MINUTES OF THE REGULAR MEETING
of the
BOARD OF REGENTS OF THE UNIVERSITY OF WISCONSIN SYSTEM

Madison, Wisconsin

Held in the Clarke Smith Room, 1820 Van Hise Hall
Friday, February 11, 1977
9:07 A.M.

President McNamara presiding

PRESENT: Regents Barkla, DeBardeleben, Erdman, Fish, Gerrard, Grover, Hales, Johnson, Lavine, Lawton, McNamara, Neshek, Pelisek, Sandin, Thompson, Walter

ABSENT: None

Upon motion by Regent Neshek, seconded by Regent Lavine, it was VOTED, That the minutes of the meeting of the Board of Regents of the University of Wisconsin System held on December 17, 1976, be approved as sent out to the Regents.

- - -

REPORT OF THE PRESIDENT OF THE BOARD

President McNamara called upon Regent Erdman, Chairman of the Presidential Search and Screen Committee, for a report. Regent Erdman noted that there were some 230-240 candidates' dossiers which had been reviewed by the committee, and confidentiality was absolutely essential in order to obtain the best person for the position of President. She noted that if confidentiality were broken, viable candidates might withdraw from consideration. She stated that she hoped the committee would finalize its work by the end of February.

-

President McNamara called upon Regent DeBardeleben for a report on the Higher Educational Aids Board meeting. Regent DeBardeleben referred to the report of the Committee, attached as EXHIBIT A. He noted that item 10. on page 2 of the report refers to a proposed directive in the Governor's budget proposal that the collection responsibility for the National Direct Student Loan Program be transferred from the UW institutions to the HEAB. He stated this has not been considered by the Board of Regents and had not previously been considered by the HEAB, and supported the view that the action to be taken by the Board should exclude endorsement of this particular proposal, which he felt to be an important question and one that deserves the attention of this Board. He called upon Senior Vice President Donald Percy for comments on the matter.

Senior Vice President Percy stated he hoped to have ready for Board consideration brief commentaries on each of the biennial budget decision items, including this proposal, and have an analysis and the posture we intend to take before the

Business and Finance Committee and other committees before which appearances are made. He stated we are still getting campus reactions but hope to have the matter before the Regents within a week or two. Regent DeBardeleben indicated that as a representative of this Board he did not take a position against this proposal, but did indicate that it was a matter of serious concern and that it was a matter that the Board should have an opportunity to express its views on before the HEAB took a position on it.

Regent DeBardeleben called attention to the proposal in the Governor's budget recommendations with respect to the Tuition Grant Program. He stated the HEAB had recommended the extension of the Tuition Grant Program but had not recommended that the concept of marginal funding of additional students be applied to the Tuition Grant Program, and that he felt this results in giving preferential treatment to private institutions compared to public institutions. He continued the Governor recognized that this had this effect and said he did not propose to give this preferential treatment. He stated he opposed the recommendation of the staff and stated that it was his position we should support the Governor's recommendation because it is sound. He stated this view was supported by two other members of the HEAB, but the majority of the Board decided to oppose the Governor's recommendation in this respect, for reasons that are not entirely clear to him.

Regent DeBardeleben reported a representative of the Council of Independent Educators appeared before the Board requesting endorsement of extension of the Tuition Grant Program to these proprietary schools. He stated that upon inquiry of this representative as to if there is any educational program offered in these schools that was not also offered in the institutions of public post-high school education in the state, and receiving a negative answer, the subject was not pursued further. He noted the proposed Lender Service Program was also discussed and was approved by the HEAB.

Regent Grover inquired why the Board exercised the option of using the monies available from the Land Commission to purchase \$5 million in student loans from private lenders. Regent DeBardeleben stated that it was his understanding that this makes more funds available for making loans to students.

-

President McNamara called upon Regent Pelisek for the report of the Special Committee on Student Discipline. Regent Pelisek reported that the committee met in Milwaukee on January 17, 1977, to hear the appeal of Harold McGill. After a substantial delay from the time scheduled for the hearing and after direct contact with Mr. McGill, he ultimately failed to appear, and it was the unanimous recommendation of the committee that the appeal of Harold McGill be dismissed.

Regent Pelisek moved adoption of the following resolution, the motion was seconded by Regent DeBardeleben, and it was voted:

Resolution 1381: That the appeal of Harold McGill, filed with this Board from disciplinary proceedings at the University of Wisconsin-Oshkosh, be dismissed.

- - -

REPORT OF THE PRESIDENT OF THE SYSTEM

Regent Lavine moved adoption of the following resolution, the motion was seconded by Regent Pelisek, and it was voted:

Resolution 1382: That the Report of Non-Personnel Actions by Administrative Officers to the Board of Regents and Informational Items Reported for the Regent Record be received for the record; and that actions included in the report be approved, ratified, and confirmed. (EXHIBIT B, attached)

President Weaver recalled that summary of the Governor's Budget Recommendations, excerpts of the Budget in Brief document, the Governor's Budget Book, Budget Bill and Budget Message, and Executive Policy Issue Papers relating directly or indirectly to the University System had been distributed to the Regents, Chancellors, and representatives of the faculty and staff. He stated all these documents are being analyzed in the System administration and in conjunction with members of the campus staff in preparation for appearances before the various legislative committees. He stated it will take some intensive work with the campuses and Extension in assessing what each of these actions of the Governor's Budget means and project likely results of a number of them in contrast to results suggested in the documents themselves. Appearances have been scheduled before the Education Committees of the Assembly and Senate on February 23 and before the Health and Social Services Committee of the Assembly on the proposed cut in state support for public health (the Laboratory of Hygiene) on February 21. He noted the date for our appearance before the Joint Finance Committee has not yet been set. He assured the members of the Board that the Administration will be in close touch with the budget as it progresses through the Legislature.

President Weaver made the following statement:

"When I announced in July, 1976, my planned administrative retirement, I indicated my intention to return to teaching and research duties on one or more of the University of Wisconsin System campuses where I hold professorships by virtue of faculty-initiated actions before and after my appointment as President. I have found most heart-warming the efforts of the departments at Madison, Milwaukee, Green Bay and, more recently, Eau Claire, urging me to take up my future academic life in their midst. I am extremely grateful for these compelling opportunities.

"Consider if you will the uncommonly special flavor attached to the invitation from the University of Wisconsin-Madison Department of Geography, where I received my first earned degree in the field, to join them and assume residence in an office formerly occupied by one of my own major professors - an office in which I took my Ph.D. oral examination three and a half decades ago. Consider, too, the understandable drawing power I sense in the invitation from a vigorous and distinguished new department at the University of Wisconsin-Milwaukee, soon to be incomparably enhanced by the world-renowned map and library resources of the American Geographical Society, among whose collections I began my professional career in New York. There was the further welcome feeling associated with being wanted by my innovative and exciting colleagues at Green Bay, and with the most cordial new initiatives taken in my behalf by the geographers at Eau Claire. My first and instinctive inclination has been to feel that I could have no more happy academic future than could be molded from among this fortunate array of choices.

"As the days since my announcement have passed and June 30 draws nearer, I have, following discussions with former presidents elsewhere, found myself wondering whether yet other alternatives for the immediate 1977-78 period might not have significant merit. I worry that my successor will be surrounded with sufficiently

complex and sensitive challenges during an initial year as to hardly need the potential liability of an immediate predecessor, however well-intentioned, near at hand.

"For that reason, and in a sincere desire to clear my own mind with the freshness of new opportunity and surroundings, I began to consider more seriously initiatives taken by persons and institutions outside Wisconsin who seemed eager to have me join them on a short or long term basis. After much reflection I have decided to accept the offer of a Visiting Distinguished Professorship in Geography for 1977-78 generously tendered by my distinguished colleagues at the University of Southern California.

"President John Hubbard of that university, his Dean of Liberal Arts, John Schutz, and the faculty of the Department of Geography have honored me greatly with this warm sincerity of their desire to bring me to their institution. They were even generous enough to urge that I come with the intention of staying and concluding my professional career on that campus in Los Angeles. While I greatly appreciate their confidence, and while California is my wife, Ruberta's, native state, we Weavers do feel that our roots lie very deep, indeed, in Wisconsin soil. For this reason we have elected to accept the one year visiting opportunity, taking leave from my Wisconsin professorships, with every present intention of returning here in the summer of 1978. We will, in the year ahead, greatly miss what for us both will always be home, yet we go to a fine university with a spirit of new adventure and the excitement of a new undertaking."

President McNamara expressed the gratification of the members of the Board at the honor the University of Southern California had bestowed upon President Weaver. He stated he was personally pleased that he had accepted only a one-year appointment even though offered a permanent appointment and looked forward to having him back at the University after his stay at the University of Southern California.

President Weaver called upon Chancellor Karl W. Meyer for the report of the University of Wisconsin-Superior. Chancellor Meyer's remarks are attached as EXHIBIT C.

Regent Erdman inquired as to how the cooperation with the University of Minnesota-Duluth is working out now that the Superior Campus is on the quarter system. Chancellor Meyer responded that there are more Minnesota students at Superior than vice versa for the simple reason that there are more people in Duluth than Superior. He stated the campus had been cooperating with the University of Duluth for a number of years under the umbrella of the Lake Superior Association. He referred to the establishment of the Twin Ports Advisory Council which, among other things, will try to promote cooperative academic programs. Regent Grover inquired as to the types of limitations on aggressive recruiting for students in the Graduate School of Educational Administration. Chancellor Meyer responded that there are three entitlements in the State of Wisconsin to offer programs in School Administration, Madison, Milwaukee and Superior, and the people involved in these programs do get together and cooperate.

President McNamara noted that the UW-Superior Campus has the highest percentage of low-income students on any campus in the state and commended the Chancellor and his associates for the cooperative arrangement worked up with the regional Vocational Technical School and for the development of Tri-State Consortium in the upper peninsula of Michigan, Minnesota, and northern Wisconsin.

President Weaver called upon Chancellor Lee Dreyfus, UW-Stevens Point, for a report on the meeting of the Council of Chancellors. Chancellor Dreyfus stated the matter of child care centers had been discussed, particularly the problem of financial stability on one campus. He stated there was proposed a central administrative office, but it is the recommendation of the Council that there be no Central Office since campus autonomy is preferred. He reported the information release policy had been discussed and on the basis of a meeting with Mr. Stathas, the TAUWF lawyer, Professor Baruch, Dr. Muzik and himself, a recommendation had been made to the Council of Chancellors and approved, stating that all information that is public is to be made available as conveniently as possible, but there shall be no invasion of privacy. He noted there was a problem of noncomparability in computing the years of experience as it cannot be measured the same way on every campus. He reported there had been a proposal to expand the activities of the Board of Visitors to the cluster institutions. The discussion indicated many of the campuses already have this kind of operation and have had it for many years, and the recommendation of the Council of Chancellors was that we remain with the current approach. He reported the Council had considered the matter of religious preference data collection and their recommendation is that it reaffirm the September position of campus autonomy in this matter.

Regent Barkla inquired if any of the campuses have had requests for religious services since the policy was made. Chancellor Dreyfus responded in the negative. Regent DeBardleben inquired if it was proposed that the Board of Visitors as now constituted would be expanded to the University Cluster, or would there be new Boards of Visitors established at the institutions in the cluster. Chancellor Dreyfus responded that the request came from one campus as to whether or not the Council wished to request the Regents to expand the mission of the present Board of Visitors and that it was not acted upon.

- - -

REPORT OF THE EDUCATION COMMITTEE

The report of the Education Committee was presented by Regent Lavine.

Regent Lavine reported that there had been a hearing at 8:45 A.M. on this day relating to proposed changes in the Administrative Code relating to UWS 17.02(4) and UWS 15.01(1), as shown in Resolution 1363 approved December 15, 1976, attached as EXHIBIT D. Regent Lavine moved approval of the amendments as shown on Resolution 1363 and approval of the Order of the Board of Regents of the University of Wisconsin System Amending Rules (attached as EXHIBIT D-1), the motion was seconded by Regent DeBardleben, and it was voted unanimously.

-

Regent Lavine reported that Ms. Phyllis Rodin, who recently completed a Master's Degree at UW-Milwaukee, asked that the Board consider her request not to be called a "master" as that is a masculine designation and as such is anti-feminist. She asked that women be granted the right not to be masters and suggested the term "post-graduates". He reported that no action was taken.

-

Regent Lavine moved adoption of the following resolution, the motion was seconded by Regent Sandin, and it was voted:

Resolution 1384:
(Policy-Revised)

That, upon recommendation of the President of the UW System and the Chancellor of UW-Eau Claire, the following amendment be approved as substitute for that portion of the UW-Eau Claire faculty personnel policies and procedures responsive to UWS 3.06 Wisconsin Administrative Code which begins with the words "The Departmental Reappointment Committee..." in the last paragraph at the bottom of page 7 and ends with the words "...not receive the reasons for the recommendation at this time." at the end of the second paragraph on page 8, such approval to be as required under UWS 2.02:

The Department Reappointment Committee shall give the faculty member at least 20 days advance written notice of the departmental review.* This notice will inform the faculty member whether the review is to be conducted to determine a reappointment recommendation only or to determine a recommendation for tenure. This notice will also inform the faculty member of his/her right to present to the committee written information related to the criteria on which it will base its recommendation and of his/her right to request an opportunity to appear before the committee to explain the information presented. In addition to these rights, the faculty member being reviewed shall be afforded all rights provided under the Wisconsin Open Meeting statutes in effect at that time.

*Day shall mean calendar day.

(Secretary's Note: Due to an error in drafting the above resolution, approval will be sought at the March meeting to amend the first paragraph of the above resolution to read as follows: "That, upon recommendation of the President of the UW System and the Chancellor of UW-Eau Claire, the following amendment be approved as substitute for that portion of the UW-Eau Claire faculty personnel policies and procedures responsive to UWS 3.06 Wisconsin Administrative Code which begins with the words 'The Departmental Reappointment Committee...' in the last paragraph at the bottom of page 7 and ends with the words '...in accordance with 66.77 Wis. Stats.' at the end of the paragraph at the top of page 8, such approval to be as required under UWS 2.02."

This will have the effect of restoring the second paragraph on page 8, which was inadvertently deleted. The corrected wording as shown above restores the version of the amendment approved by the Eau Claire Chancellor and the President of the UW System.)

