## THOMPSON YIELDS TO STUDENT WAR ON HIGH MUSIC PRICES AS GREEK CHAPTERS BOYCOTT

### Agrees to \$50 Maximum Dance Contract After Refusal

A. S. Thompson, orchestra manager, yesterday afternoon agreed to the price and personnel demands of the Pan-Hellenic association and the Interfraternity conference.

The demand of the joint committee that student dances be given preference in music was withdrawn. It was decided that university organizations could exert no priority claims upon a city and commercial business.

The concessions made by Mr. Thompson provide that the maximum price for any student dance orchestra will be \$50 and that the orchestras Chudnow and Gilmore, formerly given special consideration will be included under this classification.

#### Cancel S. A. E. Contract

Mr. Thompson also agreed to submit a personnel list of his employees to the committee representing the two student organizations and to place the list on file in the office of the dean of men.

A discordant episode was bared last night with the announcement by Lloyd Brown '23, leader of the price revolt, that Chudnow's orchestra will not play at the Sigma Alpha Epsilon dance tomorrow night. Brown is a member of Sigma Alpha Epsilon fraternity.

Chudnow notified Brown yesterday that he would not keep his engagement with the fraternity to play at the dance, Brown said. Later, following a conference between Brown and Mr. Thompson, the manager reported that Chudnow would play. His offer was not accepted, Brown asserted.

The committee agreed to a re-

## NEW DIRECTORY WILL BE ISSUED SOON BY SCHOOL

### Publication For Students Will Be Made One Month Earlier

A student directory which will make its appearance on the Campus before the end of October will be the novelty introduced this year by the registrar's office. This is the assurance given from that office today.

Heretofore this valuable edition has not been issued until the latter part of November, because of the difficulties of compilation, proof reading, etc. In order to get the book in the hands of the students as soon as possible this year, the copy will not be proof read, but will be printed as soon as compiled. It will contain only the student list the faculty etc. being omitted.

The complete, proof-read directory will be issued sometime later in the year, and will be given to university officers only. Copies will be on sale for all others who wish to possess them.

## Journalism Course Has Increase in Enrollment

An increase of about 15 per cent over last year is shown in the enrollment in the course in journalism which awards the degree of B. A. A total of 311 students are majoring in the course in comparison with 262 last fall.

## Evangelical Unit Holds Reception For Students

All Evangelical students of the university are invited to a reception tonight at the First Evangelical church. The reception, which starts at 7:30 o'clock will be held in the social room of the Baptist church Dayton and Carroll streets.

## 5,000 Students Eat Daily At Campus Restaurants

Approximately 5,000 students are fed each day in the university district, according to statistics given out yesterday by Lawrence's, College Refectory and the Campus.

Lawrence's restaurant and cafeteria accommodate daily practically 2000 people, most of whom eat in the evenings. The price of meats this year is 10 per cent lower, and salads 5 per cent while the price of side dishes and desserts remain the same as last year. The College Refectory serves approximately 1000 students each day.

The Campus restaurant which just started Sept. 15, handles about 1500 a day.

## OFFER DEGREE IN CHURCH WORK

### Four Year Course For Students Planning Religious Work

A new course for all students in the University who wish to prepare for religious life work and who wish to complete a college course in this university has been arranged through the combined efforts of Prof. Karl Young of the English department, Prof. W. H. Kieffer of the economics department, and Fredrick E. Wolf, secretary of the university Y. M. C. A. The plan has never been adopted by any other university in the country.

Among the important types of religious work to be borne in mind are the preaching ministry, the administration of religious work, religious leadership in rural communities, and the direction of religious work among young people.

These courses include preparation for the ministry, for secretaryship of Y. M. C. A., church boards, mission societies, and finance committees, for the secretaryship of boy's work in the Y. M. C. A. and of Boy Scout organizations, and for the directorship of young people's work and religious education.

A special set of electives has been prepared for each of the four types of courses above mentioned. Prof. J. L. Gillin of the department of sociology has consented to act as adviser for all students taking this course. A B. A. degree will be given for four years preparation in this course in connection with the course in humanities. All students who wish to enter religious work may consult Prof. J. L. Gillin.

## ATTORNEY TO TALK TO PHILOMATHIANS

Emerson Ela '99, president of the Madison Commerce association and well known attorney will speak on the subject of the "Forensic Field and its Opportunities," Friday evening at 7:30 o'clock in 220 Bascom Hall under the auspices of the Philomathian Literary Society.

At the same meeting two inter-collegiate debaters and three other debaters are to speak on the same subject. This program will be open to all male students of the university.

## St. Francis Society Has Reception For Students

A reception dance and mixer for Episcopal students and their friends will be given at the Grace church guild hall Saturday night. The St. Francis society, Episcopal student organization, is giving the reception. All Episcopal freshmen with their friends are invited. Refreshments will be served.

## Honk! Honk! Henry Must Keep Silence

No longer is the sanctity of Bascom hall violated by the milling and growling of high-powered Fords vainly trying to extract themselves from the confusion of other more or less favored benzine buggies and nondescript joy-wagons. No longer do co-eds wreck papa's auto gears or scratch the family vehicle in the rush to an eight o'clock.

All is now law and order. The law is Mr. S. Brown, traffic cop. The order is at once apparent.

Mr. Brown and his staff have made a scientific study of the acoustics of the building and the natural features of the Varsity gasoline alley, and from his research has evolved an intricate system of geometrical chalk lines, whereby the fenders of each chariot are exactly 26.4 centimetres apart.

## WHY STUDENTS QUIT SCHOOL

### Cupid is Acquitted as President Birge Reveals Survey Facts

The great mystery of why students leave college has been solved.

Cupid plays the under role. Only a few leave because of marriage. The percentage of co-eds who leave for their honeymoons is nine times that of men. The "sore-eye" special of campus classical fame contributes only a handful to the unfortunates. That bugaboo of the yearling has finally been dismissed.

President Birge gave an address yesterday at the meeting of superintendents and supervising principals at the state capitol. The secret was told, and by the head of the university at that.

Based on Varsity Facts

The report which President Birge gave was based on a statistical study made of the students at the university in 1919-20. Of the 6,559 students present in the former year, 1,960 did not return the next fall.

This number excludes those who graduated.

