MINUTES OF THE REGULAR MEETING

of the

BOARD OF REGENTS OF THE UNIVERSITY OF WISCONSIN SYSTEM

Platteville, Wisconsin

Held in the Touche Room, UW-Platteville Student Union  
Friday, October 10, 1986  
9:00 a.m.

- President Weinstein presiding -

PRESENT: Regents Clusen, Finlayson, Fish, Flores, Grover, Hanson, Hassett, Heckrodt, Knowles, Lyon, Nikolay, Schenian, Schilling, and Weinstein

ABSENT: Regents Gerrard, Lawton and Vattendahl

Upon motion by Regent Nikolay, seconded by Regent Finlayson, the minutes of the regular meeting of the Board of Regents of the University of Wisconsin System, held on September 5, 1986, were approved as mailed to the members of the board.

✓  
VTAE Board - Report on budget actions, p. 1

REPORT OF THE PRESIDENT OF THE BOARD

Report of the President of the State VTAE Board

Regent Hassett, President of the VTAE Board, reported that action on the biennial budget was delayed until the latter part of this month because the request amounted to an increase of approximately 59 percent in state aids. The board asked the 16 districts to review what would happen if the request were 10, 20 or 30 percent.

HEAB

Report on the September 12, 1986, Meeting of the Higher Educational Aids Board

P. 2

President Weinstein noted that the report was distributed with agenda materials and that regent members Clusen, Finlayson and Nikolay were present at the meeting.

Educational Communications Board - Report on evaluation of director, new building, composition of ECB, budget, teleproduction centers and programming changes

Report on the September 19, 1986, Meeting of the Educational Communications Board

P. 2

Reporting as the regent member of the ECB, Regent Clusen noted that the ECB recently held a closed session to evaluate the executive director. Within the last month, there also had been an orientation briefing for new members, as well as meetings of the committees and the board.

Among the matters discussed was naming of the building purchased to house the board, which probably would be called the Wisconsin Broadcasting Center Building.

The composition of the ECB had been completed with the addition of the chair of the Council on Public Television.

In the 1987-89 biennial budget request, the sum of money for public affairs programming had been substantially increased, which gave UW-Extension more latitude for operation.

Regent Clusen reported that the changes affecting teleproduction centers at UW-Green Bay and UW-Stout had resulted in a more cost-effective operation.

With regard to programming, it was noted that many complaints had been made about recent changes in program schedule.

Kuepper, William

Resolution of Appreciation to William Kuepper, R 3639, p. 2

Regent Finlayson presented the following resolution and moved its adoption. The motion was seconded by Regent Grover and unanimously carried.

Resolution 3639: The Board of Regents expresses its thanks and appreciation to William Kuepper for a very full year of service rendered as Interim Vice President for Academic Affairs for the UW System. To accept the call to duty in System Administration, Dr. Kuepper took leave from the University of Wisconsin-Green Bay where he has been a faculty member and administrator for 20 years. In recognition of his dedication to higher education and to the University of Wisconsin System, the Board of Regents endorses and extends this resolution as a citation for special service.

Board of Regents Meeting 10/10/86

*Regent - Committees - Appointments of committees for UW-Madison & UW-Superior Chancellors, and process*  
*selection*  
Regent Selection Committees: UW-Madison Chancellor; UW-Superior Chancellor  
*p. 3 + EX A*

*Regent Selection Committees for UW-Madison Chancellor - Appointments of committees;*

*Regent Selection Committees for UW-Superior Chancellor - Appointments of committees;*  
President Weinstein announced the appointment of two Regent Selection Committees.

The Regent Selection Committee for UW-Superior Chancellor consisted of Regents Hanson (Chairman), Flores, Hassett, Knowles, Lawton, Weinstein (ex officio) and Schilling (ex officio).

*p. 3*  
For UW-Madison Chancellor, the Regent Selection Committee was composed of Regents Lyon (Chairman), Clusen, Finlayson, Grover, Nikolay, Weinstein (ex officio) and Schilling (ex officio).

The search and selection process was governed by Regent Policy Document 72-18 (EXHIBIT A), the first step of which was appointment of the selection committees. The second step, which had taken place earlier in the day, was for the committees to meet with the system president to discuss qualifications for the positions. After position descriptions were agreed upon, President Shaw would appoint search and screen committees at each institution in accordance with Regent Policy Document 72-18.

*Lawton, Ben D. - Report that he remains very interested in regent business, p. 3*  
Report regarding Regent Lawton

Regent Weinstein reported that earlier in the week he had spoken with Regent Lawton, who sent his regrets about being unable to attend the meeting. He also indicated that he very much appreciated having visitors and he remained very interested in regent business. Regent Weinstein had discussed agenda items with him and had asked for his advice on a number of matters.

Update on Recent Developments

Letter to Wisconsin Association of Manufacturers and Commerce - *Thanks from Pres. Weinstein to supporters of his letter to Assoc. of Manufacturers and Commerce, the prior month, p. 3*

With regard to the letter he had written to the Wisconsin Association of Manufacturers and Commerce, as reported at the September meeting, Regent Weinstein thanked the faculty, staff, students and chambers of commerce who had written in support of his position.

*President -*  
President Shaw to Chair American Council on Education, p. 3

Special Meeting November 14 *to review biennial budgets p. 4*

President Weinstein announced that there would be a special meeting of the board on November 14 to consider the biennial budget.

Board - Meetings - (same)  
  
Statement on Campus Visits

Reporting that during the week of September 29 he and Vice President Bornstein visited UW-Superior, UW-River Falls, UW-Stout, UW-Eau Claire and UW-La Crosse, Regent Weinstein made the following statement: "On each campus I had the opportunity to meet with chancellors, staff, administrative officials, student leadership, city officials, county officials, foundation members, boards of visitors, alumni, friends, benefactors and media representatives. In all respects, I thought the reporting was accurate, except for one report that I had said our annual budget was \$3 billion a year and that we were short \$88 million. Our budget is \$3 billion--not for one year, but for two years. We are short \$88 million per year, which is not petty cash.

"I found it to be a rewarding experience and wanted to report to the board specifically that there is a great reservoir of good will in these communities. I am also convinced that there is growing understanding among area legislators that our UW System is underfunded by \$600 per student per year on the national average. No one argued with me that we were underfunded, nor did they argue that underfunding could eventually affect our quality. As a matter of fact, I thought they were understanding once we explained the options.

"The response to President Shaw's leadership is very positive. People from all over came to tell me specifically that they were delighted with his presence in the UW System. They found it rewarding that he spoke clearly about the issues and they thought they understood what the issues were. They also understood that these were tough decisions and none of them were very easy to make.