Regent Lavine reported that in the Committee meeting on the previous day Vice President Donald Smith reviewed the affiliation of the UW Central Administration with the previously existing Wisconsin Project Directors Steering Committee for the purpose of fulfilling the Academic Affairs goal of developing a Systemwide framework for special education programs. Professor Ted Peters, UW-Eau Claire, Task Force co-chairman, was introduced along with task force members, Professor Charles Norman, UW-Madison; Professor Hans Hahn, UW-Whitewater; and Professor Hal Hiebert, UW-La Crosse.

Regent Lavine reported the Committee next received a report on the UW Center System Basic Curricular Program. Provost Wilson Thiede stated that pursuant to the Scope Report of April 18, 1975, Center System Campuses have been studied from the aspect of appropriate changes required to remain within 20% of the Center System CSI, and/or achieve a minimum enrollment of 250. Reporting to the Board in January 1976 he noted that enrollment levels and cost targets are not wholly satisfactory in defining the minimum size of a quality academic unit. To meet this objection it was proposed that the minimum size of such a unit be defined as the basic curriculum program recognized by the faculty as the minimum offerings essential to a quality two-year liberal arts program. Center System Chancellor Edward Fort told the Committee the Center System Senate ratified the Task Force Report on January 21, 1977, and it has been supported by the Chancellor and the Provost.

Regent Erdman stated it is commendable that the Administration has been able in this new basic curriculum core to improve quality, but did not understand how they were able to reduce the cost without changing personnel or any other factors. Regent Lavine noted they have changed personnel in the sense that they have moved them around and targeted them more effectively, and by attrition made lean everything that was possible to make lean. Chancellor Fort noted that the budget figures for the Medford Campus were \$246,000 in 1973-74; in 1974-75 it was reduced to \$238,000; in 1975-76, it was reduced to \$221,000, and in 1976-77, the budget was \$208,150. The enrollment in terms of FTE has dropped from 72.19 in 1972 to 53.24 at the present time. The faculty has dropped from a premerger figure of 16.2 FTE to 7. at the present time, which clearly suggests the kinds of programs and administrative changes reflected at that campus. He stated he anticipates between now and the beginning of the next fiscal year administrative services on that campus will be changed on a downward basis.

Regent DeBardeleben stated that he assumed the Medford Campus and faculty and citizens in that area now feel some degree of assurance about the continuance of their institution, in contrast to the feeling they had a couple of years ago, and that even though the Regents have not taken formal action, this concept is evidently accepted. Regent Lavine stated the cost of educating a student in the Center System is comparable to similar institutions in and out of Wisconsin and probably lower than freshman and sophomore students in four-year institutions. He stated the important question is what number of students can you have on a campus and be sure they will get a quality education. He stated the Center System points out that there are 8,600 students in the Center System, which is comparable to a good-sized institution in the state and they feel there is some unfairness in the fact they are the only institution where the individual parts must meet CSI standards individually. They believe it only fair to be treated as an institution of 8,600 students rather than as fourteen separate campuses.

Regent Lavine reported the Committee received the UW System Faculty-Administration Relations Policy Document, which represents an effort to clarify the relationships of institutional faculty governance agencies to the UW System. He reported the current draft (IV) was prepared by Professors Steven Chaffee (UW Madison), Marshall Wick (UW-Eau Claire), Richard Schauer (UW-Whitewater), and James Lorence (UW-Center System) and was judged by the IFCC to be a statement best approximating the wishes of the faculties of the System, and stating acceptable mutual obligations of faculty and administration. He reported the formal resolution for adoption of this statement will be brought to the March meeting, at which time testimony regarding objections, changes and additions will be heard. He reported

that six institutions have approved draft IV: Superior, Stout, River Falls, LaCrosse, Madison and Stevens Point; and two did not approve: Oshkosh and Parkside; although for opposite reasons. It is now at the stage of consideration by the Faculty Senates of UW Extension and UW-Whitewater.

Regent Lavine reported that the Committee received a report on UW System Broadcasting activities.

Regent Lavine reported that in the Committee meeting on the previous day during the consideration of Transitional Guidelines for Faculty Sabbatical Leave Program, the Executive Secretary of TAUWF asked that the apportionment of dollars be based on the number of eligible faculty rather than on total faculty.

Regent Lavine moved adoption of the following resolution, the motion was seconded by Regent Sandin, and it was voted:

Resolution 1385: That, upon recommendation of the President of the UW System, (Policy-New) the document entitled "The University of Wisconsin System Transitional Guidelines for the Faculty Sabbatical Program", dated February 1, 1977, be approved. (EXHIBIT E, attached)

Regent Lavine stated the need for a fee/tuition reimbursement policy for unclassified employees in the UW System (AP-14) stems from a situation of unequal opportunity for faculty with Chapter 36 and Chapter 37 backgrounds. A WSU policy provides fee waivers for employees taking job-related coursework on Chapter 37 campuses, whereas there is no similar policy provision for Chapter 36 employees. It was recommended that the policy be extended to the entire System substituting a fee reimbursement policy for the fee waiver policy of the present WSU provision. He reported Dr. Muzik and Professor Anatole Beck, UW-Madison, praised the proposal. He reported Professor Beck noted that under present rules UW-Madison faculty are not permitted to take UW degrees and are the only citizens so forbidden. He indicated this is a matter which the Regents may see raised by the Madison faculty. Senior Vice President Smith stated the ruling question was doubtless one enacted by the faculty and Professor Beck indicated that it was one he would have to address by going through the faculty and having it come back to the Board.

Regent Lavine moved adoption of the following resolution, and the motion was seconded by Regent Sandin:

Resolution 1386: That the Board of Regents of the University of Wisconsin System (Policy-New) authorizes the President and the Chancellors, or their designees, to provide fee/tuition reimbursement to unclassified faculty, academic and limited staff members for authorized job-related coursework and training to improve employee job performance. This policy supersedes the instruction fee waiver policy of the former WSU Board of Regents and applies only to the specified categories of unclassified employees. Segregated fee charges for participants may be waived by an institution. Only employees with half-time or greater appointments are eligible for consideration. The President shall issue implementation guidelines for this policy.

Regent Grover inquired as to the rationale of a Madison Campus faculty member being prohibited from completing a degree in a different discipline on the Madison Campus. Regent Lavine responded that the faculty members at Madison were put in a position where they had to affirm or deny an advanced degree to a colleague. It was a rule presented by the faculty to the University prior to the Chapter 36 Laws and Rules and the faculty indicated that it did not want to change what had been their own request. President Weaver stated this is a policy that is common to every graduate school in the United States. There would be an obvious conflict of interest involved in a faculty taking on as degree candidates members of their own number and the faculty does not want to be involved in such type of action. Regent Lawton was advised that the same policy was in effect at UW-Milwaukee. Regent DeBardeleben agreed with Regent Lavine's observations that if the faculty wants this changed, they should come forward with a change to this Board. Regent Barkla inquired if there was not a similar policy for the classified employees and was advised that there is a similar policy for classified staff and for virtually all other state employees who are related to the University.

The question was put on Resolution 1386 and it was voted.

Regent Lavine reported that Senior Vice President for Academic Affairs Donald Smith made reports on the following items:

- (1) Legislative Internships
- (2) Initiation of BFA/MFA Program Review (Performing Arts)
- (3) Report on Institutional Plan Implementations for Reaching Regent Goals for Racial and Ethnic Minority Students
- (4) Progress Report: Two-Year Comprehensive Study of Nursing and Nursing Education
- (5) Summary Paper on UW System Academic Program Audit and Review--Policies and Procedures
- (6) Report on Phase II of the Legislative Audit Bureau Survey of Academic Policies and Procedures

Regent Lavine reported Phase II will be conducted in the same manner as the earlier Phase. The remaining campuses to be surveyed include UW-Eau Claire, UW-Parkside, UW-Platteville, UW-Stevens Point, UW-Stout, UW-Superior, and UW-Whitewater. He reported Dr. Smith stated that we are pleased with the thoughtful way in which the LAB staff approached their sensitive assignment last year and with the quality of their work we have no reason to expect less in Phase II of the survey. He reported this is not a new protocol and if there is a change in such effort that would entail a new protocol, it would be brought to the Board for their consideration and action prior to it being implemented.

- (7) Report on Faculty Recruitment in the UW System, 1975-76
- (8) Report on Administrative/Campus Reviews of Entitlements to Plan Programs

Regent Lavine reported that the following program proposals were presented for a first reading preliminary to Regent action at the March meeting:

- | | |
|-------------------|-------------------------------------|
| (1) UW-Eau Claire | B.A. Criminal Justice |
| | M.S.E. Professional Development |
| (2) UW-Green Bay | Associate of Arts |
| (3) UW-Madison | M.S./Ph.D. Environmental Monitoring |
| (4) UW-Milwaukee | Ph.D. Urban Social Institutions |
| (5) UW-Oshkosh | B.F.A. (Fine Arts) |

(Continued)

- | | |
|----------------------|---|
| (6) UW-Parkside | B.S. Industrial and Environmental Hygiene |
| (7) UW-River Falls | B.F.A. (Fine Arts) |
| | B.S. Metropolitan Region Studies |
| (8) UW-Stevens Point | M.S.E. Professional Development |
| (9) UW-Stout | M.S.E. Professional Development |
| (10) UW-Whitewater | B.F.A. (Fine Arts) |

Regent Lavine reported all of the proposals will be presented for action at the March meeting.

Regent Erdman stated that she understood with respect to the Master of Science Educational Professional Development Programs that they were not adding any new courses, they were only changing the name and tailoring the program so that teachers could come back for a Master's Degree. There have been a number of accusations throughout the state that advanced graduate degrees within the System are relatively easy to get - - you can come back, pay your fees, and have a program tailored to your needs, and you don't have to go to school very much. She stated that it appeared that schools of education in the State of Wisconsin are especially vulnerable and when we add new degrees we should be looking closely at our actions. Regent Lavine responded that it is not really adding a new degree, in fact it is cutting out the old degree. To make certain that degrees are meaningful these degrees are a combination of schools of education and direct discipline graduate courses put together so that they are germane and directed toward the needs of the teacher returnee. He stated that the Committee had looked at the matter very carefully and felt that it was clearly a narrowing of the degree offered and was appropriate an an increase in the quality of the program. Senior Vice President Smith stated it is a major development in the System and the report of the Education Task Force recommended the development of this degree. He continued that the question of how you achieve flexibility in your graduate inservice professional education of making possible high quality and reputable degrees is one that we are trying to solve and is very important. The experience that has been most commonly criticized in the School of Education has been the phenomenon of the secondary school wishing for development of its people in the field of English but the salable degrees for completion of other kinds of professional objectives that are the most available might be in counseling. He continued there is nothing wrong with getting a counseling degree and it would not be a handicap to the teacher, but it may not be the most appropriate degree, the one that fulfills the need of the school district or the needs of the teachers, and we have been trying to solve this problem under the MSE-PD Syndrome. He stated we have had a considerable amount of activity on the standards required for the degree itself and they will be part of the five year review to see where they come in. He noted the North Central Association Accrediting Team takes a great interest in the matter and have asked for some special reports on it. He stated it will not be easier to get the degree, but it will be more relevant. Regent Grover stated that it appeared there had been some tremendous compromises made and inquired if there is a continuing teacher evaluation of teacher education going on and when will the report be made available. Senior Vice President Smith responded it will be available after the Advisory Council has a chance to analyze it - - about eighteen months. He reported the Council is in the process of being formed and there will be an examination of the entire profile offering to the field of Education in the System as it relates to the needs of Wisconsin and the nation in this particular area.

Regent Lavine noted that the Regents will receive interim reports as they come out and there will be ample involvement of the Board. He noted that the Master's Degree basic document that set this up was prepared a couple of years ago and that since the composition of the Board has changed, the document

would be recirculated to the members of the Board. Regent Thompson noted that many states are moving toward a five year program for teachers in the public schools which she felt was a move in the right direction. Many elementary school teachers go on for their fifth year which will terminate in a Master's Degree.

Regent Lavine moved adoption of the following resolution, the motion was seconded by Regent Sandin, and it was voted:

Resolution 1387: That, upon recommendation of the President of the UW System and the Chancellor of UW-Madison, Robert L. Metzberg, Professor of Physiological Chemistry, Medical School, Center for Health Sciences, UW-Madison, be named a John Bascom Professor, beginning with the second semester of the 1976-77 academic year.

- - -

REPORT OF THE BUSINESS AND FINANCE COMMITTEE

The report of the Business and Finance Committee was presented by Regent Hales.

Regent Hales reported that in the Committee meeting on the previous day, Vice President Lorenz reviewed the Gifts, Grants, and U.S. Government Contracts, calling attention to items 4, 5, and 6 on pages 4 and 5 of the February report relating to Wisconsin Alumni Research Foundation support. Item 17 on page 6 is a large grant of \$972,502 from the Kellogg Foundation to the Madison School of Business Center for Health Care Fiscal Management. The School of Business is working closely with the Center for Health Sciences on this grant. Attention was called to page 9, item 12 beginning a list of 15 items from the National Institutes of Health totalling \$1,867,000 and the January listing, which included 34 items from NIH, totalling \$1,886,000. At the bottom of page 13, item 29 begins a listing of 9 grants from the National Science Foundation totalling \$538,000 and the January material included 12 NAF grants, totalling \$614,000. He called attention to page 45, item 3, a grant in the amount of \$206,509 from Health, Education and Welfare to UW-Stout for support of its Vocational Rehabilitation Program. The cumulative total for the year now is approximately \$121 million compared to \$105.5 million for the previous year. The largest increases are in research, \$10 million, and Student Aid, \$4 million.

Regent Hales moved adoption of the following resolution, the motion was seconded by Regent Lawton, and it was voted:

Resolution 1388: That, upon recommendation of the President of the System, the gifts, grants and contracts presented at this meeting (copy filed with the papers of this meeting) be accepted, approved, ratified and confirmed; and that, where signature authority has not been previously delegated, appropriate officers be authorized to sign agreements.

