RIDING HERD : : COMMENTS UPON MEMBERSHIP : : TEN THOUSAND

"Coma ti yi youpy, youpy ya, youpy ya."

By L. F. VAN HAGAN, '04

"Coma ti yi youpy, youpy ya."

IN the days before the automobile, two hiking enthusiasts were crossing a desolate bit of country where the towns were far apart. The close of day found them hungry and weary and longing for the comforts of a bath and food, but with no town in sight. Finally they passed a native and asked the distance to the next town.

"Ten miles," was the reply.

They sighed, thanked him, and pressed on for another hour. Then they met another native and again asked how far it was to town.

"Ten miles," he said.

They sighed once more and trudged on for another hour. Once more they met a passerby and asked, "How far to X?"

"Ten miles," the native answered.

"Thank God, we're holding our own!" murmured pilgrim A to pilgrim B.

The membership committee of the Alumni Association feels very much in the frame of mind of the hikers. We have been working toward the goal of a TEN THOUSAND membership for several years. Each year, in addition to adding new members from previous classes, we have made every effort to bring the new graduates into the organization and since 1921 we have succeeded in having each senior class join the association as a class. Because the graduating classes are so large we have felt sure each June that we were going over the mark, and after each campaign our secretary has been forced to flatten our elation with the sad news that we had not yet reached it. Investigation has revealed the cause: We have been adding large numbers of new members, but some old members neglect to pay their dues. Of course, it isn't good psychology to admit anything as damaging as that; but there it is.

Do we lose members? There are not many, of course, who withdraw of malice aforethought. Occasionally, some one does write in to say that, because of some heinous offense of commission or omission, he or she withdraws from the association and kindly hopes that we choke to death; but they are not many. The big loss comes from the fairly constant proportion of members who forget to pay their dues promptly. Such members enjoy the privileges of membership, but they don't help to carry the common burdens; they are not active and effective members, and we cannot count them as such.

It is a delicate operation to remove an appendix without also removing the patient. It is just as delicate an operation to remove delinquent dues without also removing a member. If we apply commercial methods in our organization and drop a member and discontinue his privileges immediately upon the expiration of his dues, we create resentment. Of course, we know that a member would have no just ground for resentment in such a case, but we also know from experience that

he would feel resentful, and that the Association and the University would probably lose a good friend. If we carry a member along, he will ultimately send us a check, usually with a kindly letter of appreciation for the eniency that has been shown him.

When a check for delinquent dues finally blows in there is much rejoicing, but, oh, boy, how we would like to have those dues when they are due!

The officers of your Alumni Association, under the inspiring

and able leadership of George Haight, '99, are trying their utmost to make the Association an effective asset to the University. The Association has been very active during the past year and has planned to make the present year a busy one. The members of the Association have demanded action, and the management is doing its best to give them what they want. But we can't have action without money.

The membership committee senses the coming of a more rigid policy on the part of the management in regard to the payment of dues. The committee is anxious to anticipate the adoption of such a policy by riding herd in advance of the coming of the storm and getting the strays into the corral. We are going after the graduating classes, of course; but, we are also going to hold our old membership. We bespeak your co-operation.

OBSERVE FOUNDATION DAY

EACH year an increasing number of local U. of W. clubs formally recognize the birthday of Alma Mater, our institutional mother. These birthday parties strengthen the bonds between alumni and faculty. As one distinguished alumnus says, "We, former students, desire to do something for the future betterment of the relations between the faculty and the alumni in the various cities." Faculty representatives, who, as guests of honor, have addressed these meetings, have been received by alumni "in a spirit of good fellowship for the promotion of intellectual advancement."

Each local club should observe Foundation Day. A visitor from the campus, while desirable, is not absolutely essential. If arrangements to have such a visitor are practical, then communication regarding ways and means should be sent directly to the office of President Glenn Frank at the earliest possible date.

KNIGHTED BY KING

JULIUS E. OLSEN, '84, Professor of Scandinavian languages and literature, Madison, and Dr. Adolf Gunderson, University regent, La Crosse, have received the distinguished recognition of the Order of St. Olaf from Haakon VII, King of Norway. Vice-consul Olaf S. Rove, '90, of Milwaukee, who presented the cross of the order, is himself a member, as is also Magnus Swenson, '80.

DADS' DAY

NEARLY 1,100 men—fathers of University of Wisconsin students, and members of the faculty—heard President Glenn Frank speak at the annual Fathers' Day banquet in the gymnasium. The fathers came from a score of states to witness the Wisconsin-Michigan State football game and to visit their sons and daughters and the university faculty.

President Frank told the fathers that the state university does not aim to produce either conservatives or liberals, but rather to give its students a ruthless, scientific spirit which will allow them to consider all the facts and which will lead them to common sense conclusions. The university, said President Frank, does not exist to teach students what to think but to teach students how to think.

L. A. Karel, '96, Kewaunee banker, responded for the fathers with cordial thanks.

PHI KAPPA PHI LECTURE

PROF. C. K. LEITH, geologist, '97, who was chief of the minerals division of President Wilson's commission to negotiate peace delivered the first Phi Kappa Phi lecture on international affairs, at the University early last month.

Prof. R. B. Mowatt, of the department of history, who was in the suite of General Jan Smuts, chief author of the League of Nations covenant, delivered the second lecture on "International Affairs."

Prof. Hugh Smith, of the romance languages department, will speak in January on "The National Traits of the French Seen Through Their Theatre."

Prof. P. B. Potter, of the political science department, will give the fourth lecture in February on "Contemporary International Organization."

Prof. W. G. Bleyer, '96, director of the course in journalism, will deliver the final lecture in March on "The Press and Public Opinion in International Relations."

SCHOLARSHIP AS MEMORIAL

THE Evan A. Evans Memorial Scholarship established in 1919 serves to perpetuate the ideals as well as to honor the memory of a worthy citizen.

Mr. Evan A. Evans Sr., who died at Spring Green in 1917, was keenly interested in the live stock and farming industry of Sauk and Iowa counties. He labored to better his community and to give it a broader viewpoint. That this work might continue, his heirs under the leadership of Judge Evan A. Evans, '97, placed \$2,000 in trust at the University. The proceeds are used for the benefit of the Spring Green community in developing agricultural leaders who will go back to that section of Wisconsin. A scholarship, open to Short Course students at the University from eight specified townships in the Spring Green neighborhood, is awarded annually on the basis of merit and qualification for leadership by a committee consisting of three representatives of the College of Agriculture and five representatives of the local community.

AT HARVARD BUSINESS SCHOOL

GRADUATES of the University of Wisconsin now enrolled in the Harvard Business School are:

R. N. Ballou Jr., '25, E. N. Lee, '22, H. W. Roper, '25, J. J. Stewart, '23, A. W. Walter, '24, W. B. Baehr, '24, E. A. Gilmore, '24, E. B. Kapp, '23, L. B. Kimball, '24, H. L. Schuman, '20, Yin Chieh Yu, '22.

Our University ranks sixth in the number of students at the Business School. Among the Wisconsin men who have recently graduated at Harvard, R. I. Blakeman, '23, is now with the Eli Lilly Company, Indianapolis; W. L. Dayton, '21, with the Associated Gas & Electric Company, Ithaca, New York; W. S. Kidder, '23, with the Firestone Tire & Rubber Company, Akron, Ohio; and W. J. Mountin, '22, with the Phoenix Hosiery Company, Milwaukee.

The Harvard Business School has now a midyear class entering in February.

SIGNIFICANT PROGRESS

LECTURES on the general theme "Significant Lines of Progress during the Past Quarter of a Century" were delivered by six professors of the faculty of the University upon invitation of the local chapter of the national honorary society, Phi Kappa Phi, during the year 1924-1925. Five of these lectures dealing with the subjects of medicine, zoology, radio communication, chemistry, and government, have been printed in book form as a University publication.

NEW PROFESSOR OF SURGERY

DR. ERWIN RUDOLPH SCHMIDT, '13, has been appointed by the Board of Regents as Professor of Surgery at the University of Wisconsin and Surgeon of the Wisconsin General Hospital in place of Dr. Carl A. Hedblom who recently resigned to accept a similar position at the University of Illinois College of Medicine, Chicago. Dr. Schmidt will become chairman of the de-

partment February first at the time Dr. Hedblom leaves.

Dr. Schmidt is at present on the surgical staff of the Augustana Hospital, Chicago. He was closely associated with Dr. A. J. Ochsner, '84, up to the time of the latter's untimely death and was selected to help carry forward the great surgical service established by Dr. Ochsner at the Augustana Hospital. His appointment as Professor of Surgery at the University of Wisconsin gives him opportunity to further the work of another institution in which Dr. Ochsner was always intensely interested, the Medical School of the State University.

Dr. Schmidt is the son of Mr. George Schmidt of Arcadia. After receiving his B.A. degree in 1913, he instructed in the department of anatomy here for a year and then finished his medical course at Washington University, St. Louis. He served internships at the Barnes Hospital, St. Louis, in the service of Dr. George Dock, and at the Augustana Hospital in the service of Dr. A. J. Ochsner, and at the University of Pennsylvania Hospital had special training in neural surgery in the service of Dr. Charles H. Frazier. During the war, he was in the department of head surgery at Camp Dodge and later was sent over-seas to become commanding officer of the U. S. A. Base Hospital No. 11. After the war, he returned to Chicago to become Chief of the Assistant's Clinic in the service of Dr. Ochsner at the Augustana Hospital. During the years 1921-1923, inclusive, he was in Europe as exchange assistant, first in the service of Professor Einar Key at the Maria Hospital, Stockholm, and later in that of Professor Victor von Schmeiden at Frankfurt. During this period he visited the leading European university surgical clinics. He has also spent considerable time becoming familiar with the chief university surgical clinics in this country. This has given him an unusually broad background as a basis for his new field of work. Dr. Schmidt has the reputation not only of being a skillful operator

but also of being much interested in the advance of medical knowledge through research, and an inspiring teacher.

CAPITAL—LABOR LECTURES

A SERIES of lectures which aims to present both sides of the capital-labor dispute is being sponsored this year by the economics department. Leon Lamfrom, '05, attorney for the Milwaukee Employers' council, gave the first lecture last month. He is to be followed by Senator Herbert Quick, socialist, Milwaukee attorney; F. H. Clausen, '97, president of the Van Brunt Manufacturing company, Horicon; Henry Ohl, president of the Wisconsin Federation of Labor; H. A. Wagner, president of the Wisconsin Bridge and Iron company, Milwaukee; and Jacob Frederick, of the Milwaukee Machinists' Union.

ON REUNIONS

WHAT promises to be a real live reunion next June had its inception in a miniature reunion on November 8 at the Park Hotel, when over thirty enthusiastic members of the class of 1916 met at dinner and discussed "ways and means" under the able leadership of President C. N. Maurer.

