The libraries provide public access to a wide range of material, including online exhibits, digitized collections, archival finding aids, our catalog, online articles, and a growing range of materials in many media.

When possible, we provide rights information in catalog records, finding aids, and other metadata that accompanies collections or items. However, it is always the user's obligation to evaluate copyright and rights issues in light of their own use.

CROUSE-IRVING IS A SPECIAL PLACE

People sometimes get shamefully sentimental about it. We don't insist on that. All we insist on is being the best hospital possible. This includes having our own NLN-accredited three-year diploma school of nursing; being affiliated with the Upstate Medical Center of the State University; and offering our nursing staff tuition assistance for university study. Does this interest you? Then clip and mail the coupon; you may be one of the special people this special place is looking for.
