## FOREWORD

This—then—is the book of specimens showing “Labels and Things” for the druggist.

Just as books are read—not so much for what the book itself contains, but for the line of thought suggested, this specimen book, while complete in itself, is intended to be merely a suggestion to the druggist of his needs and of the many labels and styles that constitute our line.

In compiling and collating the many styles shown we have kept in mind the needs of the average drug store, and if your wants cannot be filled from it, will cheerfully send you our supplement sheets and samples of the specific articles wanted.

We are specialists in druggists’ boxes and labels and derive from it that pleasure and satisfaction of knowing how to do the one thing and do it well.

To you comes the satisfaction of using boxes and labels of the latest and most approved styles and workmanship; executed in a manner guaranteed to be to your entire satisfaction.

We are constantly executing new designs and originating new packages and our experience in such matters, also our designers, are at all times at your service.

We submit to you, with our compliments, this book for your consideration and if it is in anyway of service to you, we will feel amply repaid for our efforts.

Assuring you that all inquiries will be given our prompt and careful attention, we beg leave to remain,

Sincerely yours,

**H. S. McCracken Box and Label Co.**

## READ THIS BEFORE YOU ORDER

Through our products, not mere words, we are endeavoring to make the name McCracken synonymous with quality. Our constant effort is to furnish our customers with the best possible grade of work at prices as low as the market affords. If you have not found our work up to the highest standard of excellence, it is through no lack of intelligent effort and must be charged to human fallibility. However, advise us of any dissatisfaction; justice to yourself and courtesy to us demands it. We will always give your complaints and suggestions prompt and careful consideration.

### ORDER BY NUMBER

ORDER BY NUMBER.—Your wants will thereby be thoroughly understood. Do not cut or mutilate the Catalogue. You destroy its further usefulness by so doing.

### INDEX

All items will be found indexed, and its use will prove a great convenience.

### PRICES

PRICES.—See special discount sheet opposite this page.

### NEW AND ORIGINAL DESIGNS

NEW AND ORIGINAL DESIGNS will be cheerfully furnished to those contemplating marketing new packages or desiring new designs for store labels. Such requests should be accompanied with copy showing exact wording, size, quantity, color of ink, and if convenient, general style of the design wanted. Quotations will be submitted at our earliest convenience, and upon acceptance of terms, designs and proofs will be forwarded for correction or approval.

### COPY

Particular attention should be paid to the legibility of your copy. Always endeavor to furnish printed copy; if this is not convenient, we advise the writing of proper names, streets, etc., in capital letters. Manuscript copy is often indistinct, especially to one not familiar with your O's and A's, N's and U's.

### LABELS

The paper employed in the making of our Drug Labels we import direct, and it is the best that 100 years experience can produce. We conscientiously assure you that the non-curling gummed paper we now employ in the making of our Drug Labels is unsurpassed in finish and general good working qualities.

### GUMMED PAPER ITS QUALITY

We do not and can not guarantee gummed labels against sticking. Contact with moisture will cause any gummed label to stick, as the gum is there for that express purpose. Our paper is well seasoned, being from four to ten months old before being used. We buy the best even though forced to go to foreign markets to get it, and after using every reasonable precaution in wrapping and shipping, our responsibility ceases. We advise the prompt unpacking of all shipments containing labels; to keep labels off of shelving near the floor. We now pack all of our Drug Labels in neat lifting-cover folding boxes, 1,000 to each box and thereby dispense with rubber bands. There is a tendency for all gummed labels to absorb moisture of the atmosphere during humid and damp days, and by placing the labels loose in the paper boxes, all possibility of the labels being stuck through being pressed together by the constant pressure of bands is thereby removed.

### CARE OF LABELS

### MANNER OF RUNNING LABELS

In order to execute Label Orders at a profit at current prices, it is absolutely necessary to run them in forms. In other words, each label is run in a large sheet with other work of like stock, ink, etc. Were the labels to be run alone or separately, the item of press work alone would in a great majority of cases exceed the selling price of the label, leaving items of stock, composition (or engraving), cutting, assembling, shipping, etc., unaccounted for. Therefore, it is at once apparent that unusual colors of ink or stock colored other than white or orange (which are the staple colors of paper required by the drug trade), may be held a time seemingly unreasonable to the buyer. Such orders with their frequent delays are disappointing to all parties concerned, and we, therefore, bring this to the attention of prospective purchasers of such unusual combinations. For your guidance we run white forms regularly, either print or lithograph, in black, blue, green, red, red and black, red bronze and black, and red and green. Orange paper forms are run regularly in black ink only.