GO CHICAGO

MORE than five hundred men were present at the great annual football banquet held by the U. of W. Club of Chicago. That gathering is steadily becoming a national rallying point for alumni. Visitors from Milwaukee, Madison, St. Louis, New York and scores of other places attended this year. No alumnus who can arrange to be in Chicago the night before the Wisconsin game can afford to miss this enthusiastic meeting.

AN ATTEMPT TO SHACKLE THE FUTURE

BY A. W. MEYER, '98

I AM fully aware that college and university administrators are wont to speak of the problem of the alumni—and alumnae. This, perhaps, should give me pause but I too, prize freedom of speech and I hope not for myself alone. Besides, I too have regarded myself as a liberal and a democrat, who frankly recognizes that the people of every commonwealth must solve the problems of their day in their own way, if democracy is to succeed. Hence let no one misunderstand and accuse me of "pestiferous intermeddling" in things that do not concern me. No university,—least of all a great one—lives unto itself alone.

Every true democrat will grant that the people should be free to make their own decision. This, to be sure, holds for the people of tomorrow as well as for those of today. Hence he who decides, or presumes to decide, problems for all time virtually denies the people of the future this inestimable right and violates the spirit as well as the most basic principle of democracy. It seems to me that when the Board of Regents of our Alma Mater recently decided that "no gifts, etc., shall in the future be accepted" they plainly violated this principle. By so doing they also express a lack of confidence in their successors and cast a blighting judgment

upon the future of government by the people in Wisconsin. For this action of the Board implies that, in their opinion, the democracy of the future will be incapable of dealing as wisely with the problems that shall confront it as they themselves now can, and that the control of corporate wealth will be an insuperable problem for it. If this be true, then the doom of democracy is sealed. There is no escape from this conclusion.

Is it possible, after all, that those responsible for this action, like Heraclitus, of old, believe that "the many, like people heavy with wine, are led by children, knowing not whither they go" and is it true, after all, that "the ass will have his thistles rather than fine gold?" In spite of the fact that the democracy of yesterday and that of today has not always seen or followed the light, I for one, desire to record my earnest protest against so gloomy a forecast. Surely the faith of true democrats should lie deeper than this and were it necessary to pass verdicts for the future, it is certain that that future would lack the wisdom to regard them. It would be blind to the light of which Dante spoke. Hence, "O ye of little faith," "in the bowels of Christ I beseech you, consider that ye may be mistaken" in your dour judgment and your lack of faith in your successors on

the Board and in the future citizens of Wisconsin. Surely, no one can cast their die. That lies in the laps of the gods alone.

Since no one possesses the wisdom to pass final judgments and "sufficient unto the day are the evils thereof," let us hope that the Board will have the humor, if not the humility, to strike out the word "future" from that resolution. This will at least absolve it from the implication of assuming infinite wisdom and will also hearten true democrats. For after all, no matter how wise the action taken, it can remain only a resolution for the future, for the people who make also have the power to un-make. Certainly no honest democrats will deny this.

It seems regrettable that those who seem so alert to the rights of democracy and zealous lest corporate wealth forge the chains to bind the future, should attempt forthwith to forge those very chains themselves. Certainly corporate wealth could not have done worse. Happily the future "so broadly expanded before us" will claim the right of self-judgment. It will make its own decisions and hence will little heed any past action taken except in so far as it may then be considered wise. Is it possible that only a minority of the Board realized this?

To proceed in a somewhat Shavian vein, without true Shavian humor or acumen, perhaps, would it not be really democratic to always ascertain the opinion of a faculty upon matters that vitally concern it? To do so might help to free universities still more and give fuller expression to a democracy of scholars. No true democrat should object to democratic methods. As our educational institutions are organized at present, such action would, at best, be only a gesture but it might nevertheless, carry the impression that the faculty are after all worth consulting, and really may speak frankly and without giving offence. And if the judgments of members of state university faculties are so easily warped, then surely all of them should be most enthusiastic supporters of a democracy if it deals justly with them. They could not help but feel disdain for corporate wealth that has so sadly neglected them.

Let no one conclude that I am hereby questioning the wisdom of the acceptance or rejection of gifts, be it from saints or sinners, private or corporate. The whole purpose of my present remarks is merely to direct attention to the fact that avowed democrats of today have presumed to deny the right of self-determination to democrats of tomorrow and that the utter futility of such an attempt makes it no less significant nor grievous. Oh democracy, what sins are committed in thy name!

FACULTY NEWS

AN ADDITION to Science Hall, which was not provided for by the 1925 legislature, is being planned for this year in order to deal with the emergency situation caused by crowding. It is probable that about \$35,000 will be taken from the surplus in the operations budget to meet the cost.

THE NEW \$130,000 Nurses Home, which is to be used in connection with the nurses' training school of the Wisconsin General hospital, has just been completed. The building will accommodate 94 nurses, the superintendent, and the matron. It is four stories high with a kitchen and dining room for 150 persons in the basement. The building is planned as the first unit of a future nurses' home group of buildings.

PLANS are being pushed by the business office to have ready for occupancy in September, 1926, the first two quadrangles of men's dormitories on the shore of Lake Mendota. In each of the quadrangles 243 men will be housed. It is expected that the refectory will be ready also when the dormitories open. The refectory will be constructed directly behind the quadrangles.

EXACTLY 417 "cribbers" have been convicted at Wisconsin during the past six years, the discipline committee announced last month. Of these, 310 were men and 116 were women. Exactly 527 students were reported as "cribbers." Of the six-year total, 102 were freshmen, 79 were sophomores, 51 were juniors,

and 26 were seniors. Some 77 were in their first semester of residence.

ORGANIZATION of 2,000 freshmen into an effective class unit—a task ordinarily left to the bewildered freshmen themselves—is being undertaken in a novel way at Wisconsin through the cooperation of instructors in the English department. The instructors in freshman English classes allow a portion of class time for the election of officers of the sections and for announcements.

A TOTAL of 7,760 students are now enrolled in the University, according to the table just prepared for the annual student directory. Last year at the same time the table revealed the enrollment of 117 fewer students. Of the total number 4,743 are men and 3,017 are women. The graduate school increased from an enrollment of 788 to 870 students. An increase of 178 students in enrollment in the College of Letters and Science was recorded. The total is 5,752.

A CHAPEL and assembly hall for Episcopal students at the University is to be built by Wisconsin Episcopalians. A fund of \$150,000 will be raised immediately for construction of the chapel, and later \$350,000 additional will be raised to provide a clubhouse and dormitory.

A FIFTY per cent increase in the enrollment of freshmen in the College of Agriculture was recorded this year. Most of the 85 freshmen came from 35 Wisconsin Counties.

PROF. GRANT SHOWERMAN, '96, of the classics department, has just published "Century Readings in Ancient Classical Literature," which is designed as a textbook for students of comparative literature. He has edited the chief works of the classical writers and appended notes.

The volume is published simultaneously with "Century Readings in Modern European Literature," by Prof. I. W. CUNLIFFE, Columbia university, who was formerly professor of English at Wisconsin. The Showerman and Cunliffe books are also published together in a single volume. The books are companion volumes to "Century Readings in English Literature," published several years ago by Professor Cunliffe, Prof. Karl Young, of Yale university and formerly of Wisconsin, and Prof. J. F. A. Pyre, '92, professor of English in Wisconsin.

Professor F. A. Ogg last month accepted the editorship of the *American Political Science Review* which begins its twentieth year of publication in February. Professor Ogg will be the third editor. The Wisconsin professor has been secretary-treasurer of the American Political Science association for eight years.

PROF. L. S. SMITH, of the engineering school, has recently prepared zoning ordinances for two Wisconsin cities. Ordinances which he has constructed have been adopted in Appleton, Waukesha, and Oshkosh.

CAMPUS NOTES

A TOTAL of 893 different courses of instruction are being given in 79 departments this semester. Within the courses are 1,702 different sections and individual classes. Fifty-five pages in the timetable are required to list all the courses. Freshman English has the largest number of sections—79. Economics is next with 41 sections.

WISCONSIN TOOK SECOND PLACE in the cattle judging contest at the Waterloo (Iowa) Dairy Cattle congress, competing with teams from 11 other agricultural colleges.

Two literary societies debated this month the question whether the university should accept gifts from incorporated educational foundations. The speakers resolved the issues to three—1. Whether the University needs the money; 2. whether the corporate foundations are worthy; and 3. whether the gifts impair academic freedom in the faculty. Prof. A. T. Weaver, '11, of the speech department, awarded the decision to the affirmative side, but a ballot of 80 members of the audience resulted in favor of the negative team.

EXACTLY SEVENTY-SIX upper class students in the College of Letters and Science whose English was "sick" were "treated" last year in the English composition clinic conducted by the faculty Committee on Student English.

THE ALL-UNIVERSITY religious convocation was inaugurated late in October. The principal speaker was President Glenn Frank. Dr. Charles W. Gilkey, pastor of the Hyde Park Baptist Church, Chicago, addressed the November convocation. Among the other speakers who will address the monthly convocations in Music hall on Sunday evenings are Dr. Henry Sloan Coffin, New York City, and Dr. A. E. Haydon, of the University of Chicago divinity school. Student religious leaders are in charge of the convocations.

THE NEW \$18,000 four-manual pipe organ installed in Music hall this year was dedicated early in November at a concert for the faculty by Dr. C. H. Mills, director of the School of Music. President Frank delivered a short dedicatory address. The organ has 107 stops and is controlled by electro-magnetic action. It was designed by Dr. Mills.

UNIVERSITY and secondary school yearbooks from 38 states, the District of Columbia and the Canal Zone received awards in the fifth All-American Yearbook contest, conducted by the Central Interscholastic Press association, which has its headquarters at the University of Wisconsin.

REV. EDWARD W. BLAKEMAN, '11, for several years university pastor of the Wesleyan Foundation church, has resigned to accept a similar position at the University of California. Since 1908 when the religious work on the campus began, exactly 96 of the Methodist students who received degrees from the university have entered one of the vocations of the church, including the ministry, mission teaching, preaching in the Orient, religious education, or association secretaryship. Many of them are serving in foreign countries.

SOME SIXTY-FIVE students from 19 foreign countries and territories were enrolled in the Wisconsin summer session according to a report just issued. Wisconsin has the third largest summer session in the United States.

BASKETBALL is the most popular intra-mural sport at Wisconsin now. Of the 7,162 men who participated in intra-mural athletics, 1,170 chose basketball. Baseball, with 1,095 men, and tennis, with 844 men, were the next most popular sports.

JOHN S. CRAIG, a Wisconsin student, Waukesha county, won first place in judging Jersey cattle at the recent National Dairy congress at Indianapolis. The honor carries with it a \$400 scholarship.

