Patients You Have Known

THE AMATEUR M.D.

He's read more medical books than a med student and can give a complete—and completely wrong—diagnosis at the drop of a temperature. Listen to him, and you'll wind up treating him for pregnancy—and yourself for schizophrenia.

Why not help him—and you—simmer down with a couple of cups of Instant Sanka Coffee. Maybe the doctor has told him to give up caffeine.

Just watch the personality change for the better when you let him know he doesn't have to give up coffee—not if he switches to delicious Instant Sanka Coffee.

Instant Sanka lets you sleep—can't make you nervous. It's 97% caffeine-free, yet it's rich, full-bodied, delicious-tasting coffee. A product of General Foods.
