NORMAL DEPARTMENT.

The Regents of the University of Wisconsin take pleasure in announcing that they have established a Normal Department, and have obtained the services of Prof. CHARLES H. ALLEN, (Agent of the Board of Regents of Normal Schools), as its Principal. This department will be opened on the 16th of March next.

The South Dormitory Building of the University will be devoted to the use of the ladies who may become connected with the school. A portion of the building will be occupied by the family of the Principal, under whose immediate charge the lady pupils will be placed. Prof. STERLING, the Dean of the University Faculty, with his family, will also reside in the building, and ample provision will be made therein for boarding the pupils.

A commodious room in one of the wings of University Hall, (the main edifice), will also be thoroughly fitted up as a school room for the Normal Department.

All members of the Normal School, in addition to the proper exercises of that department, will, without additional charge, have access to the lectures and other exercises of such other University Classes as, with the approbation of their Principal, they may elect to attend.

The well known character of Prof. Allen as a Normal Instructor, the healthfulness and beauty for which the site of the University is famed, the ample arrangements which will be made within its spacious grounds and buildings for the accommodation of students of either sex, the advantages of access to its library and cabinet, as well as to the class exercises of its different departments, and the use of its scientific apparatus, will doubtless commend the University Normal School to those who are seeking to educate themselves for the high vocation of the Teacher.

More specific information can be obtained by addressing C. H. Allen, Madison, Wis.

J. L. PICKARD, President Regents, pro tem.

In pursuance of this notice from the Regents of the University, the Normal Department was opened at the specified time, and has completed a successful term. The result of this term has abundantly established the practicability and usefulness of this department, and also that the

advantages offered will be duly appreciated by those seeking to become Teachers or thorough Scholars.

The department will be continued as a regular department in the University: a Graduating Course has been arranged, and it is believed such opportunities can be offered as will secure a full and permanent patronage. While the great aim of the department will be to fit teachers for their arduous labors, the doors will not be closed to any who desire, by close application, to secure thorough scholarship.

The Lectures in the University Course, upon Chemistry, Geology, Botany, Mechanical Philosophy and English Literature, will be free to all.

A Gymnasium will be fitted up in the South Building, where ladies will be trained in Lewis' new system of gymnastics.

The entire South Building, excepting rooms for the Dean of the Faculty, has been set apart for a Boarding House, dormitories and other rooms necessary for the department, and will be under the special charge of the Professor of the department, aided by the Preceptress.

Ladies desiring board will be received into the family of the Professor, and it will be the aim to make both the privileges and restraints as home-like as possible.

A few rooms will be rented in the building to ladies desiring to board themselves; they will, however, be under the same regulations as members of the family.

Gentlemen can procure table board in the Dining Hall, and rooms in the other University buildings, or they can obtain board and rooms at reasonable rates, in families not far distant.

Instruction in Theory and Practice of Teaching, including object lessons, oral instruction, &c., will be given by lectures and from reference

books in the Normal Library throughout the course,—and during the last year the pupils will be thoroughly reviewed in Educational History.

General exercises in Reading, Orthography, Writing, Declamation and Recitation will continue, as found necessary, throughout.

The study of Latin is earnestly recommended to those who can find time to devote to it from their other studies, and Latin or French will be accepted in graduating for German.

Pupils may enter any year or term for which an examination shows them qualified.

COMMERCIAL DEPARTMENT.

This School was for two years in successful operation in the city of Madison, under the denomination of "Bacon's Commercial College."

It is now a part of the University. At present, rooms are occupied in Bruen's Block.

It is the purpose of the Board of Regents in the establishment of this department to afford the student an opportunity to qualify himself for prosecuting the Mercantile Profession in any department and to any extent.

The Course is as extensive and thorough as that of the best Commercial Colleges in the country. Special attention is given to Single and Double Entry Book-Keeping, embracing every department of Business Accounts, to Commercial Calculations, Practical Penmanship, &c. &c.

COURSE OF INSTRUCTION.—The plan adopted in teaching combines practice with theory; instead of Text Books the pupils are exercised in making original entries of every day business transactions—Journalizing, Posting, Balancing Accounts, Opening and Closing a great variety of different sets of Books, both for partnership and individual business—where the business has been prosperous, and adverse, and thus qualifying the student for entering upon the *practical* duties of the Accountant in any kind of business.

PREPARATORY QUALIFICATIONS.—Nothing more than a common school education is necessary; if the student is found deficient in mathematics, he will be taught free of charge.

EVENING SESSIONS will be held from October to April, giving sufficient opportunity for gentlemen engaged in business through the day, to acquire the course during the winter evenings.

REVIEW, &c.—Persons having paid their tuition may attend the School as long as they please—having the privilege of completing the course at their option. They can also review, at any time, without additional charge.

THE SCHOOL IS OPEN FOR LADIES,

for whom a separate room is provided.

Students are instructed individually, and can enter at any time.

The usual time required to complete a full course is from 8 to 12 weeks.

TERMS.—For a full course, (time unlimited), in advance, for gentlemen,.. \$30

For a full course, (time unlimited), for ladies,..... 25

Penmanship alone, (per month), 4

For further particulars, address D. H. TULLIS, Instructor,
Madison, Wis.