FACULTY

PROF. A. B. HALL, of the political science department, has just been elected chairman of the committee on problems and policies of the Social Science Research council, which means that the University of Wisconsin will be the headquarters of research studies costing more than a million dollars. The work of the committee will be to pass upon all social science research projects that come before the council for the purpose of making recommendations as to the practicability of the project, the scientific character of the methods proposed, and the ability of the personnel to carry out the enterprise in a scholarly manner. The projects are usually financed by the large educational foundations established for that purpose.

PROF. KARL STEPHENSON, of the history department, has just returned from a year's leave of absence during which he studied in the University of Ghent, Belgium, under the fellowship of the Hoover Administration for Relief in Belgium.

DR. F. B. POWER, LL.D. '08, who founded at Wisconsin the first course in pharmacy in the United States in 1883, visited the University last month and addressed a pharmacy convocation. He told how he used to wear an overcoat while he was teaching classes because of the cold rooms, how he directed labora-

tory experiments without gas or running water, and how he was compelled to wash his own chemical apparatus after every lecture.

"I don't think I ever felt such a state of despair as when I first came to Wisconsin in 1883," he said. "The president was away. There was no one to tell me what was wanted in the way of a pharmacy course. But one regent came to my rescue. He brought his horse and buggy and we made a tour of the campus. Finally, it was decided that I should be allowed some space in South hall.

"President Chamberlin was head of the University then, and it was his ambition to have 1,000 students enrolled. Every day or two he would visit me and was delighted when he heard of two or three new students in the department."

Dr. Power left the University in 1892, going east to do research work. In 1896 he established a large research laboratory in London where he remained for several years. He is now director of phytochemical research in the federal government's bureau of plant chemistry at Washington, D. C.

PROF. J. R. COMMONS, of the economics department, will offer a course in "Law and Economics" in the Yale Law school next summer for teachers and prospective teachers of law. The course will be an outgrowth of his study in connection with the abolition of "Pittsburgh Plus" and in the preparation of his book, "The Legal Foundations of Capitalism." The course is described as a "realistic approach to law."

Professor Commons addressed the National Consumers' league, of which he is president, in Boston, last month. He urged adoption by industry of a plan for "unemployment insurance" whereby a reserve fund is created to pay employee's wages during seasons of slack production. Professor Commons originated and installed such a plan in the men's clothing industry at the request of the manufacturers and the Amalgamated Clothing Workers' union, and it has functioned satisfactorily.

Professor Commons also contributed an article to the November issue of the *Atlantic Monthly* in which he explained why Karl Marx's prediction of an eventual socialistic state has failed to come true. The Wisconsin economist cited as deterrents to socialism the decentralized ownership of wealth, legislation in the interest of the laborer, and custom.

PROF. J. G. FOWLKES, of the School of Education, has published a volume of unique practice tests in arithmetic, in collaboration with Prof. T. T. Goff, of the Whitewater, Wis., Normal School.

PROF. F. A. OGG, of the political science department, has just been appointed to direct the survey of research in the humanistic sciences to be undertaken in 1926 by the American Council of Learned societies, an organization of 15,000 social scientists which corresponds in the humanistic field to the National Academy of Sciences. Professor Ogg will be absent from the University from February to September, 1926. The survey is financed by the Carnegie corporation.

Professor Ogg is also preparing an extensive "Guide to Far-Eastern Affairs," for the guidance of American college students of world politics. The work will outline the entire field of Far-Eastern affairs, covering the history, government, economic aspects, and international relations of the eastern countries.

PROF. C. J. SISSON, reader in English literature at the University of London, has joined the department of English and is giving courses in Elizabethan literature with a seminar in Shakespeare.

PROF. H. L. MILLER, of the School of Education, and Principal R. T. Hargreaves, Minneapolis, have published "The Self-Directed School."

PROF. J. R. COMMONS and D. D. LESCOHIER, Ph.D. '21, of the economics department, have published, in collaboration with S. A. Lewisohn and E. G. Draper, "Can Business Prevent Unemployment?" a "text-book" for manufacturers who wish to try schemes for preventing unemployment in their industry.

DR. W. E. MEANWELL, '15, basketball coach, conducted, in collaboration with Coach Knute Rockne, of Notre Dame, a coaching school at the latter institution late last summer.

LIEUT.-COL. J. F. BARNES is the new university commandant, succeeding Major O. L. Brunzell. Colonel Barnes came to his post after an extended service as staff officer stationed at Tientsin, China.

PRESIDENT GLENN FRANK's editorials are appearing in the principal American newspapers and one Japanese newspaper. They were written prior to his coming to the university but were released late in September.

PROF. ALEXANDER VASILIEF, of the University of Petrograd, this year succeeded Prof. M. I. ROSTOVITZEFF as professor of ancient history. Professor Rostovtzeff has gone to Yale. During the summer both Professors Vasilief and Rostovtzeff lectured at Princeton university.

PROF. R. B. MOWAT, head tutor in Corpus Christi college, Oxford, has joined the department of history this year. He is taking the place of Prof. J. V. FULLER in modern European history.

Professor Fuller is now engaged in editing the war correspondence of the United States for the state department

PROF. H. T. E. PERRY, of the department of English, has published "The Comic Spirit in the Restoration Drama."

PROF. G. C. COMSTOCK, '83, director emeritus of the Washburn observatory, was elected president of the American Astronomical society this fall, succeeding Dr. W. W. Campbell, president of the University of California and director of Lick observatory. Prof. Joel STEBBINS, '20, present director of the Washburn observatory, was reelected secretary of the body.

MISS DORIS C. BURIFF, B. Mus., Northwestern university, '21, is the newest member of the School of Music faculty. She was formerly head of the

MISS BURIFF

music department in Westminster College, Salt Lake City, Utah. Miss Buriff comes to Wisconsin from New York, where she spent the past year studying voice under Percy Rector Stephens.

NINE Wisconsin professors addressed the annual meeting of the Wisconsin Teachers' association at Milwaukee, Nov. 5-7. They were: Prof. G. C. FISKE, *classics*, "The Teaching of Latin Prose in the Third and Fourth High School Years;" Prof. E. B. GORDON, *music*, chairman of the section on the teaching of music; Dean C. S. SLICHTER, of the *graduate school*, address to mathematics teachers; Prof. W. H. DUDLEY, '92, *visual instruction in extension*, a demonstration of the use of motion pictures; Prof. M. F. GUYER, *zoology*, "Recent Advances in Biology;" Prof. W. H. VARNUM, *industrial arts*, "Report on a Tentative Course in the Study of Art for Wisconsin High Schools." Prof. F. L. CLAPP, '14, *education*, "Effective Teachers' Meetings;" Prof. T. L.

JONES, '96, *education*, "Weaknesses in Wisconsin High Schools;" Prof. Ellen HILLSTROM, *home economics*, "Related Art in Home Economics."

PROF. E. F. BEAN, '09, has been appointed acting state geologist and acting director of the state geological survey to succeed Prof. W. O. HOTCHKISS, '03, now president of the School of Mines at Houghton, Mich.

PROF. GRANT M. HYDE, M. A. '12, of the department of journalism, has issued a revised edition of his "Newspaper Editing," which was first published in 1915.

A native Frenchman—M. Maurice WEILER—and two Chileans—Eduardo NEALE and Miss Olga RIOS—have been appointed to positions in the Romance languages department.

DR. RICHARD T. ELY has resigned as professor of economics at Wisconsin after thirty-three years of service, and has joined the faculty of Northwestern University as director of the Institute for Research in Land Economics and Public Utilities, which he founded some years ago. In recognition of his important service to Wisconsin, the regents, upon accepting his resignation, voted him the title of honorary professor of economics, so that he may continue to be a member of the faculty in an honorary capacity.

Other members of the Institute who have accompanied Dr. Ely to Northwestern are: Dr. G. S. Wehrwein, '13, Dr. Mary Shine, Prof. H. D. Simpson, Prof. H. B. Dorau, Edward Morehouse, and Arthur Mertzke, '16.

PROF. B. Q. MORGAN, of the German department, is planning another tour through western Europe for the summer of 1926. The party, which will be under the business management of the Temple Tours, will be enroute 78 days, and will visit France, Italy, Switzerland, Austria, Czecho-Slovakia, Germany, Holland, Belgium, and England. For detailed itinerary and other information apply to Professor Morgan.

The REV. F. E. WOLF, familiarly known to former students on the campus and at the "Y" as "Dad" Wolf, is pastor of the First Baptist Church, Fort Thomas, Kentucky, a suburb of Cincinnati. He still maintains contact with student life as a fortnightly speaker at fraternities of the University of Cincinnati and as a member of the local Hi-Y committee. Both the Rev. and Mrs. Wolf would be glad to see any of their former Wisconsin friends at their new home, "Wolf's Roost," which they have just recently built at a beautiful spot overlooking the Ohio River. The address is 18 Henry St., Ft. Thomas, Ky.

ATHLETICS

By H. M. GOLDEN, '26

SECOND place in the Big Ten! That sums up the great work of Coach George Little for his first year's work at Wisconsin as football coach. Back to their place in the sun, and only through the hardest kind of work by both coach and men was this achieved.

Playing under tremendous odds, chiefly the weather, the Badgers fought their way to the second rung in the conference. At Iowa City, in a driving snow storm and with the thermometer registering twenty-two degrees above zero, the Cardinals came back in the final quarter and pushed over a score that gave them a 6 to 0 win over one of the best in the West. Sheer pluck and the never-say-die spirit of Wisconsin gave the Badgers this victory.

On a playing field that resembled a quagmire a good share of the afternoon, they made Purdue feel the sting of defeat and added another scalp to the string that was destined to grow as the season progressed. Coach Phelan of the Boilermakers had invaded Madison with a team that was greatly underrated and they fought the Badgers all the way. Their elusive back, Wilcox, kept the Badgers on their toes all the time, while a dangerous aerial attack, despite the bad weather and slippery ball, was a constant menace to the Badger goal line. But Wisconsin was out in front from the first period, when a touchdown and goal had given them seven points. Our team thereafter played the greatest kind of safe defense.

Against Michigan State, the Badgers found a fighting foe who was more troublesome than had been anticipated. For the first time in many weeks, the Badger goal line was crossed and by a nonconference foe. The game resolved itself into a contest between two elevens possessing an equally effective offense. The final score of 21 to 10, shows that it was a busy afternoon for both teams as they clawed each other up and down the field. Driving off tackle smashes by McAndrews and Doyle Harmon, plus some neat open field work by Crofoot, gave the Badgers their three touchdowns. All points scored by Michigan State were the results of the efforts of one Smith. That young man possesses all that can be asked of a football player. His first offering was a drop kick, successfully negotiated from the 40 yard line. Later in the game it was his work that carried the ball to the Badgers' five yard line, from which point he crashed over for a touchdown. His great toe added the tenth point for the invaders.