### UNUSUAL COLOR COMBINATIONS

### SHOP LABELS AND THEIR PRICES

Shop Labels, (sometimes called usual or general labels), are as the names indicate, labels for the usual or general small sales, and upon comparison will be found quoted at a less price than any other label of similar size and style. The reason for this is two-fold. These labels must be produced at small expense as they are largely used on small sales. Otherwise, it would be more economical to use blank shop labels and write in the name of the article sold. If produced at a low price, the druggist has inducement to use the complete line, otherwise he would do without them. These labels are valuable to us, for without them it would be impossible to arrange and run our forms with the proper degree of regularity. To meet this condition we have prepared plates for the full line of drugs with proper doses, antidotes, etc. Standard borders have been made, and the only expense involved outside of the work in the form is the setting of the card, which, once set, remains in the form, name of drug being changed on each succeeding run. Owing to the immense quantity of Shop Labels run, we are offered conditions not found in any other class of labels, compelling and enabling us to produce Shop Labels at a price little in excess to the actual cost of the paper used.

## DISCOUNTS

This, the book of specimens "Labels and Things" for the druggist, is, as the name implies, issued for the druggist for his convenience in ordering his box and label supplies.

Although it is intended to circulate solely among druggists, it is often in demand from lines foreign to the drug trade, and it is manifestly unfair to the retail druggist to publish for general circulation a Specimen Book showing his net prices. Therefore, for his protection we have quoted all labels at a list price, the net price of which will be found on separate sheets immediately following this page.

Advertising Stickers, pages 73, 74 are net.

**BOX PRICES.**—All unlabelled boxes marked net, subject to no further discount. Unlabelled boxes quoted at list price subject to a discount of 25% in lots of 1 to 6 gross inclusive of one size, 30% 7 to 10 gross inclusive of one size, 35% discount on lots of one size exceeding 10 gross. Labelled boxes, printed and lithographed, net for the quantities quoted.

### **LABELLED BOXES WITH LABELS OF TWO AND THREE COLORS**

Each color of ink involves another operation on the press, and to determine the prices for boxes with labels of more than one color ink, apply the following scale:—

#### **PRINTED LABELS**

##### **IN TWO COLORS:**

1 gross @ 25c. per gross  
3 gross @ 20c. per gross  
6 gross @ 15c. per gross  
10 gross @ 10c. per gross

##### **IN THREE COLORS:**

1 gross @ 75c. per gross  
3 gross @ 60c. per gross  
6 gross @ 45c. per gross  
10 gross @ 30c. per gross

When ordered with LITHOGRAPHED LABELS in two colors of ink the following extra charge if made:—

##### **IN TWO COLORS:**

3 gross @ 20c. per gross  
6 gross @ 15c. per gross  
10 gross @ 10c. per gross

##### **IN THREE COLORS:**

3 gross @ 60c. per gross  
6 gross @ 45c. per gross  
10 gross @ 30c. per gross

NOTE.—Bronze is rated as two colors.

## **READ THIS BEFORE YOU ORDER**

### **NO DISCOUNT FOR UNGUMMED WORK**

**NOTE.**—Owing to the quantity of gummed paper used, we offer our trade the benefits derived from a long term contract of large proportions and we make no distinction in price between gummed and ungummed work when sold at Catalogue prices. Several years ago the paper was gummed after being printed; a process causing considerable loss of time in the completion of the label and also involving considerable expense as the process was slow, the spoilage of paper great and the finished product unsatisfactory on account of impurity of the gum, curling of the labels when cut and sensitiveness to moisture. To encourage the use of ungummed work a special discount of 10% was given on that class of labels but the discount has long since been withdrawn.