Of the 1,960, there were 337 who came back between February, 1921, and June, 1922. Little more than one fifth of those who returned had unsatisfactory records.

Financial reasons, more than any one cause, account for those who have satisfactory grades leaving school. Of the 800 asked, over 300 left for these reasons. Men and women were affected in about the proportion of their attendance, 210 of the 300 being men, 95 women.

Ill Health One Cause.

Proportionally many more women than men left on account of health nearly one-half of the 187 who left for this reason being women.

Other colleges drew 144 students away from the university during this period, more than one-half of whom being women. Marriage proved to alluring for 52, of whom only five were men, 47 women.

Death claimed 18, an exceptionally large number, chiefly due to the second epidemic of influenza.

In the College of Letters and Science the students whose record is so low as to warrant a vote of "probation" leave in much larger numbers than do those whose records are satisfactory. About 30 per cent of the former class leave as compared with 20 per cent of the satisfactory students.

About one-half of all those who left the university were freshmen and of those about one-third had satisfactory records.

#### THE WEATHER

Fair weather for Madison and vicinity will continue today and tomorrow, according to weather predictions. Cooler weather, however, is forecasted for Saturday afternoon and night.

## FORMER WISCONSIN FOOTBALL STAR RETURNS TO BOOST HOPE OF CONFERENCE CHAMPIONSHIP

### Three French Instructors Return From Trip Abroad

The Mademoiselles Germaine Tallandier, Marguerite Treiller, and Jeanne Palisse of the French department, have arrived in America after a summer in France. Mademoiselle Tallandier, a new instructor here, has spent two years in this country. Her first year was spent at Jane Millikin University, Decatur, Ill. She received her B. A. degree at this school. Last year she taught French at Morningside College, Sioux City, Iowa.

"I love it here; the surroundings are so beautiful, so romantic" is her way of expressing Madison's beauty. Mlle. Tallandier says France has changed very little in the two years she was away.

## AGRIC FROLIC PLANS READY

### Prominent Guests will Attend Freshmen Welcome at Lathrop

Preparations have been practically completed for the Agric. Home-Ec. Freshman Welcome to be held in Lathrop gymnasium tonight at eight o'clock under the auspices of the A. C. F. board.

"Get acquainted with your neighbor; you might like him" has been adopted as the slogan of those in charge of the welcome. Not only will agriculture and home-economic students attend the event, but scores of faculty members have signified their intention to be present at the welcome.

Among the prominent guests who will attend are Dean H. L. Russell, Mr. and Mrs. John A. James, A. W. Hopkins, Miss J. Krueger, Miss H. B. Manning, and many other members of the faculty.

#### Plan Informal Program

"It is the desire of the A. C. F. board to so arrange this welcome that it will appeal to everyone interested in the agricultural college, Lippert Ellis, chairman of the publicity committee, declared yesterday.

All who attend the welcome will be greeted by a reception committee. After the reception, a hand warming contest will be held. The twenty-fifth student that shakes hands with the possessor of a "four-bit piece, will be awarded the coin.

A short informal program will be given. Community singing, addresses of welcome by prominent faculty members, funny stunts led by Dr. Elsom, and orchestra music will be included in the program.

#### Dancing and Games

After the program, the guessing contest and the serving of refreshments will take place simultaneously. Prizes will be awarded to the winners.

The dance will start at 10 o'clock. The concert room is reserved for the entertainment of those who do not dance. Several of the play day leaders of the Agric. Triangle will assist in directing the games.

## ENROLLMENT SHOWS CO-EDS INCREASING

A new total of 7,302 students registered at the university, has been now reached, it was announced yesterday. As late registrants are still enrolling, it is expected that the final total will exceed the registration last fall by several hundred.

A slight decrease in the number of men, and an increase in the number of women are shown. Of the former there are 4,630, of the latter 2,672. The enrollment includes 4,276 former students, and 2,626 new students.

## Halfback of Badger Eleven in 1917 Re-enters School

After a period of five years during which he dropped from the gridiron world, Halfback Hobe Bondi returned to the Wisconsin football squad yesterday afternoon and worked at right half on the first team for a short portion of the signal drill.

Back in 1917, Hobe was a sterling halfback on the Badger eleven. He played in the same backfield with Jacobi.

Because of his long absence from the grid game, Bondi was permitted only a brief workout yesterday, following the Varsity eleven through the early part of its drill and then replacing Gibson at right half until Coach Richards gave the order for scrimmage.

#### Two Backfield Sets

With the addition of Bondi to the squad, Richards' backfield situation becomes more complicated than ever, from the point of view of choice, and simpler than ever, from the point of view of material. Allowing for the injuries that are bound to occur in any season, Richards will still have two sets of backfield men of Varsity calibre.

Early season performances indicate that Capt. "Rollie" Williams and Gibson will be in the halfback positions when Wisconsin does battle with Carleton college on Saturday, Oct. 7. "Shorty" Barr, unless he unexpectedly becomes defunct before that time, will direct the play at quarterback, and Merrill Taft may fill Guy Sundt's shoes in the fullback position.

Jack Harris, who performs just as well at fullback as he does at half and who looks fine in both jobs, "Bob" Whitten reserve halfback last year, George Carlson, and

## GRADUATE CLUB FOR WOMEN IS NOW UNDER WAY

### Dean Nardin Will Hold Tea to Discuss University House Plan

A new feature in the life of women graduate students this year will be the new club house at 420 North Carroll street which a committee of graduate students has secured to accommodate Wisconsin graduate women students. The aim of the committee is to make this home a headquarters for all women graduate students.

From 6 to 12 women will be able to live in the building, according to Miss Sarah Hogg, who is one of the instigators of the club house. Already several applications for rooms have been made. At least a score of women is expected to board in the new home.

The club house will be discussed at Dean Nardin's tea for the members of the American Association of University Women which will be held in the Lathrop parlors Saturday afternoon at 3:30 o'clock. Invitations for the tea have been sent out to nearly 500 women graduate students at the university. The project of establishing the house will be laid before these women at this time.

If it is successful, the new home will be developed into a women's university club and will become a permanent fixture in the life of the campus. At a meeting held in the Lathrop parlors Wednesday night the project was put before a representative body of graduate women, much enthusiasm was evinced and the committee is gratified at the progress that has been made.

