TRACK WORK PLANNED

COACH KILPATRICK CALLS OUT CANDIDATES.

Work to Begin Monday—Indoor Meets Will be Held With Beloit, Chicago and Illinois.

An enthusiastic meeting was held yesterday afternoon in the armory of the gymnasium. The purpose of the meeting was to enable Coach Kilpatrick to outline the work for the track men this winter. The coach emphasized the fact that in order to be in good shape in the spring, the men will be compelled to do some indoor work. It is certain that the result of last year's track team fully demonstrated this fact. He also said that as nearly all of the other universities have begun to get their men in shape for this work, it was necessary for us to do so, in order to be in the same condition that they are. Chicago has called her men out and from present reports, she will have an extraordinarily strong team. Now that we have beaten her in football, we should not let her get even by defeating us in track athletics.

All new men are especially urged to come out, because present indications indicate that the new material is very scarce. All men who ever took any part in athletics should appear in the gymnasium, Monday following Thanksgiving, in order to give Coach Kilpatrick a chance to pick out promising men.

The shooting gallery in the gymnasium has been fixed so that men trying for the broad jump will have a chance to practice this winter.

The Coach has been busy corresponding with other universities, for the last month, getting indoor meets for this winter. Beloit has again asked us for a meet to be held in the near future. We will also meet Chicago in Chicago, and Illinois here probably sometime in January.

The Choral Union.

The Choral Union is now hard at work and under the direction of Professor Parker seems to be starting out on a very successful year. Practice is held every Tuesday evening in Library hall and so far the attendance has been very good.

The Choral Union plans to give two concerts this year, and are already practicing for them. The first will be given in January and the second toward the end of the season, probably in the latter part of May. They have so far been practicing only on Weber's Jubilee cantata, but will begin tonight on a new work entitled "Gallia" by Gounod. Both these pieces are intensely interesting but are not as heavy as some of the oratorios which have been rendered in previous years.

Professor Parker wishes to announce that season tickets for the Choral Union can be obtained for one dollar. This includes admission to both concerts and the price has been reduced so that all who have any musical ability may not be barred from joining the Union because of the expense.

There is still time for any one so desiring to join, but they should do so as soon as possible so as to get the full benefit from the work.

Out of eight debates with Brown and Williams, Dartmouth has lost but two.

NEW LIBRARY BUILDING.

Will Be Open Thursday Afternoon to Accommodate Those Who Cannot Visit It Other Days.

In order to give persons engaged in stores and shops, or otherwise occupied during ordinary week days, an opportunity to inspect the new State Historical Library building, the State Historical society will keep the museum open upon Thanksgiving day, from 1:30 to 5 p. m. The library and the general reading room will be closed, but the visitors' balcony and corridors will all be open. The elevator will not be running, owing to a temporary hitch in the machinery; but the flights of stairs are exceptionally easy of ascent. The public is most cordially invited.

Local and Personal.

C. G. Goodsell, '00, was looking up many old friends on the campus Monday.

Miss Eva Burke will be the guest of Miss Sally P. Harris at Ladies' Hall.

Miss Katherine Peet, '00, and Miss Katharine Swain, '00, will spend the Thanksgiving recess at the Hall.

Lon Chamberlain will officiate tomorrow in the college-championship game between Beloit and Knox at Beloit.

A party of twelve senior civil engineers made a test of the Four Lakes Power House Monday night after the machines were shut down.

Miss Lulu Celeste Daniels of the class of '79, is taking graduate work in the University. She formerly held the position of Professor of History in the University of Virginia.

A committee on accredited schools of the University have returned from inspecting thirty High schools or more. Waterloo High and Indianapolis have been added to the list of accredited schools. The first to the English course and the latter to all courses.

The second freshman class-meeting was held in the gym about six o'clock, yesterday afternoon, at the end of military drill. Captain Curtis called the various companies to order and the meeting began with Mr. Charles W. Elwood in the chair as temporary president. Because of the lateness of the hour and the absence of Co-eds it was moved and unanimously carried to adjourn till next Wednesday and to meet at the old Library building. The time will be announced later.

To-day the farm is shipping their exhibits to the International Live Stock Show to be held in Chicago. Their exhibits will consist of 24 sheep representing the Dorsets, Shropshire and Southdown grades; 10 hogs representing the Berkshire, Razor Backs and Yorkshire breeds; 10 cattle representing Short Horn, Aberdeen, Angus and Hereford grades. The exhibit will be transported over the C. M. & St. P. R. R. being accompanied by Frank Kleinheinz, the Farm shepherd, George D. Little, the herdsman, C. E. Stark a the long course student and Prof. Carlyle.

Appointed to West Point.

Arthur W. Holderness, '04, has lately had the good fortune to receive an appointment to West Point, from Congressman Cooper of his district. Mr. Holderness left yesterday for his home at Kenosha to prepare for his entrance examinations. He will doubtless attend an eastern academy until next spring for that purpose.