After all is said and done, the real classic of the Badger schedule is the Chicago game. Nothing could possibly thrill Badger fans more than to invade the Maroon stronghold and soundly trim the traditional rival of Wisconsin. Such was the case this fall. Stagg field, packed to the point of overflow with enthusiasts of both elevens, was the scene of one of the greatest Badger wins over Chicago in many years.

Trailing the Maroons for three quarters, the Badgers unleashed an aerial attack that completely swept the tired Maroons before them and gladdened the hearts of all Cardinals present with a 20 to 7 victory. The Maroons had assumed the lead early in the second quarter due to a break that allowed them to recover one of their own punts on the Badgers' twenty yard line. "Five-yards" McCarthy in one terrific lunge had then carried the ball for eighteen yards and it rested calmly on the Cardinals' two yard line. Two more smashes at the Badger forward wall was enough to carry it over. A well executed drop kick by Drain gave the Maroons seven points.

Wisconsin was not licked. A beautiful dash about the end by McAndrews had carried the ball forty or more yards and Wisconsin was in a position to use her deadly forward passing attack. Leo Harmon had been badly injured in the Friday workout before the game, and when long tosses were in order Lloyd Larson was called back from his guard post to toss the oval. His first effort was a pass to Burrus, the elongated star of the Badgers going high in the air to grab the ball out of the outstretched arms of three waiting Maroons. Another pass to Crofoot and the ball was on the Maroon five yard line. A crash at their left tackle and it was over with Doyle Harmon at the bottom of the heap and the ball snugly tucked under his arm. Doyle missed the try for the extra point and the Maroons still held a single point margin over the fighting tribe of Little.

A mighty Maroon march down the field carried the ball to the Badger one yard line but a fumble stopped them from a possible score and Badger fans leaned back to breathe relief and wait for their proteges to go out and win.

The final quarter showed that Wisconsin is never licked. The break came in the middle of the quarter, Curley, the Maroons' pilot dropping a punt, Burrus recovering for the Badgers. A pair of neat passes, Larson to Crofoot and Doyle Harmon to Crofoot, car-

ried the ball within scoring distance, McAndrews driving off tackle for the tally. Doyle Harmon place kicked the extra point. However, the Badgers were still going and they ripped and snorted down the field for a third score. It was the great line plunging of Barnum that gave the Badgers this touchdown. Driving through the center of the Maroon line for ten and eight yards at a crash, Barnum plunged the oval over, and again the Badger stands rose in a bedlam. Wisconsin completed a great season by defeating one of its keenest rivals, the Maroons of Great Coach Stagg.

To summarize the season, the Badgers won from Ames, Franklin, Purdue, Iowa, Michigan State, and Chicago, tied the mighty eleven of Minnesota, and met with but one reversal, Michigan. Truly a great year for the new leader, George Little. In the matter of points, Wisconsin tallied 131 to their opponents' 50.

At a banquet shortly after the season had ended, Doyle Harmon was elected to be the leader of the 1926 machine. The junior member of the Harmon family has been a mainstay of the Badger backs for the past two years and should have a great season next fall. The Wisconsin eleven loses but a handful of regulars, among them being, Nelson, tackle; Polaski, end; Stipek, guard; McAndrews and Leo Harmon, halfbacks; Blackman, sub end; and Sauer, sub lineman.

At the meeting of the Big Ten Directors in Chicago, December 5, the writer was among those present and found that Coach George Little was besieged with offers to play teams next fall. His efforts are at the present confined to the Big Ten and he has furnished Wisconsin fans with one of the greatest Conference schedules they have yet to read about. The following Big Ten Games will be on hand for the followers next fall:

- Oct. 16—Purdue at Lafayette
- Oct. 23—Indiana at Madison
- Oct. 30—Minnesota at Madison
- Nov. 6—Michigan at Ann Arbor
- Nov. 13—Iowa at Madison
- Nov. 20—Chicago at Chicago

Among the greatest unsung heroes in Wisconsin track activities are members of Coach Mead Burke's **cross country** team. After successfully defeating the harriers of Michigan, Minnesota and Iowa, these travelers of the hill-and dale annexed for the second consecutive year the Big Ten title. Amassing but a slim total of 35 points, the

Badgers were easy winners. Vic Chapman, sophomore sensation and undefeated throughout the season, was the individual winner of the meet; Elleson was third, Schutt, captain-elect, was ninth; Gumbreck was in at eleventh; while Captain Kubly finished fourteenth. Zola, the sixth Badger runner, finished twenty-second, and his total could still have been added in and found the Badgers leading the field.

Coach Burke is more than pleased with the work of his squad and is looking forward to the fall of 1926 when he hopes to annex the title for the third consecutive year. He still has a group of vets in Chapman, Zola, Elleson, Schutt, and Gumbreck, plus Butz, McKee, and Reeves.

The Badger basket ball team was defeated by a 16 to 11 score in the opening game with the North Dakota State quintet. The squad exhibited a good knowledge of the Meanwell style of play, but could not sink the essential baskets.

Meanwell has been handicapped with a host of injuries among his men. Captain Brooks has been nursing a bad leg, Andrews has a sprained ankle, while Barnum is still held back with a bad shoulder, the result of his football activities. Sophomores have found themselves filling the gaps, and to date Hotchkiss, Powers, Cramer, Barr, Behr, and Nelson appear to be the best. Merkle, the only other vet, is holding down a guard post and is at his best. He should be one of the real mainstays

of the season and a tower of strength to the little "Doc's" battlers.

Other scores:

Dec. 12—S: Dakota 9 Wisconsin 48

Dec. 18—Marquette 26 Wisconsin 42

1926 BASKETBALL SCHEDULE

JOURNALISM NOTES

PARTICIPANTS in the sixth annual convention of the Central Interscholastic Press Association, held at the University November 27 and 28, numbered 992. They represented 21 states including Washington, Utah, Tennessee, Pennsylvania, Oklahoma, Ohio, North Dakota, New York, Minnesota, Michigan, Massachusetts, Kansas, Iowa, Indiana, Illinois, California, Missouri, Montana, Nebraska, and New Jersey. The delegates consisted of high school editors and their faculty advisers, representing 313 publications in 224 institutions. The Central Interscholastic Press Association was established and has been fostered by the Course in Journalism at the University.

The Wisconsin chapter of the national professional journalistic fraternity of Sigma Delta Chi, on December 13, initiated as associate members President Glenn Frank, A. M. Brayton, '96, editor of the *Wisconsin State Journal*, W. T. Evjue ex'06, editor of the *Capital Times*, and J. L. Meyer, editor of the *National Printer-Journalist*, Milwaukee. Fifteen undergraduate students interested in journalism were initiated at the same time.

The Wisconsin chapter of the national journalistic sorority of Theta Sigma Phi is arranging for the first annual "Matrix Table" banquet at the Hotel Loraine on January 9. This will be a gridiron banquet for women similar to

the one held for the first time by the Wisconsin chapter of Sigma Delta Chi last spring. Among the guests will be Miss Zona Gale, '95, and Miss Sophie Kerr Underwood of New York.

At the annual convention of the national professional journalistic fraternity of Sigma Delta Chi held at Boulder, Colorado, it was voted to hold the next annual convention in November, 1926, at the University of Wisconsin. Two of the national officers elected are graduates of the Course in Journalism at the University—Professor Roy French, '23, in charge of instruction in journalism at the University of North Dakota, secretary, and Professor Lawrence Murphy, '21, acting director of

the Courses in Journalism at the University of Illinois, vice-president.

"Journalism calls for the best a man may have of mind and of morals, of courage and of creativeness," declared President Glenn Frank in addressing over 900 delegates of the Central Interscholastic Press Association. "And don't allow anyone to convince you that journalism must be a cheap and shoddy thing because it deals with the ephemeral things of the day; and don't fall into the shallow snobbery that the man of letters sometimes displays toward the man of journalism.

"Journalism is not cheap and shoddy save in the hands of cheap and shoddy journalists. To the job of reporting for the yellowest of the yellow press you can bring the scholar's culture, the scientist's accuracy, and the poet's beauty, provided only that you achieve a writing technique that makes what you write simple and clear and intelligible to the man in the street. And making things intelligible to the man in the street does not mean writing down to him; it means becoming a better writer. There is nothing shoddy about making intelligence intelligible."

Professors W. G. Bleyer, '96, G. M. Hyde and E. M. Johnson attended the annual conventions of the American Association of Teachers of Journalism and the Association of American Schools and Departments of Journalism held in New York on December 27-31. Professor Bleyer read a paper on "Some Early English Criticisms of the Press"; and Professor Hyde discussed a placement bureau for journalism school graduates. Professor Bleyer is chairman of the National Council on Education for Journalism and of the Council on Research in Journalism.

Professor E. M. Johnson of the Course in Journalism will conduct a "Comparative Journalism Tour" through Europe next summer, for the benefit of the stu-

dents of journalism and high school teachers of journalistic writing. Three courses of lectures on various phases of journalism will be given on ship-board by Professor Johnson, and editors and proprietors of newspapers in British and Continental cities will lecture to the students. The tour will include the inspection of newspaper offices in England and on the Continent, and will cover England, France, Switzerland, Belgium and Holland.

Thora Eigemann, ex'25, is on the staff of the *American Building Association News*, Cincinnati, Ohio.

Anne Stoffregen, '24, who is now Mrs. Marc Somerhausen, is living in Brussels, Belgium. She is acting as correspondent for the *Christian Science Monitor* and the *Milwaukee Journal*, and is furnishing to American newspapers translations from French, German, Russian, and Spanish periodicals. A recent issue of the *Nation*, New York, contained an article by Mrs. Somerhausen "Women's Suffrage in Belgium." Mr. Somerhausen, who was a graduate student in economics at Wisconsin some years ago, is the youngest member of the Belgian Chamber of Deputies.

Catherine Boyd, '24, is a reporter on the *Wyandotte (Michigan) Record*.

Portia Lugoff, '23, is a reporter on a community newspaper at Delray, Michigan.

Jeanette Collins, M. A. '24, who is now Mrs. Archibald Matthews, is a Sunday feature writer on the *Springfield (Massachusetts) Union*, and Mr. Matthews is in the advertising department of the same paper. Last year Mrs. Matthews was an instructor in journalism in the Texas Woman's College, Fort Worth, Texas.

Lois Barry, '25, is on the staff of the *Los Angeles Evening Herald*, where she is writing a column daily devoted to women's athletics.

Edith Porter, '24, is assistant advertising manager of the Palais Royal, Washington, D. C., one of the large department stores recently taken over by the S. S. Kresge Company. Recently Miss Porter was on the staff of the *Burlington Standard-Democrat*.

George Vaughn, '24, who has been connected with the Associated Press bureaus in Madison, Milwaukee, and Springfield, Illinois, has resigned to become editor of a new house organ of the Wisconsin Power and Light Company, with headquarters in Madison.