Any women who wish to apply for room or board in the house is asked to see either Miss Hogg or Miss Williamson in Dean Nardin's office between 12:30 and 1:30 o'clock today or tomorrow.

## PLEDGE 40 IN HONOR SOCIETY

### Skull and Crescent Announces Names of Sophomore Students

The Skull and Crescent, a sophomore social inter-fraternity organization pledged 40 new members, most of whom are freshmen. At a meeting held last night in the Delta Upsilon fraternity house. The function of this society is to promote friendship among the various social fraternities on the campus and to support important movements which are being undertaken for the good of the student body.

The list of pledges follows:

Alpha Delta Phi—Hatmaker and Leith; Alpha Tau Omega—Freese, Wild, and Sampson; Beta Theta Pi—Coleman and Roach; Chi Psi—Nicodemus and Weelan; Delta Kappa Epsilon—Hagood and Welch; Delta Tau Delta—Drew and Hoyt; Delta Upsilon—Liebold and Barney; Zeta Psi—Jaeger, Rubind and Dy-rud; Theta Delta Chi—Witter and Hogan; Kappa Sigma—Morrison, Sebride and Smith; Psi Upsilon—McNickle, Bowsher, and Mark; Sigma Chi—Roger and Robertson; Sigma Nu—Wernecke and Van Wagoner; Sigma Phi—Hammett and Blashin; Phi Kappa Sigma—Sorenson, Mistle and Bode; Phi Kappa Psi—Wernecke and Hamilton; Phi Delta Theta—Fleming, Stemm and Hazard; and Phi Gamma Delta—Friday and Bryan.

### Canoeing Continues to Be Popular on Lake Mendota

Canoeing on Lake Mendota will continue as long as the clear fall weather permits, according to Mr. E. M. Niebuhar, of the University boat house.

No exact count of the canoes used each day has been kept but the fine weather has allowed more canoeing than is usual at this time of the year. Mr. Niebuhar says that canoes will be available as long as there is a demand for them and as long as the lake is fit for canoeing. Canoes will probably not be stored for the winter until the first week in November.

## HUGHES OFFERS PLAN FOR DEBT

### Official Drafts a New Scheme to Cover Cost of Occupation

WASHINGTON, D. C.—A plan by which the United States can be reimbursed for the cost of maintenance of the American army of occupation on the Rhine has been worked out by Secretary Hughes, under which the reparations commission, after consultation with allied governments, has agreed to permit the United States to receive its share of German dyes without money payment—as has been the practice heretofore—the cost of these dyes to be credited on the American bill against Germany for the army of occupation.

America's bill against Germany for maintenance of the army of occupation, according to war department figures, amounted to \$254,097,297 on April 30, 1922. It is estimated the amount due to late is about \$256,000,000.

During the peace conference it was agreed that 25 per cent of the total German dye output should be delivered to the allies on account of reparations. The United States was to receive one-fourth of this 25 per cent, but since the United States sought no reparations from Germany it was stipulated that this government should pay cash for any dyes received at market price.

It now appears Mr. Hughes has worked out a practical arrangement by which the United States can obtain payment without delay by being given its share, without money payment, of German dyes.

### Work For Delegates To Teachers' Meet

A campaign among the teachers of the city for membership in the local teachers association will be made in a few days, it was learned at the offices of the city board of instruction this morning.

The campaign will be conducted in an effort to get each of the 300 teachers signed up with the association so that this city will be entitled to five delegates to the state meeting of the teacher's association which will be held Nov. 9—11 in Madison.

## HALF OF UNION QUOTA RAISED

### Bonded Indebtedness May Prevent Purchase of Athletic Field

Figures at the city auditors office show that \$1,185,000 remains to be drawn upon before the limit of the city's bonded indebtedness has been reached. The city has been floating new issues faster than the outstanding bonds have been retired.

Needed improvements which are being contemplated for the near future roughly total \$1,550,000. These improvements are the new sewerage disposal plant, West End High school, three new graded schools and additions to others and street improvements, amounting to \$150,000 annually.

Bond issues cannot exceed five per cent of the assessed valuation of the city. The estimated valuation for 1922 is \$85,000,000 making the total amount authorized by law \$4,250,000. This amount will not be increased unless the valuation is raised which would mean an increase in taxes or growth of the city.

The new sewerage disposal plant which is now being worked out will alone cost about \$800,000 when completed.

### Seek to Avert Strike Of Great Lakes Sailors

WASHINGTON—Efforts were renewed by the department of labor today to avert a strike by union sailors on the Great Lakes, Secretary Davis directing Commissioner Nelson at Chicago to make a final plea to President Nolan of the Sailors' union and President Livingstone of the Lake Carriers Association to adjust their differences.

## FROSH GRIDIRON LINES DISPLAY GOOD MATERIAL

### Coach Driver Sends Players Through Hard Practice

The two freshmen football teams showed up well yesterday afternoon when they went through a hard and fast practice under the direction of Coach Driver.

There seems to be a wealth of backfield and end material. Most of the yearlings showed that they know football.

Nelson, right end, McCormick, right tackle, and Lunberg, right guard, made their side of the line a steam roller in effect. They opened holes at will and all the backs had to do was carry the ball. The left wing did not shine as well but faced stronger opposition from the seconds.

Rouland led his team brilliantly, is handy with the ball and passes very accurately. He is perhaps better on defense than offense thus far. Many times he stopped the opposing backs with swift tackling.

## FORMER WISCONSIN STAR JOINS TEAM

(Continued from page 1)

Arthur Caari are potential possibilities for reserve halves. Now, with Bondi out there battling for a regular job on the first eleven, the Badgers will have enough backfield men to fit out two conference elevens. Taft, Harris, Radke, and Crozier are engaging in a pretty battle for the fullback position. Taft appears to have the edge on his rivals because he has the so-called "educated" toe and can punt about 45 yards when he gets his kicks off in proper style.

Radke has been making a solid impression by his playing with the second team in the last scrimmages. If he maintains the pace, he will be one of the strongest contenders for fullback.

### Bar Cinches Post

Crozier relieved Sundt in preliminary contests last year, and, although this is only his first week of practice, he is showing his 1921 drive.

