NURSES' HANDBOOK OF OBSTETRICS

By LOUISE ZABRISKIE, R.N.
and NICHOLSON J. EASTMAN, M.D.

For graduate nurses, as well as for nursing students, Zabriskie and Eastman present far more than the basic principles and technics of the purely nursing phases of obstetrics in easy-to-use form. Encyclopedic in scope, the **NURSES' HANDBOOK OF OBSTETRICS** covers all the problems a nurse must handle from the beginning of pregnancy through to the after-care and well into the life of the baby. Original drawings and photographs made under the personal supervision of the authors help

the nurse to visualize technics, picture in detail each phase of obstetric care consecutively, getting a visual picture thus enabling her to grasp essential points quickly and clearly. Emphasis is placed on the practical, with many helpful suggestions on adapting and utilizing available utensils and materials. Frequently-referred-to charts are located for easy reference on the end papers. The following condensation of the contents indicates both the completeness and the convenient arrangement of the **NURSES' HANDBOOK OF OBSTETRICS**.

UNIT I—HUMAN REPRODUCTION—Aims of Obstetric Nursing—Anatomy, Physiology, Development and Physiology and the Fetus, Presentations and Positions.

UNIT II—NURSING IN PREGNANCY—Normal Pregnancy, Signs and Symptoms, Prenatal Care, Complications, Mental Hygiene Preparations for Labor and Delivery.

UNIT III—NURSING DURING LABOR AND DELIVERY—Phenomena of Labor, Normal Labor, Anesthesia and Analgesia, Complications, Operative Obstetrics.

UNIT IV—NURSING DURING THE PUERPERIUM—Normal Puerperium, Nursing Care, Complications.

UNIT V—THE NEONATAL PERIOD—Nursing Care of the New Baby, Nursing Care of the Premature Baby, Disorders of the Newborn, After-Care of the Baby.

UNIT VI—ADDITIONAL MATERNITY INFORMATION—History of Obstetrics, Teaching Aids.

LOUISE ZABRISKIE, R.N.—Formerly Night Supervisor Lying-in Hospital, New York City and Field Director Maternity Center Association, New York City; Director Maternity Consultation Service, New York City; Lecturer in Department of Physical Education and Health, New York University.

NICHOLSON J. EASTMAN, M.D.—Professor of Obstetrics in Johns Hopkins University; and Obstetrician-in-Chief to the Johns Hopkins Hospital.
