INTRODUCTORY.

THE second volume of **Pott's Directory of Sheboygan City and County** is herewith placed before the public, and we hope it will meet with the same cordial reception that has been tendered the first volume, published two years ago. We say now as we did then: we lay no claim to infallibility, but we have tried our best to produce a directory with as few errors as possible, and hope that this volume may prove to be an indispensable helpmeet and a trusty and always willing and ready friend to the business men of our city and county.

We beg leave to draw the attention of the public to a few important improvements which have been embodied in the second volume. In the alphabetical list of names of the city of Sheboygan will be found not only the name, occupation, place of business and residence, but also the number of the telephone, where this instrument is used. The list of names contains over 250 names more than our last issue — showing an increase of the population of our city of about 1000 inhabitants.

It is with justified pride—we believe—that we point to the improvements in our county directory. Our volume I contained but about 5500 names of persons not living in any incorporated city or village—and that was by far a greater number than any directory of former years had ever contained. By a closer and more careful canvass, and aided by the experience of our work two years ago, we now lay before you a directory containing 8500 such names — an increase of 3000. Furthermore we have gone to the trouble to ascertain the size of the different farms in the county, and after each name will be found the number (in parenthesis) of acres owned or rented by the respective person. This feature alone should make the directory of 1897—98 of especial value to every business man in the county.

We have followed a new plan in the distribution of the advertisements in this volume, which, we hope, will be appreciated alike by our advertisers and by the general public.

A directory of a large county like ours cannot be completed within a few days, and necessarily many weeks must pass after the first canvasser begins his labors until the complete volume can be delivered to the purchaser. During this time changes take place daily, and we have tried to keep track of them as closely as we could during the progress of our work. The reader will find a list of such corrections or changes in the beginning of each part of our book, and while it has been impossible to learn of all such changes, we have endeavored to obtain as many as possible.

Again thanking our friends for the kind patronage they have tendered us in the past, and hoping that volume II of our directory will meet with the same favor at their hands as volume I, we remain

Yours Respectfully,

POTT & ZORN.

SHEBOYGAN STREET DIRECTORY.

The city of Sheboygan is divided into two divisions, the North side and the South side, the river being the dividing line.

The streets running north and south have numbers, beginning at the lake, and are called on the north side, North 1st street, North 2nd street, etc.; on the south side, South 6th street, South 7th street, etc. The streets running east and west are called avenues. Short streets are called courts or places.

The houses of the city are numbered according to the Philadelphia plan, that is, 100 numbers are counted for each block. On streets running north and south the even numbers are on the west side of the street, and the odd numbers on the east side. On streets running east and west the even numbers are on the north side of the street and the odd numbers on the south side.

For numbering the houses on the streets running east and west, No 1 is at the shore of Lake Michigan, east of 1st street. Nos. 101 and 102 are always the corners of the street running east and west and 1st street, and 100 numbers are added for each block from the lake. Thus we have on these streets the following numbers:

Between 1st and 2nd street, from 100 upward; between 2nd and 3d streets, from 200 upward; between 3d and 4th streets, from 300 upward; between 4th and 5th streets, from 400 upward, and so forth. This plan is the same for the north side and the south side.

For numbering the houses on the north side on the streets running north and south, the most southern bend of the river, at 8th street bridge, is taken for a basis and called No. 1; 100 numbers are added for each block north from this point. Thus the intersections of N. 8th street with the following avenues have the following numbers:

Maryland ave	101	Niagara ave	901
New Jersey ave	201	Ontario ave	1001
Virginia ave	301	Erie ave	1101
Jefferson ave	401	St. Clair ave	1201
Pennsylvania ave	501	Michigan ave	1301
Center ave	601	Huron ave	1401
New York ave	701	Superior ave	1501
Wisconsin ave	801		

The same rule applies to all other streets running north and south on the north side.

For numbering the houses on the south side, on the streets running north and south, the most northern bend of the river, on S. 14th street bridge, is taken for a basis and called No. 1; 100 numbers are added for each block south from this point. Thus the intersections of S. 14th street with the following avenues have the following numbers:

Niagara ave	101	New Jersey ave	801
Wisconsin ave	201	Maryland ave	901
New York ave	301	Illinois ave	1001
Center ave	401	Indiana ave	1101
Pennsylvania ave	501	Kentucky ave	1201
Jefferson ave	601	Alabama ave	1301
Virginia ave	701	Georgia ave	1401

The same rule applies to all other streets running north and south on the south side.

POTT'S DIRECTORY

OF

SHEBOYGAN COUNTY.

ALPHABETICAL LIST OF NAMES OF RESIDENTS,

With Section, Township and Post-Office.

The following is a list of residents of Sheboygan County (excepting those residing in the cities of Sheboygan and Plymouth and in the villages of Sheboygan Falls and Elkhart Lake), followed by their section, township (or village) and post-office. Where two numbers appear (16 or 23), the second denotes the number of the town in Town Greenbush or range in Town Holland. Where only one number appears in these towns, it denotes in Holland, that the respective section is in range 22, and in Greenbush, in town 15.—Where the name of the town or village is the same as the post-office, such name is only given once. The figures in parenthesis following a name, thus: (160) denote the number of acres in the farm of the respective person. If the farm is rented, it is denoted thus: (160r).