As to the quarterback job, Barr seems to have it cinched, but Gibson might be shifted to quarter, or Millman and Al Schneider alternated as pilot. Schneider called plays for a reserve Naval academy team at Annapolis. He is a former high school star from Milwaukee.

In the center of the line, Nichols, Pearce, and Teckmeyer are all in the running. Nichols has been getting the call for the first team pivot job, but Pearce and "Teck" are not far behind. During yesterday's scrimmage, Teckmeyer held down center on the reserve eleven.

Pearce worked with the third squad. Irish and Tebell were at the ends. Murray and Below, tackles, and Hohlfeld and Christianson flanked Nichols.

### Varsity Wins "Touchdown"

"Shorty" Barr waddled across the last white line for one touchdown score by the Varsity eleven yesterday. Calling for a forward pass, "Shorty" changed his mind when he saw his receivers covered and ran around right end for the score. "Gus" Tebell placed-kicked for an extra marker in the try-for-point.

Just what "Short" Barr can do with the forward pass was effectively demonstrated. He used the aerial route to make many gains with Williams and "Russ" Irish showing exceptional ability in nabbing the oval. "Gus" Tebell also pulled his share of throws out of the air.

### Air Offensive Improves

The screened defense offers a perfect guard for the chubby forward-passing pilot and the air offensive is getting better each day.

Varsity held the scrubs consistently. Millman's outfit was unable to advance through the Varsity line, while Varsity drilled large holes through the scrubs' defense.

The first team employed some of the new plays that it had received the day before from Coach Richards.

## CARLETON TEAM SHORT OF VETS

### Eight Letter Men Form Nucleus For Gridiron Squad

(Special to Daily Cardinal)

Northfield, Minn., Sept. 28—The problem of finding new material to take the place of the four all-state men lost by graduation is one that is causing no little trouble to coach C. J. Hunt at Carleton college at the present time.

There are but eight letter men to form a nucleus for the 1922 team. A great deal of difficulty is being experienced in developing new men. Capt. Harry O'Brien will very likely hold down the fullback position. Despite his diminutive size, O'Brien has been the unanimous selection of sport writers for the fullback position in the Minnesota state college conference for the past three years.

Montgomery, who performed creditably at quarter last year, is back in his old position again. Cassell also is holding down one of the halves.

"Kid" Sims, at end, is playing his third year of college football and before the season ends, promises to be one of the best men in the state at that position.

At the tackles, Middletonist and all-state selection of last year, and Ebert seem to be the choice although last minute practice may result in radical changes. Rokola and Brown at guards are a pair of veterans who have shown up well in the past two years and again are making strong bids for the guard position.

Carleton this year faces an unusually hard schedule for a college team, meeting some of the best college and university teams in the Middle-West. The season opens on September 30 against St. Mary's college of Winona.

"How do you get into W. A. A.?"  
"What does a team count towards a pin?"  
"How could I get a pin?"  
"What are the best ways to get points?"

All these and hundreds of other questions are being answered at the W. A. A. information booth which made its appearance at the physical education registration for the first time last Wednesday.

A W. A. A. member representative is stationed at the table throughout all of the regular hours to answer all of the queries in regard to this organization.

The first regular meeting of the W. A. A. will be held on Tuesday, October 10, when the plans for the year will be discussed.

## Order Increase in Electric Rates

Increased electric rates were ordered by the Wisconsin railroad commission today for the Mt. Horeb Heat, Light and Power Co. The new schedule calls for a 15 cent charge per kilowatt hour for the first 20 hours, 11 cents for the next 40 hours and 6 cents for all over 60 kilowatt hours.

Application of the Plattville Gas company for a raise in rates was dismissed by the commission.

## ATHLETIC BODY DISCUSSES PLAN OF JUNIOR CREW

### No Definite Action Taken On Petition For "aWa" Award

The first meeting of the athletic board for the season was held Wednesday noon. Various matters of business were brought up.

A petition for aWa award for junior crew men was brought up and discussed. No definite action was taken, and it was decided to let the matter rest until the next board meeting.

Petitions for a senior football manager were read. At the board meeting of December 21, 1921, the members accepted the recommendation of Director T. E. Jones, that George Gardner be promoted to senior manager, and that Norman Clark be made assistant manager. The assistant manager automatically becomes senior manager, according to the constitution.

Fred Coetz was recommended for appointment as chairman of the Winter Sports Carnival.

President Tebell made a request to the board that is members turn in names of men who are to act on the intramural sports committee.

The personnel of the athletic board is as follows:

President, Gustav K. Tebell; vice president, Rolland Williams; football representative, Rudolph Hohlfeld; basketball representative, Leslie R. Gage; track representative, Peter Platten; cross country representative, Wayne Ramsay; crew representative, Gilbert Turner; minor sports representative, Johnson Bennett; junior non-"W" representative, Thomas Tredwell; sophomore non-"W" representative, Kendall Elsom, and Lee Hanson.

## NEW COACH AT INDIANA HELM

### Pat Herron Makes Entry With Hoosier Eleven This Season

(Special to the Daily Cardinal) Bloomington, Ind., Sept. 28—Will Pat Herron, new head coach at Indiana university taking the place this season of Jumbo Stiehm, make his mark in the Big Ten western conference?

Football fans not only in Indiana but in the East and the West will turn their eyes on Indianapolis, October 14, when Indiana meets Minnesota, for the answer to this question. In this game Herron will make his debut as a Big Ten coach. That he will make an aggressive entry is indicated from the hard looks he is putting in on the Indiana eleven.

He has had four squads working out on Jordan field during the past week, blocking, tackling, punting, falling on the ball, charging, flying at the dummies, and racing up and down the field in signal drill.

Among them are 12 veterans in line, veterans from last season, twenty-odd promising candidates from last year's freshman team, and about 30 other candidates of varying degrees of experience. Herron is watching every man on the field for evidence of ability.

"I come to you with my mind a blank as to your individual playing qualities," he told his candidates on the opening day of practice. "The team will have to be built from the material I see on the field and not from what I hear of this man or that man. The thing that will secure a player's position will be the work he does. I have always found hard work and willingness to work the secret of the success of any player."

Herron is young and enthusiastic and never wastes a moment on the field. He has made a wonderful impression not only on the Indiana team but with the student body and alumni who have watched his work.

