The libraries provide public access to a wide range of material, including online exhibits, digitized collections, archival finding aids, our catalog, online articles, and a growing range of materials in many media.

When possible, we provide rights information in catalog records, finding aids, and other metadata that accompanies collections or items. However, it is always the user's obligation to evaluate copyright and rights issues in light of their own use.

Benda: DEVELOPMENTAL DISORDERS OF MENTATION AND CEREBRAL PALSIES

Clemens E. Benda, M.D., Harvard Medical School

Dr. Benda has approached his subject with extensive experience in psychosomatic medicine, pathology and neuropsychiatry. Combining these disciplines he bases his work on observing patients for long periods of time, often from infancy to untimely death. Thus a work broad in scope, encyclopedic in nature, of immediate value to every pediatrician.

592 pages • 102 illustrations • index • bibliography • \$12.75

Benda: MONGOLISM AND CRETINISM

Clemens E. Benda, M.D., Harvard Medical School

"This is an important work on the subject of mongolism, and Benda has made a major contribution to an undeservedly neglected subject."—*Am. J. Clin. Path.*

333 pages • 46 illustrations • index • bibliography • \$7.00

METABOLISM—Clinical and Experimental

Edited by Samuel Soskin, M.D., Consulting Editor, Fuller Albright, M.D.

This new journal, now in its third issue, has already been enthusiastically received by the medical profession as a source of regular coverage in the metabolic sciences. Subscriptions for 1952 are now available.

bimonthly • 96 pages per issue • annual subscription \$9.00

Bronisch: THE CLINICALLY IMPORTANT REFLEXES

F. W. Bronisch, Dr. Med., University of Heidelberg. First American Edition revised and enlarged by Clemens E. Benda, M.D.

This basic diagnostic manual is designed to serve every physician as a guide to the most exact of all neurologic examinations. Testing and interpretation of the reflexes is clearly explained and lucidly illustrated in this practical volume.

88 pages • 49 illustrations, most in 2 color • bibliography • index • \$4.75

Lewis: THE OTHER CHILD—The Brain-Injured Child

Richard S. Lewis, with the collaboration of Dr. Alfred A. Strauss and Laura E. Lehtinen, Cove Schools

This is the first book on brain-injured children written for parents and other interested laymen. The problems of education, management and psychopathology are dealt with in a non-medical yet scientific manner.

116 pages • index • \$2.50