THE TEAM BANQUETS

SEASON CLOSED WITH FEAST AND SPEECHES.

Twenty-two Players go to Milwaukee—A Fine Exhibition Expected at Camp Randall Tomorrow.

The football team, regulars and scrubs, coaches and trainers to the number of 30 enjoyed a banquet at the Capital House last evening. It was expected the election of a captain for next year would take place, but this did not occur. A number of informal speeches were made, by A. L. Sanborn of the board of directors, Coach King and different members of the team. Coach King left this morning on an early train for Chicago.

Arrangements have been completed for a post-season game to be played in Milwaukee to-morrow morning at 11 o'clock between the 'Varsity eleven and the Milwaukee Medical college team. Dean Brown of the medical team came to Madison for a conference with the management of the Wisconsin team and was able to secure the team for a game Thanksgiving day. The University team, 22 strong, will leave this afternoon for Milwaukee and put up at the Plankinton hotel. The scrubs will be given the opportunity to play, the regulars to be withheld unless their services become necessary.

High School Boys Ready.

The high school team took hard practice last night for the game with Milwaukee to-morrow. Arthur Curtis assisted in the coaching and put a great deal of life into the practice. The men are in good condition for the game and expect to win, although a close contest is looked for.

Lecture on Huxley.

The address by Acting-President Birge last evening on "Huxley" before the Science club was well attended by students, faculty members and townpeople. The address was on the life of the great scientist from a literary rather than a scientific standpoint. It was a scholarly address given in a very taking way and showed careful thought and preparation on the subject.

Dean Birge compared Huxley, Darwin and Arnold, drawing conclusions from the comparisons of their lives. He spoke of Huxley as one who was always interested in young people, always willing to give them aid in their work. Dean Birge discussed the ability of Huxley and the definition of science as given by Huxley. The chief power of Huxley's writings and works lay in his great moral strength and character. Huxley was a very moral and noble minded man and through it he was able to give an elevating influence upon those he met both in his writings and personal intercourse. The address closed with a glowing and brilliant tribute to Huxley applying to him the title of "Preacher of Righteousness to his Generation."

Military Suits Coming.

The Military suits have been shipped from the factory and will be ready for distribution not later than Monday, Dec. 3d.

Yale has received \$10,000 for prizes and instruction in debating.

High School Department.

Kenosha High School.

The Kenosha High School is accredited for all courses of the University. Its present enrollment is 180. The following is the staff of teachers:

E. C. Wiswall, U. of Wis., principal and teacher of civics and psychology; Martina C. Erickson, Winona N. S. teacher of mathematics; Bessie Wells, Milwaukee N. S., teacher of literature and German; Grace A. Barber, White-water N. S., teacher of history; Robert B. Dickie, U. of Wis., teacher of science; Winifred Miller, U. of Mich., teacher of latin and greek; Gertrude Reed, Northwestern U., teacher of english.

An excellent physical laboratory has just been completed and equipped in the basement of the building.

About one hundred volumes were recently added to our school library which now contains over one thousand well-selected books.

Two literary societies, known as the Castilian and Athenian, are maintained by the students, and hold meetings every Friday evening.

The girls have a basket-ball team and the boys boast of a football team. Our team has played three games of football this season, winning one and losing two.

Ishpeming High School.

Thanksgiving day will witness the close of the contest for the state championship among the secondary schools of Michigan. The Michigan Interscholastic Association organized the state into six districts two years ago for the purpose of athletic contests. This season's football championship of the southern peninsula was won by the Michigan Military Academy at Orchard Lake. The High Schools of the southern peninsula, however, protest against this, maintaining that the Military Academy is not a secondary school but a college. The undisputed championship of the upper peninsula was won by the Ishpeming High School.

The state championship promises to be warmly contested at Ann Arbor next Thursday. The Ishpeming boys are in excellent condition and are fully confident of sustaining the honor that six years of almost unbroken victory have won for the blue. The Hematite eleven is decidedly outweighed by their opponents, however, the magnificent team work of Coach Jolliffe's boys is counted on to offset this advantage.

Handball Tournament.

The handball tournament was begun Monday afternoon. The players were Morgan and Buckholz against Baldwin and Ransene. The playing was good on both sides but Morgan and Buckholz succeeded in winning three out of five from their opponents.

The trials today are as follows: Peterson and Stover against Smith and Taylor, Seniors; and Johnson and Carpenter against Erickson and Leighton, Sophomores.

Considering that many are to be gone during the vacation, the tournament will be put off until after the holidays. All candidates should understand that a failure to report will result in a forfeit of the game. A new feature of the game is that the contestants share the expense of the ball, and the winners to take the ball.

Milwaukee-Downer has a glee club of twenty members.

No Cardinal Until Monday.

On account of the regular Thanksgiving recess, no Cardinal will be issued until next Monday.

