## COULTER ON SCIENCE

LEARNED PROFESSOR TO APPEAR HERE THIS WEEK.

Will Address Science Club Thursday and Convocation Friday on the "Teaching of Science."

It has been decided that Professor Coulter, head professor of Botany at the University of Chicago will address the convocation Friday on the subject of "Science." Professor Coulter is coming here Thursday to speak before the Science Club in the lecture room of the new Library. He will speak on the "Teaching of Science," giving the same address that he gave at the commencement exercises at the University of Michigan last June.

This address deals with the entire subject of science and at the time of its first delivery brought forth a great deal of press comment and discussion. The lecture will doubtless be well attended. The fact that Professor Coulter delivered the commencement address at Michigan University gives ample proof of his ability as a lecturer.

Professor Coulter has been for three years head Professor of Botany at the University of Chicago and was formerly the President of Lake Forest University. He is an excellent public speaker and students will do well to hear him.

He will be entertained while here by Acting-President Birge.

### Swimming Tournament.

It is proposed to hold a series of swimming races in the natatorium, the latter part of February. Those who desire to enter will hand their names to Andy O'Dea as soon as possible.

The races are to be as follows:  
50 yard dash any style; 100 yard dash any style; diving for distance; breast stroke, 50 yards; swimming on back, 25 yards; coxswain race, 50 yards; walking greased pole; stunts on the rings and bar.

Class relay races will also be an interesting feature of the tournament.

### Library Open to Legislators.

Tomorrow evening the Historical Library will be thrown open in all its parts for the inspection of the legislators who will be tendered a reception by the building commission. This will, of course, not interfere with the regular use of the library by students. It is designed that the legislators shall be given an opportunity to see what has been done with the bounty of the state.

### Recent Discoveries in the Roman Forum.

Professor Samuel Ball Platner, of Western Reserve University, Cleveland, Ohio, will deliver an illustrated public lecture in room 16 U. H. Thursday afternoon at 4 o'clock on "Recent Excavations in the Roman Forum." Prof. Platner was a member of the Faculty of the American School of Classical Studies at Rome last year, and is now President of the American Philological Association. As the excavations were carried on with great activity during the year of Prof. Platner's stay in Rome, his lecture will be on the latest and most interesting phase of the subject.

—Harry Hobbins has been unable to attend classes this week on account of an attack of grip.

## Local and Personal.

—J. F. Dougherty, '03, is confined to his room on account of the effects of vaccination.

—Ernest J. Fisher, '04, has been forced to remain in his rooms because of a severe case of grip.

—Superstition caused the changing of the date for the putting into commission of the battleship "Wisconsin" from next Friday to Feb. 4.

—J. H. Johntry, law, '02, has just returned to the University from his home in Chicago where he has been ill with an attack of the pneumonia.

—Mrs. Burr W. Jones gave a musical last evening at her home on Langdon street. Among others who sang was Miss Jean L'Hommiedieu of Cincinnati.

—About thirty-six men handed in their names yesterday as candidates for the freshman crew. Ten names were re-submitted for the position of coxswain.

—The loving cup presented by the Gamma Phi Beta sorority as a trophy for the inter-fraternity relay race has arrived and is on exhibition at Sumner's Drug Store.

—Miss Laura Case, who is to play a leading part in the Haresfoot Club's presentation of "A Colonial Girl" has arrived and will be the guest of Mrs. Stanley Hanks during her stay in the city.

—Work on the new quarters for the School of Music is about finished. The colored glass windows will all be replaced by plain glass. The painters began their work today and the steam fitting will soon be done.

—Mrs. W. W. Daniells and her son, Dr. Ralph Daniells, '95, the latter of whom is convalescing from an attack of typhoid fever, will leave in the course of a few days for San Antonio, Tex., where the climate will greatly hasten full restoration to health.

