Upon motion of Regent Werner, seconded by Regent Gelatt, it was VOTED, That the Vice President of Business and Finance be authorized to sign an agreement between the City of Milwaukee and The Regents of the University of Wisconsin covering the use of space by the University of Wisconsin Extension Center at Milwaukee in the Boys Trade and Technical High School, Milwaukee, Wisconsin, during the 1948-49 school year for Engineering courses, at a rental of \$71.00 per week. (Total estimated cost \$2,130.00)

Upon motion of Regent Werner, seconded by Regent Kleczka, it was VOTED, That the name of the fund established for the support of the Wisconsin Idea Theater project, for which the initial contribution was accepted by the Regents on August 28, 1948, be changed from the Drama Foundation Fund to the Wisconsin Idea Theater Fund.

Upon motion of Regent Werner, seconded by Regent Jones, it was VOTED, That the request of the Mayor of the East Hill Trailer Camp to install a gasoline tank and pump for the sale of gasoline to residents of the East Hill Trailer Camp on a cooperative basis be approved, subject to approval of the installation by the City of Madison Fire Chief, and provided that it is not operated as a self-service station.

Upon motion of Regent Werner, seconded by Regent Gelatt, it was VOTED, That the request of the American Institute of Cooperation, which is holding its next annual meeting at the University of Wisconsin in August, 1949, to use the seal of the University of Wisconsin on their stationery between now and the time of their next annual meeting, be approved.

The Vice President of Business and Finance presented the recommendation of the Dean of the School of Education for an increase in the fee from \$5.00 to \$6.00 per semester for children enrolled in the classes for the teaching of rhythms to children in the Department of Physical Education (Women), School of Education. Upon motion of Regent Werner, seconded by Regent Hodgkins, it was

VOTED, That the recommendation of the Dean of the School of Education for the increase in the semester fee from \$5.00 to \$6.00 for children enrolled in the classes for the teaching of rhythms to children be approved.

Regent Jones presented the report of the Constructional Development Committee and read the following statement:

"The Regents have received the report of the meeting of the Campus Planning Commission held on October 7, 1948, and have been advised of the vote of the faculty in special meeting on October 5, 1948, with reference to the University's building program.

Due to increased construction costs, the funds now available are not sufficient to construct all of the buildings which were given first priority last winter. In fact they are insufficient to construct both the first unit of the Library and the first unit of the Engineering Building.

The Regents share with the Commission and the faculty grave concern over the delay in the construction of the new Library Building. The Library is the number one building need of the University.

The completion of plans for the Library has been delayed due to reasons largely beyond the control of either the University or the State Architect. It is expected that final plans for the Library will be ready in the late winter. Great care has been exercised in the planning of the Library to insure a structure that will include the most modern and efficient arrangements and to provide a building that will be functionally excellent for a great many years. This careful planning has required more time than was originally estimated but eventually will prove to be worth while.

In the meantime the plans for the first unit of the Engineering Building and for the Short Course Dormitories have been completed. The faculty and the Campus Planning Commission have stated

that in their opinion it is not wise to defer the construction of other buildings, which also are urgently needed, in order to reserve unused, already appropriated funds. The Regents concur in that opinion."

Upon motion of Regent Jones, seconded by Regent Gelatt, it was VOTED, That the plans and specifications for the first unit (west wing to house departments of electrical engineering and mechanics) of the Engineering Building be approved.

Upon motion of Regent Jones, seconded by Regent Kleczka, it was VOTED, That authority be granted to advertise for bids for the first unit of the Engineering Building. (Confirming telephone vote.)

Upon motion of Regent Jones, seconded by Regent Kleczka, it was VOTED, That authority be granted to advertise for bids for the Short Course Dormitories.

Upon motion of Regent Jones, seconded by Regent Campbell, it was VOTED, That the architects be requested to expedite the completion of plans and specifications for the Library and other urgently needed buildings in order that the Regents may authorize advertisements for bids within available funds.

Upon motion of Regent Jones, seconded by Regent Campbell, it was VOTED, That the 1949 Legislature be asked to make an appropriation to supplement the 1945 appropriation in Section 20.417 Wisconsin Statutes for the construction of the first unit of a University Library Building and other urgently needed buildings.

Upon motion of Regent Jones, seconded by Regent Hodgkins, it was VOTED, That upon recommendation of the Campus Planning Commission authority be granted to proceed with the development of preliminary plans for the east wing of the Biology Building; that the Vice President of Business and Finance be authorized to request the Governor for the release of funds for the preparation of preliminary plans for the east wing of the Biology Building; and that the Vice President of Business and Finance be authorized to sign a contract or contract amendment for the preparation of preliminary plans for the east wing of the Biology Building with the architects under contract for preparation of the plans for the West Wing of the Biology Building.

Upon motion of Regent Jones, seconded by Regent Hodgkins, it was VOTED, That the plans for the Service Building at the Spooner Agricultural Experiment Station be approved, and that authority be granted for advertising for bids.

Upon motion of Regent Jones, seconded by Regent Kleczka, it was VOTED, That the transfer to the Department of Public Welfare of one additional building (No. 3057) at Truax Field be approved.