Ambrose Gannon, '24, who since graduation has been on the staff of the *Algoma Record-Herald*, has recently joined the staff of the *Milwaukee Journal* as copyreader.

Walter Look, '21, has resigned as telegraph editor of the *Buffalo Evening News* and is taking an automobile trip to California, where he intends to engage in newspaper work.

Horace Powell, '23, who has been on the telegraph copydesk of the *Milwaukee Journal*, is now doing general reporting and feature work for that paper.

Frances Warren, '24, who since leaving the University has been society editor of the *Cedar Rapids Republican*, has just returned from a six months' European trip and is again at her home in Cedar Rapids.

Kenneth Butler, '25, is editor and publisher of the *Mendota (Illinois) Sun-Bulletin*.

A. C. Ernst, formerly a member of the faculty of the Romance Language department and for the last three years a resident of Paris, addressed the seniors in the Course in Journalism on French journalism, December 4. Professor Ernst plans to remain in this country and to resume academic work.

U. W. CLUBS

"Sit together, listen together, sing together, eat together, and you'll work together."

LOCAL U. W. CLUBS

The organized alumni body of our University is rapidly growing in numbers and effectiveness. Local U. of W. clubs serve as valuable agencies to bring about a closer fellowship among the alumni, former students, and friends of the University. There are many communities in which the number of members of the GENERAL ALUMNI ASSOCIATION is such as to make the formation of these local clubs entirely feasible and highly desirable. Clubs have already been established in a number of cities in several counties and in a few states.

The reports from local clubs are always important. We ask each club secretary to see to it that all members of the local club are members of the General Alumni Association.

CHICAGO ALUMNAE

MARY JOHNSTONE, '20

DUE to the Chicago-Wisconsin dinner for President Max Mason, '98, the first regular meeting of the Wiscon-

sin Alumnae Club of Chicago was held November 7, at Mandel Brothers' Tea Room. Accepting the committee recommendation, the club voted to give to the University Cooperative House the gift

which had been proposed last spring.

Following luncheon, Miss Marlatt talked on Home Economics at Wisconsin and also on her trip abroad this last summer.—11-24-25.

CHICAGO ALUMNI

A. W. TORBET, '12

AT the regular monthly meeting of the Board of Directors held on December 9, there was some discussion regarding ways and means of interesting the recent graduates in the affairs of our local club.

The secretary, upon instruction from the directors, sent a letter of congratulation pledging the support of our club to Coach George Little.

Perhaps the more recent graduates do not attend our meetings because they do not know very much about us. I know it is frequently very inconvenient to come into the loop every Friday noon, but if you come once in a while, you will make an attempt to come oftener.

The University of Wisconsin Club of Chicago is an Association of University of Wisconsin men, not necessarily graduates. This Association has two primary purposes: the keeping alive of an interest in University matters through fellowship with each other and the officers and faculty of the University; and assisting the University to maintain its position as one of the most important educational institutions of the country.

We have a mailing list of 1803 names. We have at present 552 paid members. The activities center around the weekly luncheon meetings held every Friday noon in the Grill Room of Mandel Brothers. Our biggest occasion each year is the annual football dinner, held the night before the Chicago-Wisconsin football game. This year we had 588 men present, including 31 men of the Band. Our attendance would have been larger if we had been able to accommodate everyone; it was necessary to turn away many who wished to attend. A directory of Wisconsin men in Chicago in under preparation, and will be distributed shortly after the first of the year.

The present officers of the Association realize that a paid membership of more than 30 per cent of the total possible members is a very good showing, but we feel that 30 per cent is not a good enough showing to satisfy the Wisconsin men. We want to meet the younger men. Our dues are \$5.00 a year. The dues include the annual football dinner. We want the names of all Wisconsin men in Chicago.—12-10-25.

DETROIT

EDITH CROWE, '24

ABOUT sixteen members of the Detroit Alumnae Club were present the regular monthly luncheon at the

College Club on November 14. In order to raise money for scholarships for next summer, plans are being made for a card party to be given at the College Club on December 5.—11-19-25.

DOWNERS GROVE

FRANCES HUGHES, '23

A GROUP of unorganized Wisconsin grads and friends got together on the evening of December third at a dinner given in honor of Gilbert Ross, violinist, son of Prof. E. A. Ross of the sociology department of the University. He played that evening in Downers Grove, Illinois, under the auspices of the West Suburban Choral society, and the dinner which preceded the concert was planned by Harriett Prince Parrish, '13, and Robert J. Usher, '07. Nineteen sat down to dinner after singing "Varsity," and the hour was one of keen pleasure. Alumni present were Harriett Prince Parrish, '13; Ruth Hughes McLean, '19; Frances Mary Hughes, '23; Carleton Nadelhoffer, ex'23; Robert J. Usher, '07; Myron Blackman, ex'07; and G. Willard McCollum, '21.—12-10-25.

DULUTH

VERNON SELL, ex'21

FOLLOWING is a copy of a communication sent by the Duluth U. W. Club to the Board of Regents:

The recent action of the Board of Regents in declining to accept the \$600,000 offered to the University by the General Education Board, and its further decision to accept no gifts and endowments from institutions of similar character, have caused a great deal of discussion in this territory with practically universal adverse comment.

The Wisconsin Club of Duluth, at its regular monthly meeting held November 3rd, by unanimous vote of all members present directed that the undersigned write expressing regret for the action taken by your body and voicing the hope that you will see fit to reconsider and reverse the same.

We believe that your action in this matter does not represent the desire of the great majority of the alumni of the University, and that it has placed the University and its supporters in an unfortunate position before the people of the United States. We consider that your action suggests a mental provincialism which reflects discredit upon the University and upon your body. The Board of Regents of the University of Wisconsin should be men and women of such intelligence and broad-mindedness as to know and realize that an institution such as the General Education Board, even though endowed by Rockefeller money, does not seek to control in any way the activities or policies of institutions which are its beneficiaries; but rather that it is inspired by motives of public service and a desire to promote valuable research and scientific investigation. The prestige and dignity of your body should preclude motives of political expediency or bias entering into decisions on matters of such vital concern to the University and to the people of the State of Wisconsin.—Wisconsin Club of Duluth.

By ALBERT B. DEAN, '05, *President*, and VERNON W. LEE, '21, *secretary*.—11-17-25.

MADISON COMMERCE ALUMNAE

BERTHA JANE SCHWENN, '21

MADISON Commerce Alumnae enjoyed their annual "slam" Christmas party at Mary Fowler Rennebohm's home, 1817 Kendall Avenue, Tuesday evening, December 8.

Most of the evening was taken up with bridge, but the truth of the matter is that interest in bridge was lacking. All of this was due to the fact that Irene couldn't wait until the packages were opened!

Although scores weren't high, everyone went home with a "slam" some great and some small. Secrets of long standing, hidden desires, and even petty faults were unmercifully revealed.

Those present were: Mary Fowler Rennebohm, '20, Elsie Ekern, '23, Helen Roth, '21, Helen Olsen, '21, Grace McRae, '21, Marguerite Brigham, '24, Mabel Crummey, '24, Adeline Meyer, '23, Helen Anstey, '25, Mabel Anstey, '25, Irene Hensey, '20, Angeline Lins, '23, Pearl Klaus, '20, Veronica Egan, '25, Bertha Schwenn, '21.

If the weather permits, our next meeting will be a sleighride followed by "eats" at Marguerite Brigham's, 551 W. Johnson Street.—12-9-25.

MINNEAPOLIS ALUMNI

HARRY KEDNEY, '14

THE Minneapolis U. W. Alumni Club had its second meeting of the year on November 13th at the Radisson Hotel. Fifty members were present, and strong was their feeling of appreciation for the showing made by Coach Little and his team.

The game with Iowa was especially gratifying and the tie with Minnesota dwelt upon with keen relish. Athletic events may not be the major feature of a University, but success certainly increases the good feeling of the alumni and—it pays to advertise.

Dr. Leonard Wells, of the book department of the Powers Mercantile Company, gave us a very interesting talk on books and their effect on our civilization. He described the excellence of various editions and the quality of literary effort exhibited by some of the contemporary writers. We found, to our surprise, that Morris Mitchell, '12, maintains an extensive and very excellent library of choice volumes.

Our next meeting was held at the Radisson Hotel on December 11, when Mr. Ray Chase, state auditor, addressed us on the subject, "Taxes."

Mr. Chase gave us a very instructive talk. About forty members were present and seemed to be gratified to hear Mr. Chase's speech.

Our next meeting will be on January 8th, at which time, Mr. R. A. Young, Governor of the Federal Reserve Bank of this district, will address us on the subject of the Federal Reserve Act and its significance to our business structure.

Mr. Young is a very able speaker and it is hoped that any Wisconsin men being in town at that time will meet with us at the Radisson Hotel at 12:15 P. M.—12-12-25.

NEW ENGLAND

ROSAMOND ALLEN, '21

THE University of Wisconsin Club of New England held its annual meeting at the University Club in Boston on Wednesday evening, November 18. After a delicious dinner, there was a short business meeting, at which officers were elected for the coming year. Paul Rothwell, ex'17, was made president, and J. L. Fagerland, '13, vice-president. Robert McKay, '15, was again chosen for the task of secretary-treasurer. Georgia Miner Blocher, '14, was elected corresponding secretary.

After the business meeting, "Sam" Drew told us about going out to the Michigan game. Although the story of the game itself was somewhat disheartening, we were glad to hear his enthusiastic report of the new stadium at Camp Randall. He spoke of the changes which had taken place since fifteen years ago, when there were nothing but wooden stands for football fans.

During the last part of the evening, there was an informal dance, to which several came who couldn't make the dinner. "Jack" Campbell, '13, used his ingenuity to put pep into the gathering and to make the dance go off in true Wisconsin "mixer" fashion.—12-3-25.

PHILADELPHIA

WILLIAM STERICKER, '17

THE first meeting of the season was held at Mr. and Mrs. Earl Mylecraine's home in Lansdowne on October 25. A camp fire supper was planned but the rain and an extremely high wind kept us indoors. In spite of the weather twenty people came, some of them from New Jersey.

We made a splendid attack on hamburger sandwiches, baked beans, baked potatoes with lots of butter, pumpkin pie, doughnuts, cider, coffee, etc., etc., but were defeated long before the bountiful supply had vanished. This gave us an excellent opportunity to get acquainted.

A short business meeting followed. There was a lively discussion over the action of the Board of Regents in regard to gifts from corporations. The officers

were finally instructed to draw up resolutions commending the action of President Haight and the Alumni Board in appointing a committee to investigate the Regent's action. Resolutions of thanks and good wishes to President-Emeritus Birge, of welcome and support to President Frank, and of regrets and congratulations to President Max Mason of the University of Chicago were passed unanimously.