—The Fifth Annual Reunion of the Short Course Alumni will be held on Thursday and Friday of this week. The meetings will be held in the art gallery on the fourth floor of the capitol. The outlook for a large attendance is very promising and a pleasant and instructive time will be experienced by all who attend.

—Plans for the proposed Agricultural College have now been prepared by Superintending Architect Jennings. The style is renaissance, the loggia being especially beautiful. The cost will be about \$150,000 exclusive of fitting which will add some \$25,000. The Agricultural College will be about the most beautiful and best adapted of all such buildings on the continent.

—Dr. S. B. Platner of Western Reserve University, Cleveland, Ohio, will appear before the University students Thursday afternoon at 4 o'clock. He will speak on "Recent Excavations in the Roman Forum." The lecture will be given in Main Hall and will be illustrated by lantern slides. Dr. Platner was a professor in the School of Classical Studies in Rome last year.

—Prof. Owen is at present enjoying himself at Caracas, Venezuela, where he is enjoying the delightful climate, engaging himself in enlarging his butterfly collection. Each day he spends six or seven hours climbing the mountains searching for new specimens to add to his already large collection. He left New York the 5th of December and sailed to Trinidad. Since then he has visited British Guiana and Georgetown and several other places of interest. He expects to return about the first of April, but before returning he will take a trip in Central America.

## HYDROGRAPHIC MAP

SHOWING INTERESTING FACTS ABOUT LAKE MENDOTA.

Prepared by Senior and Junior Civil Engineers—Part of Wisconsin Geological Survey.

A hydrographic map of Lake Mendota and its adjacent topography has just been published by the Wisconsin Geological and Natural History Survey under the directorship of Dr. E. A. Birge. This map is mainly the work of the junior and sophomore civil engineering students of the classes of 1897, 1898, 1899 and 1900, under the immediate charge of Prof. L. S. Smith.

The map shows by means of contour lines and by tinting, the depth of the water in Lake Mendota, the shape of its bottom and the topography of the shore within the radius of a mile.

Several thousand soundings were made in order to obtain accurate data. The contour lines of the map show that the bottom of the lake seems to present a large central plane below the 60 foot level, with few irregularities. Four main shoals are found in the lake. The one due north of the capitol at a distance of about three fourths of a mile from the shore has a depth of only eight feet at the shallowest point. The deepest part of the lake is just south-west of Governor's Island, where a depth of 84 feet is attained.

In the topography of the shore the contour lines show that the greatest heights are at Mendota Heights and Eagle Heights, having an elevation of over 170 feet and 150 feet respectively. The area of the lake is given as 15.2 square miles, the circumference 21.9 miles, the elevation above the sea 846 feet and the elevation above Lake Monona 4.5 feet, due to the dam at the outlet of Lake Mendota. Another interesting feature of the map is that the drive around the lake is accurately mapped.

### Anderson Mandolin Festival.

The Italian Mandolin festival to be given tonight at Library Hall by the Anderson concert company and Signor Tomaso is justly attracting wide attention among lovers of music. The advance sale of seats has been quite gratifying and the musicians will have the inspiration of a large audience.

The annual concert by the Anderson Orchestra is always of excellent quality and this year the assistance of the

Hjalmar O. Anderson.

famous mandolin soloist and composer, Signor Tomaso, renders the event especially attractive.

The program contains the best pieces by the foremost Italian composers. Signor Tomaso will be heard in some music of his own composition. The program is as follows:

#### Part I.

1. Celebre Siciliana (Pergolesi Be) Il-enghi Orchestra.
2. Ouverture Rubenzahl (Flotow) Mr. Brown and Mr. Washburn.
3. Ave Maria (Ricci) Orchestra.
4. Bolero (Cristafaro) Signor Tomaso.
5. Serenade (Tomaso) Orchestra.

#### Part II.

6. Povere Viole, Melodie (Gatti) Orchestra.
7. a Serenade (Silvestri) b Dance (Tomaso) Signor Tomaso.
8. a Petite Berceuse, b Barcarola, c Prima Gavotta (Musso) Orchestra.