Football spirit has never been better at Indianapolis and followers of the cream and crimson are looking forward with confidence to the Minnesota game at Indianapolis, when Herron will give his baptism of fire.

## Pre-Medics Hold Annual Mixer Tomorrow Night

Three hundred men are expected to attend the annual all pre-medic mixer in Science hall tomorrow night from 7 o'clock to 9, according to Stuart McCormick '23, who is in charge of the affair.

The mixer is an annual affair for the purpose of acquainting all new pre-medics with the faculty and the old medical school students.

Dr. R. F. Bradley, professor of physiological chemistry, will make a talk on the "Honor System" which the Medical school maintains. Dean C. R. Bardeen and Professors C. H. Bunting, P. F. Clark and Prof. Meek will also make short welcome talks. Adolph Berger '23 has charge of the entertainment.

## Many Entered in Annual Frosh Tennis Tourney

The annual freshman tennis tournament started yesterday and a large number of yearlings as signed up for the event.

A notice on the bulletin board at the gym gives the names of the players, their telephone numbers and respective opponents. While the frosh tournament is getting a later start than the Varsity tryout tournament, it is expected that great headway will be made before bad weather sats in.

## 500 CO-EDS OF SCHOOL ENROLL IN SPORT WORK

### Swimming, Hockey, Tennis, and Dancing Classes Now Lead

Over 500 women registered the first day with the physical education department in the Lathrop gymnasium. Swimming classes under Miss Brownell registered the highest total for the fall semester. The fact that the completion from the physical education department here is dependant upon the student successfully passing swimming has greatly increased the enrollment.

Exactly 161, over half of the quota allowed for hickey, have already enrolled in the various hockey sections. Due to this large registration, afternoon classes are nearly all filled now.

Tennis under the direction of Miss Gall has a large enrollment. The number of assistant coaches has been increased in order to provide for personal attention to individual technique.

Miss H'Doubler's dancing classes have maintained the marked popularity among those signing up for physical education work. Archery is also being given.

Approximately 25 signed up to horseback riding. This course is under the management of the Blackhawk riding academy. The rates will be corresponding. The course was offered for regular credit last spring for the first time. It is probable that it will be every fall and spring.

## MASONS GREET NEW MEMBERS AT 'Y' WELCOME

### Annual University Event of Square Club Is Success

Two hundred Masons and members of the order of the De Molay crowded the parlors of the Y. M. C. A. last night to attend the annual university Masonic welcome to new students and freshmen who are members of the order.

Rufus Phillips '23, president of the local Square, welcomed the new members to the university and to the fellowship of the club. He said that the club wished to be of actual service to any Masons and De Molays while they are in the university as well as providing a vehicle for social activities something which men are apt to miss while away from their home lodges and chapters.

R. A. Chase '21, the first president of the Wisconsin Square club, told something of the first plans for such an organization which were discussed at a meeting of a number of Masons in London during the war. On his return to the university Mr. Chase and 11 other Masons formed what is now the Wisconsin square of the national Square and Compass.

### Explains Purpose of Club

Mr. Edward Swain, chief counselor of the Madison chapter of the De Molays, explained some of the purposes and aims of the junior organization.

Dr. F. N. Libby, extended a welcome to the newcomers on behalf of the Madison lodges and urged members, both new and old, to avail themselves of the opportunity to visit at any and all of their meetings.

Rev. Hope H. Lumpkin, who has the distinction of being a past master of the farthest north lodge in the world, gave a short talk on the ideals of the fraternity.

Members Give Short Talks ... William L. Young, assistant secretary of the university Y. M. C. A. spoke on the privileges of being a Mason.

Several members of the club gave a word of welcome to the new students, among them E. J. Kaderabek '23, president of the club last semester, Howard Funk '24, Ralph Ballew '23, and L. H. Halvorsen '23.

## VODVIL IS BANNED

A FACULTY committee has rung down the curtain on Vodvil plans this year.

Last year's Vodvil was successful. It was a show given by students for students, and the students liked it.

It was a welcome variation in the schedule of student activity. It was enjoyed by the students in the east and the students in the audience.

It swelled the total of the Memorial Union fund.

Now, a year later, we find that a few faculty members did not like the show. So they have refused permission for its renetition this year.

The students regret the ban on Union Vodvil.

They were looking forward to this year's show, as they have looked forward to those of former years.

And this, notwithstanding the evident ideas of faculty members, is no reflection of their good taste.

All normal students, including those who give enthusiastic support to serious dramatics, enjoy an occasional bit of trivial fun. Low-brow fun, if you will.

A tea cup full is just as full as a bath tub full. Scorn of the tea cup's contents is akin to narrow-mindedness.

The capers of the Vodvil cast seem to have had some part in the decision.

Such belated criticism of Vodvil's propriety is subject to question. There was not talk last December of the conduct of the players. The memory of the faculty committee seems better than that of the students.

If students dress and conduct do not conform to Zion City standards of propriety, it is a matter for the faculty to regulate. Students are amenable to suggestion, or at least to discipline.

Faculty competency at discipline is measured by the ability to regulate student events, not by its eagerness to abolish them.

We take it that the faculty committees are competent to regulate.

## CO-RECREATION

CO-EDUCATION has frequently aroused controversy among educational authorities. Some have

violently held that the educating of men and women in the same college is fundamentally wrong. These contenders have been answered as violently by educators who claim that it is the only rational scheme. Opponents of co-education have alleged mental inferiority of the female to the male, and pointed to differences in temperament which they held made unsatisfactory the educating of men and women together.

Outraged protest immediately launched a counter attack which did not stop at providing intellectual equality, but swept on to an offensive by claiming that women were the superior sex, and that it was a privilege for men to be allowed to drink from the same fountains of wisdom as the heretofore scorned co-ed.

It is difficult to say whether or not the controversy was ever settled, and it is very questionable whether it was worth any more than the publicity it gave to certain institutions and their heads.

There is a phase in co-education which the controversy over-looked.

Wisconsin is one of the oldest co-educational universities in the United States. Wisconsin has a large percentage of women students who, it might be added, are not under the peculiar semi-astracism of their sisters at other well known universities.

At Wisconsin their is not a breath of criticism against the fundamentals of the system. Its many important advantages are admitted.