"I saw, first hand, at each of the campuses how far we have stretched the administrative budgets and student support services, as campuses try to underpin their instructional budgets. Class sizes have grown beyond prudent educational limits. The number of class sections has diminished, as you know. I found that at every campus administrative budgets and student support services have been stretched to the limit; and I fear even to think about having to stretch them any further. Each campus, of course, has responded in its own way in meeting those needs and they will respond in their own ways, as they should, if we can get to the point where they can begin to address the underfunding gap.

"I found incredible understanding among student leadership groups on these five campuses about the issues surrounding quality and funding. They wanted to discuss the issues and the options rather than attack me or the board or the Legislature. They really wanted to understand the issues and what the choices were. And when we had a chance to talk to each other in an environment that was not in the public light, I found that they were quite understanding of the problem and supportive of our general position.

Board of Regents Meeting 10/10/86

Winsten, Lawrence - *Report of President of the Board,* *campus visits as*

"As to our future course of action, I would urge every one of you and the chancellors to take advantage of one-to-one contacts with legislators and community leaders. The next three to four weeks are going to be very important as we develop our budget. You will be getting a copy of my remarks, because on the second page there is a concise way of presenting our problem to community leaders, and they seem to understand what we are talking about. (Those remarks are attached as EXHIBIT B.)

pp 4-5  
YEX, B

"Lastly, I want to thank Vice President Bornstein for putting the trip together, and especially the chancellors for doing a splendid job. I enjoyed it."

REPORT OF THE PRESIDENT OF THE SYSTEM

Report of Nonpersonnel Actions/Informational Items

Resolution 3640 was moved by Regent Schilling, seconded by Regents Schenian and Nikolay and carried unanimously.

Resolution 3640: That the report of non-personnel actions by administrative officers to the Board of Regents and informational items reported for the record (copy on file with the papers of this meeting) be received for the record; and that actions included in the report be approved, ratified and confirmed.

uw - Platteville - *Presentation to board, pp 5-6*

UW-Platteville Presentation on "A Degree of Difference"

Thanking Chancellor Chmurny and the UW-Platteville community for their gracious hospitality in acting as host for these meetings, President Shaw called on the chancellor for a special presentation about UW-Platteville.

As introduction to his presentation, entitled "A Degree of Difference," Chancellor Chmurny noted that among UW-Platteville's distinctive assets were: (1) degree programs in engineering, sciences and technology, in which 60 percent of the institution's students were enrolled; and (2) a way of educating students which made a lasting impact on their lives.

To illustrate the latter point, the chancellor gave a video tape presentation of alumni comments, noting that among the alumni of UW-Platteville were a Nobel Prize winner in medicine, a Pulitzer Prize winner in history, a Pulitzer nominee in music, two members of the U.S. House of Representatives, the chancellor of UW-Extension, and many others whose contributions had enriched the state, the country and the world.

(x ref) Regents - Presentations - UW-Platteville presentation  
to board on "A Degree of Difference," pp 5-6

The first comment, from a television reporter in a large media market, was that his education at UW-Platteville had prepared him well to compete with other reporters who had graduated from large and prestigious institutions. At UW-Platteville, he had the advantage of personal attention from his professors and hands-on experience, beginning his freshman year, in doing the actual kind of work required in his career.

An engineering graduate commended the diversity of the engineering program, which related not only to technical expertise but also to people-oriented issues. His firm was interested in hiring UW-Platteville graduates for that reason, as well as for the practical aspect of their education which prepared them well for the working world.

An artist who had graduated from UW-Platteville recalled the great amount of time he spent in the university studio learning the basics of modeling with clay and metal. These basics had provided a solid foundation for his career.

Another graduate in the fine arts noted the remarkable improvements on the campus over the years, particularly the magnificent Performing Arts Center. What had not changed, however, was the personal attention of faculty who gave students the opportunity to grow and develop.

A physician who received his undergraduate degree from UW-Platteville recalled his original intention to transfer after two years to a larger university, but he was so satisfied with his education that he remained for the full four years. In medical school, he found that he was as well prepared as students from major institutions. The same point was made by a UW-Platteville graduate who went on to UW-Madison for a master's degree in history.

Other alumni commented that at UW-Platteville they had learned how to learn and that, as a smaller institution, UW-Platteville provided a better learning environment for some types of students than a large university.

The mother of a UW-Platteville graduate recalled that when her daughter decided to drop out of school, one of her professors called her at home and persuaded her to talk with him about the decision. "That's what I call a personal touch," the mother said, adding that her daughter had completed her degree and taught school for a number of years.

An alumnus from a farm family said the breadth of his education at UW-Platteville had prepared him well for his career in farm management.

An alumnus who had become a successful athletic coach credited his coaches at UW-Platteville for the excellent training he received, as well as the small-school environment which combined opportunity to participate in a number of sports with quality academic education.

Concluding the presentation, Chancellor Chmurny expressed appreciation to Karen Allen and David Westerman, of UW-Platteville TV services, for creating the video tape, as well as the alumni who had appeared in it and the students who had assisted in preparing it.

Enrollment - Report by System President on enrollments, p. 7

Report on Enrollments in the UW System

Referring to a report on UW System enrollments for the fall of 1986-87, President Shaw noted that projections were within 0.4 percent of actual enrollments, and that in past years projections had been within one percent of accuracy. Systemwide, enrollments were 61 less than last year. There were some declines at UW-Madison and the UW Centers. In the comprehensive universities, enrollments increased at UW-Eau Claire, UW-La Crosse, UW-Oshkosh, UW-Parkside, UW-River Falls, UW-Stevens Point and UW-Superior, while enrollments at the other universities decreased slightly. In many cases, he pointed out, enrollments were decreased by design.

Report of the United Council of UW Student Governments

of Regent Study Group on minorities, UWS/VTAE task force, funding +

Bryce Tolefree, President of United Council, commented on several issues before the Regent Study Group on the Future of the UW System.

council, campaigns, p. 7

Stating support of the recommendations regarding the status of minorities as students and faculty, he emphasized the importance of maintaining a balance between minority student recruitment and retention. United Council also supported the proposed Joint UW System/VTAE Task Force on course duplication and the proposal to make easier the transfer of credit from the UW Centers to other system institutions.

As to revenue for quality improvement, Mr. Tolefree commented on the need for cooperation and understanding from students, faculty and administration, working with the Legislature and the regents to find the best solution to the problem of underfunding. He urged that the regents take into consideration the difficulty experienced by minority and disadvantaged students in financing their education. He also emphasized the importance of making clear the needs of each university, so that students and others dealing with the Legislature could give specific examples of where quality was lacking in order to justify the need for funding. With regard to tuition at UW-Milwaukee, he commented that tuition levels should not be considered an indicator of the university's stature and that UW-Milwaukee had a special mission to serve nontraditional and disadvantaged students.