### **MINIMUM QUANTITIES FOR LABELS**

All labels are run in forms with other labels of similar nature. There is a fixed expense attached to the production of label work, both printed and lithographed; this expense embracing transferring, making up forms, press make ready, etc. Therefore, the minimum quantity in which these labels are quoted in catalogue is the smallest quantity at which they can be produced at an economical rate. If quantities are ordered less than hereinafter quoted, we would be forced to run the labels alone, which would in most instances render the cost of production more than if run in the regular form quantities. Therefore all lithograph labels are furnished in quantities of not less than 1,000 of a size kind; printed labels not less than 1,000.

### **CHANGES PERMISSABLE**

All labels in this Specimen Book when bought at Catalogue prices (less the discount) admit of change of name at top and card of buyer at bottom of label to suit purchaser. The body or subject matter of labels (both printed and lithographed) are plates, and therefore, any change of descriptive matter necessitating the engraving or resetting of that portion of label involves an expense not provided for in the scale of prices. Special quotations will be submitted in such instances before the item is placed in work.

### **BOXES**

Our Box Department is thoroughly and completely equipped for the manufacture of all grades of Pill and Powder Boxes, Containers, Easel Displays, Folding Boxes, Tablet Boxes, etc. Samples and estimates cheerfully furnished.

### **TERMS**

All our products are sold F. O. B. Chicago, and in the absence of specific instructions we will use the most direct and economical route. Cash discount, 2% ten days, net thirty days. All bills payable with exchange on Chicago or New York. Accounts are subject to Sight Draft with exchange at expiration of thirty days from date of invoice.

### **NEW ACCOUNTS**

Great inconvenience and vexatious delays are often occasioned through our inability to obtain prompt information for the files of our Credit Department. Commercial rating books are voluminous affairs, requiring months to compile, and considerable time elapses before new stores and changes of ownership are properly recorded. Information as to the market in which you purchase your drugs, your jobber, etc., will be greatly appreciated and will expedite work on your order. Such information serves to firmly establish our business relations and begets that confidence that is the basis of the present day credit system.

McCracken manufactures all their boxes and labels.

### **INSPECT OUR PLANT**

We have equipped our plant with every machine and device needful for the making of good boxes and labels for the druggist, and will at all times be pleased to conduct you through the several departments and have you inspect your work in process of construction.

### **COMPLETENESS OF OUR LINE**

McCracken makes every type and style of box, label, folding box, etc., for the druggist, at prices guaranteed to be as low as can be obtained elsewhere for the same grade of work. While this Specimen Book embraces many styles and types of boxes and labels, it does not and can not represent all of the many styles, color combinations, etc., of our manufacture. If you do not find listed herein the article wanted, send us specifications, or if possible a sample, and we will be pleased to submit you our quotation on same, or if you prefer, will place the article in work, giving you advantage of the lowest market price.

BOX & LABEL  
CHICAGO

---

**We invite comparison.  
We Reduced the PRICE  
but not the QUALITY.**

The same high standard of workmanship and material has been maintained.

This price sheet lists some of the more popular grades and patterns and in no wise indicates the extensive line of our manufacture.

Sweeping reductions have been made, all other patterns being reduced in like proportion. If you are using a box not described on this sheet send us a description or sample and you will be promptly furnished with quotations.

---

Prices on pill and powder boxes are the rates per gross.

Prices on labelled boxes are net.

Prices on unlabelled boxes marked net are as indicated.

Prices on unlabelled boxes marked list are subject to a discount of 5% if ordered in quantities of 5 or 9 gross inclusive, 10% if ordered in quantities of 10 gross or over.

Unlabelled boxes when ordered in lots of 5 gross or more may be assorted sizes, provided not less than 1 gross of a size and kind is specified.

Consult diagram to properly determine size.

**H.S. McCracken Co.**  
BOX & LABEL  
CHICAGO

Our boxes are numbered according their size in the series, No. 1 being the smallest size.

To determine size box wanted lay your box on diagram and the line that the outside of your box falls upon indicates the number.

The last figure of our box numbers indicates size, thus: E8L3 indicates 3rd size Ob-long Shouldered Linen.

**ELIXIR IRON QUININE AND STRYCHNINE**

This Elixir has been found highly beneficial in Dyspepsia, Constipation and in Diseases generally arising from impaired digestion. It is also a valuable Tonic and Sedative and containing Iron, suitable in Anæmic conditions of the system, which are more or less present in the Diseases of the Digestive Organs, one peculiarity of this Elixir, is that it is free from the constipating effect that Iron produces, the Strychnia in it, aside from its powerful tonic property, has also that of increasing the peristaltic action of the bowels and correcting the tendency of Iron to cause constipation. Each teaspoonful of the Elixir contains the one-hundred and thirty second of a grain of Strychnia.