Regent Hales reported an additional gift was offered to UW-Madison but arrangements were not finalized until after the February material had been processed for mailing. The following statement, drafted by Associate Director John E. Ross, Institute for Environmental Studies, was distributed to the members of the Board to explain the purpose and guidelines for the operation of the project:

A Seminar on Natural Resources Policies in Relation to Economic Development and International Cooperation

To be funded jointly by the University of Wisconsin with the Kuwait Fund for Arab Economic Development, the Organization of Arab Petroleum Exporting Countries, and the Arab Fund for Economic and Social Development.

To be conducted by the Institute for Environmental Studies at the University of Wisconsin-Madison with participation by University of Wisconsin faculty and students and by visiting Arab scholars.

The general topic of the seminar will be to analyze and evaluate natural resources policies, specifically as they relate to economic development in the developing countries. The goal is to better understand the relationship of energy resources to other mineral resources and to food resources and the movement of resources among nations.

Reports of the seminar will be public. The seminar will be administered in accordance with the rules and regulations of the University of Wisconsin. Professor Peter Dorner, University of Wisconsin Department of Agricultural Economics will act as faculty chairman of the group.

Regent Hales moved adoption of the following resolution, the motion was seconded by Regent Erdman, and it was voted:

Resolution 1389: That, upon the recommendation of the President of the University of Wisconsin System and the UW-Madison Chancellor, the gift of \$391,780 from the Organization of Arab Petroleum Exporting Countries, Kuwait, and the Kuwait Fund for Arab Economic Development, be accepted to be used to support the Kuwait Seminar on Natural Resources Policies in Relation to Economic Development and International Cooperation, and that appropriate officers be authorized to sign agreements.

Regents Hales reported a bequest made by the late Estelle R. Warren permitted the Co-Executors of the Estate to distribute the residue, and they elected to give 6% thereof to the University of Wisconsin-Madison to fund a specific research project in the Department of Dairy Science. The value of the bequest is estimated at \$120,000.

Regent Hales moved adoption of the following resolution, the motion was seconded by Regent Lawton, and it was voted:

Resolution 1390: That the allocation by the Co-Executors of the Estate of Estelle R. Warren, Lakeside, Michigan, of six per cent (6%) of the residue of her estate, to be used for research in the Department of Dairy Science, College of Agricultural and Life Sciences, entitled "Cellular Mechanisms of Hormone Action", be approved and accepted; and that the Secretary or Assistant Secretary be authorized to sign a receipt on behalf of the Board of Regents of the University of Wisconsin System for this allocation, and to do all things necessary to effect the transfer of this allocation to the University of Wisconsin-Madison.

Regent Hales stated that the late Paul Burke established a trust in 1955 providing one-half to be given to the University of Wisconsin for research in the mental health field. The University's share amounts to approximately \$35,000.

Regent Hales moved adoption of the following resolution, the motion was seconded by Regent Lawton, and it was voted:

Resolution 1391: That the distribution provided in Section 2(c) of the trust established by the late Paul Burke, Chicago, Illinois on December 13, 1955, be accepted and administered in accordance with its terms, which read as follows:

Section 2 Distributions

(c) On the death of the survivor of Donor and his said wife, the trust shall terminate and the trustee shall distribute the assets of the trust as follows:

fifty per cent (50%) thereof to the University of Wisconsin for research in the field of Mental Health;

and, that the Secretary or Assistant Secretary be authorized to sign a receipt on behalf of the Board of Regents of the University of Wisconsin System for the distribution, and to do all things necessary to effect the transfer of this distribution to the University of Wisconsin-Madison.

Regent Hales stated that the late Walter J. Guth bequeathed \$3,500 to the University of Wisconsin-Madison for the support of psychiatric research.

Regent Hales moved adoption of the following resolution, the motion was seconded by Regent Lawton, and it was voted:

Resolution 1392: That the bequest of the late Walter J. Guth, La Crosse, Wisconsin, to the University of Wisconsin be accepted by the Board of Regents of the University of Wisconsin System in accordance with the terms and conditions of the Last Will and Testament of Walter J. Guth, Deceased; and that the Secretary or Assistant Secretary be authorized to sign a receipt on behalf of the Board of Regents of the University of Wisconsin System for this bequest, and to do all things necessary to effect the transfer of this bequest to the University of Wisconsin-Madison.

Regent Hales reported that the late Professor Alexander Y. Kroff bequeathed his entire library to the University of Wisconsin-Madison subject to the right of selection by Professor John Tschernitz.

Regent Hales moved adoption of the following resolution, the motion was seconded by Regent Erdman, and it was voted:

Resolution 1393: That the bequest of the late Alexander Y. Kroff, Madison, Wisconsin, to the University of Wisconsin be accepted by the Board of Regents of the University of Wisconsin System in accordance with the terms and conditions of the Last Will and

(Continued)

Testament of Alexander Y. Kroff, Deceased; and that the Secretary or Assistant Secretary be authorized to sign a receipt on behalf of the Board of Regents of the University of Wisconsin System for this bequest, and to do all things necessary to effect the transfer of this bequest to the University of Wisconsin-Madison.

Regent Hales reported that the late Earl A. Kroncke bequeathed the income from his estate to the University without restriction. The money will be placed in the Chancellor's Special Fund for use at his discretion. The trust amounts to approximately \$200,000.

Regent Hales moved adoption of the following resolution, the motion was seconded by Regent Lawton, and it was voted:

Resolution 1394: That the bequest of the late Earl A. Kroncke, Oklahoma City, Oklahoma, to the University of Wisconsin be accepted by the Board of Regents of the University of Wisconsin System in accordance with the terms and conditions of the Last Will and Testament of Earl A. Kroncke, Deceased; and that the Secretary or Assistant Secretary be authorized to sign a receipt on behalf of the Board of Regents of the University of Wisconsin System for this bequest, and to do all things necessary to effect the transfer of this bequest to the University of Wisconsin-Madison.

Regent Hales stated that the late Elvira Ostlund bequeathed \$5,000 to be used by the UW Medical School for scholarships.

Regent Hales moved adoption of the following resolution, the motion was seconded by Regent Erdman, and it was voted:

Resolution 1395: That the bequest of the late Dr. Elvira Ostlund, Rye, New York, to the University of Wisconsin be accepted by the Board of Regents of the University of Wisconsin System in accordance with the terms and conditions of the Last Will and Testament of Elvira Ostlund, Deceased; and that the Secretary or Assistant Secretary be authorized to sign a receipt on behalf of the Board of Regents of the University of Wisconsin System for this bequest, and to do all things necessary to effect the transfer of this bequest to the University of Wisconsin-Madison.

Regent Hales noted a biennial budget working group is developing the System recommendation relating to the 1977-79 compensation package. Prior to its being presented to the Board, probably in March, there will be hearings on the retirement issue by the Legislature's Retirement Research Council. It was felt it would be helpful if the Regents stated their support for legislation on Automatic Post Retirement Adjustment (APRA). He noted the Regents have earlier gone on record favoring such adjustment when it supported such automatic adjustments in the 1975-77 compensation proposal at the 4% level. Those who are close to the issue feel that while inflation far exceeds the proposed 2% maximum adjustment, the cost of a 4% maximum adjustment are so high that there would be no hope of success in getting it passed. The Committee did support this recommendation and the resolution which restates our earlier endorsement of this concept.

Regent Hales moved adoption of the following resolution, the motion was seconded by Regent Lawton, and it was voted:

Resolution 1396:

Whereas inflation continues to reduce the purchasing power of fixed retirement income for members of State retirement systems;

Whereas inadequate salary increases, leading to real income losses for faculty and academic staff, have further depressed future retirement annuities because average salary is a variable in the formula;

Whereas the Board of Regents, in its 1975-77 compensation proposal, supported special automatic adjustments up to 4% annually to cover cost-of-living increases for retired UW System employees; and

Whereas the Legislature directed its Retirement Research Council to develop an actuarially sound Automatic Post Retirement Adjustment to provide retirees at least partial protection against inflation, and a plan for a 2% maximum annual adjustment has been prepared for the 1977 session;

Resolved that the Board of Regents reaffirms its support of an Automatic Post Retirement Adjustment at the more modest 2% level now being readied for legislative consideration for 1977-79.

Regent Hales reported that Vice President Lorenz presented a schedule of projected GPR balances at the end of the current fiscal year. He also reported auxiliary operations balances which are pooled and invested for the System by the State Investment Board had earnings for the quarter ending December 1976 at an annualized rate of 9.748% compared with 7.48% for the previous quarter. Interest earnings of \$791,000 for the last quarter represent \$5.50 per student per quarter. He also reported that the State of Wisconsin issued \$74 million in bonds, including approximately \$10 million for the Center for Health Sciences, \$775,000 for the Eau Claire Student Center addition, and \$765,000 for the Green Bay Student Center on January 18, 1977, at a net interest rate of 4.7988%.

Regent Hales moved adoption of the following resolution, the motion was seconded by Regent Erdman, and it was voted:

Resolution 1397:

RESOLVED: That Bertram N. McNamara, President of this Corporation, be and he is hereby authorized and empowered for and in the name of this corporation to execute and grant to and in favor of Inter-American Petroleum Corp., 609 East Speer Blvd., Denver, Colorado, 80203, an oil, gas and mineral lease covering 160 acres, more or less, situated in Divide County, North Dakota, described as follows:

Township 160 North, Range 102 West
 Section 23. E $\frac{1}{2}$ SE $\frac{1}{2}$
 Section 24. W $\frac{1}{2}$ SW $\frac{1}{2}$

BE IT FURTHER RESOLVED: That said lease shall be granted for a primary term of Five (5) years and for such consideration and upon such terms and conditions and shall contain such provisions and stipulations as the said President shall at his discretion deem fit and proper, his signature to said lease to be conclusive evidence of the approval of this corporation as to all of the terms, conditions, provisions and stipulations therein contained which shall be binding upon this corporation.

BE IT FURTHER RESOLVED: That the said President be and he is hereby authorized and empowered for and in the name of this corporation to perform any and all acts and to execute any and all amendments, pooling and unitization agreements, division orders and other documents incidental to or in connection with an oil, gas and mineral lease affecting all or any portion of the property hereinabove described.

- - -

REPORT OF THE PHYSICAL PLANNING AND DEVELOPMENT COMMITTEE

The report of the Physical Planning and Development Committee was presented by Regent Fish.

Regent Fish moved adoption of the following resolution, the motion was seconded by Regent Pelisek, and it was voted:

Resolution 1398: That, upon the recommendation of the UW-Eau Claire Chancellor and the President of the University of Wisconsin System, the expiration date of the existing 15-year lease between the City of Eau Claire and the University of Wisconsin-Eau Claire for the use of Carson Park be extended by two years to May 13, 1986, at an additional cost of \$7,000 from Student Segregated Fees.

-

Regent Fish noted that Putnam Park is an area in the heart of the City of Eau Claire which is difficult to protect. By designating it a scientific preservation area, there is one more assurance that the environmental impact on the community and University can be maintained.

Regent Fish moved adoption of the following resolution, the motion was seconded by Regent Lavine, and it was voted:

Resolution 1399: That, upon the recommendation of the UW-Eau Claire Chancellor and the President of the University of Wisconsin System, the following two portions of Putnam Park, on the UW-Eau Claire campus, be designated scientific preservation areas, as jointly recommended by the UW-Eau Claire Biology Department and the Wisconsin Scientific Areas Preservation Council:

The West Unit of the lower portion of
 Niagara Creek (ca. 45 acres) and

The East Unit, including all park land
east of the State Street right of way
(ca. 60 acres)

(Specific portions are identified on a map filed with the
papers of this meeting.)

Regent Fish stated that the next item provides for renewal of a lease for the University Outreach Center, originally entered into in 1968. Previously we approved the lease with two one-year extensions and then again in 1973 we approved it for another two one-year extensions. The original cost was \$435 per month, which was renegotiated in 1973 to a cost of \$375 per month, but the current price is back to \$400 per month.

Regent Fish moved adoption of the following resolution, the motion was seconded by Regent Lavine, and it was voted:

Resolution 1400: That, upon the recommendation of the UW-Milwaukee Chancellor and the President of the University of Wisconsin System, authorization be granted to lease the following space:

2,000 square feet of space located at 2208 North Third Street, Milwaukee, Wisconsin for the period October 16, 1976 to October 15, 1977

Inner City Rents, Lessor (formerly JAMAR Investment Co.)
2218 North Third Street
Milwaukee, WI 53212

Annual lease cost is \$4,800 (\$400/month)

Regent Fish stated that the Committee was advised that due to the decline in perch supplies while the demand for fish in restaurants and supermarkets was increasing, the Food Science department, responding to requests of food processors and the fishing industry, initiated a research program to determine if yellow perch and walleyed pike could be produced in tanks under carefully controlled environmental conditions. As these studies have progressed interest in perch aquaculture has increased and since initiation of the program there have been some 4,000 visitors to the facilities and they have from 1,800 to 2,000 mail inquiries annually.

Regent Fish moved adoption of the following resolution, the motion was seconded by Regent Neshek, and it was voted:

Resolution 1401: That, upon the recommendation of the UW-Madison Chancellor and the President of the University of Wisconsin System, authority be granted to lease the following property:

12,000 square feet of space located at 6080 McKee Road, Madison, Wisconsin for the period March 1, 1977 to June 30, 1980

Wilton Properties II, Lessor
4513 Vernon Boulevard
Madison, Wisconsin

(Continued)

The annual rental cost is \$25,200 (\$2.10 per square foot) with the space used to accommodate the University of Wisconsin Aquaculture Research Program.

Regent Fish reported that on January 9, 1976, the Board granted authority to plan and construct an additional module to the Center for Health Sciences for animal facilities for the Wisconsin Clinical Cancer Center, and negotiate with contractors currently under contract for construction of the Center for Health Sciences to construct the additional animal module.

Regent Fish moved adoption of the following resolution, and the motion was seconded by Regent Sandin:

Resolution 1402: That, upon the recommendation of the UW-Madison Chancellor and the President of the University of Wisconsin System, the concept and budget report for the Animal Care Module, Center for Health Sciences, on the UW-Madison campus, be approved and authority be granted to plan, bid and construct the project at a cost not to exceed \$1,806,000; and that authority be granted to proceed to determine if the shell portion of the project shall be bid or negotiated with the present Center for Health Sciences contractors.