Plans for the coming year were discussed. A bridge party will probably be the next event. A hearty vote of thanks to the Mylecraines for their hospitality was passed unanimously. Mrs. Mylecraine played and we sang some Wisconsin songs.

Those present were: Florence Bascom, '82, William Bollenbeck, '08, Frank Williams, '10, Bernice Brown, '11, Roscoe Ballard, '13, John Griswold, '13, Imogene Kriskey Griswold, '16, Lillian Coapman Williams, '13, Harriett O'Shea '16, William Stericker, '17, Earl Mylecraine, ex'19, Edith Knowles, '21, Edna Hempe, '23, K. M. Royer, '23, and wives and guests.—12-8-25.

PITTSBURGH

G. B. TJOFLAT, '24

A MEETING of the Pittsburgh U. W. Club was held Saturday evening, November 7, in the Dutch Room of the Fort Pitt Hotel.

The spirit of the meeting received a decided spur when the members present learned of Wisconsin's victory over Iowa. Everyone joined in singing Wisconsin songs, and to be sure a large number of them were the very fine old songs that are foreign to most students on the campus today. Richard "Dick" Remp, who performed at center on Wisconsin's football teams back in the old days of "Phil" King, appeared in the role of principal speaker for the evening. Mr. Remp held the interest of the meeting by relating many amusing incidents that took place during his college days.

The more recent of Wisconsin's athletes present were Herbert Schmidt, '25, captain of the gym team; Walter Flueck, '25, member of the swimming team; Bert Hilberts, ex'25, of the track team; and M. E. Skinner, '14, who played end for the Cardinal. Others present were: K. A. Bennett, '14; M. W. DeMerit, '14; T. N. Herrell, '24; C. G. Jensen, ex'15; G. L. Merrill, '24; W. B. Bassett, '09; John Farris, '07; G. R. Greenslade, Ph. D., '21; C. J. Jacobson, '12; F. C. McIntosh, '13; A. J. Miller, ex'16; C. M. Morley, '21; L. L. Nettleton, '21; H. M. Olson, '05; C. W. Prine, '17; G. L. Ridgeway, '25; M. E. Skinner, '14; A. R. Wienke, '25; A. W. Nance, '10; W. D. O'Connor, '22; H. W. Peter-

son; R. W. Remp; Herbert Schmidt, '25; G. B. Tjoflat, '24; Dr. L. W. Johnson, '11.

The following officers were elected: F. D. Mahoney, ex'10, president; H. W. Peterson, ex'05, vice-president; G. B. Tjoflat, '24, secretary-treasurer; Dr. L. W. Johnson, '11, C. G. Jensen, ex'15, C. M. Morley, '21, directors.—11-20-25.

RUSK COUNTY

LEO SCHOEPF, '15

ABOUT twenty members of the Rusk County U. W. Club had a get-together meeting at Amacoy during the first week in September. The opinion of the meeting was to plan a party during the Christmas holidays for the returning students. Helen Aten, '22, city librarian at Ladysmith, has been delegated to take charge of plans for this meeting.—11-14-25.

SAN DIEGO

RAWSON PICKARD, '03

THE annual banquet of the San Diego U. W. Club was called to order by Jessie Kroehnke Everts, '02, vice-president of the club, in the absence of Dr. E. L. Hardy, '93, president. Resolutions of sympathy were sent Joe O'Keefe, ex'03, whose business house, the "Log Cabin," was burned in a Tijuana fire last month. Mr. and Mrs. O'Keefe had intended spending the summer in Europe. They will "spend it in rehabilitation," he says.

The first formal speaker was Mrs. Lillian Park Quirk, '74, who spoke feelingly to the toast, "Look Behind." Bert Hale, '04, next spoke to the toast, "I View with Alarm." He said that during his many years' residence at the University Club here he had noted that alumni of Harvard, Yale and Princeton, particularly, had more and more only one subject of conversation, and that subject, objectionable to him, was the only one in the mental repertoire of the younger graduates; that he suspected that only one study was being made, only one subject being taught at these schools for all degrees, but that he was ashamed of his suspicion until a recent trip East confirmed it. Here Mr. Hale paused, was silent for a moment, turned a dull red, and continued as follows: "Athletics seems to be the subject of all courses, under various disguises, and the old U. W. is being left behind through sticking to books and libraries. Our students are called grinds and book-worms, and eastern teams win."

Then to the toast, "The Forward Look," Tore Teigen, '03, of Sioux Falls (visiting here incog.), cheered us with these inspiring words: "The old U. W. is still holding its position as leader

in university education. She is as young as ever, and as ever abreast of the future, awake to the present needs of the young people of today. Our faculty has kept in touch with the progress at the U. of California, where for several years tennis and natation (swimming) have been major courses, and with the U. of Chicago, where equitation (horseback riding) has been placed in the curriculum with an emeritus Cowperson as full professor. They have also been on guard as to the changes in the eastern schools, where for instance, the professor of physics teaches tumbling, and have waited only to bring out with Wisconsin fearlessness and frankness the courses of the future. It is a Wisconsin tradition, 'Wisconsin leads where others copy.' (Cheers.)

"We are now proposing the restoration of the time-honored B. A. and M. A. degrees, leading, for those who plan their life work in the Y. M. C. A. and other gyms, to the degree of Doctor of Athletics. The Athletic College will require preparatory work taken in accredited high schools with recognized teams, and will offer major credit in baseball, football, golf, billiards and pool, with minor electives in poker, Afric diversions (substituted for foreign language courses), petting and such. Math will be replaced by courses in score-keeping, percentage computation, theory of chances, bond selling, and the like.

"Of course, the purely humanistic studies will never be neglected at Wisconsin. Literacy tests will be required, as shown by the World War, where college men stood high among the morons. Ability to read headlines and subtitles (aloud) will be a requisite for obtaining a degree. The simpler words must be correctly spelled, such as flapper, 'turrble,' necking; words with hyphens credited double if the little jigger is put in, viz., dumb-bell, high-ball. The 'Constitoon' must be recognized when met.

"Thus the traditions of our times are being maintained and the U. W. spirit,

that will not gloss over conditions, frankly offers credit to the young shieks and breads for what they do best." (Prolonged applause.)

Vinnie Clark, '10, professor of geography at the State College, read some humorous excerpts from the last Alumni Magazine and asked whether the chair of English were not already vacant. Upon motion by Judge Edward Henning, seconded by Mr. Baird (physics professor, State College), the excerpts were ordered sent to the College English department of the American Mercury.

Miss Clark was congratulated upon the publication of her text, "Europe, A Geographic Reader." Dr. Wm. McColl, ex'20, was present with his bride, nee De Vries, also of Madison. Clifford Pease, '04, paused in the exit long enough to listen politely to Dr. Pickard who had not seen him since last November when Clif was stumping for a candidate who lost, and the doctor wished to encourage him with the thought that in a democracy there would always be found people to stand for what this candidate stood.—12-2-25.

TEACHERS' CLUB

PEARL LICHTFELDT SORENSON

ON November 6, during the Teachers' Convention, the annual dinner of the Wisconsin alumni teachers was held in the Gold Room of the Hotel Wisconsin, Milwaukee. It was the largest gathering of this group for many years. Two hundred and sixteen attended. W. T. Darling, superintendent of the Wauwatosa schools, presided over the meeting. President Glenn Frank, the only speaker, delivered a stirring message to the teaching alumni who turned out so loyally to welcome him. Superintendent C. E. Hulten, '22, of Marinette, was elected president for the coming year. Pearl Lichtfeldt Sorenson, '22, Wauwatosa, was reelected secretary.

Unfortunately, it was necessary to turn away many alumni because they

failed to send in their reservations in time; moreover, due to the limited capacity of the Gold Room, places could not be supplied at the last moment. However, next year all those desiring to attend the dinner will be given the opportunity to purchase their tickets in advance by mail, so that all will be accommodated.—11-18-25.

TOLEDO

MARY HUTCHISON, '20

On the evening of October 28 Toledo alumni gathered at the Cherry Street Woman's Building to consume chicken and talk Wisconsin. Secretary Robert Crawford was there to give us the latest information relative to the Union Building, Coach Little and his fine work, and our new president, Dr. Glenn Frank.

Around the red and white table were seated: Dr. Ralph Daniells, '96, and wife, John Daniells, '05, A. W. Trettien, '99, Jason Swartzbaugh, ex'14, and wife, Mrs. Burke, Miss Cole, Frank Downs, '16, Gertrude Fries, '25, Lorna Heintz, '24, E. E. Huntington, '09, and Sophie Schaeuble Huntington, '05, Donald Mebane and Frances Malm Mebane, '20, Jane Truesdall, '25, Albert Walker, '14, Mary Hutchison, '20.—11-17-25.

DEATHS

JOSEPH POPE CHEEVER, '69, a member of the first class to be graduated from the Law school, died at Brookings, S. D., on November 12.

WILLIAM H. ROGERS, '75, active in Wisconsin politics a quarter of a century ago, passed away at San Jose, Calif., on November 28, at the age of seventy-five. After graduation from the law school and admission to the bar, he was elected district attorney in 1876. Private practice and later the insurance business engaged some of his time. He served as alderman several times and also as president of the common council. From 1884-89 he was assistant U. S. district attorney, and from 1892-93 was mayor of Madison. The year 1895 saw the organization of the National Premium Insurance company by Mr. Rogers, and the year 1896 his reentrance into politics as candidate for governor.

Amos P. Wilder, editor of the The State Journal at that time, described him thus: "A genial man always, with a sympathetic interest in all sorts of things from Sunday school picnics to the largest issues of community life. Insurance and other interests engross him, but he always has time to be pleasant; that's a good deal to say of a man in this selfish world of rush and friction."

MELVIN AURISTA HOYT, '83, for nearly forty years a leading Wisconsin publisher,

died in Milwaukee November 17, after an illness of two weeks. He was 67, and leaves

a widow but no children. One brother is J. E. Hoyt, '80, connected with the state architect's office, Madison, as superintendent of Capitol Maintenance; another is Dr. George E. Hoyt, Menomonee Falls, deputy state medical officer for the southeastern district; and there is a sister, Miss Celestia Hoyt, Milwaukee. Burial was at Menomonee Falls. Mr. Hoyt was born at Sussex, Waukesha county, November 27, 1857. He was graduated from the University in 1883 and during student days represented various metropolitan papers at the capital. This work he continued for a short time after graduation. Then he became part owner of a Chicago publication with Edwin Curry Stevens. He was the intimate friend of the late Victor F. Lawson of *The Daily News*, also of Melville E. Stone, till recently general manager of the Associated Press, and other notables in the Chicago field of his day.

In company with A. W. Dingwall and Chase Osborn, who was to become governor of Michigan, he organized in 1887 *The Evening News* at Sault Sainte Marie, Michigan. Until 1889 he and Mr. Osborn continued this venture. Coming to Milwaukee, he became associated with William H. Park, first in a weekly paper, later evolved into a daily, *The Milwaukee Daily News*, of which Mr. Hoyt was the active editor and later full owner.