**Dose:** From one to three teaspoonfuls to be taken after each meal.

This admirable  
preparation so successfully  
used during the past ten years has  
now become almost a necessity to  
that class of patients requiring a mild  
but efficient tonic, combining the virtues  
of fresh beef, a sound quality of sherry  
wine and a salt of iron, which strengthens  
but does not constipate. Its use in  
convalescence, wasting diseases,  
dyspepsia, alcoholism, loss of appetite,  
nervous debility and general pro-  
stration, it is well known to require  
further comment, each fluid ounce  
contains the strength of two ounces  
of fresh lean beef, four grains of citrate  
of iron, dissolved in pure sherry wine,  
and flavored with choice aromatics.

**DOSE:** For an adult, tablespoonful  
three times a day. For children

Pharmacists

COR. 63D ST. AND COTTAGE GROVE AVE.  
CHICAGO - ILLINOIS

No. 4099 1000, \$6.00 500, \$4.50

## DIRECTIONS:

After softening the skin by applying hot towels,  
anoint the face with the cream to free the pores  
from impure obstructions. Massage a few min-  
utes, then wipe off the superfluous cream with  
a dry towel and pathe the face with hot water.  
We consider it best to treat the face daily just  
before retiring, however, any time most conve-  
nient will do.

LADIES following the above directions can  
possess a perfect complexion.

GENTLEMEN should use the cream just  
after shaving.

### ABOUT PRESCRIPTIONS

The best of medicines are none too good for sick folks. It's bad enough to be sick without running chances with second grade drugs. That's the reason we buy only the very highest quality of everything. It's a great satisfaction to us to know that every prescription we send out is just as good as good drugs will make it. No matter what you paid for it you could not get it any better.

## ABOUT PRESCRIPTIONS

The best of medicines are none too good for sick folks. It's bad enough to be sick without running chances with second grade drugs. That's the reason we buy only the very highest quality of everything. It's a great satisfaction to know that every prescription sent out is as good as good drugs will make it. No matter what you pay for it, you couldn't get it any better.

## GREEN'S BOWEL REGULATOR

A mild laxative, agreeable to take and never causing irritation. FOR THE IMMEDIATE RELIEF AND EFFECTUAL CURE OF CONSTIPATION, HEADACHE, DIZZINESS, INDIGESTION, FLATULENCE, BILIOUSNESS, PILES, ETC. Unlike pills and the usual purgatives, it does not predispose to intestinal sluggishness, but the same dose will always produce the same effect, that is to say never needs increasing.

DOSE—One teaspoonful taken before retiring, produces one or two natural evacuations in the morning, if the effect be more, the dose should be reduced, if less, the dose may be increased. The daily use of this remedy, for a period of from 4 to 6 weeks, will cure any case of constipation, and restore the bowels to a normal condition. When wanted as a laxative for children, it may be given in doses from  $\frac{1}{2}$  to 1 teaspoonful, repeated if necessary.

No family should be without this valuable remedy, as a dose of it when taken sick with derangement of the stomach or liver, headache, cold or fever, will immediately correct the incipient morbid influence, and thereby prevent a tedious sickness.

## VIRGIN OLIVE OIL

(HUILE D'OLIVE)

MADE IN FRANCE, FROM SELECT GREEN OLIVES

The best Olive Oil, called VIRGIN OIL, is obtained from carefully selected fruit picked before maturity and immediately pressed. It is distinguished by its greenish golden hue and agreeable odor. This Oil comes from the south of France, where most care is exercised in the choice of fruit, and is free from admixture of any kind.

The common Oil used for culinary purposes and the manufacture of fine soaps is procured from very ripe olives and from the pulp of those which have yielded the VIRGIN OIL.

Pure Olive Oil is very palatable, highly nutritious and easily assimilated, superseding Cod Liver and other oils, as flesh-producing foods. It is mildly laxative and highly beneficial in cases of irritable intestines. The dose as a laxative is from two to four tablespoonfuls. The ordinary dose is one tablespoonful.

