The libraries provide public access to a wide range of material, including online exhibits, digitized collections, archival finding aids, our catalog, online articles, and a growing range of materials in many media.

When possible, we provide rights information in catalog records, finding aids, and other metadata that accompanies collections or items. However, it is always the user's obligation to evaluate copyright and rights issues in light of their own use.

# AGA ANESTOR

*Universal · Central · Portable*

AGA's three ANESTOR models have been developed in close co-operation with leading medical experts to meet the varying requirements of modern anaesthesia and fulfil the highest demands for *adaptability, safety* and *reliability*.

- *Oxygen*
- *Nitrous Oxide*
- *Cyclopropane*
- *Ether*
- *Fluothane*
- *Trilene*
- *Suction*

ANESTOR UNIVERSAL—designed to accommodate 10 litre cylinders for  $O_2$  and  $N_2O$  and a style-D cylinder for  $C_3H_6$  on a trolley.

ANESTOR CENTRAL—designed for connection to central gas systems. Two small stand-by  $O_2$  and  $N_2O$  cylinders and a style-D cylinder for  $C_3H_6$  can be accommodated on the trolley.

ANESTOR PORTABLE—same anaesthetic head as above mounted on a special table-stand. Two carrying cases: one for the apparatus and one for the  $O_2$  and  $N_2O$  cylinders.