The question of comparative mental ability is inconsequential. Some women become Phi Beta Kappas and some men fail.

There is one flaw to co-education. It tends to distract from the more serious phase of college life. This distraction is not due to the system itself, but to the frailties of some who make up the system.

Unfortunately, men and women are better co-admirers than co-workers.

Few women are oblivious to masculine admiration, and most men are susceptible to feminine charm. Such mutual attraction is in itself objectionable, but it frequently takes a form detrimental to academic work.

It results in too much fussing. It ends in a time-destroying competition on the part of some men, and where the competition is not present, in an equally time-destroying calf devotion on the part of others. Devotion is often scholastically disastrous to both parties.

No blame is directed against the women for causing the distraction. What would life be without charming women?

To blame the men would be equally unfair. It would be like criticizing water for running down hill. The judgement and perspective of both is open to criticism.

It is unfortunately that many undergraduates consider co-recreation as important as scholarship.

## ON WITH THE DANCE

THE fraternity and sorority action on dance music prices has been successful. Madison's music magnate has yielded to their demands, or at least, to the first two.

Fifty dollars is to be the top price for dance orchestras. The personal list of orchestras will be submitted to the students so that orchestral aggregations may be standardized.

The third demands of the students that orchestras be reserved for student use at 30 day notices, has been dropped. That was right.

It is right and just that students should fix a maximum price for the orchestras which they employ.

It is right that they should know whom they are employing when they contract for an orchestra.

But is not right for them to attempt to dictate what an orchestra agent shall do with his orchestras.

## Page Dictionary!

### Orph Bill 'Great'

By H. C. T.

We don't ask you to believe us but the show offered for the latter half of this week at the Orpheum theatre is irreproachable. Now if you'll pardon us while we chase the office boy for the dictionary so that we may find out just what the above word demands, we shall try to review the evening's stellar performances.

Two Edwards—Sharpshooting that is not the conventional "watch me knock the stuffing out of the molecule balanced on the gal's nose."

Bill Robinson—Extraordinary hoofing surrounded by a uock of goats that are not at all de trop.

Walter Fisher & Co.—Here is the sort of one act playlet that combines burlesque a la old times and absorbing comedy into an offering that skins by the censor. The situations begin immediately and the act is a scream from start to finish.

Duval and Symonds—Man and girl who interrupt their singing by copious disparaging remarks about their respective families. Not overdone and quite entertaining.

Bernivici Bros.—Violining and some singing, all of which was broken up by the sudden appearance of the preceding performers who joined in to make the act a sort of get together proposition.

Lillian Jewell Faulkner—Dummies worked by overhead string. An offering that really is a whole lot better than it sounds.

## THOMPSON YIELDS 'N MUSIC FIGHT

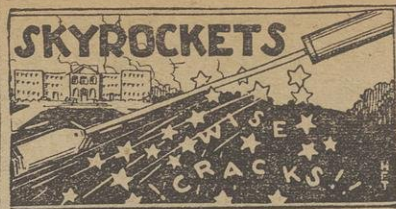

(Continued from page 1.)

quest made by Mr. Thompson that all fraternities and sororities make agency and that these contracts be held binding except in unusual circumstances. Under this ruling the present oral contacts will be eliminated.

An additional outcome of the controversy of the dance price question is a probable campaign for lower rates at dance halls.

J. L. Boyd, manager of Boyd's studio, has agreed to co-operate with the committee by reducing student dance prices at dance halls to \$1.10 per couple, providing that Thompson and Union board will meet the same price.

## JAIL ELOPERS ON HONEYMOON

Henry Knabel, 28, an ex-service man, and Johanna Krommer, 21, a rosy-cheeked, fair-haired German lass, who has been in the United States only a few months, who sought to culminate a romance which began on board an ocean liner, by eloping to Cincinnati yesterday, were repenting their dreams in the Sauk county jail at Baraboo today.

Sheriff Henry Neitzel, who ordered their arrest, is holding them pending word from a sister of Knabel, who declares that Knabel has a wife in Germany. Madison police arrested the couple on a train at the Northwestern road station here yesterday.

The girl's home is in North Freedom. Knabel's is in Cincinnati. Outwitting relatives of the girl by smuggling her trunk out a rear window, the pair fled from that town, yesterday morning, after an attempt to become married there, according to Sheriff Neitzel.

The two met on a ship bound from Europe, it is said. Knabel was with a small detachment of returning veterans and struck up an acquaintance with the girl.

## G. A. R. Veterans to Pick New Commander Today

## STATE TO RECEIVE LARGE LAND GIFT

The gift of Tower Hill and fifty-five acres of adjoining land on the Wisconsin river near Spring Green will be presented by Mrs. Jenkins Lloyd Jones of Chicago to Gov. John J. Blaine for the state of Wisconsin at Tower Hill on October 1. The ceremony will be conducted under the auspices of the state conservation commission which has control of all the state parks.

The speakers will be Zona Gale, who will speak of the late Jenkins Lloyd Jones, and Dr. Joseph Schaffer of the State Historical society, who will sketch the history of Tower Hill and the early town of