In conclusion, Mr. Tolefree reported that United Council was involved in providing information to legislators and in a statewide voter registration campaign. In addition, there was an upcoming leadership conference at which Regents Clusen and Schenian were scheduled to speak.

- - -

REPORT OF THE EDUCATION COMMITTEE

Chairman Finlayson presented the report of the committee.

~~Report of the Vice President~~

*Goals by VP of Academic Affairs, p. 8*

Vice President Trani reported to the committee on the goals he had set for the Office of Academic Affairs for 1986-87. He also announced his plan to establish a rotating internship program in the Office of Academic Affairs for faculty or staff members of system institutions. The program was to be funded by conversion of a vacant academic planner position.

*✓ UW-Platteville - Presentation to Educ. Comm. on Traditions of Excellence, p. 8*

UW-Platteville Presentation: Traditions of Excellence

Noting that these meetings coincided with the 120th anniversary of the founding of the first normal school in Wisconsin at Platteville, Regent Finlayson reported that the committee viewed an informative and interesting video tape entitled "Traditions of Excellence," which described the past, present and future of the two basic curricular roots of the university--the Colleges of Education and Engineering. Following the presentation, Vice Chancellor Halgren, Dr. Charles Edwards, Dean of the School of Education, and Dr. Ross McDonald, Dean of the College of Engineering, responded to questions from the committee.

*✓ Academic Programs - Burlington - for new UW-Madison program - M.S. in Biometry, R 3641, p. 8*

Second Reading of New Academic Program: UW-Madison, M.S., Biometry

The proposed program in biometry, which had been brought to the regents for its first reading in September, was approved unanimously by the committee on second reading.

Regent Finlayson moved and Regent Hanson seconded the following resolution which was adopted unanimously by the board:

Resolution 3641: That, upon the recommendation of the President of the University of Wisconsin System, and the Chancellor of the University of Wisconsin-Madison, the Chancellor of the University of Wisconsin-Madison be authorized to plan and implement the Master of Science in Biometry.

*✓ UW-Platteville - Five-yr. review, B.S., Electrical Engineering, pp 8-9*

Report on Five-Year Review: UW-Platteville, B.S., Electrical Engineering

Reporting on the five-year review, Regent Finlayson said Vice Chancellor Halgren summarized the program review process at UW-Platteville and pointed out that this review was conducted in the context of three other review cycles being carried out concurrently. Dr. Ross McDonald, Dean of the College of Engineering, and Dr. Richard Schultz, Chair of the Department of Electrical Engineering, described the undergraduate program in electrical

*Academic Programs - Five-year review, UW-Platteville, B.S., Electrical Engineering, pp 8-9*

engineering, which anticipated graduating 70-80 students each year. Reallocation of budget and positions within the College of Engineering was to increase the faculty complement to 10.25 FTEs next year--close to a 20-1 ratio of students to faculty.

✓ Authorizations to Recruit -

➔ Authorization to Recruit, Head Football Coach, Intercollegiate Athletics, R 3642, PP 9-11

Reporting that the committee approved Resolution 3642 by a four-to-one vote, Regent Finlayson noted that Board of Regents' approval was necessary for authorization to recruit for positions titled dean and above and for any positions in which the salary might exceed the maximum of Group 5 of the Executive Pay Plan (currently \$68,000).

(X ref) - athletics - (same)

It was moved by Regent Finlayson and seconded by Regents Knowles and Hassett that the following resolution be adopted by the board:

(X ref) - Football - (same)

Resolution 3642: That, upon the recommendation of the President of the University of Wisconsin System and the Chancellor of the University of Wisconsin-Madison, the authorization to recruit for a Head Football Coach, Intercollegiate Athletics, be approved.

(Note: The recommended salary range for this position was \$75,000 to \$99,000 per year.)

While he recognized the market forces at work in recruiting a head football coach and the importance of the football program to UW-Madison, Regent Flores expressed concern about societal priorities which resulted in a football coach being paid more than a chancellor or other leading educators.

Regent Finlayson pointed out that the coach's salary was to be paid from gate receipts and gift funds, not from tax dollars.

Regent Hanson observed that the market value of the system president and chancellors was more than they could be paid in Wisconsin. She found it ironic that a way could be found to pay a football coach more than the chancellor, and she objected to the sense of priorities indicated by that situation.

President Shaw remarked that the State Executive Pay Plan, which set limits on salaries of top administrators, caused anomalies such as this in the salary structure. Included in the Executive Pay Plan were the president, chancellors, vice chancellors and vice presidents, among others. Because salaries were below market levels for those positions, recruitment of top administrators was difficult. However, he noted that if the salaries of deans and others were held to lower levels for the sake of symmetry, the problem would be compounded, since recruitment of candidates for those positions also would be difficult. While it was necessary to address the problems posed by the Executive Pay Plan, he did not believe that issue should not result in lowering the proposed salary for the coach.

Observing that there were the same kind of salary inequities in the private sector, Regent Fish added that without the football program, UW-Madison would have to eliminate many minor sports. While he shared the concerns expressed by Regents Hanson and Flores, he remarked that even at \$100,000, the salary would be under market rates, just as chancellors' salaries were.

The real choice, Regent Fish commented, was whether to deemphasize athletics and accept the problems which would come with that decision, or whether to meet the competitive market for a coach. While a strong argument could be made for either view, he did not believe one could expect to maintain a revenue-producing sport without being competitive in terms of salary. If there was not willingness to pay competitive salaries, he felt sports should be deemphasized.

Stating that she would vote against the resolution, Regent Clusen observed that the juxtaposition of recruitment of a UW-Madison chancellor and head football coach brought to public attention the salary inequity which existed and provided the opportunity to make a statement about the relative value of academics and of athletics. She also considered it inconsistent to find the coach's salary acceptable because it came from program revenue, while at the same time professors who generated large amounts of gifts or grants did not have their salaries raised accordingly. "I say that this is not the time and place to indicate that we are on the side of more inequity."

Stating that approval of the resolution did not mean that academic values would be sacrificed for the athletic program, Regent Heckrodt added that the athletic program enabled many disadvantaged and minority students to attend the university. The athletic program also was a rallying point which influenced a large number of gifts to the university. "If it is going to cost \$25,000 more to ensure a better football program, I think it is worth it from a public relations standpoint and also for the betterment of the university. I would support this resolution very strongly."

Stating that he would vote for the resolution, Regent Flores observed, however, that it was necessary to stay competitive in academic programs as well as in athletic programs. "I hope that when we come to the issue of salaries for our staff and our educators that we are willing to find a way to go above the maximum."