After almost thirty years of continuous service, *The News* was absorbed by the Hearst interests and Mr. Hoyt retired from active work. The activities of Mr. Hoyt aside from his ownership of *The News* were few. He was a charter member of the Milwaukee Press Club, becoming affiliated with that organization in 1885, and in student days was a charter member of the Rho chapter of Psi Upsilon fraternity. He was the democratic nominee for lieutenant governor some years ago and he had the distinction of once presiding over a democratic state convention. Mr. Hoyt was really an independent in politics, and in all other ways as well,—sternly honest, a loyal friend, nervous, earnest, intense, fearless, often vitriolic with his pen; indeed, much of a natural crusader.—O. D. B.

Mrs. LEIGH HOWE AITCHISON, ex '85, died December 10, at her Milwaukee home, 542 Farwell avenue. Death resulted from a fractured hip suffered nearly two years ago by a fall on an icy walk. In girlhood and some years after, Mrs. Aitchison resided in the stone house at the west end of State street, now the Administration Building. She came to that place as a child in the late 60's from Monona, Iowa, where she was born December 23, 1863. Her parents were Mr. and Mrs. Henry E. Howe, and they both died in the State street home some fifty years ago. Mrs. Carolyn Howe Porter, '86, of Milwaukee, whose husband was supervising architect of the Capitol, is a sister, and Frank Howe, of River Falls, a brother. Mrs. Aitchison was married on November 21, 1896, to William E. Aitchison, a university associate, who died a few months later. She attended the '85 reunion last June, though with painful effort. Many years ago she went to Milwaukee, where she was with the Gerritson Company, later with the T. A. Chapman Company, managing their dress making departments. She had been in business on her own account for some years, and became known as one of the most fashionable modistes.

Funeral services occurred at the Forest Home chapel, Milwaukee, December 11. Following cremation, her own wish, the ashes were placed in the family plot at Forest Hill, Madison.—O. D. B.

BLANCH HARPER, ex '86, passed away at her home, 2301 Chamberlain Ave., Madison, on October 13. Her passing takes from the alumni circles of the late 80's and early 90's a well known and much beloved woman. Miss Harper did not graduate, as her frail health demanded frequent interruptions in her studies, but at Ladies Hall and later in her own home, she gathered around her congenial people who were glad to be counted among her friends. After a prolonged visit in Japan, she returned and reentered the University as a member of '92 and there as elsewhere, she made warm friendships. One

of the '92 girls writes, "She was a good friend of mine, just when as a very green country girl I needed it. She gave generously, help of a very substantial kind." Another member of '92 says, "Her influence was strong with the younger girls and always along the line of the pleasure of study and investigation."—Marilla A. Buchwalter.

EDITH ROBINSON, '96, died at her home, 543 Marshall St., Milwaukee, on November 7.

ROSE DYE THOM, ex '04, passed away at St. Mary's hospital, Wausau, on November 14, following a surgical operation. She was the youngest daughter of Dr. A. A. Dye, a retired physician and at one time mayor of Madison. Her high school education was received in Madison and she entered the University with the class of 1904. "She was a member of Delta Gamma sorority, and a leader in social and philanthropic circles both in Madison and Wausau. Her marriage to Mr. H. W. Thom occurred on October 7, 1903. She endeared herself especially to the poor and needy who were benefited through her activity and interest in welfare work. At the time of her death she was president of the Wausau Health Center, chairman of the anti-tuberculosis committee of the Red Cross, and very active in the Federated Charities, confining her work chiefly to infant welfare.

She is survived by her husband, one daughter, a sister, Mrs. Vroman Mason of Madison, and her father. Funeral services and interment were at Wausau.

MILLEGE BOYCE, '05, a pharmacy course graduate, died at Colorado Springs, Colo., on November 7.

ALBERT ABLE, '13, a pharmacy course graduate, died at Glendive, Mont., on November 11.

Dr. RAYMOND CLEVELAND SALTER, '15, passed away recently as a result of illness of several years. He took his master's degree at Iowa State College, 1918, was a fellow in the department of bacteriology, 1919-1920, and took a doctor of science degree in hygiene in 1920. He was an instructor in bacteriology at the Johns Hopkins School of Hygiene and Public Health, and chief of the Bureau of Bacteriology, State Health Department. Dr. Salter was one of the first graduates of the School of Hygiene, and the first graduate in the department in which he later was to teach. Because of extensive experience gained in France, he was directed to the Maryland State laboratory of bacteriology at the time of the separation of state and city departments in this science. He built up a number of branch laboratories and developed a wide service involving a large number of physicians.

Dr. J. A. STOLZE, '19, passed away at Wausau on November 28 after an illness of two years.

THOMAS HOWARD CAMPION, '25, at one time associate professor of agriculture at the University, died in a Milwaukee hospital on November 19, following an automobile accident in which his car was struck by a Chicago & Northwestern train at a crossing near Dalton. Mr. Campion was well known and highly regarded throughout the State for his

contributions to Wisconsin agriculture. He held various executive positions among them being head of the Milwaukee County Agricultural school, secretary of the Western Wisconsin Holstein Breeders' Association, the Guernsey Breeders' Association, the Purebred Seed Growers' Association, and until recently executive secretary of the Greater Wisconsin Association. He received his B. S. degree in agriculture from the University last June.

Prof. FLETCHER ANDREW PARKER, founder of the school of music at the University, died at his home, 14 W. Gilman St., Madison, on December 5. Advanced age, together with complications which followed an automobile accident in 1922, were the cause of death. He was born in Lodi, Medina county, Ohio, December 26, 1842. While a junior at Northwestern university he enlisted and saw active service in the Civil War, earning the rank of senior lieutenant of artillery. After the war,

he graduated from the Boston Conservatory of Music, and later studied in England and Germany. In 1876 he became an instructor in the Royal Academy of Music and Instruction at London. A request to renounce his citizenship and become an English subject brought Prof. Parker back to America, where he taught for a while at Illinois Wesleyan university. He was called to our University in 1878 as instructor in music, and when in 1894, the school of music was founded through his efforts, he was given the rank of professor and named director. In this capacity he served for 13 years. To Professor Parker belongs much of the credit for the growth of the University school of music and its high rank today. Nor did his influence stop there. The city of Madison owes a great debt of gratitude to him who first established the custom of bringing in artists of international reputation in connection with the oratorios given each spring by the Choral Club. The history of the development of Madison as a center of musical activities and its reputation as a music loving community, must inevitably be linked with the name of Professor Parker who did so much to lay the foundation and give impetus to that development. It should be mentioned also that he was a member of the Societe Universalle Lyrique, as high an honor in the musical world as membership in the French academy is in the literary world.

He is survived by a brother, Dr. Frank Parker, of St. Paul; a nephew, Harry Parker, of Chicago; and several nieces. Interment was at Forest Hill cemetery, Madison.

FACULTY NEWS

PROF. A. R. HOHLFELD, chairman of the German department, will observe his sixtieth birthday on December 29, in celebration of which a Hohlfeld

Memorial Endowment fund will be presented to the University by former students in the German department. These students will endeavor to raise \$5,000 which will be sufficient to provide a \$500

fellowship every two years. Professor Hohlfeld will complete in June his twenty-fifth year as a teacher of German at Wisconsin. The department has long been rated a leader in the United States.

Reune in June!

1926 } 45 years
1881 }

Dear Readers: Belasco once staged a play, styled "The Return of Peter Grim," featuring David Warfield. The story revolved around the return of Peter to earth and to the haunts of his youth, after his demise. Something akin to the above play is to be staged at Madison this coming June. It is to be called "The Rejuvenation of the Class of '81."

The players will be the grandfathers, grandmothers, the pas and mas, the bachelors and maids, who are still in the flesh, and who once registered the *mystic*, not mythical, numbers—1881. There has been such secrecy on the part of my classmates regarding their family affairs that I am unfamiliar with their progeny; hence know not how to cast my characters. The only grandfather I can actually locate is proud Dan McARTHUR. He is loquacious regarding his two splendid grandchildren, and well he may be, especially if they are the only two descended from our class. William MORONEY has four splendid specimens of second generation, who we hope will grace our show. In order to facilitate things, will all Eighty-Ones who read this please drop me a line giving such details of their lives as possible, whether they intend to be present or not. These letters will be read at our Grand Luncheon Party, and will be very interesting to us all, as similar ones proved five years ago. Nothing is trivial that concerns you; so please come across!

A certain captivating English music hall singer, who recently played at the Apollo, chanted a charming ballad, the final words of each stanza being, "Could

Coolidge do it? Could Len Small do it? Could Lloyd George do it? Why no!" Paraphrasing that song, I want to ask, "Did Frank Porter do it? Did Will Lyon do it? Did Charley Kerr do it? Why no!" Now what did these last three not do? They did not do me the favor, as Lynn Williams recently did, of saying they had noticed my articles and read them with real appreciation! I enjoy compliments, but don't relish going away from home to get them. I like Lynn, so does everyone else who knows him. Wish we could adopt him into our class, but 1900 are too proud of him to relinquish him.

Our annual football dinner was the usual huge success. It was worth a diploma to sit with such a distinguished crowd. Our five hundred and fifty Cardinals yelled in unison and pulled together for the success that materialized the next day. Outside the elect, who graced the speakers' table, we segregated according to ages and classes. There being no one of our class present but yours truly, I was captured by a table composed of rollicking Phi Psis, much to my joy.

Aside from the pleasure that comes to one as Class Secretary, I wish to record an incident that happened to me last week that might have proved financially painful to me. A young man called up my house and asked my wife where he could see me at once; said he was a nephew of one of my classmates and had some urgent message for me. He was informed I could be reached at the University Club at noon. Two very dapper young men called on me there, nicely dressed, splendidly spoken, very breezy fellows, having all the appearance of being collegians. One of them posed as the nephew of the only male classmate of '81 who lives in this city. All the time they were talking to me I was silently cogitating on what their mission might be. They pretended to hail from Los Angeles. Just as they were about to depart the spokesman hemmed and hawed and divulged his secret. His uncle was out of the city, so he said, or he never would have troubled me. His own and his friend's railroad and pullman tickets had been picked from the friend's pocket. Would I kindly assist them with a temporary loan to replace the lost tickets? Then came my turn to stammer. I was an invalid, retired from business, only had a small fixed income, had no money on my person, and the club had issued an order forbidding checks to be cashed. If it would aid them any I would try to

borrow \$5.00 at the desk. While the amount was quite small, they would gladly take it, and they did. They assured me I would get it back, but as they never asked for my address, I am rather skeptical.

Moral: If your relatives need money, please give them better identification cards than these fellows had.—F. S. W.