## Prophylactol

### ITS USES AND PROPERTIES

Is a non-poisonous and non-irritating antiseptic, and can be used externally or internally with absolute safety. It is composed of Menthol, Eucalyptol, Thymol, Benzo Boracic Acid and Extract of Baptisia Tinctorio.

Externally it is invaluable for wounds, ulcers or diseased tissue of any nature, and can be used either full strength or diluted.

As a spray for the throat it is extremely beneficial in Diphtheria, Tonsillitis and other kindred ailments, and also is an excellent purifier of the breath.

Internally it is unquestionably superior to all other antiseptics as a corrective for acidity in any part of the alimentary canal. The dose is a teaspoonful several times a day full strength or diluted as required.

Its preeminence as an antiseptic has brought it into general use by the Dental profession, and it is highly recommended as a tooth wash and preservative of the teeth.

A small quantity exposed in the sick room assists very materially in purifying the atmosphere. Its odor also is very agreeable to the patient.

In a cool temperature it will become cloudy but its therapeutic action and qualities are entirely unimpaired thereby.

**of Potassium**

**SARSAPARILLA**

Has long been esteemed as possessing decided alterative properties, and in combination with Iodide of Potassium, exerts a marked curative action in all diseases due to impurity of the blood, especially such as are inherited, or are the result of syphilitic or mercurial blood-poisoning. In Scrofula, Eczema, Tetter, Chronic Skin Diseases, Scald-Head, Erysipelas, Enlarged Glands, Chronic Rheumatism, and in offensive discharges from the nose and ears, decided benefit results from its regular use. The system, besides being purified, is toned up and invigorated, as the remedy, in addition to purifying the blood, builds up the constitution.

**DIRECTIONS**—One teaspoonful three times a day, about an hour after meals. For persons under twenty years of age,  $\frac{1}{2}$  teaspoonful. Children, less in proportion.

**Gebrauchs-Anweisung**—Man nehme 1 Theelöffel voll 3 Mal täglich, ungefähr 1 Stunde nach der Mahlzeit. Für Personen unter 20 Jahre alt,  $\frac{1}{2}$  Theelöffel voll. Kinder im Verhältnis weniger.

**DIRECTIONS**  
In recent coughs adults should take fifteen drops and hold in the throat as long as possible before swallowing. Children a proportionate dose. Repeat frequently until relief is obtained. In chronic cases adults one to two teaspoons every three hours, the quantity to be adapted to the need. Children being more susceptible to influences affecting health should receive more particular care, and some additional treatment, such as warm foot baths, keeping the body warm, etc.

**Gebrauchs-Anweisung.**  
Bei gewöhnlicher Erkältung nehme ein Erwachsener fünfzehn Tropfen. Kinder eine angemessene Dosis. Man halte es so lange wie möglich in der Kehle, ehe man es verschluckt, und wiederhole es häufig bis Erleichterung eintritt. In chronischen Fällen nehme ein Erwachsener alle drei Stunden ein oder zwei Theelöffel voll, je nach der Schwierigkeit des Falles. Auf Kinder, welche mehr zu Erkältungen geneigt sind, sollte man besondere Sorgfalt verwenden, nebst warmer Fußbäder geben und den Körper warm halten, etc.

**STRONGER  
AMMONIA****FOR THE HOUSEHOLD**

**AQUA AMMONIA** is the cheapest cleansing material in the world. Used according to directions, one tablespoonful is equal to one-third of a pound of the best soap. When used with either hot or cold water it leaves the skin smooth and soft, and does not injure the most delicate fabrics.

**AQUA AMMONIA** in the Laundry gives a snowy whiteness to plain goods but does not injure fast-colored fabrics. It saves all the soda, half the soap, labor and time, and for many purposes replaces soap entirely. It restores all the original brilliancy and lustre to old black silks, laces and woolen goods, no matter how much soiled they may be.

**AQUA AMMONIA** will produce a most luxuriant and healthy growth in Plants and Flowers, when used by putting a few drops twice a week in the water put on them.

**DIRECTIONS**

**For the Laundry**, put one tablespoonful into a pail or three gallons of water; clothes soaked with half the usual quantity of soap, and soaked over night in this water, will be perfectly cleansed and whitened with little or no rubbing.