- Vice President Schilling presiding -

Regent Weinstein explained that the request to pay above the Group 5 maximum was legal authorization to pay more than certain amounts of money for certain positions, such as the head football coach, among others. The board was legally authorized to pay that person more than the Group 5 maximum, without any further approval. Regent Weinstein's position was that all system personnel should be paid competitive salaries based on what comparable institutions paid staff for similar work. Therefore, he was prepared to support the resolution if there was evidence that the amount requested fit that criterion. With regard to top administrative salaries, the problem was that the board was legally constrained from paying more than the amounts provided by the Executive Pay Plan. Expressing hope that the Board of Regents would state its frustration with the Executive Pay Plan, he

added, however, that did not mean "we ought to hold everybody else in the UW System hostage to what the Legislature imposed on us in the first place. That only makes the problem worse."

- President Weinstein presiding -

Responding to Regent Weinstein's request for information on comparable salaries, Chancellor Shain said that, before recommending a pay range, UW-Madison conducted a study of Big Ten coaches' salaries, which showed UW-Madison to be substantially below the median of the Big Ten in most sports. Including UW-Madison, the average of the Big Ten was \$90,400 for head football coaches, at base salary, not counting perquisites. Because the UW-Madison salary was about \$15,000 below any of the other universities, the average would be higher if UW-Madison were not included. The chancellor felt it would be necessary to pay somewhat above the average in order to attract a coach from a successful program.

Regent Schilling asked if there had been any inquiry regarding salaries outside of the Big Ten.

Replying in the affirmative, Chancellor Shain indicated that a survey of the Big Ten, the Pac-Ten, and the College Football Association showed that the UW-Madison salary was well below the average.

Regent Fish added that *USA Today* had done a survey of coaches' salaries, to which a high percentage of institutions responded, and that this information might be helpful to the board. (The article was obtained and distributed to the regents.)

Expressing agreement that the Executive Pay Plan should be changed, Regent Hassett said he would support the resolution, but would do so reluctantly because it would pay a coach more than a chancellor.

Regent Schenian said he also would vote for the resolution. One reason not yet stated was that the UW-Madison students did not have to support intercollegiate athletics through segregated fees because it was a self-supporting program, and paying the football coach a comparable salary would help save the students' money.

Put to the vote, Resolution 3642 was adopted, with Regents Clusen and Hanson voting "No."

*Executive Pay Plan*

Executive Pay Plan Study Referred to Business and Finance Committee PP 11-12

President Weinstein referred the matter of the Executive Pay Plan to the Business and Finance Committee for further study in consultation with President Shaw.

*Regents - Committee - (same)*

Regent Fish recalled that when the state's judges succeeded in being removed from the Executive Pay Plan, they found they also had been removed from receiving salary increases. He and former Governor Lucey then co-chaired a judicial salary review committee which recommended returning

*Regents - Business + Finance Committee - (same)*

*Compensation - (same)*

*Salaries - (same)*

the judges to the Executive Pay Plan in order to achieve equity in judicial salaries. Based on that experience, he was skeptical about the prospects for increasing salaries of university administrators by removing them from the plan.

Authorization to Recruit

Authorization to Recruit, Chancellor, UW-Madison, R3643, p.12

Upon motion of Regent Finlayson, seconded by Regent Nikolay, the following resolution, which was unanimously approved by the committee, was adopted unanimously by the board:

✓ (xref Chancellor - same)

Resolution 3643: That, upon the recommendation of the President of the University of Wisconsin System, the Board of Regents approves the Request for Authorization to Recruit for a Chancellor at the University of Wisconsin-Madison.

✓ Professors

Named Professors, UW-Madison

Regent Finlayson presented Resolution 3644 and 3645, which had been approved in closed session of the Education Committee.

Regent Finlayson moved and Regents Hanson and Knowles seconded Resolution 3644, which was unanimously adopted by the board.

Resolution 3644: ~~That, upon the recommendation of the President of the University of Wisconsin System and the Chancellor of the University of Wisconsin-Madison, the status of Max G. Lagally, Professor in the Department of Metallurgical and Mineral Engineering, University of Wisconsin-Madison, be changed to a Bascom Professor in Surface Science and Technology in the Department of Metallurgical and Mineral Engineering, University of Wisconsin-Madison, effective immediately.~~

Resolution 3645: ~~That, upon the recommendation of the President of the University of Wisconsin System and the Chancellor of the University of Wisconsin-Madison, the status of Ted Finman, Professor, Law School, be changed to Bascom Professor, Law School, University of Wisconsin-Madison, effective immediately.~~

✓ (xref Finman, Ted - same)

R 3644, p.12  
R 3645, p.12

REPORT OF THE BUSINESS AND FINANCE COMMITTEE

Chairman Lyon presented the committee's report.

Gifts, Grants and Contracts

Vice President Case reported to the committee that gifts, grants and contracts for the fourth month of this fiscal year totaled \$135.3 million, or \$8 million more than the same period last year--a 6.3 percent increase. The non-federal share increased 37.5 percent over a year ago, while the federal share decreased 2 percent over the same period. Federal receipts decreased in instruction, student aid and extension but increased \$2.9 million for research. Non-federal receipts increased in all categories except student aid and extension, with contributions from for-profit industrial corporations accounting for a considerable portion of the non-federal increase. It was recognized that month-to-month changes could be misleading due to timing of receipts and that monitoring over the coming months would give a more accurate picture of the apparent downward trend in federal receipts.

Resolution 3646, which was unanimously approved by the committee, was moved by Regent Lyon, seconded by Regent Nikolay and adopted unanimously by the board.

Resolution 3646: That, upon recommendation of the President of the University of Wisconsin System, the gifts, grants and contracts presented at this meeting (copy on file with the papers of this meeting) be accepted, approved, ratified and confirmed; and that, where signature authority has not been previously delegated, appropriate officers be authorized to sign agreements.

Resolution 3648: That the A. Keith Brewer Memorial Fund be accepted by the Board of Regents of the University of Wisconsin System in accordance with the third amendment to the living trust; and that the Trust Officer or Assistant Trust Officers be authorized to sign receipts and do all things necessary to effect the transfer for the benefit of the UW-Platteville, Department of Biology, Platteville, Wisconsin.

Oklahoma  
→ Approval of Land Transactions in the State of Oklahoma, R 3649, p. 14

Reporting that Resolution 3649 was unanimously approved by the committee, Regent Lyon moved its adoption by the board. The motion was seconded by Regent Knowles and carried unanimously.

Xref Bldg & Land - (same)  
Resolution 3649: That the offer of the State of Oklahoma, Department of Transportation, to acquire 2.29 acres for a highway right-of-way and 1.76 acres as a temporary detour easement for the appraised valuation of \$1,275.00 be accepted; and that the President or Vice President and Secretary or Assistant Secretary be authorized to sign the deed and easement. Authority is also granted to execute a power line easement with the Tri County Electric Company if said line is relocated on this property in Texas County, Oklahoma.