Thanksgiving.

While Wisconsin has no "turkey" game this year to rejoice over, nevertheless the Cardinal thinks that every one should stop "bucking" for a few days and enjoy Thanksgiving in the good old way. And so we wish all a happy Thanksgiving.

A Christmas Story.

Attention is called to the offer of the Cardinal for a Christmas story to be in by Dec. 10. It is hoped that a great many will take advantage of the opportunity offered so that the Cardinal may be able to publish an interesting story of student life at Wisconsin in the Christmas souvenir edition. This competition is open to everyone, freshman as well as seniors.

Track Team Work.

Last year's indoor track training proved the great advantage of winter work for track men. This year Wisconsin must put forth every effort to again be in the lead on the cinder path, as we are to have several indoor meets with neighboring universities. And as the track men may also be entered in the events at the Buffalo exposition next spring it is necessary that we shall have an exceptionally good team to compete with such teams as will be entered at these national games. Every student who has ever had any experience in track work or thinks that he can do anything for the cardinal should turn out and help coach Kilpatrick to make a winning track team for next spring.

Two Glee Clubs.

The suggestion of having two Glee Clubs, a University or first Glee Club

and a College or secondary club, has many points in its favor. In the first place there would be just twice as many men as there are at present who would be receiving good musical training and Glee club coaching. The second Glee Club could assist in the home concerts and thus form a University male chorus. Then again the fact of having a second club would act as a stimulus upon the members of the Glee Club and there would be more competition for places. The system if managed correctly should work like the competition in the two football teams during the fall. Yale has tried the two club system and this is one of the reasons why the Yale Glee Clubs have such a reputation.

A Memorial Prohibiting Football. The County Board of Winnebago County have framed a memorial, which they will shortly present to the state legislature, prohibiting the game of football. The originator of this memorial had the misfortune of breaking his leg in a practice game, and for that reason he seeks vengeance on the state of Wisconsin.

If it is true that football is not as harmless a game as tiddie-de-winks or squat-tag, but it will require something more than a sore man with a sore leg to prohibit the playing of the game.

It is generally in these smaller games that the severest injuries are received. It is a noteworthy fact that not one of our own players this fall have received a serious injury. When the game is played by men in proper training, the chances for serious injury are very small indeed. It is only when people, like the statesman who has framed the bill aforesaid, "get into the game" that so many of the injuries of football are received.

The Cardinal fears that like many other state papers, this memorial will never see light.

Communication.

Editor of the Cardinal:

While we have had a comparatively good Glee Club for the last year or two we have not had as good a club as the University should have. Western Glee Clubs are as a rule much inferior to those of the greater eastern universities. As Wisconsin has such an enviable record in the East as being the "true University of the West," it would be proper and fit if possible for us to better the opportunities for our under-graduates to get glee club training. The plan of having a second glee club has been tried in some of our universities and has been found to work very well. In this way many men who at present have no opportunity for the training of the Glee Club would have a chance to work up similar to the second teams in athletics. In this way as soon as a member of the University Glee Club dropped out there would be another club to select men from, who had training.

Engineers' Trip.

Last week the engineers returned from their tour of inspection at Chicago, visiting the different public stations. The party consisted of nine civil and five mechanical engineers, while Professors Turneaure and Bull accompanied them. At first the plans were made to visit Pittsburg, but were later abandoned and Chicago was visited instead.

The party first visited the Chicago Water Supply station, spending considerable time in looking over the system. A whole day was spent at the Illinois Steel company's works at South Chicago. The large Bessemer steel plant was visited and opportunity was given the party to witness at the Rolling Mill the rolling of shapes and rails.

At another day the Chicago Ship Building company's yards were visited and several steel barges under construction were seen. At this juncture of the trip the party divided. The mechanical engineers then visited the Edison power plant which is one of the largest in the country. They also visited the McCormick Harvesting Machine company's plant. Here courtesy was shown them by which

University Oratorical Association.

A meeting of the U. W. Oratorical Association will be held next week to decide on the changes which are to be made in the management of the inter-collegiate contests.

The committee which has charge of the matter has recommended a large number of changes. Among these changes is the proposition to change the name from its present one to the U. W. Debating and Oratorical League. The Laurean society will be dropped from the list of societies which comprise the league. The purpose of the league is to elevate the standard of oratory and debate in the University by securing more inter-collegiate debates and oratorical contests. The officers will consist of president, two vice-presidents, constituting the executive committee. This committee will have charge of all the management of the contests. These officers will be elected at the annual meeting, the societies rotating in the holding of offices.

The net receipts will be placed in the treasury of the league and used to pay necessary expenses. These with a number of other propositions will be considered at the meeting of the association. Through these changes the working of the league will be under one central management which will facilitate the work more easily.

Brief College Items.

Harvard has an enrollment of 4,324 students this year.

The University of California has recently received several additions to its libraries.