Regent Grover pointed out that the price works out to \$200 per square foot. Regent Fish stated that the matter had been discussed in detail one year ago and that this is the authority to proceed with the contract at the cost discussed at that time. He noted there is a tremendous amount of laboratory space involved and it is expensive space. He stated the gross square footage is 21,404 and the estimated net assignable square footage is 8,910. In response to Regent DeBardleben's inquiry as to who makes the determination when a project is negotiated with a contractor, Regent Fish responded it is the State Building Commission. He pointed out that the funding consists of \$867,000 from the National Cancer Institute and \$939,000 is from gifts, with no GPR revenue.

Regent Grover inquired as to the ratio to normal buildings. Regent Fish responded it varies - there is a very high ratio to classroom buildings and a very low ratio in laboratory building facilities and some other facilities as it depends on their utilization. He said that there were guidelines under which we operate, whether it is a library, a laboratory, classroom space or what, and there are nationally accepted educational figures for percentage of assignable square footage as relates to good gross square footings and these are checked at the time the bidding is done. In response to Regent Grover's request, Regent Fish promised to furnish those figures at the next meeting.

Regent DeBardleben inquired if the project has been approved by the Building Commission and was advised by Vice President Winter that it has been approved for preparation of concept and budget. In response to his further inquiry, Regent DeBardleben was advised that this cost had been before the Building Commission and that any project over \$250,000 also has to be approved by the Legislature.

The question was put on Resolution 1402, and it was voted, with Regents Gerrard and Grover voting "No".

Regent Fish reported that the Committee received a report on the study of Old Main, UW-Stevens Point. It was reported that a recent facility evaluation study indicates that the building is structurally sound, and can meet safety code requirements for the kinds of uses proposed, and that the cost of doing this is about the same as for new construction. Chancellor Dreyfus was directed to review all data with Central Administration and the recommendation(s) resulting from such deliberations will be considered at a subsequent Committee meeting.

Regent Fish reviewed the history of the plan for remodeling of 1300 University Avenue (the existing Health Sciences Complex). A Task Force appointed by the Building Commission, known as the Charlier Committee, recommended in January 1974 that the schematic plans for the development of the complex be defined and detailed. Following this recommendation, the Center for Health Sciences completed a Master Development Plan for the programs to remain at the 1300 University Avenue location. The plan dated April 23, 1976, and revised November 8, 1976, recognized that it would be necessary to undertake the remodeling in several stages in order to maintain on-going research and instructional programs. The Task Force report by Caudill, Rowlett & Scott estimated the remodeling would require two to five years. Their 1973 estimated cost of \$16,000,000 was escalated in July 1976 to \$21.1 million. Using current cost index information, spreading the remodeling over the next three biennia, this cost figure is escalated to \$22,000,000.

Associate Vice President for General Services Wallace Lemon reviewed actions to date, including the release of \$200,000 of Advance Planning funds by the Building Commission, and its hiring of an architectural firm (Durrant, Deininger, Dommer, Kramer, Gordon) to:

- (1) Validate the Master Plan program standards;
- (2) Validate the Master Plan location assignments;
- (3) Validate the Master Plan phasing schedule;
- (4) Develop the revisions of architectural and mechanical elements as they affect life cycle energy consumption; and
- (5) Develop a Concept and Budget Report.

In order to retain the project within the estimated budget, basic assumptions used in the Master Development Plan were modified.

The overall development plan will not be available from the consultants until the end of February, and it is believed essential that some position of the University, regarding the overall development plan, be presented to the Building Commission as it considers the 1977-79 Capital Budget scheduled for late February. It is anticipated the overall development plan will be presented to the Board at its March meeting. However, at this time approval of the budget and program guidelines outlined in the report now before the committee is requested (EXHIBIT F, attached) because it is believed in so doing we are being responsive to the Building Commission and we are indicating the guidelines that we are requesting the Medical Center to operate under.

Regent Fish stated that \$200,000 of advanced planning funds have already been released, we will add \$3.5 million that have been approved in tax supported bonds, and \$22 million of the 1975-77 building program there is \$7,100,000 in the Capital Budget request, including \$6 million of GPR revenue in the Capital Budget request that is going forward late in February.

Regent Fish moved adoption of the following resolution, and the motion was seconded by Regent Neshek:

Resolution 1403: That upon the recommendation of the President of the University of Wisconsin System and the Chancellor of the Madison Campus, the attached report on the status of planning for the renovation and remodeling of the 1300 University Avenue complex for the programs of the Center for Health Sciences be approved, and that the program guidelines and policies and the budgetary limits incorporated in the report be adopted as a basis for further refinement of the master development plan and the preparation of a concept and budget report for the overall project. (EXHIBIT F, attached)

Regent Johnson stated he was not too enthused about going along with this particular item during the Committee meeting, and not too much more enthused about it today. He said perhaps where the error arises was in the assumptions made in the beginning of this particular program relating to the use of the building and the changes to be made in it are violated in the present situation, and perhaps trying to establish a funding level on an assumed prospect of being able to carry out a program at a certain date would be a gross error in procedure. He stated it was suggested that a change now would destroy credibility and he was not sure what credibility you are destroying if you change the whole project. He stated the project does not come within the dollar figure and he was not sure that it would make the best use of the funds being spent - - perhaps it is better to spend no money sometimes than not to spend the proper amount. He stated he felt the matter should be looked at further.

Regent Fish stated all of the studies mandated that we should indeed use the 1300 University Avenue complex and that the new Medical Center could not properly function without the supportive role of the old medical complex. Enrollment increases that were mandated by the Legislature when they authorized the Medical Center could not be met without utilization of the old medical buildings. Determinations were made specifically as to what programs were to be put in the new Medical Center and which ones would be kept in the old building. He stated certain legislative mandates were given to the University -- certain determinations were made from the master planning involving such things as no health care patients would be housed in the old complex. He said the credibility here is that in the presentation of this program involving remodeling of the old complex, using the estimates from the master plan as known at that time, the determination made by the Charlier Committee was that it would take \$22 million to do what was required. To completely remodel the old building to its maximum efficiency by putting in new floors, etc., would raise its cost and rehabilitation to a figure not unlike the cost of a new complex. He said the request was made to the medical people as to whether the master plan can be fulfilled under this financial limitation based on the assumption that no new buildings at either 1300 University Avenue or the new building site will be constructed in the next biennium. Programs now housed in leased space are not programmed to occupy space in the new building but would be housed in the 1300 University Avenue complex. The medical administration should attempt to identify definable space needs without assignable functions, such as the Children's Hospital, Bradley Memorial, the Infirmary, 1402 University Avenue or 427 Lorch Street. He continued the basic plans should allow for new programs in the CHS or Health Science related areas, and allow for changes in the emphasis in teaching and research, particularly the laboratory and teaching space should be so located with sufficient design flexibility

to allow ready conversion to other uses. He said he felt everyone involved is in sympathy with the sentiments that Regent Johnson expressed. With new medical techniques and requirements presenting themselves which will require different alterations in the facilities, they will have to be evaluated properly at that time by this Committee, by the full Board, and by the Building Commission.

Regent Lawton stated that he favored the resolution, having discussed it with Dean Crowley and others. He said he was sympathetic with Regent Johnson's concerns but did not believe that holding out for a whole loaf is proper strategy with the amount of money that we have already put into the new Center. He expressed his disappointment that all the Board did not have this information in our background materials. Regent Fish stated the material was not available as the first draft was completed four or five days ago and the final draft was run off on the previous day. Regent Lawton stated this has happened with several things and that he felt very uncomfortable voting, after having done his homework, to find things that are relatively rather important have not been documented.

Regent Fish stated that it was originally anticipated that the Building Commission meeting would be held in March rather than in February, in which case he would have presented the full master plan at the March meeting, with full documentation. He also noted the medical people did not bring in any additional information earlier for the same reason. He said he shared with Dr. Lawton the concern that we are in emergency situations consistently with the Medical School but in this case there is some justification because of the change in the Building Commission Schedule. Regent DeBardleben inquired as to the consequences of failure to pass the proposed resolution today. Regent Fish responded the Building Commission has indicated they want some kind of a document indicating the Regents' position, and this is affirming the prior Regents' position that it would cost approximately \$22 million. He stated we are saying that we are supportive of the position of the Charlier Committee and of the master plan that we have brought forward, which indicates that we are going to spend \$22 million in renovation of the old complex.

Regent DeBardleben stated that he was very much concerned when Regents Lawton and Johnson expressed misgivings about moving on the matter and that perhaps we will all wish that we had looked at it a little harder. Chancellor Young stated the Building Commission has changed its calendar and asked us for something in February that we expected to furnish in March. He stated he shared Regent Johnson's concerns but \$22 million won't do the kind of thing we hoped for two years ago when these plans were put together but he supported the proposal because he did not believe at this time we can go to the Legislature and ask for \$50 million or \$60 million for remodeling money. Regent Grover said it is probably the most responsible action the Board can take at this time, considering the circumstances, and no fault of the Board.

The question was put on Resolution 1403, and it was voted.

Regent Fish reported that the Committee received a report on University of Wisconsin System Emergency Energy Conservation Efforts Pursuant to the Governor's Directives. Regents Lavine and Lawton requested that such reports be sent out prior to the meeting.

Regent Fish moved adoption of the following resolution, the motion was seconded by Regent Neshek, and it was voted:

Resolution 1404: That, upon the recommendation of the UW-River Falls Chancellor and the President of the University of Wisconsin System, the President or Vice President and Secretary or Assistant Secretary of the Board of Regents be authorized to execute an easement to the City of River Falls for the right of way needed to place, replace and maintain an underground sanitary sewer across the UW-River Falls property.

The land is described as follows:

A part of Outlots 124, 139 and 140 of the Amended Assessor's Plat of the City of River Falls, Pierce County, Wisconsin being 20' in width at right angles from the Southwesterly right-of-way line of Cascade Avenue beginning at a point on said Southwesterly right-of-way line of Cascade Avenue which is South (assumed bearing) 473.44' along the West line of the NW 1/4 of the SW 1/4 of Section 6, T27N, R18W, City of River Falls, Pierce County, Wisconsin and S68°36'E 1000.88' from the W 1/4 corner of said Section 6; thence S68°36'E 263', more or less, along said Southwesterly right-of-way line to the Southerly extension of the centerline of Crescent Street and the point of termination.

Also, a part of the above mentioned Outlots 124 and 139, 20' in width and lying 10' at right angles each side of a line extending from a point on the above mentioned Southwesterly right-of-way line of Cascade Avenue which is S68°36'E 10.89' from the above described point of beginning and extending S23°55'40"W 170.00' to the point of termination.

- - -

Regent DeBardleben moved adoption of the following resolution, the motion was seconded by Regent Neshek, and it was voted, with Regents DeBardleben, Erdman, Fish, Gerrard, Grover, Hales, Lavine, Lawton, McNamara, Neshek, Pelisek, Sandin, and Walter voting "Aye":

Resolution 1405: That, in accordance with Section 19.85(1)(c), Wis. Stats., a closed session be held to consider personnel matters.

The meeting recessed into closed session at 11:45 A.M.

The Board arose from closed session at 12:24 P.M., with the announcement that no action had been taken in closed session.

The meeting adjourned at 12:24 P.M.

J. S. Holt, Secretary

2/24/77

TO: Board of Regents of the University of Wisconsin System

FROM: Regent DeBardleben of the Higher Educational Aids Board

DATE: February 8, 1977

SUBJECT: HEAB Meeting on February 4, 1977

The Higher Educational Aids Board met in the Governor's Conference Room, State Capitol, Madison, on February 4, 1977; Regent member Arthur DeBardleben was present.

The Board reviewed the Governor's budget recommendations for the 1977-79 biennium affecting HEAB which showed the following:

(1) Support for the continued phase-in of the revised Tuition Grant Program at the \$1,500 maximum grant level but denial of HEAB's request to set the maximum grant equal to the instructional subsidy at UW-Madison and to extend program eligibility to half-time students and for up to ten semesters. 1977-78, \$6,923,000 GPR; 1978-79, \$8,044,000 GPR.

(2) Support to fund the Wisconsin Higher Education Grant (WHEG II) Program at requested levels but denial of the transfer of \$26,800 annually from the administrative allowance. 1977-78, \$11,641,000 GPR, \$970,000 PRF; 1978-79, \$12,591,000 GPR, \$970,000 PRF.

(3) Support to fund the Indian Student Assistant Program at requested levels. 1977-78, \$1,100,000 GPR; 1978-79, \$1,200,000 GPR.

(4) Agreement to terminate the supplemental Medical Student Loan Program by June 30, 1977 as requested. He also recommended in addition to the HEAB request that the Board be given authority to issue revenue bonds in an amount of \$60 million to meet long-term needs of the Direct Student Loan Program and take a significant portion of the existing program "off the state float." 1977-78, \$13,300,000 PRO; 1978-79, \$15,500,000 PRO.

(5) Support for HEAB's recommendation not to authorize a state work study program.

(6) Recommendation to increase the level of support for each student under the Dental Education contract from \$2,800 to \$3,300 and the provision of clarifying language in the statutes authorizing HEAB to rely on third-party academic program evaluation. 1977-78, \$1,650,000 GPR; 1978-79, \$1,650,000 GPR.

(7) Support at a reduced level for the Board request for new positions to cover increased workload.
1977-78, \$56,200 PRF; 1978-79, \$143,100 PRF.

(8) Support for funding of the Board's request for the Educational Opportunity Program.
1977-78, \$189,600 GPR, \$154,900 PRF;
1978-79, \$189,600 GPR, \$157,100 PRF.

(9) Proposal of statutory language to authorize HEAB to establish a lender servicing program to service private lenders for a reasonable fee which would generate revenue to support positions now on GPR. This was not requested by HEAB.
1977-78, \$172,900 PRO; 1978-79, \$122,700 GPR, +\$258,700 PRO.

(10) A directive that the collection responsibility for the National Direct Student Loan (NDSL) Program should be transferred from the UW institutions to HEAB. This was not requested by HEAB.
1977-78, \$72,100 GPR; 1978-79, \$280,200 PRO.

(11) Proposal of statutory authority and a sum sufficient appropriation to enter contracts with colleges of veterinary medicine to provide student spaces for study leading to the degree Doctor of Veterinary Medicine. This was not requested by HEAB. 1977-78, \$300,000 GPR; 1978-79, \$736,800 GPR.