Report of the Vice President

Reviewing with the committee the *Fiscal Year 1986-87 Projection Summary Report*, Vice President Case noted that the reserve for revenue shortfall and other contingencies as of June 30, 1987, was \$1,063,000, or 0.14 percent of the annual budget. This compared to a reserve of \$1,256,000 a year ago.

REPORT OF THE PHYSICAL PLANNING AND DEVELOPMENT COMMITTEE

Chairman Nikolay presented the report of the committee.

Approval of Major Project Concept and Budget Reports and Preliminary Study

Reporting unanimous committee approval of Resolutions 3650, 3651 and 3652, Regent Nikolay said the first resolution concerned a \$679,000 budget increase and the concept and budget report for a surgical science addition to the UW-Madison Hospital. The revised project cost of \$4,599,000 would be funded with \$3,999,000 of gift/grant funds and \$600,000 of hospital program revenues. This project was to be incorporated in the UW System's capital budget.

Resolution 3651 requested approval of a \$1,474,000 budget increase in the concept and budget report for the radiology addition at UW Hospital, for a revised total cost of \$4,724,000. Funding would come from \$3,250,000 of program revenue bonding authorized in the 1985-87 capital budget and \$1,474,000 of hospital program revenues.

Resolution 3652 requested approval of a plan to construct two new modules at UW Hospital to serve medical records and management services and to remodel two existing modules. The space being used by medical records and management services would be converted to serve ambulatory surgery. The space presently occupied by ambulatory surgery would allow expansion of the adjacent critical care and cardiac intensive care program. The estimated project cost of \$8,553,000 would be provided by the UW Hospital and Clinics' program revenues.

The committee discussed each of these requests in depth with system administration and hospital administration staff, particularly with regard to their impact on the 1987-89 capital budget.

Resolutions 3650, 3651 and 3652 were moved by Regent Nikolay, seconded by Regent Heckrodt and adopted unanimously by the board.

Resolution 3650: That, upon the recommendation of the UW-Madison Chancellor and the President of the University of Wisconsin System, the Concept and Budget Report be approved for the Surgical Science Addition to the Clinical Science Center and authority granted to plan, bid and construct, subject to the project's enumeration in the State's Authorized Building Program with a \$679,000 budget increase to a total cost of \$4,599,000 from the following funding sources:

Gift and Grant Funds	\$3,999,000
UW Hospital and Clinics Program Revenues	<u>600,000</u>
	\$4,599,000

*Hospital - Bldgs - Approval of Surgical Science addition, radiology facility addn., and Ambulatory Surgery / Critical care / management services / Medical Records project, R 3650, R 3651, R 3652, pp 15-16*

Resolution 3651: That, upon the recommendation of the UW-Madison Chancellor and the President of the University of Wisconsin System, authorization be granted for an increase of \$1,474,000 in the budget of the 1985-87 Clinical Science Center Radiology Facility Addition, the Concept and Budget Report be approved, and authority granted to plan, bid and construct the project at a total revised cost of \$4,724,000. This project will be funded from Program Revenue Bonding Authority (\$3,250,000) and UW Hospital and Clinics Program Revenues (\$1,474,000).

Resolution 3652: That, upon the recommendation of the UW-Madison Chancellor and the President of the University of Wisconsin System, the Preliminary Study be approved and authority granted to seek the release of \$190,000 of Program Revenue Funds to prepare a Concept and Budget Report for a Clinical Science Center Ambulatory Surgery/Critical Care/Management Services/Medical Records project, at a total estimated cost of \$8,553,000. Enumeration of this project will be requested in the 1987-89 capital budget, to be financed entirely by University of Wisconsin Hospital and Clinics Program Revenue Bonding Funds.

*UW-Platteville - Bldg + Land*

UW-Platteville: Approval of Concept and Budget Report for Ottensman Hall Remodeling, R 3653, P. 16

The committee unanimously approved Resolution 3653 concerning the Ottensman Hall remodeling project, which was within the scope of the previously approved program and budget.

Adoption by the board of the following resolution was moved by Regent Nikolay, seconded by Regent Schenian and carried unanimously.

Resolution 3653: That, upon the recommendation of the UW-Platteville Chancellor and the President of the University of Wisconsin System, the Concept and Budget Report be approved for the Ottensman Hall Remodeling project and authority granted to plan, bid and construct, at an estimated total project cost of \$1,100,000 from 1985-87 General Fund Supported Borrowing Funds.

UW-Madison: Approval to Expand Scope and Increase Budget of Primate Research Center Annex Remodeling, R 3654, pp 16-17

Regent Nikolay reported unanimous approval by the committee of a request by UW-Madison to increase the scope and budget and to construct phase 1 of the previously approved Primate Research Center Annex

*Primate Center - (same)*

remodeling. This project would combine previously identified phases 1-4 into phase 1, at an estimated cost of \$1,130,000. The remaining \$87,000 of work associated with the ventilating system would comprise phase 2 and would be constructed when the funding became available. The expanded scope of the project was made possible by the receipt of more federal funds than had been anticipated.

It was moved by Regent Nikolay, seconded by Regent Schenian and carried unanimously that the following resolution be adopted by the board:

Resolution 3654: That, upon the recommendation of the UW-Madison Chancellor and the President of the University of Wisconsin System, the following actions relating to the Primate Research Center Annex Remodeling project be authorized:

- (1) to increase the scope of Phase 1 of the project to include additional remodeling and code compliance work and to combine previously identified Phases 1, 2, 3, 4, and 5 into Phases 1 and 2;
- (2) to bid and construct Phase 1 of the revised and expanded scope project for an estimated first phase project cost of \$1,130,000; and
- (3) to bid and construct Phase 2 of the project at a cost of \$87,000 when the funds are available

and that the Concept and Budget Report be approved which incorporates the expanded scope and budget outlined above.

The estimated total cost of both phases will be \$1,217,000, to be financed entirely with federal funds.

UW-Eau Claire - Bldg + Rent -

UW-Eau Claire: Approval of Renewal of Lease of Park School to Eau Claire Joint School District No. 5 , R 3655, pp 17-18

Resolution 3655, which was unanimously approved by the committee, was moved by Regent Nikolay, seconded by Regent Schenian and unanimously adopted by the board.

Resolution 3655: That, upon the recommendation of the UW-Eau Claire Chancellor and the President of the University of Wisconsin System, authority be granted to renew the lease with Eau Claire Joint School District No. 5. The lease provides for joint utilization of the UW-Eau Claire Park School Building for educational purposes for the fifteen year period commencing with the 1986-87 academic year, and ending with the 2000-2001 academic year. The school district shall pay \$66,250 in 1986-87 for services, heat, utilities and depreciation, with annual payments to be made in ten equal monthly installments beginning September 30, 1986. The annual rent each year after the first year shall be increased three percent over the annual rent for the preceding year.