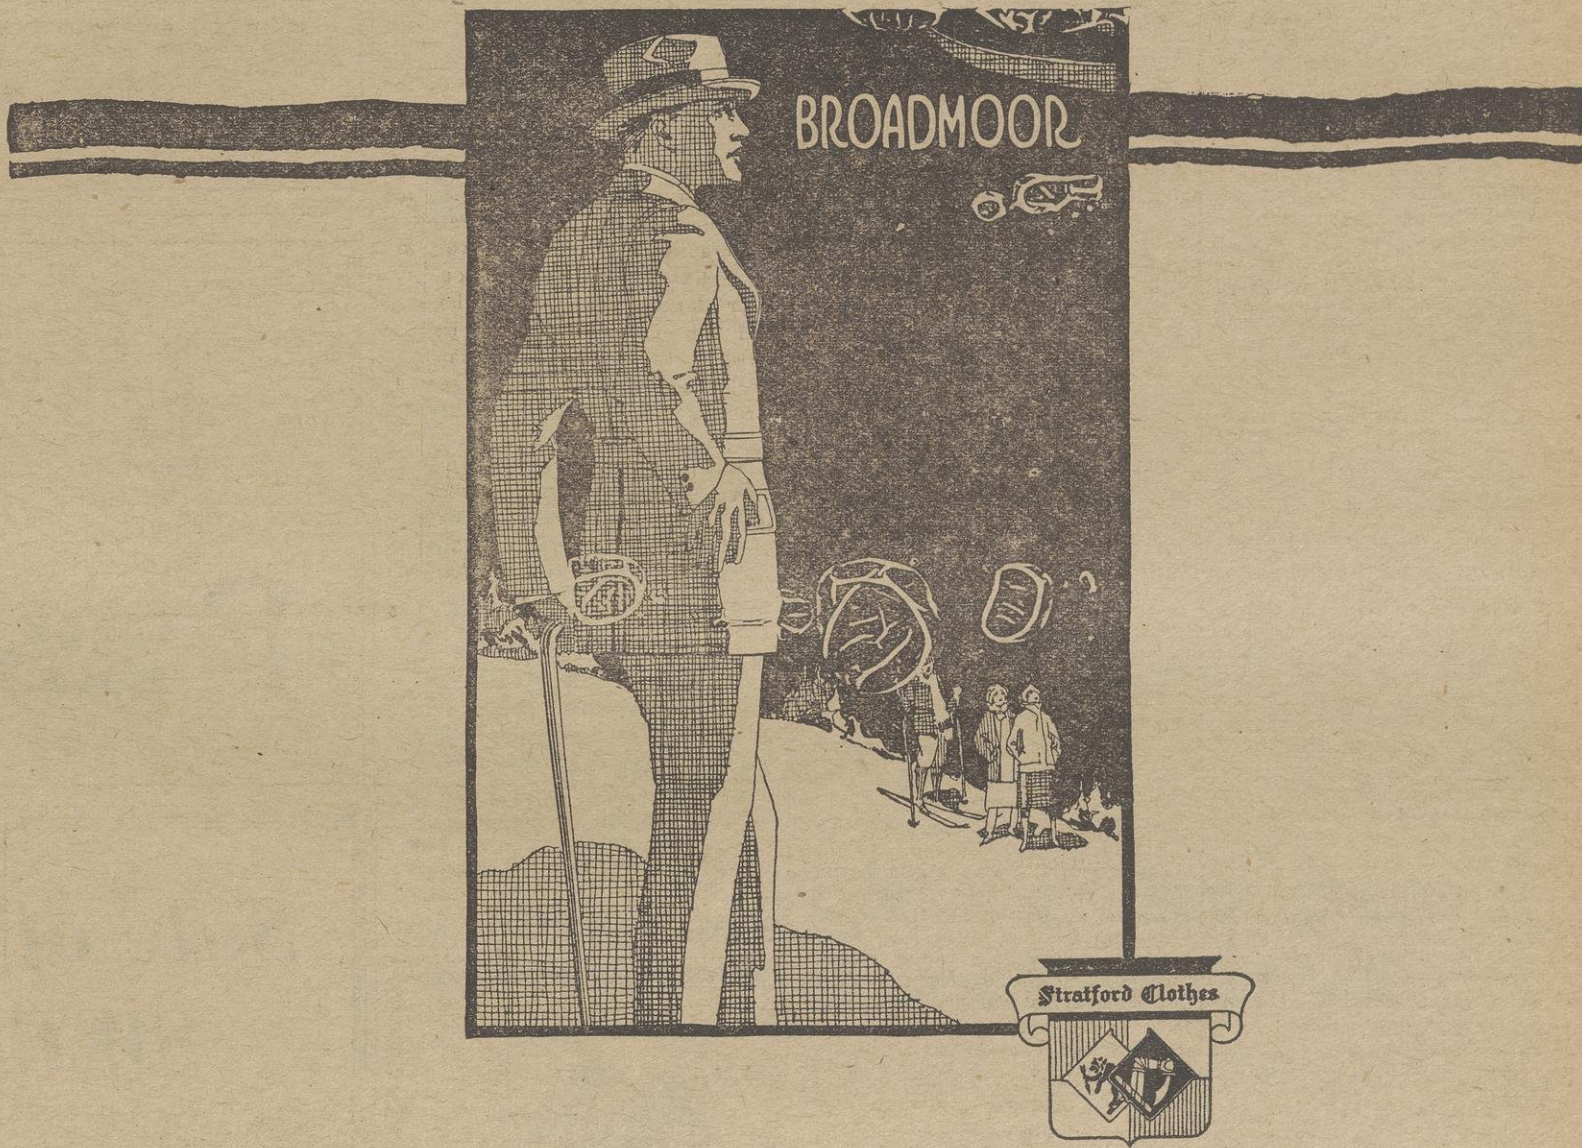

Helena.

Tower Hill holds an important place in the history of early Wisconsin. At this place in 1831, Daniel Whitney, the pioneer shotmaker in the Northwest began the erection of shot tower.

## PAUL REINSCH IS CENSURED

### Germany Blames Former U. W. Professor For Chinese Policy

Dr. Paul S. Reinsch, a graduate of the class of '92 of the University of Wisconsin, has been blamed by the German government for China's entry into the war. Dr. Reinsch was assistant professor here in the University in the political science department, 1899-1901; and head of the department from 1901 to 1913. He then became exchange professor to Germany. In 1917 he definitely resigned to become U. S. minister to China. The "Allgemeine Zeitung" commenting on Dr. Reinsch's position as financial adviser to the Chinese government, says:

"This is the man who, day and night, in 1917, bored away at Chinese government circles until he achieved the stage which produced China's declaration of war on Germany."

Germany greatly fears Dr. Reinsch's influence in China, since it may effect her economic interests in that country.

### Mayor Calls Special Meeting of Council

### Big Opportunity For Swinders' Says Banker

There will be great opportunity for investment swindles in Madison and Dane county during the next year, according to W. E. Walker of the First National bank.

During the next fiscal year nearly \$4,500,000 of government securities will be redeemed and there is a large amount of these securities now held by the small and inexperienced investors in this part of the country.

"This will mean that a horde of unscrupulous stock promoters with plans and schemes which on their face appear attractive will be on hand wherever there is evidence of the presence of maturing government securities.

