The libraries provide public access to a wide range of material, including online exhibits, digitized collections, archival finding aids, our catalog, online articles, and a growing range of materials in many media.

When possible, we provide rights information in catalog records, finding aids, and other metadata that accompanies collections or items. However, it is always the user's obligation to evaluate copyright and rights issues in light of their own use.

**A NON-TOXIC
NON-NARCOTIC
ANTISPASMODIC**

which, when used within the limits of its indications, will render a very satisfactory percentage of results. It should not be prescribed empirically, but a proper selection of cases will demonstrate a wide field of usefulness. It is only an effective relief agent for spastic conditions of the non-striated muscles, and not a general sedative. Especially recommended for dysmenorrhea.