UW-River Falls: Naming of a Building

Regent Nikolay reported unanimous approval by the committee of a request by UW-River Falls to rename the former food service portion of May Residence Hall the "Emogene A. Nelson Building," in honor of a distinguished member of the faculty who died in 1984.

Resolution 3656 was adopted unanimously by the board, upon motion by Regent Nikolay, seconded by Regent Schenian.

Resolution 3656: ~~That, upon the recommendation of the UW-River Falls Chancellor and the President of the University of Wisconsin System, authority be granted to rename the portion of May Hall that formerly functioned as the Food Service Building the "Emogene A. Nelson Building."~~ *R 3656, p. 18*

UW-Stout: Approval to Grant Utility Easement to Northern States Power Company

The committee unanimously approved a request by UW-Stout to grant an additional 56x33 foot utility easement to Northern States Power Company.

Regent Nikolay moved and Regent Schilling seconded the following resolution which was adopted unanimously by the board:

Resolution 3657: That, upon the recommendation of the UW-Stout Chancellor and the President of the University of Wisconsin System, authority be granted for the President or Vice President and Secretary or Assistant Secretary of the Board of Regents to execute an easement to the Northern States Power Company across a portion of UW-Stout land, ~~including:~~

UW-Stout - Bldg Land

R 3657, pp 18-19

Part of vacated Wilson Avenue; being a part of Lot 1, Block 52 and part of Lot 4, Block 77, Original Plat of the Village (now City of Menomonie), more fully described as follows:

Beginning at a point on the westerly right-of-way line of South Broadway Street said point being 275 feet northerly of the northerly right-of-way line of vacated 9th Avenue; thence continuing northerly along the westerly right-of-way line of South Broadway Street 33 feet; thence westerly perpendicular to the westerly right-of-way line of South Broadway Street 56 feet; thence southerly parallel with the westerly right-of-way line of South Broadway Street 33 feet; thence easterly 56 feet to the point of beginning.

Approval of Minor Projects

Regent Nikolay reported unanimous committee approval of several minor projects. The first was for phase 1 of a hangar for the UW-Madison med-flight helicopter at a cost of \$249,000 from hospital program revenues. The remaining requests were for roof repairs and replacements at UW-Eau Claire, UW-Madison and UW-Stout, using \$477,800 of minimum maintenance funds and \$650,200 of program revenues for projects involving UW-Madison, UW-River Falls, UW-Stevens Point and UW-Superior.

Adoption by the board of Resolution 3658 was moved by Regent Nikolay and seconded by Regent Heckrodt.

Resolution 3658: That, upon the recommendation of the respective UW System Chancellors and the President of the University of Wisconsin System, the following minor projects be approved and authority granted to plan, bid and construct at the budgets indicated and from the following funding sources:

1985-87 General Fund Supported Borrowing-	
Minimum Maintenance Allocation	\$ 477,800
Program Revenues	899,200
	<u>\$1,387,000</u>

UW-Madison, River Falls, Stevens Point and Superior - Roof Repair/Replacement Projects, Program Revenues, \$650,200.

R 3658, pp 19-22

Regent Schilling expressed concern about the cost of the helicopter hangar which amounted to \$80 per square foot.

Then some reference each campus above w/ notation: Approval

Explaining the cost, Vice Chancellor Jay Noren said the hangar was to be built into a hillside next to the Emergency Department. The hill, on which the Max Kade Institute was located, was an historical site on the campus. To preserve that area, it would be necessary to excavate into the hillside and to locate the hangar about two-thirds below grade, which increased the cost substantially.

of repairs/replacements  
R 3658, pp 19-22

(UW-Madison is listed under "Stout & R and")

In response to a question by Regent Schilling, Dr. Noren indicated that the helicopter was leased by the university for about \$800,000, including the cost of pilots, mechanics and maintenance. The hangar was needed to protect the helicopter during the winter so that service would not have to be denied due to cold weather and freezing of brakes, fuel line, operating systems or rotor blades. Last winter, 13 flights could not be made because of such conditions and thus the expectation of help for critically ill or injured patients could not be met. The purpose of the hangar was to protect response times and responsiveness from problems with weather.

Regent Schilling asked if it was necessary for the hangar to be in the proposed location.

Dr. Noren replied that a number of sites had been explored, but that the proposed site was the only feasible location which satisfied the needs for proximity to the emergency room and protection of the helicopter. There were serious drawbacks to all other sites considered, including the roof of the hospital.

Regent Flores asked why it was important for the helicopter to be stored near the hospital rather than at the airport.

There were two reasons for storing the helicopter near the hospital, Dr. Noren explained, the first being that every helicopter transport carried with it a critical care physician and nurse. If the helicopter had to travel from the airport to the hospital to pick them up, valuable response time would be lost. The second reason was that storing the helicopter at the airport would double the number of flights, which increased the amount of noise over the residential areas of the city and also increased the costs, since a maintenance cost was involved every time the engines were fired.

Regent Weinstein asked if there was any flat land close to the hospital on which the hangar could be located.

While nearby flat land was one of the options considered, Dr. Noren said, there was a response-time problem with any such site, as well as the prospect of double flights. A third factor was that the proposed site was less disruptive in terms of appearance than a hangar built on flat land.

In response to a question by Regent Flores, Dr. Noren indicated that the construction schedule called for the hangar to be completed by January 1987, so as to protect the helicopter during the worst of this winter's weather.

Noting that construction of the hangar was to be paid from program revenue, Regent Fish asked if patients were charged a fee for the helicopter service.

Replying in the affirmative, Dr. Noren said the charge was about \$800 per transport, whereas the cost was about \$1000. Because most such patients were critically ill, the average cost per hospital stay was about \$20,000.

In response to a question by Regent Schilling, Dr. Noren said the Hospital Council of Trustees supported construction of the hangar on the proposed site.

Noting that the value of the med-flight service was not being questioned, President Weinstein said his understanding of the concern being expressed was about the prospect of buying a \$249,000 structure for a piece of equipment not owned by the university. He asked what would happen if it were decided in the future to discontinue the service.

Dr. Noren did not consider that likely to occur because such services were increasing very rapidly across the nation. There currently were 120 med-flight systems in the country (three in Wisconsin) and fewer than 20 had been discontinued.

Regent Fish asked if the lease price for the helicopter would decrease due to improved facilities for housing it, to which Dr. Noren responded in the negative. Regent Fish commented that the cost should decrease since the helicopter could be expected to last longer under well-sheltered conditions.

Because of all the issues which had been raised, Regent Schilling asked if the Physical Planning and Development Committee would be receptive to reviewing the matter further.

Since the committee unanimously approved the project, Chairman Nikolay did not think further committee review would be helpful. He felt there was no more satisfactory solution than to build the hangar.