While there, he expressed the following opinion with regard to the action of the Regents in the refusal of gifts from educational endowments: "Refusal of gifts from educational endowments merely shuts the University of Wisconsin off from sources of helpful assistance. Much creditable work can be done with the assistance of these foundations, and there can be no harm in the acceptance of such gifts providing the University does not obligate itself in any manner other than agreeing to work in behalf of the public interest. The University of New Hampshire has received some support from the Rockefeller foundation for certain lines of research, and no conditions were exacted in connection with the gifts."—J. P. By the way, here's a part of one of Jimmie's letters that didn't get into the Magazine last month:

"I read the Alumni MAGAZINE in its new form with much interest.

"The changes seem to me all that is good. Size is handy and attractive; cover much improved by new border. The plan of combining President's Messages, News and Comment, and including editorials under that general head, ought to make a flexible make-up and give good chances to display matter of greatest current interest, at the same time not sacrificing compactness. It's an original and very promising arrangement. The same applies to the combining of Campus and Faculty notes—a logical combination, the material being much alike essentially, and somehow it reads easier as now presented. All in all, I think you're to be congratulated on the Magazine in its new form. It's been a good Magazine, and it's better now."

Well, I got to say something again, wise or otherwise. Santa is coming so I'll have to be carefull of what I say, but I guess I know somebody who won't get anything from him—that's the regents. Naughty boys and girls don't ever get any presents.

With our new director, George Little, we seem to be coming through athletically in fine style. Take a look at that 1926 football schedule and cry out loud. Some of us were shouting for a game with our Jack Wilce's gang, but we'll get him back on our schedule again later some time.

And talking about basketball, the close-up and low-down in the matter is that Doc Meanwell has again a basketball team that's apt to place one-two-three. The boys have the stuff in them and Doc knows how to bring it out.

Then there are winter sports at Wisconsin, with Kay Iverson heading things up. We have at Madison the possibility of becoming the winter sports Mecca of the entire continent. Thus far we have lagged woefully behind, but the awakening seems to have come this year. Watch the papers for happenings in this direc-

tion. The big gun will be fired during the middle of January. Minnesota will play us at ice hockey on January 15 and 16. With this as a nucleus, a winter sports carnival will be staged that will be the best ever at Wisconsin,—weather permitting. The great Northwest Ice Boat Regatta will be held on about that date depending on the condition of the ice, the Intercollegiate Ski Meet will take place then and many other events are being arranged. If we can get away to a good start this winter, we feel that another year will center enough interest on Wisconsin so that a program of national scope can be developed.

We have no personals this month—not a razz in a whole raspberry patch. I promised not to mention Walter Schulte, Kemp Slydell, Sid Dudgeon, and Oliver Storey this time so I'm even shy of those possibilities. I understand F. Ryan Duffy is still alive—in fact too busy to write down from Fond du Lac. Maybe he's afraid I wouldn't mention his name, if he did.

Reune in June!

The class of 1916 is getting a head start on its ten year Reunion in June. Over thirty Madison members had dinner together at the Park Hotel on December 8 and if the good eats, good time and fine spirit prevailing that evening is any augury of what's in store for the class in June, it's going to be a "humdinger" of a Reunion. We'll beat every class there in numbers, noise, songs—if it comes to a contest—and even finances, if Earl Cooper can make our nest egg grow as fast in the next few months as he has in the last five years.

Secretary Crawford addressed us on the "Spirit of Reunion," complimenting us on our first reunion and prophesying a very successful second one. Earl Cooper told us that we were in pretty good financial circumstances, but that we shouldn't consider ourselves plutocrats by any means, for we needed a lot more money by June if we were going to put across the kind of Reunion worthy of the class of '16. President Maurer divulged a novel scheme for cutting down committees to a minimum and concentrating responsibility and power in committee chairmen. Sub-chairmen and sub-committees stationed at strategic points all over the U. S. will work their territories until every Sixteener in the country will be reached either personally or by letter. "Bubbles" and Jessie and possibly somebody else had things so well lined up that we were pretty much agreed on plans and said, "O.K. Go ahead." Committee appointments will be out soon.

A St. Patrick's day dinner is planned for the next meeting, to which all Sixteeners within driving distance of Madison are invited. President Maurer promises he will have all roads leading to Madison in good condition by the 17th of March. Reports of progress will be given at that time by committee chairmen. Be sure to let Jessie Maurer know you're coming, so'll she'll reserve a place for you. Bring the wife or husband along!—E. R.

Sec'y—HELEN ROBINSON, Lake Geneva

Classmates of Nate GRABIN, who will be remembered as the composer of the 1924 From Fox Trot, should be interested in seeing Cruze's "Pony Express," in which Nate has a part. In a letter to M. F. Bergstrom, Madison, describing many interesting details in the production of the picture, he said there were about 300 Sioux Indians on the "lot," all fine fellows, but that they were inclined to be too serious when they were working and he made it a point to keep well away from their arrows and guns.—Melvin GOLDMAN is secretary of the Mel Realty Co., Miami, Fla. He resides at 1866 North Bay Shore Drive.—Annabel DOUGLAS is teaching English and civics in the Hartford high school. She is located at 271 E. BOOK NOTES

Century Readings in Ancient Classical and Modern European Literature, edited with introductions and notes by Grant Showerman, '96, Professor of Classics in the University of Wisconsin, and J. W. Cunliffe, formerly Professor of English in the University of Wisconsin and now Director of the School of Journalism in Columbia University, consists of extracts in translation representing the literature of our civilization from its origins to the present, with the exception of English and American literature. The work is issued also in two separate volumes, *Readings in Ancient Classical Literature* and *Readings in European Literature, Medieval and Modern*. Among the translators whose versions appear in the classical volume are Charles Forster Smith, Alexander Kerr, Lily Ross Taylor, William Ellery Leonard, and the editors.

The Social Trend (Century Co., New York, price \$1.75), by Dr. Edward A. Ross.

In fourteen chapters, or essays, Professor Ross with his clear penetration and characteristic frankness treats some of the modern tendencies in life and

thought, tendencies which affect every one of us to a greater or less extent and which we are consciously or unconsciously seeking to escape, counteract or encourage. A list of chapter headings is but a meagre index to the thought-provoking material contained therein: The Menace of Migrating Peoples, The Necessity of an Adaptive Fecundity, Folk Depletion and Rural Decline, Doing Without the Frontier, The Changing Domestic Position of Women, Women In a Man-Made World, Philanthropy With Strings, Prohibition as The Sociologist Sees It, The Legal Profession from the Social Point of View, The Conscience of the Expert, Training Citizens with "Spunk" for Social Service, For a Legal Dismissal Wage, Freedom of Communication and the Struggle for Right, War as Determiner.

The purpose of the book is best stated in Professor Ross' own words in the Introduction:

"We moderns are like mariners on a ship sailing an uncharted sea. We cannot lay our course in the light of the experience of our ancestors * * * So the best we can do is to set watchers to scan the horizon. The sociologist is just a man in a crow's nest who knows no more of this sea than his fellows. But from his position he will catch sight of coming dangers—shoals, sunken rocks, derelicts, cross-currents—before they are seen on deck.

"This book is an attempt of an observer at the masthead to judge the probable course of the ship, to call out what lies ahead and how the ship must bear to starboard or to port in order to avoid trouble."

New bulletins issued by the Agricultural Experiment Station are: "*Transmission of Viruses from Apparently Healthy Potatoes*," by James Johnson; "*Pea Disease Survey in Wisconsin*," by F. R. Jones and M. B. Linford; "*Profits from Phosphates*," by A. R. Whitson and Griffith Richards; "*Intensive Dairying in New Zealand and Wisconsin*," by H. L. Russell and Theodore Macklin. Three circulars and a stencil bulletin issued by the Extension Service of the College of Agriculture are: "*Cull Your Flock*," by J. G. Halpin, J. B. Hayes and C. E. Lampman; "*Cheese*," by Abby L. Marlatt and Edna Huffman; "*Bacteria Feed Legumes with Air Nitrogen*," by E. G. Hastings and E. B. Fred; "*Hemp in Wisconsin*," by A. H. Wright.

THE UNION BUILDING

By PORTER BUTTS, '24

Those who have seen the early sketches of the building will recognize a wide departure from the original plan of construction. Those who are conversant with Union building types in other universities will not fail to sense a unique and adventurous and yet altogether reasonable conception behind our project.

The striking and essential change which the new sketches show is a change from a single unit building to a three unit building.

The study of the Union committee has ultimately revealed that the pressing and permanent needs of Wisconsin students that are not likely ever to be met by the University itself are for a club house and physical point of contact with fellow students, a commons, or dining hall, and a small theater. These needs established, the scheme of housing each unit in a separate building, joined to the other two, followed naturally.

The three unit plan as approved reveals a correspondence of form to function; that is, the theater unit, for instance, will be built solely with its use as a theater in mind and will not be hampered in size, style, or usefulness by what in a single unit building would have to go above it, below it, and on its sides.

Not the least important attribute of the unit plan is that the units can be built one at a time as the acquisition of funds permits and that each will be, in itself, a complete, useful, and beautiful building, fulfilling its purpose much sooner than would otherwise be possible.

The three units of the building are harmoniously executed in the Southern Italian renaissance architectural style that characterizes the constructional scheme of build-

ing on the campus. It is a warm and lively style, peculiarly suited to the climate and angle of sunlight of Wisconsin and capable of emphasizing the play function of a Union building and the spirit of undergraduate life.

The building itself will be developed in a gray Madison stone with a trimming of brick of a slightly lighter color in the two wings. On the lake side will be a colored tile terrace and a series of grass terraces down to the lake. The irregularity of the building with its arches and projecting pylons is considered excellently adapted to its position fronting the curving shore of Lake Mendota.

The lakeshore site of the building has been slightly changed from the

original to conform to a general scheme of campus development which contemplates making a wide mall, or parkway, which will stretch across the lower campus to the lakeshore as a sort of public entrance to the University grounds. The Union site consequently has been moved nearer Park street, so that it now extends from what was formerly the President's house to the Y. M. C. A. instead of including the Y. M. C. A. site as formerly.

It is apparent in Madison that the Union is going to be built at once. That is what alumni have been waiting for. Alumni everywhere have been saying, "I'll pay my pledge when they start to build." This attitude, a natural one, has kept payments in abeyance and cash

funds in the Union treasury low.

Now, with digging days here and building certain, the response of alumni in supplying the cash they have pledged unquestionably will be immediate and complete. The mathematics of the situation, according to Secretary Dollard, give a further reason and incentive to bring all possible cash funds into use now. There is cash in hand now to build the first unit of the building, and only the first. If enough additional money is paid in by subscribers before March, contracts for two units instead of one can be let at an approximate saving of \$50,000.

Dollard, '22 says, "Every dollar paid in now can be used in the next four months."