The staff recommendation that the HEAB "endorse all of the Governor's 1977-79 budget recommendations affecting the Board except those related to the Tuition Grant Program" was amended after adoption of a motion by Esther Kaplan, seconded by Regent DeBardleben, to insert the clause "which were included in the original HEAB budget request" previous to the word "except." In support of the amendment, Regent DeBardleben argued that it was not appropriate for HEAB to issue an endorsement to proposals that it had not previously considered and taken a position on following complete analysis. He stated further that he had not seen any analysis paper regarding these recommendations nor had the UW Board of Regents reviewed the Governor's recommendation on the transfer of NDSL to HEAB. He pointed out that the effect of the amendment was not to oppose the Governor's recommendations but to provide opportunity for the Board to consider the additional programs after complete analysis and take a Board position at a later date.

After considerable deliberation, the Board adopted the staff recommendation that the Board request the legislature to reconsider and adopt the Board's initial requests regarding the Tuition Grant Program which had been denied by the Governor. Regent DeBardleben supported the Governor's recommendation by arguing that the new concept of marginal funding additional students with GPR presented cause for the Board to reconsider its original Tuition Grant proposal. To be consistent with funding policy for the public university system, he noted, it was necessary to give some recognition of the concept of marginal funding in the Tuition Grant Program.

The staff reported that an analysis of the current status of the State Direct Loan Program showed that demands for loans under the program will be lower than originally estimated. The original estimated loan demand was between \$14.9 to \$17 million for 1976-77 which now has been revised to \$10.8 to \$12.3 million. Causes for the decrease in direct loan demand were related to increases in BEOG

and WHEG grant programs, record breaking private lender participation in guaranteed student loan programs, leveling off in enrollments, "jawboning" activities by HEAB and Legislative Fiscal Bureau staff, and the paper work barrier.

The Board considered the alternatives of using the \$7 million available from the sale of loans to the Land Commission for either repurchasing loans from private lenders or reducing the Board's debts to the Investment Board. The staff was directed to exercise an option of the note purchase agreement to repurchase \$5 million in student loan notes from private lenders at the time of the sale to the Land Commission. The remainder of the \$7 million from the Land Commission will be used to reduce the advance from the Investment Board.

The Board adopted a programmatic policies notebook containing an indexed compilation of all previously adopted HEAB policies. Two policies were identified for further review at the May meeting. One was the Board policy relative to the nondiscriminatory requirement of satisfactory academic progress for students receiving financial aids which was identified as a problem in some VTAE districts. The other Board policy scheduled for review regards distribution of WHEG supplement awards to disadvantaged students only during the first two years.

The Board adopted the WHEG II committee recommendations regarding the parameters to be used in preparing 1977-78 WHEG awards and authorized the committees, with concurrence of the Board Chairman, to set the actual equity levels for the 1977-78 academic year. The Committee will be directed to give special attention to tuition differences between the UW and VTAE systems in setting an equity ratio. The Board also adopted staff recommendations for parameters to be used in making 1977-78 Tuition Grant awards. The provisions closely parallel those used in the WHEG II program.

The Board adopted criteria for use in soliciting proposals from interested agencies for a two-year need analysis processing agreement and directed the WHEG committee to present its recommendations at the next Board meeting.

A representative of the Wisconsin Council of Independent Educators (proprietary schools) addressed the Board calling attention to HEAB policy which intends to provide free access to public and private education institutions. The Board was requested to seek legislation to provide eligibility for HEAB administered programs to students of proprietary schools. In response to a question from Regent DeBardeleben, the representative indicated that no programs were offered by proprietary schools that were not also available in public institutions.

The Board adopted the Minnesota-Wisconsin reciprocity agreement for the 1977-78 academic year and the limited Michigan-Wisconsin Interstate Compact for 1977-79. Several administrative changes and some substitutions related only to VTAE programs were approved, but there were no programmatic changes in the agreements.

A contract between HEAB and the Wisconsin Higher Education Corporation (WHEC) was adopted by the Board to provide WHEC with a means to receive new administrative allowances and benefits provided in the Higher Education Amendments of 1976 and in turn reimburse HEAB for administrative services performed.

The staff provided reports on the characteristics of persons defaulting on student loans and a survey on borrowers making reduced payments. After considerable discussion the Board authorized the staff to discontinue both the default and reduced payment study. Regent DeBardeleben asked to be recorded in opposition to the Board's action citing the need for meaningful studies to answer concerns of the public regarding these matters and to provide information to the Board for use in policy development. The staff was requested to prepare guidelines for the staff to use in setting up reduced payment schedules for borrowers for review by the Board at the next meeting.

On recommendation of the staff the Board endorsed the need for amending provisions in the Higher Education Act of 1976 relating to: (1) definition of lender; (2) limitations of loans to one-half the cost of education; (3) encouragement of multiple disbursements of a loan.

The staff prepared information reports for the Board on the following: (1) an update of the Wisconsin Student Support Information (WISSIS) which is a compilation of state student aid data; (2) status of the Tuition Grant Program; (3) status of the Basic Educational Opportunity Grant (BEOG) program; and (4) a list of agenda items discussed with the Council of Financial Aid.

The HEAB meeting was adjourned at 11:10 a.m. and the members reconvened in a meeting of the Wisconsin Higher Education Corporation (WHEC).

WHEC was presented with a staff analysis of the Higher Education Amendments of 1976 which provide guarantee agencies with several potential sources of revenue. This revenue may allow WHEC to reduce or eliminate the present 1 percent of unpaid principal insurance premium charged to borrowers receiving guaranteed student loans and also reimburse the state for the administrative costs of the corporation. Provisions that would generate this additional revenue are: (1) additional seed (advance) for agency reserve funds. Wisconsin may be eligible for up to \$1.7 million which invested at 6 percent would provide \$102,000 annually for default claims. (2) increased reinsurance rates. Federal reinsurance would be 100 percent from the beginning of each fiscal year until default claims exceed 5 percent of the face amount of loans in repayment at the end of the previous fiscal year. (3) 100 percent of bankruptcy claims. (4) federal reimbursement of 80 percent of the amount paid by WHEC to lenders for default claims including principal and interest. (5) 30 percent of amount collected on defaulted loans which could be retained to cover administrative costs. (6) federal payment of one-half of one percent of new loans insured each fiscal year for reimbursement of administrative costs of the program. To become eligible for the above described provisions, the WHEC Board adopted procedures for the limitation, suspension or termination of eligibility of participating institutions in the guaranteed student loan program. However, on recommendation of the staff, which desired more time to evaluate the implications of these revenue provisions, the WHEC Board postponed until the May meeting a decision regarding any adjustment of the insurance premium.

The Board again considered at length a staff proposal, laid over from the previous meeting, that WHEC initiate steps to establish a private lender servicing program. The program was supported by the staff on the basis that: (1) despite the present money market, student loans may be less available because private lenders are becoming increasingly concerned over the costs of administering student loans; (2) an opportunity exists for WHEC to provide the

service at reasonable costs and in turn could use the service fees to offset GPR used to support administration or to generate grant funds; and (3) the Governor's budget provided authority for HEAB to establish a private lender servicing program. The Attorney General has stated that WHEC could establish the program.

A lengthy statement of opposition to the proposal was presented by Mrs. Kaplan as she identified several concerns: (1) the lender service fee was not a user fee but was a service, which could be provided by private enterprise, whose main purpose was to make a profit; (2) present record breaking participation of banks in the student loan program argues against need for the program, and the lack of documentation identifying the size of the market; (3) the concept that government should provide a service cheaper and thus provide more profit to the lender; (4) an apparent change in emphasis of HEAB activity from originally one of meeting financial needs of students through grants to an increased interest in providing loans and now a desire to become a collection agency; (5) an unneeded sense of urgency for an immediate decision because, although the Governor supports the program, there is uncertainty regarding the position of the legislature.

Regent DeBardeleben supported Mrs. Kaplan's position and added that the government should enter only those programs that can't be performed or those which are not being performed by private enterprise.

The Board ultimately adopted the staff recommendation that WHEC proceed immediately to establish a private lender servicing program and that a contract be developed on satisfaction of the Lender Advisory Council and WHEC officers that at least 7500 accounts will be available to services in the first year of operation. On the roll call vote, Mrs. Kaplan and Regent DeBardeleben opposed the motion.

The meeting was adjourned at 12:15 p.m.

The next meeting of HEAB and WHEC is May 13, 1977 which was rescheduled to avoid conflict with the previously scheduled UW Board of Regents meeting on May 6, 1977.

REPORT OF NON-PERSONNEL ACTIONS BY ADMINISTRATIVE OFFICERS
to the
BOARD OF REGENTS
AND INFORMATIONAL ITEMS REPORTED FOR THE REGENT RECORD
11 February 1977

I. CONTRACTS AWARDED.

A. UW-EAU CLAIRE

1. 1973-75 Heating Plant Expansion
and Conversion
University of Wisconsin - Eau Claire
(Project No. 7306-14)

CONTRACT AWARDS

CONTRACT AMOUNTS

a. Mechanical

Bartingale Company
2021 Oxford
Eau Claire, Wisconsin 54701

\$ 276,567.00

b. Electrical

Wall Electric Service, Inc.
904 Front Street
Chippewa Falls, Wisconsin 54729

\$ 28,600.00

TOTAL CONTRACT AWARDS

\$ 305,167.00

B. UW-GREEN BAY

1. 1971-73 College of Community Sciences
(Fly Catcher and Duct Work)
University of Wisconsin - Green Bay
(Project No. 7009-05)

CONTRACT AWARD

CONTRACT AMOUNT

a. Fly Catcher

Greg Engebos & Sons, Inc.
1300 Velp Avenue, P. O. Box 3456
Green Bay, Wisconsin 54303

\$ 4,650.00

TOTAL CONTRACT AWARD

\$ 4,650.00

C. UW-MADISON

1. 1976 Horticulture Headhouse Addition
(Arlington Experimental Farm)
University of Wisconsin - Madison
(Project No. 7605-27)

<u>CONTRACT AWARD</u>	<u>CONTRACT AMOUNT</u>
a. <u>Heating & Ventilating Work</u> H & H Industries, Inc. P. O. Box 4267 Madison, Wisconsin 53711	\$ 6,400.00

TOTAL CONTRACT AWARD	\$ 6,400.00
2. 1976-77 Steam Pit Installation University of Wisconsin - Madison (Project No. 7611-11)	
<u>CONTRACT AWARD</u>	<u>CONTRACT AMOUNT</u>
a. <u>Steam Pit Installation</u> Johnson Insulating Company 2046 Pennsylvania Avenue Madison, Wisconsin 53704	\$ 4,500.00

TOTAL CONTRACT AWARD	
	\$ 48,600.00

II. CONTRACT CHANGE ORDERS IN EXCESS OF \$15,000.

1. 1973-75 Medical Center - Phase II
 University of Wisconsin - Madison
 (Project No. 6406-16)
 Federal Project No. C06 - CA - 15002-01

a. Change Order No. M-II-9	ADD \$ 39,000.00
----------------------------	------------------

III. REPORT OF ACTIONS TAKEN (MEMOS OF AGREEMENT).

- A. A renewal agreement has been signed between the City of Madison and the Board of Regents of the University of Wisconsin System, effective January 1, 1977, providing for the Fire Department's antenna and radio transmitter atop Van Vleck Hall. (Agreement signed by the Associate Vice Chancellor, UW-Madison.)
- B. A Software Agreement has been signed between Western Electric Company, Inc., and the University of Wisconsin, effective as of December 1, 1976, providing for royalty-free use by the Department of Computer Sciences, UW-Madison, of computer software. (Agreement signed by Associate Vice Chancellor, UW-Madison.)
- C. A contract, dated November 8, 1976, has been signed between the City of Racine and the University of Wisconsin - Parkside, covering provision by the City to UW-Parkside, for the period September 1, 1976 through May 20, 1977, of regularly scheduled bus service as part of the City's route nine. UW-Parkside agrees to pay its local share of the operating deficit. Urban Mass Transportation Administration of the U.S. Department of Transportation and the State of Wisconsin Department of Transportation will also assist in the subsidization of the operating deficit. (Agreement signed by Assistant Chancellor for Administration, UW-Parkside.)
- D. A rental agreement for continued use of the Physical Sciences Laboratory Farm by Roger H. Nelson has been signed. The agreement represents a continuation of the arrangement which has existed for a number of years. The rental rate has been adjusted upwards in consideration of recommendations of an independent appraisal and management review conducted by the UW-Madison campus.
- E. An agreement has been executed between the UW-Madison Department of Plant Pathology and Mrs. K. O. Rydzewski for lease of 20-40 acres of land at the rate of \$20 per acre for potato research.
- F. An amendment to the agreement between the UW-Madison Department of Meat and Animal Science and the Oscar Mayer Company has been signed. This limits Oscar Mayer's investment in animals, bedding, and grain at any one time during the period of the Agreement to \$75,000.

IV. REPORT OF ACTIONS TAKEN BY THE SUB-COMMITTEE FOR HIGHER EDUCATION OF THE STATE BUILDING COMMISSION IN DECEMBER 1976 AFFECTING THE UNIVERSITY OF WISCONSIN SYSTEM.

UNIVERSITY	PROJECT	ACTION
1. UW-MADISON	Requested authority to restore \$43,400 to the Movable Equipment portion of the budget for the 1975-77 Biochemistry Remodeling project for a total project cost of \$638,700.	APPROVED
2. UW-PARKSIDE	Requested authority to plan, bid, and construct a 1975-77 Two Bus Waiting Shelters project, for an estimated total project cost of \$25,500, in lieu of the previously approved \$45,000 1975-77 Three Bus Waiting Plazas project.	WITHDRAWN by request of the DOA.
3. UW-SUPERIOR	Requested authority to modify the Scope of the Work for the 1973-75 Sundquist Hall Conversion project.	APPROVED

V. REPORT OF ACTIONS TAKEN BY THE STATE BUILDING COMMISSION IN DECEMBER 1976 AFFECTING THE UNIVERSITY OF WISCONSIN SYSTEM.