"For their own protection, the only wise course for people to follow is to consult the banker before investing."

### Only 1,057 Bills Out of 13,711 Were Passed

WASHINGTON—Exactly 13,711 bills of all sorts and descriptions were introduced in the house since the sixty-seventh congress went to work in April 1921. Clerks checking up today found that of this number 1,057 were passed.

In the sixty-sixth congress, 15,492 bills were presented and 734 became laws. Some mathematical sharks attempted to figure how much it would have cost the government and how much time would have been required had all the measures proposed been enacted, but they ran out of pencils and paper.

"Anybody can throw a bill into the hopper" said a veteran legislator, "but it takes a wise man to put it through the mill."

## ENGLAND MAY ALTER POLICY

Abdication of Constantine  
May Bring New  
Resistance

LONDON—The abdication of King Constantine of Greece, making again possible co-operation between Premier Lloyd George and ex-Premier Venizelos, may cause a lightning change in Great Britain's policy toward the Turks according to well informed circles here today.

With Constantine out of the way it is claimed there will be once more a chance of re-organizing the

best forces of Greece under Venizelos whose Cretan soldiers were the backbone of the army and until Constantine replaced the officers with his own sympathizers especially with generals untrained and inexperienced in the great wars.

It is pointed out that the present revolutionists in Greece are reported to be not only pro-Venizelist but pro-ally and further that they are men who believe heart and soul in the greater Greece. It is not believed they will yield Thrace, at least, to the Turks without a struggle.

gl. With a reasonable sized Greek army of 20,000 or 30,000 men in Thrace, or else at the disposition of the British leaders now at Chanak or Constantinople, it is not doubted among military observers familiar with the situation that an entirely new phase of the whole Near East situation is being approached.

## What other pen dare you lend to your roommate?

What Other Point Serves 25 Years?

THERE'S a pardonable dislike to lending the ordinary fountain pen, lest the other fellow's way of writing foul the point, or turn it. Not so with the new Parker Duofold. This lacquer-red classic holds its original point regardless. For this is real native Iridium, set in extra thick gold—as smooth as a polished jewel bearing. And we guarantee it for wear and mechanical perfection 25 years!

And when you consider that the student averages four fountain pens a year, you can see that the Duofold at \$7 is the most economical pen you can buy. One Duofold will do all your four years' college work and still be good for your life's career when you graduate.

When first you lay eyes on the black-tipped, lacquer-red Duofold, you'll recognize something handsomer than gold. Its big, balanced barrel and super-smooth point will thrill your hand with "writing urge!" You'll not be surprised that 62 men in 100 picked the Duofold first from a tray of assorted pens.

You'll see many Parker Pens at college this year. Come in and pick out the point that suits your hand—extra fine, fine, medium, coarse or stub. Then take the Duofold on 30 days' trial. Money back if you are not delighted.

## PRINCE GEORGE GIVEN THRONE

### Rebels Move to Form New Government at Athens

ATHENS — The first phase of the Greek revolution has ended with the abdication of King Constantine in favor of Crown Prince George. The revolution so far has been bloodless. Insurgent troops from the Greek Islands, where the movement had its inception have landed at Piraeus and entered the capital.

King Constantine's abdication came after dramatic scenes, with the palace surrounded by an angry mob of revolutionists demanding his dethronement.

It was not until the mob threatened to seize the person of the sovereign that an emissary appeared at a window of the palace and announced the abdication.

Gen. Papoulas had previously been sent to treat with the revolutionists but finding his entreaties unavailing, joined their cause himself. The government then sent a second envoy but the mob was obdurate, declaring:

"We are resolved to dethrone the author of Greece's misery."

Constantine addressed the following message to the Greek people.

"Not wishing to leave in the mind of anybody the slightest suspicion that by remaining on the throne I have prevented to however a slight degree the sacred unity of the Greeks and the assistance of some friends, I have abdicated the royal power.

"From this moment my eldest son, Prince George, is your King. I am sure the entire nation will rally around him, will assist him with all its forces, and at the cost of all sacrifices, in his difficult work."

Crown Prince George it is said, will take the oath during the afternoon.

The prospects now seem to be that General Nider will undoubtedly be called to the premiership of the new government with former Foreign Minister Carapanos becoming foreign minister, unless M. Coromilas should resume this ministry with Ex-Finance Minister Alexander Diomedes again becoming minister of finance.

### BRITISH HAVE NO REGRETS

LONDON — The second dethronement of Constantine of Greece brings no tears as he has no friends among the British public, owing to his reputed German sympathies during the world war. A paltry personage vanishes from the stage following Wilhelm Hohenzollern into obscurity and total discredit, summarizes the General press opinion.

Mayor I. M. Kittleson and August O. Paunack, secretary-manager and president of the concern, received the visitors.

## PROFESSOR WRITES ON PUBLIC SPEECH

"Better Speech" is the name of the textbook on speech-training for public schools which has been written by A. T. Weaver, assistant professor of speech in the University and Professor C. H. Wolbert of the University of Illinois. The book is being published by Harcourt, Brace & Co.

Although the entire text, outside of appendices and the index, contains only 300 pages, it presents enough material for careful study of the subject through a four-year high school course. The volume contains an appendix on acting, directing a play for school and class, and for debating and maps out a course of study in special problems of all discourse.

## Castalia Adopts Program For Activities of Year

Castalia, woman's literary society will hold its first meeting at 7 o'clock tonight in Lathrop hall. This meeting will be in the form of a "pep" meeting to arouse interest in the work for the coming year, according to Catherine Boyd, president. Two open meetings which all girls wishing to try out for Castalia are urged to attend, will follow the closed meeting.

Members of the new executive committee were announced at a special committee meeting Wednesday. Pearl Anderburg, vice president of the society, will act as chairman, assisted by Mildred Redemen, Frances Hughes, Harriet Lewis, Eleanor Hanson, Cornelia and Edna Groth. This executive body will help the program committee in its work as adopted.

Castalia has adopted a reorganized program this year. Besides a new brand of literary work, the so-

ciety will specialize more in public speaking than heretofore. Plans are being made also to engage at least one outside speaker here each semester.

**CASTALIA**  
Castalia. Important closed meeting in Lathrop tonight at 7 o'clock. All old members are urged to be present.