Noting that the committee had discussed the project at length, Regent Heckrodt remarked that every firing of the engine hastened the time when it would have to be overhauled--another expense for the university. Every flight to the airport cost about \$100, in addition to a landing fee.

Dr. Noren added that the loss of 13 flights last year amounted to \$260,000 in revenue lost from not having a hangar.

Regent Clusen noted that members of the Physical Planning and Development Committee had expressed the same kind of concerns being set forth at this meeting. While she did not consider the proposed solution satisfactory, she did not know of a better alternative.

Dr. Noren added that another problem with storing the helicopter at the airport was that snow had not always been cleared away promptly, which resulted in flights being missed.

Relating the project to the hospital's overall mission, Regent Finlayson stated: "We exist because of the patient, and to whatever degree we can improve quick response and quality patient care, we should do so."

Regent Flores agreed that the primary purpose of the hangar was to make sure that response time was satisfactory and that the helicopter could respond at all times. He asked what the savings would be for a hangar built near the hospital on flat land, to which Dr. Noren replied that the savings might be approximately 20 percent.

Put to the vote, Resolution 3658 was adopted, with Regent Schilling voting "No."

#### Report of the Vice President

Concluding the report of the Physical Planning and Development Committee, Regent Nikolay stated that informational reports were provided relating to bid openings and actions of the State Building Commission on UW System requests at its August and September meetings. Many bids were substantially under estimates.

He expressed appreciation to Chancellor Chmurny and UW-Platteville staff for the excellent arrangements they had made for tours of campus facilities.

UW-Platteville  
ADDITIONAL RESOLUTIONS

Resolution of Appreciation to UW-Platteville for hosting meeting, R 3659, P. 23

Regent Clusen presented Resolution 3659 and moved its adoption. The motion was seconded and unanimously adopted.

Resolution 3659: Whereas, the Board of Regents has had the pleasure of holding its October 1986 meetings at UW-Platteville; and

Whereas, it is particularly appropriate to visit UW-Platteville at the beginning of its celebration of the 120th anniversary of the founding of its predecessor institution as the first normal school in the State of Wisconsin; and

Whereas, this visit has been enhanced by the many special arrangements made for this occasion, including interesting and informative presentations and tours of campus facilities; and

Whereas, the gracious and warm hospitality extended by Chancellor Chmurny, his staff and the entire Platteville community is very much appreciated;

Therefore, be it resolved that the Board of Regents hereby expresses its gratitude to UW-Platteville for a very memorable and enjoyable visit.

CLOSED SESSION ACTIONS

The board arose from closed session at 11:40 a.m. and made the following announcements:

✓  
Vice Chancellor - Approval of

Resolution 3661: That, upon the recommendation of the President of the University of Wisconsin System and the Chancellor of the University of Wisconsin-Madison, the appointment of Dr. J. Jay Noren as Vice Chancellor for Health Sciences, University of Wisconsin-Madison, ~~be approved, effective October 10, 1986, at an annual salary of \$75,000.~~

R 3661, p. 24

✓  
Chancellor - Appointment of

Resolution 3662: That, upon the recommendation of the President of the University of Wisconsin System and the Regent Selection Committee, Stephen R. Portch ~~be appointed, Chancellor of the UW Centers, effective November 1, 1986, at an annual salary of \$73,000.~~

R 3662, p. 24

---

The meeting was adjourned at 11:40 a.m.

**BOARD OF REGENTS OF THE  
UNIVERSITY OF WISCONSIN SYSTEM**

POLICY DOCUMENT 72-18

RESOLUTION # 325

DATE 11-3-72

**SUBJECT:** Search and Screen Procedures for  
Chancellors, Executive and Academic Vice Presidents

---

---

**Resolution 325:  
(Policy - Revision)**

That Resolution 59 of this Board is hereby rescinded, and

That the procedure for selecting Chancellors, Executive Vice President, and Academic Vice President be approved as follows:

1. Upon indication of such vacancy, the President of the Board would promptly designate a Special Regent Committee to be involved in the selection process for a replacement consisting of not less than three nor more than five Regents. The Board President would designate a chairman of the Special Committee.
2. The Special Committee would then confer with the President of the System and advise him at that point of any special qualifications for the position which they felt should be considered. In essence, the Special Committee would work with the System President to produce a brief job description taking into account the special characteristics of the institution at which the Chancellor would serve or the special characteristics of the administrative position to be occupied.
3. The System President would then appoint a Search and Screen Committee comprised of:
  - a. A majority of faculty, selected by the System President after consultation with appropriate faculty representatives.
  - b. Students and administrators.
  - c. A chairman shall be appointed by the System President from among the faculty members of the Committee.

The Search and Screen Committee would be provided with the job description prepared by the System President and the Special Committee. Interviews of candidates by the Search and Screen Committee will be within the discretion of that Committee.

4. The Search and Screen Committee would subsequently return a list to the System President of at least five individuals that they felt were qualified in unranked order along with an alphabetical list of all persons considered. Delivery of the list shall be at a joint meeting of the Search and Screen Committee, the System President and the Special Committee in order that the System President and the Special Committee can receive an oral presentation on each of the candidates recommended. The Search and Screen Committee would then be discharged, provided, that if no person contained in the initial list presented by the Search and Screen Committee is found acceptable, then the Search and Screen Committee shall be reactivated and asked to provide a second list of at least five additional candidates.

**EXHIBIT A**

**BOARD OF REGENTS OF THE  
UNIVERSITY OF WISCONSIN SYSTEM**

POLICY DOCUMENT 72-18 Cont

RESOLUTION # 325

DATE 11-3-72

**SUBJECT:** Search and Screen Procedures for  
Chancellors, Executive and Academic Vice Presidents

---

---

5. The System President, in conjunction with the Special Committee, would review all of the recommended candidates and interview those they desired. The System President would then make his recommendation to the Special Committee which in turn would make its report on the System President's recommendation to the Board.

6. Final approval of the System President's selection shall be made by the Board of Regents.

7. This resolution shall not apply to the selection process for those positions presently under active consideration except that steps of the foregoing procedure which will not unduly restrict the selection of candidates for such positions shall be applied.

This process shall apply to such other positions as the Board shall from time to time determine under Resolution #80.

REMARKS BY LAURENCE A. WEINSTEIN  
PRESIDENT, BOARD OF REGENTS OF THE UW SYSTEM

AT

UW-SUPERIOR, UW-RIVER FALLS, UW-STOUT, UW-EAU CLAIRE, UW-LA CROSSE

SEPTEMBER 29, 30 AND OCTOBER 1, 1986

I'm pleased to be here and to have the opportunity of seeing first hand your most impressive university. My motives for joining you today are three-fold.

