<http://rightsstatements.org/vocab/InC/1.0/>

The libraries provide public access to a wide range of material, including online exhibits, digitized collections, archival finding aids, our catalog, online articles, and a growing range of materials in many media.

When possible, we provide rights information in catalog records, finding aids, and other metadata that accompanies collections or items. However, it is always the user's obligation to evaluate copyright and rights issues in light of their own use.

Building on the highest standards of quality in endoscopy

# OLYMPUS CLAMPS DOWN ON...

**Now...a Widely Expanded Range of Repair Services Offers Alternatives to Costly "Major" Repairs.** In today's cost-conscious healthcare environment, Olympus' expanded repair options will allow you to reduce or eliminate the need for costly "major" repairs, those typically in excess of \$4,000. You'll receive more cost-effective, individualized service, focusing only on the specific repair or repairs your endoscope requires.

Do you need to replace a CCD imaging chip, a lens, a suction cylinder, or a biopsy channel? These are just a few of the expanded repair options available to you. Many of these new repair options include additional "minor" repairs at no extra charge. All guarantee use of original Olympus parts, and the workmanship of highly skilled, factory-trained Olympus technicians.

These exacting standards — unique to Olympus — inspire the same high level of confidence you would have in a brand new endoscope...and assure "clinical readiness," the ability of your endoscope to respond safely and effectively to an immediate need.

Olympus repair standards assure that the quality of your endoscope will be preserved, and that the need for more complex, costly repairs will be prevented. Of course, when a repair service is performed, you have the benefit of our 90-day warranty.

Expanded repair options...the latest example of how Olympus stays focused on meeting customer needs. Because, from our perspective, **the customer is always in sight.** For more details, as well as information on our customer service contracts, contact your Olympus representative or call 1-800-342-1673.

# Olympus re-usable accessories.

Re-member... nothing  re-

grasps,  re-reaches, 

re-removes,  re-snares,

 re-samples,  re-

brushes,  re-cuts, or 

re-retrieves as well.

If you're considering which re-usable accessories are right for your facility, re-member that Olympus is the world re-nowned maker of re-markable endoscopy equipment. But what's more re-freshing is that Olympus accessories help re-duce environmental waste—a good deed that's re-turned by the money you save with every use. And that's a feat worth re-peating.
