The libraries provide public access to a wide range of material, including online exhibits, digitized collections, archival finding aids, our catalog, online articles, and a growing range of materials in many media.

When possible, we provide rights information in catalog records, finding aids, and other metadata that accompanies collections or items. However, it is always the user's obligation to evaluate copyright and rights issues in light of their own use.

For these bedwetters and millions more the world over

good mornings start with dry nights. Start with the Minirin[®] tablet.

The Minirin[®] tablet provides an easy, effective and convenient solution to the problem. Bedwetting, if not treated, is unnecessary suffering.