First, I want to learn more about your superb institution. While your chancellor and his staff represent your campus with great ability and enthusiasm at our monthly Board of Regents meetings, there is simply no better way to know your institution than by seeing it in person.

Second, I hope to demonstrate the commitment of the Board of Regents to this university. We respect your mission, we understand your special significance in this area of the state, and we applaud your commitment to excellence.

Each of the UW System's 26 institutions has an educational mission which makes it important and special to the system and to the state.

My third reason for being here is to share with you the blueprint for the future of the University of Wisconsin System -- a strategic plan that the regents have been developing since January of this year.

Our report will be ready for public hearings in early November. We encourage and seek your input at all times. Before we can effectively plan for the future, we must understand ourselves, our traditions and values.

Wisconsin is simply not "any place U.S.A." It is a very special place, as you know. For over one hundred years, our citizens have made a commitment to education that is the envy of the nation. This commitment has produced a highly skilled and well educated work force and blessed us with a special quality of life.

I reject those who wish we would just be average. We cannot afford to aspire to that kind of standard. We, in Wisconsin, must judge ourselves by what we value, not simply by how little we spend.

That special commitment to education poses challenges which the UW regents have been addressing. I hope you will also join us in considering those challenges as we plan for the future.

In Wisconsin, we should be proud of the fact that we are well above the national average in the number of high school graduates and students of public higher education. It is not surprising, therefore, that we spend more than the national average on education. That is our glorious tradition, not to be demeaned. It has been our noble way of sharing the opportunities of democracy with all of our citizens without regard to social class. We have always embraced the concept that education should be available to all those who can benefit from it, no matter whether they be rich or poor, men or women, the children of immigrants like myself, minorities or disadvantaged citizens.

EXHIBIT B

The truth is, however, that funding for the UW System has been declining. Our state is spending \$500 less per student per year on instruction today than it did ten years ago. While we don't seek to diminish our quality to the national average, we are nonetheless funded by \$600 less per student per year than the national average. If this continues, it is clear that the quality of institutions like this one will be affected adversely. We know that quality, funding and enrollment comprise the basic educational equation that must be examined and resolved by the regents and policy makers of this state. There is no escape from the fact that we have to address these three factors -- quality, funding, enrollment.

The stark reality is that we are underfunded as a system by \$88 to \$140 million per year, depending on whether we compare ourselves with the national average or with our peer institutions. While one can debate which figure is right, there can be no question about the order of magnitude of our problem. The regents have pretty well agreed that we should, at minimum, attain the national average of funding per student. We do not want to, nor do we intend to, reduce quality. In restoring and maintaining quality, we must look to three solutions. We can reduce enrollment, get more tax revenues or raise tuition.

Any one of these alone would be much too harsh a remedy. For example, if we were to look at tuition alone, we would have to raise it on average by over \$600 per year -- above and beyond the normal rate of inflation. If we look to tax revenues alone, we would need an additional \$88 million in general purpose tax revenue. And if we look at enrollment reductions alone, we would have to reduce the number of students by 22,000 -- sixteen percent.

What we need is a balance of all three, carefully worked out with the executive and legislative branches of government, with understanding and without partisanship as we attempt to find solutions to the serious problems which confront public higher education.

This is certainly the most important issue before the regents. I hope it's discussed openly and often by all those who care about the present and the future of this great state.

Clark Kerr said that higher education is the knowledge industry. If we are to compete as a state, then Wisconsin's knowledge industry cannot afford to be below average, cannot afford to be just average, but must be of the highest quality.

II. CONTRACT CHANGE ORDERS IN EXCESS OF \$30,000

There are none to report this month.

III. REPORT OF ACTIONS TAKEN (MEMOS OF AGREEMENT)

A. The following two lease agreements have been executed on behalf of the Board of Regents, by the Vice President for Physical Planning and Development:

1. With Mary Lou B. Tierman for the Carriage House Apartment, 6022 Old Sauk Road, Madison for the period July 1, 1986 through June 30, 1987, at the monthly rent of \$172.25. *Brittingham House - Rental of Carriage House and Squash Court apartments, Nonpers. Item A*
2. With Barbara and Scott Coleman for the Squash Court Apartment, 6010 Old Sauk Road, for the period July 1, 1986 through June 30, 1987. In lieu of cash payment of the monthly rent of \$131, the lease agreement specifies a representative (but not inclusive) listing of regular duties to be performed with official functions at the Brittingham House, for a minimum of 40 hours per month. *UW-Extension - Lease of storage space for Urban Garden program, Nonpers. Item B*

B. A lease covering rental of storage space at 3615 West Wells Street, Milwaukee, has been executed on behalf of the Board of Regents. The space is used in association with UW-Extension's Urban Garden Program. The lease is on a month-to-month basis from September 1, 1986 at a rate of \$100 per month. The lessor is Humphrey Enterprises, Inc., Milwaukee.

*Murray Street, North - Lease of space for loading at University Street, Monroe St. C*

C. A lease agreement between the Board of Regents, the University of Wisconsin Foundation and the City of Madison has been executed by the Vice President for Physical Planning and Development. Under terms of the agreement, the City will lease a specified portion of North Murray Street, which is south of the railroad tracks and north of Regent Street. This area is needed to provide adequate turning and backup space for vehicles using the loading docks at the new UW-Madison University Stores facility.

D. University of Wisconsin Press Agreements:

<u>AUTHOR</u>	<u>TITLE</u>
Alvin L. Berman and Edward G. Jones	The Thalamus of the Rhesus Monkey

IV. REPORT OF ACTIONS TAKEN BY STATE BUILDING COMMISSION ON 26 AUGUST 1986,  
AFFECTING THE UNIVERSITY OF WISCONSIN SYSTEM.

UNIVERSITY	PROJECT	ACTION
1. UW-MILWAUKEE:	Requested authority to accept bids for the chiller to be acquired through the normal bidding procedure for the 1985-87 Chilled Water System Modifications project, for a total project cost of \$2,261,000, \$1,585,000 of 1985-87 General Fund Supported Borrowing and \$676,000 of 1985-87 General Fund Supported Borrowing - Energy Conservation Program funds.	APPROVED.
2. UW-RIVER FALLS:	Requests authority to plan, bid, and construct a 1986 Intramural Fields Development project, for an estimated total project cost of \$175,000, Program Revenue funds.	APPROVED.
3. UW-STEVENS POINT:	Requests authority to change the source of funding for the 1983-85 Treehaven Field Station Construction of Facilities project, located between Tomahawk and Rhinelander in Lincoln County, from the previously-approved \$520,000 Program Revenues and \$460,000 1983-85 General Fund Supported Borrowing, totaling \$980,000, to \$120,000 Program Revenues, \$460,000 1983-85 General Fund Supported Borrowing, plus \$400,000 of Program Revenue Supported Borrowing, also totaling \$980,000.	APPROVED.