**For Glass, Silver, Crockery, Painted Walls, Stains in Marble, Oil Cloth and plain Wood-Work**, use one or two tablespoonfuls to a pail of water, and little or no soap will be needed.

**To Clean Hair Brushes and Combs** perfectly and quickly, use a teaspoonful in half a basin of water.

**For the Toilet**, use half teaspoonful to a basin of water, or one tablespoonful to the bath-tub.

**AMMONIA GIVES A SNOWY WHITENESS TO PLAIN GOODS, BUT DOES NOT INJURE FAST COLORED FABRICS. IT SAVES ALL THE SODA, HALF THE SOAP, LABOR AND TIME, AND FOR MANY PURPOSES REPLACES SOAP ENTIRELY.**

**IT RESTORES ALL THE ORIGINAL BRILLIANCY AND LUSTRE TO OLD BLACK SILKS, LACE AND WOOLEN GOODS, NO MATTER HOW MUCH SOILED THEY MAY BE**

**DIRECTIONS**

**FOR THE LAUNDRY**, put one tablespoonful into a pail of three gallons of water; clothes soaked with half the usual quantity of soap, and soaked over night in this water, will be perfectly cleansed and whitened with little or no rubbing.

## DOUBLE DISTILLED Ext. Witch-Hazel

(HAMAMELIS VIRGINICA)

## DIRECTIONS

For Scalds, Burns, Wounds, Sprains or Bruises.—Lay a cloth—linen is the best—wet with Witch-Hazel, keeping saturated until relieved.

For Toothache or Sore Gums.—Bathe the Face freely, and hold in the mouth.

For Lameness, Chafing, Etc.—Cleanse the surface carefully and then sponge the parts with Witch-Hazel. If too strong, dilute to half strength with water.

For Rheumatism, Neuralgia and similar Ailments.—Rub the parts with flannel saturated with Witch-Hazel. Several applications usually effect a cure.

For Erysipelas and Blood Diseases.—Bathe the parts affected, and take about fifteen drops, at morning, noon and night.

For Earache.—Bathe the portions around the ear freely, and saturate cotton and place in the ear, and keep wet until relieved.

For Asthma.—Take a wineglassful every three, six or eight hours, according to the severity of the disease.

For Painful Menstruation.—Thirty drops of Witch-Hazel taken hourly, a wet cloth laid over the parts, and the sufferer to lie on her back until relieved.

## DOUBLE DISTILLED EXTRACT OF WITCH-HAZEL

(HAMAMELIS)

DISTILLED FROM THE SHRUB IN BLOOM

## BRIEF DIRECTIONS

For Blind and Bleeding Piles—If external, bathe with Extract, and take a teaspoonful three times a day. If internal, inject a tablespoonful with an equal quantity of hot water night and morning.

For Lameness, Soreness, Stiffness in the Back—Bathe with the Extract, rubbing well.

For Burns, Scalds, Wounds, Bruises or Sprains—Lay on a cloth wet with Extract; moisten it from time to time until relieved.

For Ulcers, Old Sores, or Open Wounds—Apply upon a compress which should be saturated as often as dry.

For Toothache, Earache or Neuralgia—Bathe the face frequently and hold some in the mouth.

For Boils, Carbuncles, Gathered or Broken Breasts—Use hot cloths saturated with Extract. For Sore Nipples apply on lint or cotton after each nursing.

For Earache—Wet some cotton with Extract and place it in ear.

For Inflamed or Sore Eyes—Reduce one-half with water, bathe and drop into the eyes with medicine dropper; at night wet a soft cloth and lay on them.

For Sore Throat—Gargle every hour and keep bandages moistened with Extract around the throat.

For Rheumatism—Rub the painful parts frequently with the Extract, and keep a bandage moistened with the Extract over the seat of the pain until relieved.

For Sore Feet, Chilblains, Stings and Bites of Insects—Bathe until the pain is relieved, then cover the part with a bandage or compress moistened with Extract.

For any Internal Bleeding—Take a teaspoonful and repeat every half hour or hour.

For Sunburn—Bathe with the Extract two or three times.

After Exercising Severely—Rub the muscles well with the Extract to prevent lameness.

After Shaving—Bathe the face with Witch-Hazel.