Regent Kleczka presented the report of the Personnel Committee. Upon motion of Regent Kleczka, seconded by Regent Hodgkins, it was VOTED, That upon the recommendation of Dr. William S. Middleton, Dean of the Medical School, the following persons be appointed lecturers in public health and preventive medicine in the Medical School, without salary:

Dr. Edwin Hall Jorris  
Dr. Paul Albert Brehm  
Dr. Arthur Raymond Zintek  
Dr. Carl Nicholas Neupert.

Upon motion of Regent Kleczka, seconded by Regent Werner, it was VOTED, That Rudolph K. Froker be appointed Dean of the College of Agriculture, Director of the Agricultural Experiment Station, Director of the Agricultural Extension, and Professor of Agricultural Economics; salary at the rate of \$10,500 per annum, twelve months' basis; the appointment to take effect at once.

President Fred made the following statement with reference to the appointment of Dean Froker:

"Rudolph K. Froker, widely and favorably known agricultural economist, has been named by the Regents of the University of Wisconsin as Dean of the State College of Agriculture. He becomes the sixth to serve as chief executive of the College since it was established more than sixty years ago.

A son of Danish parents, Froker was born in 1901 upon an Iowa farm. When the family moved to Minnesota he attended schools in that state and graduated from its School and College of Agriculture. In the meantime the Frokers moved to a farm in Polk County, Wisconsin, where the family still lives.

In November, 1927, Froker joined the staff of the University of Wisconsin. Except for short leaves of absence, he has been for more than twenty years a member of the Wisconsin agricultural economics faculty. In that time he has helped Wisconsin dairy farmers form and develop their marketing organizations.

The Frokers have four children - Lowell, fifteen; Nacy, twelve; and the twins, Kathleen and Constance, six, all students in Madison schools. Mrs. Froker is a graduate in home economics of the University of Minnesota.

I compliment the Regents upon their choice. Rudolph Froker is splendidly fitted for the position. He is widely known and respected

in every section of the state. He has worked closely with the dairy marketing organizations throughout Wisconsin. His help has been much appreciated in this field which is so important.

He is recognized in this and other states for his work as a teacher, investigator, and extension worker. He has a very real interest in farming, works well with farmers, knows and understands farm people, and he has a broad understanding of agriculture.

Frocker is recognized as a scholar and has shown a high degree of creative ability in his field. His administrative skill has been demonstrated in the leadership of his department and by his successful work with the leaders of the various farm organizations.

I am sure that under his leadership the College of Agriculture of our University will continue to contribute generously to the development and improvement of the farming industry and to the general welfare of the state.

This appointment is a clear recognition of the fact that the farmer of the future will not only be interested and engaged in the production of quality farm products, but also in the distribution and consumption of these products and in the enrichment of the country community."

The Vice President of Business and Finance distributed copies of the report of the University Housing Bureau entitled "Where Students Live". (Copy of report on file.)

The Vice President of Business and Finance reported that the 1949-50 legislative budget requests would have to be filed with the State Budget Director by November 1, 1948, and that it therefore would be necessary for the Regents to consider the legislative budget requests before the next regular meeting of the Board. Upon motion of Regent Kleczka, seconded by Regent Werner, it was

VOTED, That a special meeting of the Regents be held in Milwaukee on Thursday, October 28, 1948, at an hour to be determined later.

At 10:40 A.M. the meeting adjourned.

A. W. Peterson,  
Secretary.

\*\* The Department of Art Education recommends that courses in Art History and Criticism be added to the non-departmental work which may be taken by art students as part of their major. At the present time, a maximum of 16 credits in Home Economics or Horticulture may be submitted by the art student to meet his major requirements. The following is the revised statement on non-departmental courses as it would be if this recommendation is acceptable.

NON DEPARTMENTAL COURSES

Students in either curricula may elect work in the following departments other than Art Education and apply not more than 16 credits so earned to the elective credits in their major.

THE UNIVERSITY OF WISCONSIN  
SUMMARY OF PROPOSED TEN YEAR PROGRAM OF  
NEW CONSTRUCTION AND IMPROVEMENTS

	Total Estimated Costs	Appropriations Available	Additional Appropriations Needed
I. Projects scheduled for immediate construction which it was originally planned to finance from existing appropriations	\$12,977,355	\$ 7,689,082.16	\$ 5,288,272.84
II. Hospital Projects			
General Hospital	\$ 3,248,000	\$ 2,460,000.00	\$ 788,000.00
Cancer Research Hospital	975,000	975,000.00	—
Residents & Interns Dorm.	564,800	564,800.00	—
III. Early Priority Projects Deferred on account of insufficient appropriations	\$ 8,223,100	—	\$ 8,223,100.00
IV. Additional Urgently Needed Buildings & Improvements	\$56,192,980	—	\$56,192,980.00
Totals	\$82,181,235	\$11,688,882.16	\$70,492,352.84

- Note (1) In addition to the above a minimum of \$500,000, and preferably \$1,000,000, should be available annually for remodelling, rebuilding, and improving present buildings.
- (2) No provisions are made in the proposed construction program at the Extension Centers other than Milwaukee. If it is to be the policy of the Legislature that the State, rather than the local communities, is to provide physical plant facilities at the Extension Centers, additional funds should be appropriated for that purpose.
- (3) The schedule does not include funds for student housing. If additional student dormitories are to be made available in order to meet the demands for University dormitory accommodations and without substantial increases in room rates, it would be highly desirable to provide a part of the funds from State appropriations.
- (4) Additional funds will be needed biennially and from year to year for land purchases. It is recommended that special appropriations be made each biennium for this purpose.