PREPARATORY DEPARTMENT.

Experience in this University, as in our Western Universities generally, has demonstrated the necessity of provision for instruction in branches which are properly preparatory to the different university courses. Young men of mature age often come to the University for instruction in some of its appropriate subjects, who wish also to perfect themselves in mere elementary branches. To close the doors of the University upon this class of young men, or not to afford them the facilities of instruction which they need, would be greatly to limit the sphere of its usefulness as a State institution.

Provision is therefore made for full preparatory instruction at the University Buildings. This instruction, under the direction and supervision of the Faculty, will be rendered by a competent Tutor. Those wishing preparation for the regular classes, merely a business education, or improvement in preparatory studies, with reference to teaching, will find within the University instruction adapted to their especial wants.

Students, of a suitable age, in this department are allowed to occupy rooms in the University Buildings.

TERMS OF ADMISSION.

Candidates for admission to the first year of the Classical Course, must pass a satisfactory examination in the common English branches, the Elements of Algebra, (Ray's) Plane Geometry, (Loomis') Latin Reader, Cæsar or Cornelius Nepos, Virgil's *Aeneid*, (six books—the edition of Frieze is preferred as far as the best,) Crosby's Greek Lessons, and the *Anabasis* of Zenophon.

Instead of these particular works in Latin and Greek, any equivalent will be accepted.

For admission to the first year of the Scientific Course, the requirement is the same as for the Classical Course, omitting the ancient languages.

Candidates for advanced standing are also examined in the studies to which the class they propose to enter have attended.

Candidates for admission into the Normal Department must pass a satisfactory examination in the Outlines of Geography, Elements of Grammar, and Arithmetic to Proportion.

Such as desire to pursue a select course will be admitted to any of the recitations for which they may be prepared.

Applicants for admission must present testimonials of good moral character. Students are received from other States.

DEGREES.

Those who have satisfactorily completed the Classical Course are entitled to the Degree of *Bachelor of Arts*.

Those who have satisfactorily completed the Scientific Course are entitled to the Degree of *Bachelor of Philosophy*.

Those who have completed satisfactorily the course in the Normal Department, are entitled to a diploma of graduation, under seal of the university.

LITERARY SOCIETIES.

The Literary Societies, the Hesperian and Athenæan, are valuable aids in the intellectual training of the student. Each has a library of several hundred volumes.

Spacious and commodious rooms have been provided and furnished, and are now occupied by these Societies in University Hall.

MERIT ROLL.

A permanent record is kept of the daily attendance, conduct and recitations of each student; and information of his standing communicated from time to time to his parent or guardian.

RELIGIOUS EXERCISES.

The students are assembled at prayers daily in the chapel of the University, fifteen minutes before the morning hour for commencing study and recitation.

ACCOMMODATIONS.

UNIVERSITY HALL, costing more than \$65,000, contains commodious public rooms for recitation, lecture, library, cabinets, &c. There are also two large buildings provided with pleasant study and lodging rooms for students, and apartments for boarding, &c.

ROOMS, &c.

Private rooms in the University, under certain restrictions, can be secured by application to the locating officer.

No student will be allowed to occupy a room until his bills for the term are settled.

Students in the regular University classes, in previous occupancy, will be allowed to retain their rooms, if on the ground at the opening of the term.

Students from abroad, admitted to the University classes, and intending to complete the Classical or Scientific course, are allowed the choice of rooms.

Rooms are furnished at the expense of the students, who should bring their own bedding, towels, &c.; other furniture can be obtained here second-hand, or new, at moderate prices.

Occupants of rooms are held responsible for all damages to the same.

Students not accommodated in the University, and not residing with their parents in Madison, will lodge and board in town, under such regulations as the Faculty may prescribe.

Students of suitable age, in the Preparatory and Commercial Departments, are allowed to occupy private rooms in the University Building.

The location of the Institution, it is well known, is among the most beautiful and healthy any where to be found.

THE ALUMNI ASSOCIATION.

This association was organized by a meeting of the graduates of the University, on the evening of Commencement day, June 26th, 1861. It was at that time resolved that the said association should meet annually and during Commencement week. In accordance with such resolution, the first annual meeting was held on the evening of the 24th day of June, A. D. 1862, at which time an address was delivered to the Alumni present, by Charles T. Wakeley, Esq., the President of the association and a member of the class of 1854, and a poem was read by R. W. Hubbell, Esq., of the class of 1858. The Alumni Dinner was given upon the afternoon of the 25th of June, and a business meeting of the association was held during the evening of the same day.

The following officers were chosen for the ensuing year :

Chas. T. Wakeley, President ; S. Fallows, Vice President ;
J. M. Flower, Cor'g Secretary ; W. F. Vilas, Rec'g Secretary ;
Geo. W. Bird, Treasurer.

Executive Committee.—Messrs. S. Foote, S. W. Botkin, and T. D. Coryell, in addition to the President and Recording Secretary.

J. M. Flower, Esq., of the class of 1856, was selected to deliver the Oration, and W. W. Church, of the c'ass of 1860, to read the Poem at the next annual meeting of the association.
