such relationship to their deans, directors or other appropriate administrators; and

(b) The involved unclassified staff members are not in a position to approve or influence the university's decision to enter into the contract or lease.

This subsection does not affect the application of s. 946.13, Stats.

(f) No members of the faculty or academic staff or members of their immediate families and no business in which a member of the faculty or academic staff has a 5% interest may enter into a lease of real property with the state or the university of Wisconsin system unless the member of the faculty or academic staff is not in
Without specific advance written approval of the board, no member of the faculty or academic unclassified staff may serve as an officer of a corporation or a member of its board of directors where such corporation does business with the university and he or she is in a position to influence university decisions concerning such business.

No member of the unclassified staff shall participate in the decision to hire, retain, grant tenure, promote or determine the salary of a member of his or her immediate family.

The board may, upon request, waive this section whenever its literal application would be adverse to the best interests of the university of Wisconsin system or would work an unreasonable hardship on a member of the unclassified staff.

UWS 8.035 LAWFUL DISCLOSURE OF INFORMATION

It shall not be a violation of this chapter for a member of the unclassified staff to lawfully disclose information which that person reasonably believes evidences:
(a) A violation of any law, rule, or regulation, or
(b) Mismanagement, a gross waste of funds, an abuse of authority, enforcement of unreasonable agency work rules, or a substantial and specific danger to public health or safety.

(2) No retaliation may be taken against an unclassified staff member for the lawful disclosure of information made in accordance with this section.

UWS 8.04 ACTION UPON TO AVOID POSSIBLE CONFLICT. If any member of the faculty or academic unclassified staff believes that the discharge of his/her university duties may result in a conflict of interest, such person shall advise his/her dean, director, or other appropriate administrator of the potential for a conflict of interest. Upon receipt of such information, the dean, director or other appropriate administrator shall apply the criteria set forth in UWS 8-801 and 8-803 and either:

1. Determine that the activity in question is permissible because it is within the scope of proper professional conduct and serves the interests of the university;
2. Determine that the activity in question is not permissible and should not proceed;
3. Determine that the activity in question involves a possible conflict of interest, but the subject matter is one which should be assigned to another member of the unclassified staff who does not have a possible conflict of interest.

(1) The activity in question is permissible and may proceed; or
(2) The activity in question is not permissible and should not proceed; or
(3) The activity in question involves a possible conflict of interest, but the subject matter is one which should be assigned to another member of the unclassified staff who does not have a possible conflict of interest.
UWS 8.05 SANCTIONS. Charges of violations of these rules shall be in the form of a verified written complaint which shall state the name of the member of the faculty or academic staff, or the limited appointee alleged to have committed a violation and which shall set forth the particulars thereof. Those verified complaints involving members of the faculty or academic staff, or limited appointees serving within the central system administration shall be referred to the president for investigation and disposition through appropriate institutional proceedings in accordance with rules and procedures applicable to system administration staff. Verified complaints involving faculty or academic staff, or limited appointees serving at an institution of the UW university of Wisconsin System shall be submitted to the appropriate chancellor where the complaint is against a faculty member, the chancellor shall proceed under the rules adopted by his or her institution pursuant to UWS-faculty-personnel-rules, chapter ch. UWS 4 or section s. UWS 6.01, Wis. Adm. Code, as appropriate; where the complaint is against a member of the academic staff, proceedings shall comply with the rules the institution has adopted pursuant to the UWS-academic-staff-personnel-rules, ch. UWS 11 or s. UWS 13.01, Wis. Adm. Code, as appropriate; where the complaint is against a limited appointee, appropriate action shall be taken in accordance with ch. UWS 15, Wis. Adm. Code. In addition to institutional discipline, section §9.50 19.58, Wis. Stats. ef-1973 (1979-80), provides that criminal penalties may be imposed for violations of these rules.
UWS 8.06 REPORTS The president, vice presidents, chancellor's, provost's, vice-provost and all contracting personnel shall annually, on or before April 30, file a statement of economic interest with the secretary. Such statements shall be filed on a form provided by the secretary. Such statements and they shall not be considered matters of public record unless disclosure is ordered by the board.

   University of Wisconsin - Madison
   (Project No. 6406-16)

      (J. H. Findorff & Son, Inc.):
      ADD $ 51,400.00

III. REPORT OF ACTIONS TAKEN (MEMOS OF AGREEMENT).

A. An occupancy and use permit between the City of Madison and UW-Madison for university
   use of surplus city-owned land located south of the Physical Plant Garage on Park
   Street has been executed by city officials and the Vice President for General Services.
   Reference to this project is included in the South Campus Agreement approved by the
   Board of Regents on April 10, 1981. This permit, effective on a month-to-month basis,
   has been arranged to provide university access to the property pending completion of
   arrangements for permanent acquisition of the property by the university, with such
   interim access needed to accommodate necessary activities associated with remodeling
   of the Physical Plant Garage.

B. At the request of the Director of Space Management and the staff of the Division of
   Physical Plant, the UW-Madison Chancellor has approved the razing of several obsolete
   structures, all vacated residential buildings used by the university for storage pur-
   poses in recent years. Recent acquisition of the storage facility on Fish Hatchery
   Road eliminates the need to continue to use these houses for storage. All structures
   are in very poor condition, and their insured values are minimal. The buildings are
   located at 1136 West Dayton Street (#1071), 241-216 North Brooks Street (#1090), 220
   North Brooks Street (#1097), and 38 North Mills Street (#1042).

C. The 1981-82 rental agreement between the Milwaukee Area Technical College and UW-
   Extension relative to the rental of space in North Hall, 623 West State Street, Civic
   Center Campus, Milwaukee, has been signed by the Vice President for General Services.
   This continues the agreement last reported to the Board of Regents in September 1980.

      UW-Ext-Bldgs/Hands - rental agree w/MATC for space in North Hall, 623 W. State
      Civic Center Campus, P. 2443, P. 7.

      Milw. Area Technical College - rental agree with UW-Ext, etc.
III. REPORT OF ACTIONS TAKEN (MEMOS OF AGREEMENT) (cont.)

D. An easement has been granted to the City of Green Bay across land which is a part of the UW-Green Bay campus to construct, operate, maintain, add or remove water distribution lines or related services as the grantee may require, upon, over and under a strip of land 20 feet wide. In return for granting this easement, the UW System will have the right in the future to make four taps into this specified water distribution system, with no assessment for such water use.

✓ UW-GB - Playschools - easement to City for water lines, Q 2443, P 17.
✓ Green Bay; City of - easement from UW-GB, etc.