### Professor Gregory on Lawyers.

Charles Noble Gregory, associate dean of the law school, delivered a lecture before the civic section of the Milwaukee Endowment Association yesterday afternoon in the Athenaeum. His subject was American Lawyers and their Making, and reference was made to the power of the best type of lawyers to improve city government.

—Dr. Gudeman's lecture yesterday on Products of Indian Corn was well attended, a large number of Short Course students being present. The lecture was illustrated by numerous samples and proved to be an interesting exposition of the articles manufactured from this valuable farm product.

### Coulter on Thursday.

The lecture by Professor Coulter Thursday evening ought to be attended by every student who is able to get out. Professor Coulter is head professor of botany in the University of Chicago and one of the most eminent scientists of the country. The address which he will deliver here was given as the Commencement address at Ann Arbor last spring and is very general and comprehensive in its character. The cry is continually raised that we do not have opportunities of hearing noted men. Here is such an opportunity and advantage ought to be taken of it.

### Interest in Oratory.

Wisconsin has always occupied a foremost and prominent place in the West in debate. With the exception of last year, we have not lost an inter-collegiate debate in six years. Our reputation in debate has been well known throughout the country. Long years of systematic training have been the cause of this happy result.

But while the University may be well-known for its skilled and excellent debaters, similar praise can not be extended to us as regards oratory. While we are by no means weak or retrograding in this respect, yet as compared to debating we are inferior in results.

The cause lies in the students themselves. With an excellent corps of instructors in oratory and elocution we nevertheless do not seem to be able to win contests in spite of our exceptionally good representations. Our students do not have the necessary interest and our debating societies develop only one side of speaking; eloquence is sacrificed for argument.

The preliminary contests in oratory, soon to be held, ought to find a hundred students prepared for the struggle. Michigan's wonderful success in

oratory has been due mainly to the fact that almost everybody competes. Only by a general, sincere interest in oratory, both within the literary societies and by other students, can we hope to win the coveted prize.

### Brief College Items.

Iowa has forty-six colleges, or nearly one every year since it became a state.

Harvard and University of California are to have a chess match sometime in the spring.

Booker T. Washington will address Michigan students on the "Race Problem" on Jan. 31, at Ann Arbor.

Hon. John W. Foster will deliver a series of lectures on "The Practice of Diplomacy" at University of California in March.

There is a movement on foot among the eastern colleges to hold a national encampment of cadets some time during the spring.

Coach Stagg has discovered a star pole-vaulter by the name of Charles Kennedy. He is a freshman and has cleared the bar at 9 feet 8 inches.

David K. Gross, an alumnus of Indiana of the class of '87 has founded a school at Strasburg, Germany, for the purpose of preparing German students for entrance into Harvard, Yale, and other American colleges.

The registration in thirteen of the principal colleges and universities is as follows: Harvard, 5,702; Columbia, 3,723; Michigan, 3,655; Minnesota, 3,412; Cornell, 2,853; Chicago, 2,564; Pennsylvania, 2,549; Yale, 2,536; Wisconsin, 2,465; California, 2,300; Stanford, 1,262; Princeton, 1,253; John Hopkins, 631. Pennsylvania has decreased 64.

The entire junior law class at University of Nebraska is out "on strike" and next day thirty-three of them of Professor Lobingier, a new addition to the faculty, to introduce populist methods of discipline in the class. One hundred men have signed an agreement not to return to the class until he apologizes.

Sophomore Medics at Michigan in a snowball fight broke some windows and yesterday thirty-three of them marched up to the secretary's office and paid a nickel each and took a receipt therefor. Three men who did not pay their nickels are to be reported by the Dean for expulsion. Times must be good at Ann Arbor.

Central High School of Philadelphia is now competing with the University of Pennsylvania in the granting of degrees of B. S. and Ph. D., because as the high school authorities say their course "is quite equal to that given by the University." The University authorities are righteously indignant and say that the matter is too ludicrous to be seriously considered.