UNIVERSITY	PROJECT	ACTION
1. UW-MADISON	Requested allotment of \$120,700 of State Building Trust Funds and authority to prepare Preliminary Plans and a Concept and Budget Report for the 1975-77 McArdle Cancer Laboratory Improvements project for an estimated total project cost of \$506,700.	WITHDRAWN by request of the DOA.
	* * *	
	Requested allotment of an additional \$35,000 of State Building Trust Funds for the 1975-77 Soil Science Remodeling project for a revised total project cost of \$95,000.	APPROVED
	* * *	

UNIVERSITY	PROJECT	ACTION
1. UW-MADISON (cont.)	Requested allotment of \$165,870 of State Building Trust Funds to plan, bid, and construct the 1975-77 Agriculture Journalism Remodeling project.	APPROVED
	* * *	
	Requested allotment of \$173,375 of State Building Trust Funds to plan, bid, and construct a 1975-77 Eleven Building Roof Repairs project.	APPROVED
	* * *	
	Requested authority to plan, bid, and construct a 1976 Plant Growth Light Improvements project for an estimated total project cost of \$45,500.	WITHDRAWN by request of the DOA.
	* * *	
	Requested that the State Building Commission endorse and recommend the introduction in January of a separate bill to authorize a 1977-79 Modification of the Charter Street Heating Plant project at a total estimated cost of \$5,830,000.	APPROVED
2. UW-MILWAUKEE	Requested allotment of \$15,000 of State Building Trust Funds to plan, bid, and construct a 1975-77 Kenilworth Building Concrete Repairs project.	APPROVED
	* * *	
	Requested allotment of \$24,300 of State Building Trust Funds to plan, bid, and construct the 1975-77 EMS Building Remodeling - Campus Computer Center project.	APPROVED
3. UW-PARKSIDE	Requested authority to plan, bid, and construct a 1976 Southeast Parking Area project, for an estimated total project cost of \$243,500, and authority to combine this project with the 1971-73/1973-75 Roadways and Parking project.	WITHDRAWN by request of the DOA.

UNIVERSITY	PROJECT	ACTION
4. UW-RIVER FALLS	Requested allotment of an additional \$15,600 of State Building Trust Funds for the 1975-77 Swine Nursery project for a revised total project cost of \$68,200.	APPROVED
	* * *	
	Requested allotment of \$58,000 of State Building Trust Funds to plan, bid, and construct a 1975-77 Underground Steam Distribution System Replacement project.	DEFERRED
5. UW-STEVENS POINT	Requested authority to sell Steiner Residence Hall and the South Campus Parking Area.	APPROVED
	* * *	
	Requested authority to decrease the scope and increase the budget for the 1975-77 Student Union Renovation project by \$20,000, for a revised total project cost of \$245,000.	APPROVED
6. UW-WHITEWATER	Requested allotment of \$9,800 of State Building Trust Funds and authority to plan, bid, and construct a 1975-77 Physical Therapy-Therapeutic Facility project for an estimated total project cost of \$167,700.	APPROVED
	* * *	
	Requested allotment of an additional \$50,900 of State Building Trust Funds for the 1975-77 Roseman and Salisbury Halls Remodeling project for a revised total project cost of \$176,700.	APPROVED
UW-GREEN BAY UW-MILWAUKEE UW-OSHKOSH UW-PARKSIDE UW-PLATTEVILLE UW-STEVENS POINT UW-SUPERIOR UW-WHITEWATER	Requested release of \$85,000 of Advance Planning Funds to prepare a 1975-77 Heating Plant Study Report on eight campus central heating plants.	APPROVED

UNIVERSITY	PROJECT	ACTION
UW-SYSTEM	Requested release of \$668,466 of Land Acquisition Funds to appraise, option, and purchase previously-authorized campus land acquisitions.	APPROVED release of \$340,000 for the purchase of one parcel of land at UW-OSHKOSH. DEFERRED release of additional funds pending receipt and approval of justification on a parcel-by-parcel basis.
UW-SYSTEM	Requested authority to transfer interest earnings from the Capital Improvement Fund to the Bond Security and Redemption Fund, pursuant to Wisconsin Statutes 18.08(3), on a quarterly basis.	APPROVED

VI. REPORT OF ACTIONS TAKEN BY THE STATE BUILDING COMMISSION IN JANUARY 1977 AFFECTING THE UNIVERSITY OF WISCONSIN SYSTEM.

UNIVERSITY	PROJECT	ACTION
1. UW-GREEN BAY	Requested release of \$90,000 of Land Acquisition Funds and authority to purchase one parcel of land.	APPROVED acquisition of the parcel with the provision that:
	(1) the final State tax source fund (Land Acquisition Fund) portion of the acquisition cost, including both the purchase price and relocation assistance expenses, be limited to \$36,000; and, (2) the balance of the acquisition cost come from UW-Green Bay generated non-tax sources.	
	Note: LAWCON participation, assuring recovery of 50% of the acquisition cost, both purchase price and relocation assistance expenses, in effect, means as follows:	

UNIVERSITY	PROJECT	ACTION
------------	---------	--------

1. UW-GREEN BAY
(cont.)

Initial acquisition cost:	
Land Acquisition Funds:	\$72,000
UW-Green Bay non-tax source funds:	<u>18,000 + Relocation Assistance expenses</u>
Total:	\$90,000 + Relocation Assistance expenses
Final acquisition cost (after receipt of LAWCON funds):	
Land Acquisition Funds:	\$36,000
UW-Green Bay non-tax source funds:	<u>9,000 + 1/2 of initial RA expenses</u>
Total:	\$45,000 + 1/2 of initial RA expenses

2. UW-MADISON

Requested approval of the Concept and Budget Report, release of an additional \$36,000 of Advance Planning Funds, and authority to plan, bid, and construct the 1975-77 Law Library Addition project, for an estimated total project cost of \$671,000.	APPROVED
---	----------

* * *

Requested allotment of \$120,700 of State Building Trust Funds and authority to prepare Preliminary Plans and a Concept and Budget Report for the 1975-77 McArdle Cancer Laboratory Improvements project, for an estimated total project cost of \$506,700.	APPROVED release of \$12,700 to prepare Preliminary Plans and a Concept and Budget Report.
---	---

* * *

Requested authority to plan, bid, and construct a 1976 Plant Growth Light Improvements project, for an estimated total project cost of \$45,500.	APPROVED
--	----------

* * *

Requested authority to plan, bid, and construct a 1977 Prototype Lightweight Truss Framed House project on the UW-Madison Beef Research Farms, Arlington Experimental Farms, near Arlington, Wisconsin, for an estimated total project cost of \$44,000.	APPROVED
--	----------

* * *

UNIVERSITY	PROJECT	ACTION
2. UW-MADISON	Requested authority to plan, bid, and construct a 1977 Memorial Union Fire Safety Improvements project, for an estimated total project cost of \$43,000.	WITHDRAWN by UW-Madison.
	* * *	
	Requested authority to plan, bid, and construct a 1977 Athletic Weight Room project, for an estimated total project cost of \$50,000.	APPROVED
	* * *	
	Requested allotment of \$60,000 of Advance Planning Funds to prepare a Concept and Budget Report for a 1977-79 Modification of the Charter Street Heating Plant project, at an estimated total project cost of \$5,830,000.	APPROVED
3. UW-MILWAUKEE	Requested approval of the Concept and Budget Report, release of an additional \$18,000 of Advance Planning Funds, and authority to prepare final plans, bid, and construct the 1975-77 Mechanical Monitoring System project, for an estimated total project cost of \$452,600.	APPROVED
4. UW-OSHKOSH	Requested allotment of an additional \$28,150 of State Building Trust Funds for the 1975-77 Multi-Curricular Self-Paced Instructional Facility project, for a revised total project cost of \$114,250.	APPROVED
5. UW-PARKSIDE	Requested authority to plan, bid, and construct a 1976 Southeast Parking Area project, for an estimated total project cost of \$243,500, and authority to combine this project with the 1971-73/1973-75 Roadways and Parking project.	APPROVED authority to plan, bid, and construct a 1977 Southwest Parking Area project at \$243,500 with the understanding that:

UNIVERSITY	PROJECT	ACTION
5. UW-PARKSIDE (cont.)	(1) the shuttle bus system will be discontinued; (2) the far east parking area will be abandoned when deteriorated beyond use; and, (3) the costs of removal of the far east parking area are to be borne by UW-Parkside parking program revenues.	
6. UW-RIVER FALLS	Requested allotment of \$15,600 of State Building Trust Funds to plan, bid, and construct a 1975-77 North Hall Roof Insulation project.	APPROVED
7. UW-WHITEWATER	Requested allotment of an additional \$48,200 of State Building Trust Funds for the 1973-75 Modifications for the Physically Handicapped project, for a revised total project cost of \$197,000.	APPROVED allotment of an additional \$36,200 for a revised total project cost of \$185,000.

UW-S ANNUAL REPORT

REMARKS OF CHANCELLOR KARL W. MEYER
TO
THE UNIVERSITY OF WISCONSIN SYSTEM BOARD OF REGENTS

FEBRUARY 11, 1977

UW-SUPERIOR, LIKE MOST INSTITUTIONS OF HIGHER EDUCATION, ASPIRES TO EXCELLENCE IN ALL ITS ENDEAVORS. WHILE WE SHARE THIS BOND WITH OUR SISTER UNIVERSITIES, THERE REMAINS A UNIQUE COMBINATION OF TANGIBLE AND INTANGIBLE INGREDIENTS THAT MAKE UP WHAT I'LL CALL OUR INSTITUTIONAL CHARACTER.

THE REMARKS INCLUDED IN MY CHANCELLOR'S REPORT ABOUT DEMOGRAPHICS, INSTITUTIONAL PROGRAMS, RESOURCES AND COMMUNITY INTERACTION SHOULD HOLD MORE MEANING IF CONSIDERED UNDER THE RUBRIC OF THIS INSTITUTIONAL CHARACTER.

MOST OF OUR STUDENTS ARE THE OFFSPRING OF WORKING FAMILIES, OFTEN ECONOMICALLY DISADVANTAGED. THEIR BACKGROUND WAS PERHAPS ONCE CONSIDERED MIDDLE-CLASS, BUT NOW IS EUPHEMISTICALLY CALLED 'BLUE-COLLAR'.

MANY ARE THE FIRST IN THEIR FAMILY TO GO TO COLLEGE AND MORE THAN A FEW ARE THE FIRST TO FINISH HIGH SCHOOL. THEY HAVE NOT ENTERED ON THIS EDUCATIONAL JOURNEY LIGHTLY. THE STUDENTS AT UW-SUPERIOR ARE SERIOUS.

TWO-THIRDS RECEIVE SOME FORM OF UNIVERSITY ADMINISTERED FINANCIAL AID. MOST OF THEM WORK TO HELP SUPPORT THEIR EDUCATION. TO BE SURE, THERE'S A KINSHIP AMONG THEM...A COLLECTIVE GOAL OF IMPROVING THE QUALITY OF THEIR LIVES.

THROUGH THE RECENT MODIFICATION OF SELECTED ACADEMIC PROGRAMS, ELIMINATION OF SOME, STRENGTHENING OF OTHERS, AND THE JUDICIOUS ADDITION OF STILL OTHERS, WE HAVE BEEN ABLE TO MEET THE EDUCATIONAL NEEDS OF THESE STUDENTS.

THIS HAS BEEN A LANDMARK YEAR AT SUPERIOR FOR CHANGE. WE ARE CONCURRENTLY PLANNING AND IMPLEMENTING. OUR PERSONNEL RESOURCES ARE LEAN AND WE ARE, LITERALLY, STRIPPED FOR ACTION. WHILE PLANNING HAS RECEIVED HIGH PRIORITY THIS YEAR, IT IS NOT A ONE-TIME VENTURE, BUT RATHER AN UNINTERRUPTED ONGOING PROCESS AND CHANGES THIS YEAR REPRESENT THE FRUITION OF SEVERAL YEARS STUDY IN ACADEMIC PLANNING.

FOR EXAMPLE, AT THE UNDERGRADUATE LEVEL WE HAVE ELIMINATED SEVEN MINORS IN THE COLLEGE OF BUSINESS AND

ECONOMICS, ADDED A HEALTH EDUCATION MINOR AND WILL ELIMINATE THE RESORT/RECREATION MANAGEMENT MINOR IN THE COLLEGE OF EDUCATION.

IN THE COLLEGE OF FINE AND APPLIED ARTS WE HAVE SIGNIFICANTLY MODIFIED THE UNDERGRADUATE MUSIC PROGRAM AND REVISED THE PROGRAM IN SPEECH COMMUNICATION TO INCLUDE A SEPARATE CONCENTRATION IN MASS COMMUNICATION. WE HAVE ELIMINATED A MAJOR AND MINOR IN SPANISH AND ADDED MINORS IN COMPUTER SCIENCE AND POLICE SCIENCE IN THE COLLEGE OF LETTERS AND SCIENCE.

ADDITIONALLY, WE HAVE ADDED AN INDIVIDUALLY DESIGNED MAJOR AND MINOR AND A WOMEN'S STUDIES MINOR.

THE GRADUATE SCHOOL HAS PHASED OUT ID M.A.T. PROGRAMS WHILE ADDING THE SPECIALIST IN EDUCATION PROGRAM IN MATHEMATICS AND SCIENCE.

IN THIS YEAR OF PLANNING AND CHANGE THE UNIVERSITY FACES SUBSTANTIAL BUDGET REDUCTIONS. MAINTENANCE OF ACADEMIC AND SERVICE PROGRAMS AND THE BOLSTERING OF STAFF MORALE HAVE PRESENTED VERY REAL CHALLENGES.

IN ORDER TO MEET THESE CHALLENGES, WE HAVE FOCUSED MUCH OF OUR PLANNING EMPHASIS TOWARD THE DEVELOPMENT OF REGIONAL EDUCATIONAL COOPERATION. THESE EFFORTS ARE CONCENTRATED IN THREE MAJOR AREAS.

FIRSTLY, OUR COMMITMENT TO BETTER SERVE THE EDUCATIONAL NEEDS OF THE REGION IS MANIFEST THROUGH THE

RECENT ESTABLISHMENT OF THE CENTER FOR CONTINUING EDUCATION, INVOLVING A COOPERATIVE AND COORDINATED WORKING RELATIONSHIP WITH UW-EXTENSION. OUR ACTIVITIES IN OUTREACH HAVE ALREADY REAPED BOUNTIFUL RESULTS.

UNIVERSITY RESOURCES ARE BEING REALLOCATED THIS YEAR AND NEXT FOR THE EXTENDED FIELD SERVICES PROGRAM AND THE EXTENDED DEGREE PROGRAM. MORE THAN 850 CONTINUING EDUCATION STUDENTS ENROLLED IN LOCAL EXTENSION COURSES, SPECIAL WORKSHOPS AND ON-CAMPUS OFFERINGS THIS PAST SEMESTER, INCLUDING APPROXIMATELY 150 ADULTS NOT PREVIOUSLY SERVED BY THE UNIVERSITY. PLANS FOR MAJOR EXPANSION OF FIELD SERVICES, IN COOPERATION WITH UW-EXTENSION, HAVE BEEN COMPLETED AND WILL BE IMPLEMENTED NEXT YEAR.

BETWEEN 40 TO 50 FACULTY AND ACADEMIC STAFF WILL BE DIRECTLY INVOLVED IN UNIVERSITY OUTREACH PROGRAMS DURING THE NEXT ACADEMIC YEAR. THIS EXPANDED COMMITMENT TO ADULT EDUCATION AND PUBLIC SERVICE WILL ALTER THE TRADITIONAL MISSION OF THE UNIVERSITY.

SECONDLY, WE ARE INTENSIFYING VOLUNTARY COOPERATIVE ACTIVITIES AMONG THE TWIN PORTS INSTITUTIONS OF HIGHER EDUCATION THROUGH THE LAKE SUPERIOR ASSOCIATION OF COLLEGES AND UNIVERSITIES. THE CONVERSION TO THE QUARTER CALENDAR IN THE FALL QUARTER OF 1977 WILL FACILITATE THIS VENTURE. THE RECENT

FORMATION OF A TWIN PORTS INTERINSTITUTIONAL ADVISORY COORDINATING COUNCIL WILL FACILITATE COOPERATIVE PROGRAM DEVELOPMENT, AS WELL AS OTHER FORMS OF RESOURCE SHARING.

THIRDLY, PLANNING SESSIONS ARE BEING HELD WITH REPRESENTATIVES FROM THE INDIANHEAD TECHNICAL INSTITUTE. THE CONSTRUCTION OF ITI'S NEW CAMPUS ADJACENT TO OURS NOT ONLY PROMOTES THE SHARING OF PHYSICAL RESOURCES, BUT ALSO PROVIDES THE INTERESTING OPPORTUNITY FOR IMPLEMENTATION OF A LIMITED NUMBER OF COOPERATIVE PROGRAMS INVOLVING APPLIED AND LIBERAL ARTS INSTRUCTION OF BENEFIT TO REGIONAL STUDENTS.

ALTHOUGH UW-SUPERIOR'S ENROLLMENT IS MODEST IN COMPARISON WITH OTHER PUBLIC INSTITUTIONS, ITS SERVICES TO THE COMMUNITY AND THE REGION ARE NOTEWORTHY. IN THE 1976 CALENDAR YEAR THE UNIVERSITY HAS SECURED, THROUGH ITS OFFICE OF EXTRAMURAL FUNDING MORE THAN A HALF MILLION DOLLARS FOR APPLIED RESEARCH AND RELATED PUBLIC EDUCATION SERVICES DEALING PRIMARILY WITH THE ENVIRONMENTAL, ECONOMIC AND SOCIAL PHENOMENA UNIQUE TO THE LAKE SUPERIOR REGION.

AS A LEADING CULTURAL CENTER IN NORTHERN WISCONSIN WE ARE EXPANDING THE DEPTH AND SCOPE OF UNIVERSITY PUBLIC LECTURES, TELEVISION PROGRAMMING, TOURING DRAMATIC PRODUCTIONS, AUDIENCE-PARTICIPATION DEBATES,

GALLERY EXHIBITS AND CONCERTS IN AN EFFORT TO REACH MORE RESIDENTS IN THE AREA.

ADDITIONALLY, MANY STAFF AND STUDENTS VOLUNTEER THEIR TIME AND SKILLS TO LOCAL CULTURAL GROUPS AND CRAFTS ORGANIZATIONS - - BROADENING THE BASE OF UNIVERSITY PUBLIC SERVICE.

IN ITS JANUARY MEETING, THE UNIVERSITY SENATE APPROVED A CITIZENS ADVISORY BOARD TO THE CHANCELLOR. WHEN IMPLEMENTED THIS SUMMER THIS BOARD WILL ASSIST US IN MORE ACCURATELY MEASURING THE PULSE OF THE COMMUNITY AND PROVIDE STILL ANOTHER AVENUE FOR DISSEMINATING INFORMATION ABOUT UNIVERSITY PROGRAMS TO THE AREA CITIZENRY.

THE FACULTY AND STAFF ARE TAKING EXTRAORDINARY STEPS TO DEMONSTRATE THE UNIVERSITY'S COMMITMENT TO REGIONAL PUBLIC SERVICE AND EXPANDED EDUCATIONAL OPPORTUNITIES FOR ALL CITIZENS. THESE COLLECTIVE EFFORTS, I THINK, ARE EVEN MORE NOTABLE IN THE FACE OF FISCAL AUSTERITY AND CONSTRAINTS.

WITH THE CONTINUED COOPERATION AND SUPPORT OF THE UNIVERSITY COMMUNITY, CENTRAL ADMINISTRATION AND THE BOARD OF REGENTS, WE LOOK FORWARD TO THE FUTURE WITH OPTIMISM.

Proposed Wisconsin Administrative
Code Amendments to Sections UWS 17.02(4)
and UWS 15.01(1)

EDUCATION COMMITTEE

Resolution 1363: Approved December 15, 1976

That the Secretary of the Board be directed to file a notice of hearing with the Revisor of Statutes for inclusion in the next Wisconsin Administrative Register to consider the amendment of UWS 17.02(4), Wisconsin Administrative Code, to clarify that cut-off or revocation of student financial aids is not a disciplinary sanction, and to amend UWS 15.01(1), Wisconsin Administrative Code, to correct an erroneous statutory citation, said hearing to be held in Room 1820, Van Hise Hall, 1220 Linden Drive, in the City of Madison, Wisconsin, on the 11th day of February, 1977, at 8:45 a.m. and that copies of the proposed rule amendments be provided at this time to the members of the Senate and Assembly Education Committees pursuant to S.227.018(2), Wis. Stats.

Proposed Changes in Wisconsin Administrative Code:

1) Amend UWS 17.02(4), as follows:

(4) "Disciplinary sanction" or "sanction" shall mean any action affecting the status of an individual as a student which is taken by the university in response to student misconduct. The term shall include probation, resignation or leave for misconduct, ~~cut-off or revocation of student financial aids~~ suspension or expulsion removal from the course with no grade assigned in cases of academic misconduct, written reprimand, denial of particular university privileges, and other less severe actions not enumerated herein. Disciplinary sanctions shall not include cut-off or revocation of a student's financial aids; however, this shall not be interpreted as precluding the individual operation of rules or standards governing eligibility for student financial aid under which the imposition of a disciplinary sanction could result in disqualification of the student for financial aid. Disciplinary sanctions do not include academic responses as defined in section UWS 17.02(8), Wis. Adm. Code. Each institution is authorized to adopt a more explicit listing of sanctions which is consistent with the provisions of this section.

2) Amend UWS 15.01(1), by changing the statutory reference in line 2 from "36.19" to "36.17" Wis. Stats.

Resolution 1383:
(Policy-Revised)

ORDER OF THE BOARD OF REGENTS
OF THE UNIVERSITY OF WISCONSIN
SYSTEM AMENDING RULES

Pursuant to authority vested in the Board of Regents of the University of Wisconsin System by sections 36.17 and 36.35(1), Wis. Stats., the Board of Regents of the University of Wisconsin System hereby amends rules as follows:

- (1) Section UWS 15.01(1) of the Wisconsin Administrative Code is amended by changing the statutory citation in line 2 to read:

36.17, Wis. Stats.

- (2) Section UWS 17.02(4) of the Wisconsin Administrative Code is amended to read:

(4) "Disciplinary sanction" or "sanction" shall mean any action affecting the status of an individual as a student which is taken by the university in response to student misconduct. The term shall include probation, resignation or leave for misconduct, suspension or expulsion, removal from the course with no grade assigned in cases of academic misconduct, written reprimand, denial of particular university privileges, and other less severe actions not enumerated herein. Disciplinary sanctions shall not include cut-off or revocation of a student's financial aids; however, this shall not be interpreted as precluding the individual operation of rules or standards governing eligibility for student financial aid under which the imposition of a disciplinary sanction could result in disqualification of the student for financial aid. Disciplinary sanctions do not include academic responses as defined in section UWS 17.02(8), Wis. Adm. Code. Each institution is authorized to adopt a more explicit listing of sanctions which is consistent with the provisions of this section.

The amendments contained herein shall take effect on the first day of the month following publication in the Wisconsin Administrative Register.

Dated February 11, 1977

The University of Wisconsin System

TRANSITIONAL GUIDELINES

FOR

THE FACULTY SABBATICAL PROGRAM

This paper outlines the transitional guidelines for implementing the University of Wisconsin System faculty sabbatical program, as specified in the Wisconsin Statutes 36.11 (17) [See the Appendix]. These guidelines will be used until such time as relaxation of extended fiscal constraints permit a more traditional faculty sabbatical program.

I. FACULTY SABBATICAL PROGRAM

A. General Terms: The following conditions constitute the terms of the sabbatical:

1. A sabbatical leave shall be granted for the purpose of enhancing teaching, course and curriculum development within the field of expertise of the faculty member taking such leave.
2. A faculty member shall receive compensation while on sabbatical leave, but such compensation, when combined with outside compensation earned while on leave, shall not exceed the full compensation normally received from the System.
3. The faculty member taking a sabbatical leave shall agree to return to the institution from which leave was granted for at least one year after the termination of the sabbatical or return any compensation received from the System during the sabbatical.
4. A faculty member on sabbatical leave for an academic year, or its equivalent, shall receive one-half of his/her state GPR instructional compensation amount for that period, subject to the condition stipulated in I.A.2 above.
5. A faculty member on sabbatical leave for one semester or one quarter of the academic year, shall receive his/her full state GPR instructional compensation amount for that period, while those on sabbatical leave for two quarters of the academic year shall receive three-quarters of his/her GPR instructional compensation for an academic year. These provisions are subject to the condition stipulated in I.A.2 above.
6. Upon completion of the sabbatical leave, the faculty member must submit a written report outlining his/her accomplishments during the leave in accordance with a process and format for reporting established by each campus.

EXHIBIT E

- B. Transitional Guidelines for 1977-78 and Beyond: The faculty sabbatical program will be administered according to the following transitional guidelines until a faculty sabbatical program can be implemented according to more permanent guidelines.

II. FACULTY SABBATICAL PROPOSALS

A. Criteria

1. Eligibility: To be eligible, a faculty member must meet the following criteria:
 - a) have completed 6 or more years, or the equivalent, of full-time instructional service in the UW System.
 - b) have not taken a leave of absence, regardless of source of funding (except personal resources) in the previous 4 years of full-time instructional service in the UW System.
2. Requirements: Faculty sabbatical proposals, to be considered by the UW System Sabbatical Selection Committee, must meet the following requirements:
 - a) Each faculty applicant shall prepare a proposal that includes:
 - (1) a description of the proposed sabbatical program, including such items as:
 - [i] the nature and objectives of the proposed sabbatical program;
 - [ii] the relationship of the proposed sabbatical program to the faculty applicant's field of expertise;
 - [iii] the anticipated contribution of the proposed sabbatical program to the enhancement of teaching and/or course and curriculum development at the institution or in the UW System;
 - [iv] the proposed period and/or schedule of sabbatical study; and
 - [v] the reason(s) the proposed program could not be completed as part of the normal faculty assignment for instruction and other professional duties during the academic year.
 - (2) an updated professional vita, plus any additional evidence of significant contributions to teaching in the previous 6 years (additional evidence: letter(s) of support from departmental chairperson(s), dean(s), screening committee, and other persons familiar with the applicant describing the applicant's significant contributions to teaching).

b) Each institution shall provide:

(1) a letter of transmittal from the chancellor, indicating:

- [1] that each faculty proposal has received joint faculty and administrative approval;
- [ii] that institutional resources from the existing general operations appropriations will be available to fund the proposed sabbatical program if granted;
- [iii] that each faculty proposal has been selected under nondiscriminatory principles; and
- [iv] that each faculty applicant has not had any funded leave of absences during the previous 4 years.

(2) an institutional ranking of the faculty sabbatical proposals.

B. Preference: The institutional selection committees and the UW System Sabbatical Selection Committee in selecting faculty proposals for recommendation to the Senior Vice President for Academic Affairs will give preference to:

1. proposals of faculty applicants who have been making significant contributions to teaching; and
2. proposals that promise to enhance teaching and/or course and curriculum development

III. INTERIM SELECTION COMMITTEE

- A. Nominations: The Senior Vice President for Academic Affairs will seek faculty nominations from chancellors and faculty leaders.
- B. Selection: The Senior Vice President for Academic Affairs will select committee members from the nominees.
- C. Composition: The UW System Sabbatical Selection Committee will be composed as follows:

Committee of the whole	Cluster Sub-committees	
Faculty members		
Doctoral Cluster	4	4
University Cluster	4*	11
Outreach Cluster	4	4
Staff support		
Central Administration	2	2
	14	21

* The University Cluster sub-committee shall select four of its members to participate in the activities of the UW System Sabbatical Selection Committee when operating as a committee of the whole.