Free speech at Stanford University seems on the high road to oblivion. Recently a student who had condemned President Jordan and the University management was thrown in a lake back of the University. The vacancies caused by the resignations of Professors Howard and Spencer have been filled by the appointment of Professors Lapsley and Warren of Harvard. N. R. Branner acting-president said yesterday that any professor who was unwilling to support Dr. Jordan would have to go.

**Choral Union Concert.**Arrangements are now complete for  
the Choral Union concert to be given  
in Library Hall February 13th.Soloists have been secured from out  
of town to fill two of the parts, and  
two will be from Madison.The soprano will be Mrs. Genevieve  
Clark Wilson of Chicago. Mrs. Wilson  
is an oratorio soloist of repute and it  
was with considerable difficulty that  
she was procured.Mr. Edward Taylor has been engag-  
ed as the tenor soloist. Mr. Taylor  
is an American by birth but has spent  
the last four or five years in London  
studying, and singing before the pub-  
lic. He has recently returned to  
America.The two other solo parts will be  
taken by local singers. Mrs. W. D.  
Hiestand will sing contralto.The bass will be taken by Mr. E. R.  
Williams. Both Mrs. Hiestand and  
Mr. Williams are singers of acknowl-  
edged ability and are well-known to  
the Madison music-loving public.The orchestra will be composed  
largely of Madison musicians. It will  
however be strengthened by out-of-  
town talent.The program will be in three parts.  
The first will be Weber's Jubilee Con-  
tata, by the orchestra chorus and four  
solo voices.The second part will be miscellane-  
ous. It will consist of numbers by the  
orchestra and some of the soloists.The third part will be Gounod's  
Gallia, written for soprano solo,  
chorus and orchestra.**Communication.**

To the Editor:—

It appears to me that the authorities  
of the University of Wisconsin have  
inadvertently been remiss in a duty  
which they would doubtless cheerfully  
perform should the matter occur to  
them at the proper time. It is that  
of making some recognition of the stu-  
dents who left the University to  
serve their country in the late Span-  
ish-American war. The University  
of Minnesota has a handsome roll in  
the hall of one of its main buildings  
containing the names of all students  
of that institution who enlisted and  
each one was awarded a medal. Ought  
not some notice to be taken of our  
patriotic boys while the time is  
yet opportune?

Sometime ago Hon. Wm. E. Dodge  
of New York city offered the School of  
Economics and Political Science the  
sum of \$500 in case \$2,000 more be  
raised elsewhere for the same pur-  
pose. Dr. Puls of Milwaukee took  
hold of the matter and raised among  
friends and alumni of the University  
in Milwaukee the sum of \$1,930.  
Charles M. Morris, an alumnus of the  
University co-operated with Dr. Puls  
in raising the fund.Elsewhere \$215 was raised: of this  
sum, Senator Spooner contributed  
\$50, thus making a total of \$2,645  
which has been secured up to the  
present date.The Skating Club is greatly in-  
convenienced by the carelessness of  
owners of iceboats who run their boats  
across the rink spoiling the ice. A  
little courtesy on the part of boat own-  
ers would add much to the pleasure of  
the skaters.Illinois University lost its suit  
against Solomon Spaulding, father of  
C. W. Spaulding, the defaulting treas-  
urer of the University. Solomon  
Spaulding was on his son's bond for  
\$70,000. The defense was that the  
bond was changed after he signed it.We are giving from 10 to 50 per

Most people think that any old  
place is good enough for a bicycle  
through the winter, so they dump it in  
the basement where it is damp, or  
into the coal shed where it is almost  
obliterated with coal dust, etc. Of  
course they don't think of the conse-  
quences until spring, then Oh! My!  
they wish they had taken it to Wm. J.  
Park Co., 113 State St., successors to  
the Madison Cycle Co., and had it