IV. PROPOSED SELECTION PROCEDURES

A. Faculty Proposals and Institutional Review

1. Any faculty member eligible under Wisconsin Statutes 36.11(17), in consultation with his/her department chairperson, may prepare a proposal.
2. The institution shall specify the faculty and administrative mechanism for reviewing and screening the faculty sabbatical proposals.
3. The chancellor shall review and forward to the Office of Academic Affairs proposals that (a) have received both administrative and faculty approval, (b) have been selected under nondiscriminatory principles, and (c) will be able to be funded from institutional resources, if granted.
4. The number of faculty sabbatical proposals to be forwarded from each institution for final selection by the UW System Sabbatical Selection Committee shall not exceed the following:

Each Doctoral Cluster institution . . . 8 proposals
 Each University Cluster institution . . 3 proposals
 Each Outreach unit. 4 proposals
 (Center System and Extension)

B. Cluster Entitlements

1. An entitlement indicating the dollar limit on the total of the previous year's salary (state general purpose revenue portion only) of faculty applicants selected for the sabbatical program will be specified for each cluster on the basis of the cluster's proportion of the total UW System faculty.
2. Each cluster's proportion of the total UW System faculty should be reviewed annually as the basis for establishing the cluster entitlements.
3. The total dollar equivalent of all cluster entitlements for each year of the transitional sabbatical program will be governed by condition (i) of Wisconsin Statutes 36.11(17).

C. Committee Action

1. The UW System Sabbatical Selection Committee will operate as a committee of the whole to review core selection criteria and procedures prior to cluster subcommittee deliberations.
2. The UW System Sabbatical Selection Committee will operate as separate cluster subcommittees to conduct the actual review and selection of the faculty sabbatical proposals and alternatives to be recommended for approval by the Senior Vice President for Academic Affairs.

3. In the event of sufficient unused cluster entitlement, the UW System Sabbatical Selection Committee will operate as a committee of the whole to select and recommend on a systemwide basis any additional faculty sabbatical award possible under condition (i) of Wisconsin Statutes 36.11(17).

V. TRANSITIONAL TIME LINE

A. Academic Year 1977-78

1. Preliminary Review: The proposed transitional protocol for the faculty sabbatical program should be discussed with the chancellors and faculty leaders in January, 1976.
2. Regent Board Action: Formal action on the proposed transitional guidelines for implementing the sabbatical leave legislation in 1977-78 will be taken in February, 1977.
3. Sabbatical Program Call: The formal call for (a) selection committee nominations and (b) faculty sabbatical proposals should be announced immediately following approval of the transitional protocol by the Board of Regents at the February meeting.
4. Committee Nomination Deadline: Nominations for the UW System Sabbatical Selection Committee by chancellors and faculty leaders will be due by March 1, 1977.
5. Sabbatical Proposal Deadline: The deadline for the submission of faculty sabbatical proposals to the UW System Sabbatical Selection Committee will be March 15, 1977.
6. Sabbatical Selection Deadline: The deadline for the selection of recommended faculty sabbatical proposals by the UW System Sabbatical Committee will be April 1, 1977.
7. Sabbatical Award Approval: Formal approval of recommended faculty sabbatical awards will be made by the Senior Vice President for Academic Affairs prior to the April meeting of the Board of Regents.
8. Board Announcement: Formal announcement of those faculty members selected for a sabbatical will be made at the Board of Regents meeting in April, 1977.

B. Academic Year 1978-79 and Beyond, Until Replaced By the Permanent Guidelines

1. Sabbatical Program Call: The formal call for faculty sabbatical proposals for the academic year 18 months hence, should be announced by the chancellors in January of each year.
2. Committee Nomination Deadline: Nominations for the UW System Sabbatical Selection Committee by chancellors and faculty leaders will be due by October 15.

3. **Sabbatical Proposal Deadline:** The deadline for the submission of faculty sabbatical proposals to the UW System Sabbatical Selection Committee will be November 1.
4. **Sabbatical Selection Deadline:** The deadline for the selection of recommended faculty sabbatical proposals by the UW System Sabbatical Selection Committee will be November 30.
5. **Sabbatical Award Approval:** Formal approval of recommended faculty sabbatical awards will be made by the Senior Vice President for Academic Affairs prior to the December meeting of the Board of Regents.
6. **Board Announcement:** Formal announcement of those faculty members selected for a sabbatical will be made at the December meeting of the Board of Regents.

SECTION 41t. 36.11 (17) of the statutes is created to read:

36.11 (17) SABBATICAL LEAVE FOR INSTRUCTIONAL FACULTY. The board may grant sabbatical leave of up to one year to instructional faculty, in order to recognize and enhance teaching efforts and excellence, under rules and procedures adopted by the board, subject to the following conditions:

(a) Sabbatical leave may be granted only to those faculty members who have completed 6 or more years, or the equivalent, of full-time instructional service in the system.

(b) Only one sabbatical leave may be granted for each 6 years of full-time instructional service in the system with preference given to those who have been making significant contributions to teaching and have not had a leave of absence, regardless of source of funding, in the previous 4 years.

Voted
in Part (c) Sabbatical leave shall be granted for the purposes of enhancing teaching, course and curriculum development, ~~research or other scholarly pursuits~~ within the field of expertise of the faculty member taking such leave.

(d) Sabbatical leave shall be approved by appropriate faculty and administrative committees.

(e) A faculty member shall receive compensation while on sabbatical leave, but such compensation, when combined with outside compensation earned while on leave, shall not exceed the full compensation normally received from the system.

(f) The faculty member taking a sabbatical leave shall agree to return to the institution from which leave was granted for at least one year after the termination of the sabbatical or return any compensation received from the system during the sabbatical.

(g) Funding for the sabbatical leave program shall be provided from the existing general operations appropriation for the system.

(h) The number of instructional faculty eligible for sabbatical leave during the academic year shall not exceed 1 1/2% of the total unclassified faculty positions authorized to the university of Wisconsin system.

(i) The sum of the general purpose revenue portions of compensation amounts paid to individuals in the year prior to their receiving sabbatical leaves under this subsection shall not exceed \$200,000.

STATUS REPORT ON THE
REMODELING STUDIES FOR THE
1300 UNIVERSITY AVENUE COMPLEX

Introduction

The purpose of this report is to explain the status of the planning and renovation and remodeling of 1300 University Avenue (the old medical center), to describe the basis on which that plan is proceeding, including the policy assumptions and criteria developed by the campus, and to set forth and explain the budgetary estimates and limits which have been established for the planning and execution of this overall project.

When the decision was made to limit the new health science construction to essentially hospital and clinical sciences facilities, it became necessary to provide for continuation of the use of the 1300 University Avenue complex to provide space for medical school research and training programs. The CRS consultants to the Building Commission established that remodeling of the 1300 University Avenue facilities would take two to five years and cost a total of \$16 million. Last July the state building commission approved the following request:

"Requests allotment of \$200,000 of Advance Planning Funds (BTF) to prepare a Concept and Budget Report for the multi-phased remodeling and renovation of the 1300 University Avenue Medical Complex at UW-Madison. The estimated total cost of all phases of this remodeling project is \$21,100,000. A first phase Hospital remodeling project at a cost of \$3,500,000 of tax supported bonding was enumerated in the 1975-77 Building Program, and a Concept and Budget Report is needed to determine space assignments and the scope of remodeling feasible in this first phase project."

This action was to include an assessment of the long range development program for the remodeling and a functional layout of program activities. In addition, the consultants were asked to review and determine whether the criteria and standards used to arrive at the program were appropriate and justified. Finally, the consultant was asked to review the previous engineering studies and develop cost estimates.

When the building commission released the planning funds, it did so with the expectation that two principal results would be achieved prior to the time that the commission considered the University request for funds for the 1977-79 capital budget:

(1) That the master development plan for the overall project would be reviewed, and that the consultants would report the conclusions of their study of the space criteria and standards used to formulate that plan, and

(2) That a concept and budget report for the total project would be completed to provide the context for action by the building commission.

Because of the complexity of the project, and because of the necessity to reassess some of the assumptions and requirements in the master development plan in relation to the constraints of both the existing physical facilities and the budget, it has not been possible to achieve those results. It is presently expected the architectural consultants' report will be available before the building commission undertakes its deliberations on the budget in late February and early March.

In light of that, it was concluded that this status report was necessary in order to apprise the Regents of the current planning, and to express for Regent approval the current planning policies and budgetary limits.

Background

The Building Commission Task Force (Charlier Committee) report of January 1974 recommended that the schematic plans for the development of the 1300 University Avenue Complex be further defined and detailed. Following this recommendation, the Center for Health Sciences completed a Master Development Plan for the programs to remain at the 1300 University Avenue Complex. This plan, dated April 23, 1976 and revised November 8, 1976, was

based on the assumptions that:

- no new buildings at either the 1300 University Avenue Complex or the new building site will be constructed in the next three biennia.
- Programs now housed in leased space and not programmed to occupy space in the new building will be housed within the 1300 University Avenue Complex. (See exceptions in Attachment A).
- The plan should attempt to meet identifiable space needs without assignment of functions to Children's Hospital, Bradley, Infirmary, 1402 University Avenue or 427 Lorch Street.
- The basic plan should allow for new programs in the CHS or health-science-related areas.
- The plan should allow for changes in emphasis in teaching and research. In particular, the laboratories and teaching space should be so located and with sufficient design flexibility to allow ready conversion to other uses.
- In order to avoid duplication of patient care support services, no direct patient care programs should be located in the 1300 University Avenue Complex.

The number of faculty, students and staff were projected to 1980 and, through the use of University space guideline standards, the amount of space required for the presently approved programs were estimated. (See Attachment B.) The locations for activities and the criteria for selecting them in the Master Plan were designed to achieve a functional yet economical utilization of the various buildings in the 1300 University Avenue Complex. For

example, the buildings which presently house the basic science departments are in relatively good condition and appropriate for the functional requirements of those departments; it was therefore recommended that the basic science departments continue in their present location and that their expansion requirements be met by acquiring space presently occupied by the dedicated and multidisciplinary teaching laboratories in those buildings. It is anticipated that this will provide the necessary facilities at the lowest possible cost. This approach also simplifies the phasing of the construction packages by allowing immediate in-place expansion without a costly, disruptive relocation process.

Current Planning

Following the publication of the Master Development Plan for 1300 University Avenue Complex, the State Building Commission hired the architectural firm of Durant, Deininger, Dommer, Kramer, Gordon, P.C. (DDDKG) to (1) validate the Master Plan program standards; (2) validate the Master Plan location assignments; (3) validate the Master Plan phasing schedule; (4) develop the revisions of architectural and mechanical elements as they affect life cycle energy consumption; and (5) develop a concept and budget report.

The program statement has been reviewed by the firm of Coopers and Lybrand acting as consultants to the architects. This independent review with a minor reduction in animal space and a redistribution of space in Basic Sciences teaching and research has led to a validation of the program requirements. In addition, DDDKG has reviewed the location assignments, phasing schedule and developed rough cost estimates. Based on this initial review the Center for Health Sciences has modified several of the basic assumptions used in the Master Development Plan in order to retain the project within the budget.

The programming assumptions that were changed were:

1. Several programs are to remain at locations outside of 1300 University Avenue indefinitely. (i.e., Preventive Medicine, Research Animal Resource Center, Center for Health Sciences Administration.)
2. Programs which were University-wide and health sciences related were eliminated from the program. The reason for omitting these particular programs was the uncertainty regarding the future of these programs. (i.e., Environmental Toxicology, Neurobiology.)
3. On the recommendation of the consultants the animal care space was reduced.
4. Space requirements for some programs were reevaluated and reduced (i.e., Laboratory Computer Facility, Teaching Laboratories* and displacement space from the new building).

In addition, the Center for Health Sciences has reevaluated the location of programs at 1300 University Avenue to determine if a better matching of space needs with existing space will result in a reduction of remodeling expense. In particular, it is recommended that space at 427 Lorch Street (Interns and Residents dorm) which is now suitable for offices, without remodeling, be assigned to GHS programs requiring such space. This will enable the Center for Health Sciences to reduce the total amount of space to be remodeled at 1300 University Avenue.

Original Master Plan Space Requirement	532,800
Reductions as noted above	53,100
Current Program	479,700
Space available at 1300 Univ. Av. (including Bradley)	479,300

*A reduction in the number of stations will require a similar reduction in non-medical student enrollments in some laboratory courses.

The results of this program and space evaluation indicate that the proposed functions can be accommodated in the 1300 University Avenue Complex, exclusive of Nurses Dorm, Children's Hospital, 427 Lorch Street, and Infirmary. However, a more functional match between program and existing space can be achieved if the CHS assigns certain programs to 427 Lorch Street. This would leave a block of Hospital space as unassigned to meet other campus needs.

Budget

It was recognized in the 1976 CHS Master Development Plan for 1300 University Avenue Complex that it will be necessary to undertake the remodeling in several stages in order to maintain the on-going instruction and research programs. The Task Force report by Caudill, Rowlett & Scott of 1973 estimated that the remodeling of the existing site would require two to five years. Their estimated cost, utilizing 1973 construction costs escalated to January 1977, amount to \$16,000,000 and was estimated in July of 1976 at \$21.1 million. Current cost index information spreading the remodeling over the next three biennia escalates this figure to \$22,000,000. This amount does not include the cost of presently unforeseen specialized facilities which would be financed by gift or grant funds.

In the 1975-77 biennium the Madison campus requested and the Board of Regents, Building Commission and Legislature approved the first phase of the remodeling of the old medical center facilities with a project cost of \$3.5 million. In the 1977-79 budget request adopted by the Board of Regents and now before the State Building Commission, the University requested a second phase project for \$6 million of state bonding. Two further segments of the overall plan for remodeling are contemplated. It is not known at this time if this will be carried out in one biennium or two.

The project architects have been instructed to develop an overall remodeling plan that will best accommodate the programs within the limits of a total project budget of \$22 million.

PROGRAMS IN OTHER LOCATIONS

Several elements of the CHS are projected to be located neither in the new building nor in the 1300 University Avenue Complex:

Medical School

Family Medicine and Practice Department
Gnotobiotics Laboratory
Immunobiology Research Center
Medical Genetics Department
Portions of the Departments of Neurology, Neurophysiology,
Pediatrics and Psychiatry
Portion of the Department of Preventive Medicine

School of Pharmacy

State Laboratory of Hygiene

University Health Service

University Hospitals

Fiscal Affairs
Supply

Additional elements not included in either the new building or in 1300 University Avenue Complex based on modified assumptions:

Preventive Medicine

Research Animals Resource Center

Center for Health Science Administration

Faculty, Students and Space - CHS Summary - 1969, 1975 and 1980

	<u>1969</u>	<u>1975</u>	<u>1980</u>
<u>Faculty</u>
